NOTIFICATION No. 135Mnc.

The 6th November 1888.—In exercise of the powers conferred on him by section 3 of Act IV (B.C.) of 1887 (the Chittagong Port Commissioners Act), the Lieutenant-Governor is pleased to direct that the limits of the port for the purposes of the Act shall be the limits of the Port of Chittagong, including the navigable river and channels leading to it, as defined by the notification dated 31st October 1884 under the provisions of Act XII of 1875 (the Indian Ports Act).

The limits of the said Port of Chittagong are as follow :—

To the north-east—A line drawn across the river Karnafuolee from the boundary pillar at the mouth of the Chaktai nulla to the boundary pillar on the opposite bank of the said river.

To the south—A line drawn from Jooldia flagstaff to Patunga beacon.

These limits include so much of the river Karnafuolee and the shores thereof as lie within fifty yards of high-water mark at ordinary spring tides.

The limits of the navigable river and channels leading to the said Port of Chittagong are as follow :—

To the north-east—The Port of Chittagong as above defined.

To the south—A line drawn west from Norman's Point light-house.

To the north—The port as defined above and from Patunga beacon a line drawn due west seaward.

To the west—A line drawn parallel to a line between Patunga beacon and Norman's Point light at a distance of four miles.

To the east—The south bank of the Karnafuolee river between Jooldia and Norman's Point light-house.

All parts of the river Karnafuolee between the said limits and below high-water mark at ordinary spring tides are subject to the said Act.

NOTICE BY THE ACCOUNTANT-GENERAL, BENGAL.

SUPPLY BILLS.

NOTICE is hereby given that supply bills for sums of Rs. 500 and above in even rupees are usually obtainable on the treasuries named below at the rates of premium shewn.

Any person desiring to obtain a supply bill should send to the Bank of Bengal, Calcutta, a written application containing the following information—(1) his own name and address; (2) the name of the person to whom payment is to be made; (3) the treasury on which the bill is to be granted; and (4) the amount for which the bill is to be granted. With this application the cost of the bill (the amount plus the premium) should be paid into the Bank. If payment by telegram is desired (but this is admissible only in cases in which the name of the payee has been previously registered in the Accountant-General's office), the fact should be stated in the application, and an additional rupee paid with the cost.

The Bank of Bengal will, if the amount is available at the treasury named, receive the money tendered, and grant a receipt, returning the application therewith. The receipt and the application should then be sent to the Accountant-General's office, by which the bill will be granted.

The Bank of Bengal will be advised by the Accountant-General on the 1st and 16th of each month of the amounts available at the several treasuries, and will receive the amounts tendered by the first comers till those amounts are exhausted.

If the Bank refuses to receive any sum tendered owing to the amount not being available at the treasury, the application will be retained by the Bank and forwarded by it to the Accountant-General, who will advise the Bank and the applicant if the amount can be made available.

Dinagpore Collectorate, the 29th October 1888.

C. R. MARINDIN, Collector.

NOTICE is hereby given that the undermentioned plots of land no longer required by Government, situated along the branch line of the Tirthoot State Railway, i.e., from mouzah Sazawulpore to Muttoopore, in the district of Monghyr, will be put up to sale at places and on dates specified below :—

Number of lots.	Place of sale.	Date of sale.
1, 2, 3, 4, &c. to 15.	Tegrah Station, Tirthoot State Railway.	22nd December 1888.

The purchasers of the several plots of land will be subject to the following conditions :—

1st.—The purchasers will have no power to make any excavation on the land nearer than 15 feet from the Railway fencing, or plough the land closer than 3 feet from its foundation.

2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the 15th day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale.

4th.—The balance of purchase-money due under the third condition may be paid either to the Collector or into the Government Treasury, Monghyr.

5th.—The plots of land will be sold revenue-free to the highest bidders.

6th.—The purchaser shall be put in possession on receipt of the orders of the District Collector approving of the sale; but such possession shall be liable to be disturbed in case the final confirmation of the Board of Revenue should not be accorded to the proceedings.

JOHN ELIOT, M.A., Meteorological Reporter to the Govt. of Bengal.

CALCUTTA, the 26th August 1876.

THE following Reports of the Bengal Meteorological Department, issued by orders by the Government of Bengal, can be supplied to the public at the prices annexed:—

- 1st.—Bay of Bengal Daily Report giving observations taken at 20 stations on or near the coast of the Bay, with a chart and summary. This is published in connection with the Calcutta Storm Signal Service. The report giving 10 A.M. observations of the day is distributed by peon in Calcutta after 4 P.M. Price to subscribers in Calcutta, Rs. 2 per mensem.
 - 2nd.—Bengal Daily Report containing observations taken at 37 meteorological stations, and transmitted to Calcutta by weather telegrams, with a brief summary of the weather in Bengal during the preceding 24 hours. The report giving the 10 A.M. observations of each day is printed in time for the evening mail. This report for the present will only be published during the south-west monsoon, i.e., from May 15th to November 15th. Price Rs. 2-8 per mensem, including postage.
 - 3rd.—A Weekly and Monthly Statement of Meteorological Observations taken at 44 observing stations, and of rainfall recorded at 245 sub-divisional stations together with summaries of the more important features of the meteorology of the past week or month of the province, and of the distribution of the rainfall and its variation from the normal. Price of the Weekly Report including postage, Rs. 6 per annum, payable in advance, and of the Monthly Summary Report, Rs. 2 per annum, payable in advance.
- Subscriptions payable to the Meteorological Reporter to the Government of Bengal for the Bay of Bengal Daily Report, and to the Accountant and Treasurer, Bengal Secretariat, for the other reports.

H. A. D. PHILLIPS,

Under-Secy. to the Govt. of Bengal.

The 24th November 1886.

The following revised advertisement is published in substitution for that which appeared at page 1084, Part II of the Calcutta Gazette of the 9th July 1884:—

The Indian Law Reports,

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st April 1888, the terms of subscription and sale will be as follows for current issues as well as for back numbers of the Reports from 1876:—

Terms of subscription payable annually in advance. For the complete series, including postage, Rs. 22-8.

Road Cess.

NOTIFICATION.

No. 368.

The 2nd November 1888.

THE subjoined annual account and report of the Road Fund, Chittagong Hill Tracts, for the cess year 1887-88, from 1st April 1887 to 31st March 1888, are published for general information.

W. CONNAN,

Under-Secy. to the Govt. of Bengal, P. W. Dept.

No. 212R, dated Rangamati, the 20th June 1888.

From—L. R. FORBES, Esq., Deputy Commissioner, Chittagong Hill Tracts,
To—The Commissioner of the Chittagong Division.

I HAVE the honour to submit herewith the report and accounts in duplicate of the Road Fund Department of this district for the year 1887-88.

The survey operations on the Ruma and Rangamati road were resumed in the middle of November. At the first start 40 men of the coolie corps were sent to Pyramid Hill to work under the Supervisor in charge of the survey. It turned out, however, that the men could not stand the climate so early in the season, and there was much sickness resulting in three deaths. Consequently the officer in command at Ruma recalled these men to Ruma, and arrangements were immediately made for 40 Bengali coolies to proceed to Pyramid Hill to do the work of trace cutting under the Supervisor. The Supervisor was also supplied with 30 Mugh coolies for jungle-clearing. The work was in fair progress when the report of the murder of Lieutenant Stewart and party created a panic among the coolies, and it was with great difficulty that they were kept from running away. Ultimately the news of the Chaima raid put a stop to all work and the coolies went away to their homes. Endeavours were, however, made subsequently to organise labor, but it was ineffectual; so out of four to five months of the working season there was work for a little over two and a half months only, i.e. December and January and a part of February, and hence progress during the year has been very slow.

2. Two military survey parties, viz. one consisting of Captain Shakespear, Lieutenant Baird and one European soldier, and the other consisting of Lieutenant Stewart and two European soldiers, commenced survey operations in the beginning of January, the former party starting from Demagri towards Oipoom, and the latter starting from Rangamati towards Saichal. But owing to the sad occurrence near the Belaisurry toug the first party was recalled and all survey operations consequently stopped. The first party succeeded in completing the survey for a distance of about 20 miles along the Oipoom, and the second party about the same distance towards the Saichal.

3. The construction of the portion of the road between Politye and Pyramid Hill was also taken in hand from the beginning of December with a large number of coolies (150) under a contractor who succeeded in completing nearly six miles of the road within two months. But unfortunately the Kukkee scare put a stop to further progress.

4. The necessity for a cart road from Peskisurah to Upper Burkal by the left bank of the river has been felt for a long time. An endeavour was made this year and proved successful. The earthwork of the entire length of one mile and 3,500 feet was executed. The bridging of nullahs or constructing causeways could not be done for want of both money and labour.

5. *Repairs.*—All existing roads in the district were maintained chiefly by clearing jungle and constructing or repairing temporary bridges over nullahs, these works were all executed by contract.

No. 704G.M.—VII-16, dated Chittagong, the 19th July 1888.

Memo. by—D. R. LYALL, Esq., Commissioner of the Chittagong Division.

COPY, with duplicate copy of the accounts, submitted to the Secretary to the Government of Bengal, Public Works Department.

The year shows very little real work. The main cause was the scare caused by the raids.

The difficulties are necessarily very great as not only has the labour to be got, but the men working have to be fed, and it was in this there was to some extent a failure.

I hope for better progress this year.

- (a) make or construct in, upon, across, under or over any lands, or any streets, hills, valleys, roads, railways or tramways, or any rivers, canals, brooks, streams or other waters, or any drains, water-pipes, gas-pipes or telegraph lines, such temporary or permanent inclined planes, arches, tunnels, culverts, embankments, aqueducts, bridges, roads, ways, passages, conduits, drains, piers, cuttings and fences as the railway administration thinks proper;
- (b) alter the course of any rivers, brooks, streams or watercourses for the purpose of constructing and maintaining tunnels, bridges, passages or other works over or under them, and divert or alter, as well temporarily as permanently, the course of any rivers, brooks, streams or watercourses or any roads, streets or ways, or raise or sink the level thereof, in order the more conveniently to carry them over or under or by the side of the railway, as the railway administration thinks proper;
- (c) make drains or conduits into, through or under any lands adjoining the railway for the purpose of conveying water from or to the railway;
- (d) erect and construct such houses, warehouses, offices and other buildings, yards, stations, wharves, engines, machinery, apparatus and other works and conveniences as the railway administration thinks proper;
- (e) alter, repair or discontinue such works as aforesaid or any of them, and substitute others in their stead; and
- (f) do all other acts necessary for making, maintaining, altering or repairing and using the railway.

XIII, s. 14.] 8. A railway administration may, for the purpose of exercising the powers conferred upon it by this Act, alter the position of any pipe for the supply of gas or water or the position of any drain not being a main drain:

Provided that—

- (a) when the railway administration desires to alter the position of any such pipe or drain it shall give reasonable notice of its intention to do so, and of the time at which it will begin to do so, to the local authority or company having control over the pipe or drain, or, when the pipe or drain is not under the control of a local authority

a person to superintend the work, and the railway administration shall execute the work to the reasonable satisfaction of the person so sent.

9. (1) The Governor General in Council may [5 & 6 Vict., c. 55, s. 14.] authorise any railway administration, in case of any slip or other accident happening or being apprehended to any cutting, embankment or other work under the control of the railway administration, to enter upon any lands adjoining its railway for the purpose of repairing or preventing the accident, and to do all such works as may be necessary for the purpose.

(2) In case of necessity the railway administration may enter upon the lands and do the works aforesaid without having obtained the previous sanction of the Governor General in Council, but in such a case shall, within seventy-two hours after such entry, make a report to the Governor General in Council, specifying the nature of the accident or apprehended accident, and of the works necessary to be done, and the power conferred on the railway administration by this subsection shall cease and determine if the Governor General in Council, after considering the report, considers that the exercise of the power is not necessary for the public safety.

10. A railway administration shall do as little damage as possible in the exercise of the powers conferred by any of the three last foregoing sections, and such compensation shall be paid to persons affected by the exercise thereof as may be agreed upon or as, in case of dispute, may be awarded under the Land-acquisition Act, 1870, or settled according to the procedure prescribed in that Act for the settlement of cases of disputed compensation. [Pross., P. W. D., January, 1868, Nos. 60 to 64, E. I. R. 26.]

11. (1) A railway administration shall make and maintain the following works for the accommodation of the owners and occupiers of lands adjoining the railway, namely:— [8 Vict., c. 20, s. 68.]

- (a) such and so many convenient crossings, bridges, arches, culverts and passages over, under or by the sides of, or leading to or from, the railway as may, in the opinion of the Governor General in Council, be necessary for the purpose of making good any interruptions caused by the railway to the use of the lands through which the railway is made, and
- (b) all necessary arches, tunnels, culverts, drains, watercourses or other passages, over or under or by the sides of the railway, of such dimensions as will, in the opinion of the Governor General in Council, be sufficient at all times to convey water as freely from or to the lands lying near or affected by the railway as before the making of the railway, or as nearly so as may be.

(2) The works specified in clauses (a) and (b) of sub-section (1) shall be made during or immediately after the laying out or formation of the

*The Indian Railways Bill.**(Chapter III.—Construction and Maintenance of Works.—Sections 12-15.)*

(3) The foregoing provisions of this section are subject to the following provisos, namely :—

- (i) a railway administration shall not be required to make any accommodation works in such a manner as would prevent or obstruct the working or using of the railway, or to make any accommodation works with respect to which the owners and occupiers of the lands have agreed to receive and have been paid compensation in consideration of their not requiring the works to be made;

12. If an owner or occupier of any land affected by a railway considers the works made under the last foregoing section to be insufficient for the commodious use of the land, he may at any time require the railway administration to make at his expense such further works for that purpose as he thinks necessary and are agreed to by the railway administration or as, in case of difference of opinion, may be authorised by the Governor General in Council.

- (a) where there is danger that a tree standing near a railway may fall on the railway so as to obstruct traffic,
- (b) when a tree obstructs the view of any fixed signal,

the railway administration may, with the permission of any Magistrate, fell the tree or deal with it in such other manner as will in the opinion of the railway administration avert the danger or remove the obstruction, as the case may be.

- (2) In case of emergency the power mentioned in sub-section (1) may be exercised by a railway administration without the permission of a Magistrate.

- (3) Where a tree felled or otherwise dealt with under sub-section (1) or sub-section (2) was in existence before the railway was constructed or the signal was fixed, any Magistrate may, upon the application of the persons interested in the tree, award to those persons such compensation as he thinks reasonable.

- (4) Such an award, subject, where made in a presidency-town by any Magistrate other than the

OPENING OF RAILWAYS.

Act IV, 1879, 16. (1) A railway administration may, with the previous sanction of the Governor General in Council, use upon a railway locomotive engines or other motive power, and rolling-stock to be drawn or propelled thereby.

(2) But rolling-stock shall not be moved upon a railway by steam or other mechanical power until general rules for the railway have been made, sanctioned, published and notified under this Act.

Act IV, 1883, 17. (1) Subject to the provisions of sub-section (2), a railway administration shall, one month at least before it intends to open any railway for the public carriage of passengers, give to the Governor General in Council notice in writing of its intention.

(2) The Governor General in Council may in any case, if he thinks fit, reduce the period of, or dispense with, the notice mentioned in sub-section (1).

Act IV, 1883, 18. A railway shall not be opened for the public carriage of passengers until the Governor General in Council, or an Inspector empowered by the Governor General in Council in this behalf, has by order sanctioned the opening thereof for that purpose.

Act IV, 1883, 19. (1) The sanction of the Governor General in Council under the last foregoing section shall not be given until an Inspector has, after inspection of the railway, reported in writing to the Governor General in Council—

(a) that he has made a careful inspection of the railway and rolling-stock;

(b) that the moving and fixed dimensions prescribed by the Governor General in Council have not been infringed;

[5 & 6 Vict., c. 55, s. 16.] (c) that the weight of rails, strength of bridges, general structural character of the works, and the size of and maximum gross load upon the axles of any rolling-stock are in accordance with the standards prescribed by the Governor General in Council;

(d) that the railway is sufficiently supplied with rolling-stock;

(e) that general rules for the working of the railway have been made, sanctioned, published and notified under this Act; and

(f) that, in his opinion, the railway can be opened for the public carriage of passengers without danger to the public using it.

[5 & 6 Vict., c. 55, s. 6.] (2) If in the opinion of the Inspector the railway cannot be so opened without danger to the public using it, he shall state that opinion together with the grounds therefor to the Governor General in Council, and the Governor General in Council may thereupon order the railway administration to postpone the opening of the railway.

direct the postponement of the opening of the railway until those requirements have been complied with or the Governor General in Council is otherwise satisfied that the railway can be opened without danger to the public using it.

(4) The sanction given under this section may be either absolute or subject to such conditions as the Governor General in Council thinks necessary for the safety of the public.

(5) When sanction for the opening of a railway is given subject to conditions and the railway administration fails to fulfil those conditions, the sanction shall be deemed to be void and the railway shall not be worked or used until the conditions are fulfilled to the satisfaction of the Governor General in Council.

20. (1) The provisions of sections 17, 18 and 19 with respect to the opening of a railway shall extend to the opening of the works mentioned in sub-section (2) when those works form part of, or are directly connected with, a railway used for the public carriage of passengers and have been constructed after the inspection which preceded the first opening of the railway.

(2) The works referred to in sub-section (1) are additional lines of railway, deviation lines, stations, junctions and crossings on the level, and any alteration or re-construction materially affecting the structural character of any work to which the provisions of sections 17, 18 and 19 apply or are extended by this section.

(2) The works referred to in sub-section (1) are additional lines of railway, deviation lines, stations, junctions and crossings on the level, and any alteration or re-construction materially affecting the structural character of any work to which the provisions of sections 17, 18 and 19 apply or are extended by this section.

21. When an accident has occurred resulting in a temporary suspension of traffic, and either the original line and works have been rapidly restored to their original standard, or a temporary diversion has been laid for the purpose of restoring communication, the original line and works so restored, or the temporary diversion, as the case may be, may, in the absence of the Inspector, be opened for the public carriage of passengers, subject to the following conditions, namely:—

(a) that the railway servant in charge of the works undertaken by reason of the accident has recorded an opinion that the opening of the restored line and works, or of the temporary diversion, will not be attended with danger to the public using the line and works or the diversion; and

(b) that notice by telegraph of the opening of the line and works or the diversion shall be sent to the Inspector appointed for the railway.

22. The Governor General in Council may make rules defining the cases in which, and in those cases the extent to which, the procedure prescribed in sections 17 to 20 (both inclusive) may be dispensed with.

23. (1) When, after inspecting any open railway used for the public carriage of passengers, or any rolling-stock used thereon, an Inspector is of opinion that the use of the

sengers until it has been inspected, and its re-
opening sanctioned, in accordance with the pro-
visions of this Act.

IV, (2) When the Governor General in Council has
] ordered under the last foregoing section that the
use of any specified rolling-stock be discontinued,
that rolling-stock shall not be used until an
Inspector has reported that it is fit for use and the
Governor General in Council has sanctioned its
use.

(3) When the Governor General in Council has imposed under the last foregoing section any conditions with respect to the use of any railway or rolling-stock, those conditions shall be observed until they are withdrawn by the Governor General in Council.

879, 25. (1) The Governor General in Council may,

this Chapter by an Inspector, and may cancel any
sanction or order given by an Inspector discharg-
ing any such function or attach thereto any con-
dition which the Governor General in Council
might have imposed if the sanction or order had
been given by himself.

(2) A condition imposed under sub-section (1)
shall for all the purposes of this Act have the
same effect as if it were attached to a sanction or
order given by the Governor General in Council.

RAILWAY COMMISSIONS AND TRAFFIC FACILITIES.

Railway Commissions.

Vict., 26. (1) For the purposes of this Chapter the
] Constitution of Rail. Governor General in Council
way Commission. shall, as occasion may in his
opinion require, appoint a commission, styled a
25.] Railway Commission (in this Act referred to as
the Commissioners) and consisting of one Law
Commissioner and two Lay Commissioners.

(2) The Commissioners shall sit at such times
and in such places as the Governor General in
Council appoints.

(3) The Law Commissioner shall be such Judge
of the High Court having jurisdiction in reference
to European British subjects under the Code of
Criminal Procedure, 1882, in the case where the

Judge or, in the case of the Court of the Recorder
of Rangoon, the Chief Commissioner of Burma
may, on the request of the Governor General in
Council, assign by writing under his hand.

(4) The Lay Commissioners shall be appointed
by the Governor General in Council, and one at
least of them shall be of experience in railway
business.

27. The Commissioners shall take cognizance
of such cases only as are re-
ferred to them by the Gov-
ernor General in Council.
Restriction of juris-
diction of Railway Com-
mission to cases special-
ly referred.

28. In any of the
following circumstances,
namely:—
Reference of cases to
Railway Commission.

(a) where complaint is made to the Governor
General in Council of anything done or
any omission made by a railway adminis-
tration in violation or contravention of
any provision of this Chapter;

(b) where any difference referable to arbitration
arises between railway administrations, and the railway administrations apply
to the Governor General in Council to have it referred to the Commissioners; [Railway
Commission-
ers' Eighth Re-
port, p. 11,
and Thirteenth
Report, p. 5.]

(c) where any other difference to which a rail-
way administration is a party arises, and
the parties thereto apply to the Gov-
ernor General in Council to have it referred
to the Commissioners;

the Governor General in Council may, if he
thinks fit, refer the case to the Commissioners for
decision.

29. The three Commissioners shall attend at
the hearing of any case re-
ferred to them for deci-
sion under this Chapter, and
the Law Commissioner shall preside at the
hearing.
Constitution of Rail-
way Commission in ses-
sion.

30. (1) In hearing any such case the Commis-
sioners shall have all the
powers which may be exer-
cised in the hearing of an
original civil suit by the High Court of which
the Law Commissioner is a member, and they or
the majority of them may make any order in the
case, by way of injunction, which may in the
circumstances appear to them to be suitable.

permit any person to appear before them either
by himself or by any legal practitioner entitled to
practise in any High Court.
[51 & 52
Vict., c. 35, s.
50.]

31. (1) An appeal shall not lie from any order
of the Commissioners upon
any question of fact on which
two of the Commissioners
are agreed.
Appeals from orders
of Railway Commission.

(2) Subject to the provisions of sub-section
(1), an appeal shall lie from an order of the
Commissioners—

section of this which includes the procedure of 1882. (4) In the hearing of the appeal the High Court shall, subject to the other provisions of this Chapter, have all the powers which it has as an Appellate Court under the Code of Civil Procedure, and may make any order which the Commissioners could have made.

32. Notwithstanding any appeal to the High Court from an order of the Commissioners, the order shall, unless the Commissioners or the majority of them see fit to suspend it, continue in operation until it is reversed or varied by that Court.

33. Subject to the foregoing provisions of this Chapter and to any direction of Her Majesty in Council, an order of the Commissioners shall be final and shall not be questioned in or restrained by any Court.

34. (1) The Commissioners, in the exercise of their jurisdiction under this Chapter, may from time to time, with the general or special sanction of the Governor General in Council, call in one or more persons of engineering or other technical knowledge to act as assessors.

(2) There shall be paid to such persons such remuneration as the Governor General in Council upon the recommendation of the Commissioners may direct.

35. The Governor General in Council may make rules regulating proceedings before the Commissioners and enabling the Commissioners to carry into effect the provisions of this Chapter, and prescribing fees to be taken in relation to proceedings before the Commissioners.

36. The costs of, and incidental to, any proceedings before the Commissioners or the High Court under this Chapter shall be in the discretion of the Commissioners or the High Court, as the case may be.

37. The High Court of which the Law Commissioner was a member shall, on the application of any person who was a party to the proceedings before the Commissioners or on appeal before a High Court, or of the representative of any such person, cause an order made by the Commissioners or by a High Court under this Chapter to be enforced or executed as if it were an order made by itself in the exercise of its original civil jurisdiction.

38. A document purporting to be signed by the Commissioners, or any of them, shall be received in

39. The Commissioners shall, as soon as may be after the disposal of each case referred to them, submit to the Governor General in Council a special report on the case, and the Governor General in Council shall cause the report to be published in such manner as he thinks fit for the information of persons interested in the subject-matter thereof.

40. Except for the purpose of the last foregoing section, a Railway Commission shall be deemed to be dissolved at the close of the last of the sittings of the Commissioners for the decision of the cases referred to them.

Traffic Facilities.

41. (1) Every railway administration shall, according to its powers, afford all reasonable facilities for the receiving, forwarding and delivering of traffic upon and from the several railways belonging to or worked by it and for the return of rolling-stock. [8 Vict., c. 20, s. 90; 17, 18 Vict., c. 3, s. 2; 51, 52 Vict., c. 2, s. 25; at Eighth Report of the Railway Commissioners, p. 4.]

(2) A railway administration shall not make or give any undue or unreasonable preference or advantage to or in favour of any particular person or railway administration, or any particular description of traffic, in any respect whatsoever or subject any particular person or railway administration or any particular description of traffic to any undue or unreasonable prejudice or disadvantage in any such respect.

(3) A railway administration having or working railways which form part of a continuous line of railway communication, or having its terminus or station within one mile of the terminus or station of another railway administration, shall afford all due and reasonable facilities for receiving and forwarding by one of such railways all the traffic arriving by the other at such terminus or station, without any unreasonable delay, and without any such preference or advantage or prejudice or disadvantage as aforesaid, and so that no obstruction may be offered to the public desirous of using such railways as a continuous line of communication, and so that all reasonable accommodation may by means of such railways be at all times afforded to the public in that behalf. [17 & 18 Vict. 31, s. 1.]

(4) The facilities to be afforded under this section shall include the due and reasonable receiving, forwarding and delivering by every railway administration, at the request of any other railway administration, of through traffic to and from the railway of any other railway administration at through rates: [Thirteenth Report. Railway Commissioners, p. 4.]

Provided as follows:—

(a) the railway administration requiring the traffic to be forwarded shall give written notice of the proposed through rate to each forwarding railway administration, stating both its amount and the route by which the traffic is proposed to be forwarded; and when an administration gives such notice it shall also state the apportionment of the through rate. The proposed through rate may be ascertained by the

the receipt of such notice, by written notice inform the railway administration requiring the traffic to be forwarded whether it agrees to the rate and route, and, if it objects to either, the grounds of the objection;

(c) if at the expiration of the prescribed period no such objection has been sent by any forwarding railway administration, the rate shall come into operation at the expiration of that period;

(d) if an objection to the rate or route has been sent within the prescribed period, the Governor General in Council shall, on the request of any of the railway administrations, refer the case to the Commissioners for their decision;

(e) if the objection is to the granting of the rate or to the route, the Commissioners shall consider whether the granting of the rate is a due and reasonable facility in the interest of the public, and whether, regard being had to the circumstances, the route proposed is a reasonable route, and shall allow or refuse the rate accordingly or fix such other rate as may seem to the Commissioners to be just and reasonable;

(f) if the objection is only to the apportionment of the rate, the rate shall come into operation at the expiration of the prescribed period, but the decision of the Commissioners as to its apportionment shall be retrospective: in any other case the operation of the rate shall be suspended until the Commissioners make their order in the case;

(g) the Commissioners in apportioning the through rate shall take into consideration all the circumstances of the case, including any special expense incurred in respect of the construction, maintenance or working of the route or any part of the route, as well as any special charges which any railway administration is entitled to make in respect thereof;

(h) subject to the foregoing provisions of this sub-section, the Commissioners shall have full power to decide that any proposed through rate is due and reasonable, notwithstanding that a less amount may be allotted to any forwarding railway administration out of the through rate than the maximum rate which the railway administration is entitled to charge, and to allow and apportion the through rate accordingly;

(i) the prescribed period mentioned in this sub-section shall be one month, or such longer period as the Governor General in Council may by general or special order prescribe.

42. (1) Whenever it is shown that a railway administration charges one trader or class of traders, or the traders in any district or country, lower rates for the same or similar merchandise, or lower rates for the same or similar services, than

(2) In deciding whether a lower charge does or does not amount to an undue preference, the Commissioners may, so far as they think reasonable, in addition to any other considerations affecting the case, take into consideration whether such lower charge is necessary for the purpose of securing, in the interests of the public, the traffic in respect of which it is made.

43. Where a railway administration is a party to an agreement for using on a river or other inland water for the purposes of the traffic of the railway any ferry, ship, boat or raft which is not under the direct control of the railway administration, the provisions of the two last foregoing sections applicable to a railway shall extend to the ferry, ship, boat or raft and to the traffic carried thereby.

44. A railway administration may charge reasonable terminals.

45. (1) The Governor General in Council may refer to the Commissioners for decision any question or dispute which may arise with respect to the terminals charged by a railway administration, and the Commissioners may thereupon decide what is a reasonable sum to be paid to the railway administration in respect of terminals.

(2) In deciding the question or dispute the Commissioners shall have regard only to the expenditure reasonably necessary to provide the accommodation in respect of which the terminals are charged, irrespective of the outlay which may have been actually incurred by the railway administration in providing that accommodation.

46. (1) A railway administration shall keep at each of its stations a book or books showing every rate for the time being charged for the carriage of traffic, other than passengers and their luggage, from that station to any place to which the administration quotes a rate, and stating the distance from that station of every station, siding or place to which any such rate is charged.

(2) Every such book shall during all reasonable hours be open to the inspection of any person without payment of any fee.

47. (1) Where any charge is made by and paid to a railway administration in respect of the carriage of goods over its railway, the administration shall, on the application of the person by whom or on whose behalf the charge has been paid, render to the applicant an account showing how much of the charge comes under each of the following heads, namely:—

- (a) the carriage of the goods on the railway;
- (b) terminals; and
- (c) demurrage, collection, delivery and other expenses;

WORKING OF RAILWAYS.

General.

IV, 48. (1) Every railway company and, in the
s. 8: case of a railway admini-
iet., c. strated by the Government, an
, 8 & officer to be appointed by the Governor General
c. 20, in Council in this behalf, shall make general rules
consistent with this Act for the following purposes,
namely:—

- (a) for regulating the mode in which, and the
speed at which, rolling-stock used on the
railway is to be moved or propelled;
- (b) for regulating the provision to be made for
the accommodation and convenience of
passengers;
- (c) for declaring what shall be deemed to be,
for the purposes of this Act, dangerous or
offensive goods, and for regulating the
carriage of such goods;
- (d) for regulating the conduct of the railway
servants;
- (e) for regulating the terms and conditions on
which the railway administration will

- (f) generally for regulating the travelling
upon, and the use, working and manage-
ment of, the railway.

7, 1879, (2) The rules may provide that any person
committing a breach of any of them shall be
punished with fine which may extend to any sum
not exceeding fifty rupees.

7, 1879, (3) A rule made under this section shall not
take effect until it has received the sanction of the
Governor General in Council and been published
in the Gazette of India:

Provided that, where the rule is in the terms of
a rule which has already been published at length
in the Gazette of India, a notification in that
Gazette referring to the rule already published and
announcing the adoption thereof shall be deemed a
publication of a rule in the Gazette of India
within the meaning of this sub-section.

7, 1879, (4) The Governor General in Council may
cancel any rule made under this section, and the
authority required by sub-section (1) to make
rules thereunder may, at any time, with the pre-
vious sanction of the Governor General in Council,
repeal or vary any such rule.

(5) Every rule purporting to have been made
for any railway under section 8 of the Indian
Railway Act, 1879, and appearing from the Gazette
of India to be intended to apply to the railway at
the commencement of this Act, shall, notwith-
standing any irregularity in the making or publi-
cation of the rule, be deemed to have been made
and to have taken effect under this section.

43 Vict., s. 4.] 52. Any railway company, not being a guaranteed company within the meaning of the Statute 42 and 43 Victoria, Chapter 11, may from time to time exercise with the sanction of the Governor General in Council all or any of the following powers, namely:—

- (a) it may establish, for the accommodation of the traffic of its railway, any ferry properly equipped with ships and boats or a bridge-of-boats and fixed and moveable machinery and plant of good quality and adequate in quantity to work the ferry;
- (b) it may work any ferry established by it under this section for purposes other than the accommodation of the traffic of the railway;
- (c) it may provide and maintain on any of its bridges roadways for foot-passengers, cattle, carriages, carts or other traffic;
- (d) it may construct and maintain roads for the accommodation of traffic passing to or from its railway;
- (e) it may provide and maintain any means of transport which may be required for the reasonable convenience of passengers, animals or goods carried or to be carried on its railway;
- (f) it may charge tolls on the traffic using such ferries, roadways, roads or means of transport as it may provide under this section, according to tariffs to be arranged from time to time with the sanction of the Governor General in Council.

4 Vict., s. 3; 32 Vict., s. 3 & 35 Vict., s. 9 & 53. Every railway administration shall, in forms to be prescribed by the Governor General in Council, prepare and print, half-yearly or at such longer intervals as the Governor General in Council may prescribe, such returns of its capital and revenue transactions and of its traffic as the Governor General in Council may require, and shall forward a copy of such returns to the Governor General in Council at such times as he may direct.

Carriage of Property.

54. (1) Every railway administration shall determine the maximum load for every wagon or truck in its possession, and shall exhibit the words or figures representing the load so determined in a conspicuous manner on the outside of every such wagon or truck.

(2) Every person owning a wagon or truck which passes over a railway shall similarly determine and exhibit the maximum load for the wagon or truck.

(3) The gross weight of any such wagon or truck bearing on the axles when the wagon or truck is loaded to such maximum load shall not exceed such limit as may be fixed by the Governor General in Council for the class of axle under the wagon or truck.

at the station, and shall allow any person to inspect it free of charge at all reasonable times.

56. (1) If a person fails to pay on demand any rate, terminal or other charge due from him to a railway administration in respect of any animals or goods, the railway administration may detain the whole or any of the animals or goods, or, if they have been removed from the railway, any other animals or goods of such person then being in or thereafter coming into its possession.

(2) When any animals or goods have been detained under sub-section (1), the railway administration may sell by public auction, in the case of perishable goods at once, and in the case of other goods or of animals on the expiration of at least fifteen days' notice of the intended auction, published in one or more of the local newspapers or, where there are no such newspapers, in such manner as the Governor General in Council may prescribe, sufficient of such animals or goods to produce a sum equal to the charge and all expenses of such detention, notice and sale, including, in the case of animals, the expenses of the feeding, watering and tending thereof.

(3) Out of the proceeds of the sale the railway administration may retain a sum equal to the charge and the expenses aforesaid, rendering the surplus, if any, of the proceeds, and such of the animals or goods (if any) as remain unsold, to the person entitled thereto.

(4) If a person on whom a demand for any rate, terminal or other charge has been made fails to remove from the railway within a reasonable time any animals or goods which have been detained under sub-section (1), or any animals or goods which have remained unsold after a sale under sub-section (2), the railway administration may sell the whole of them and dispose of the proceeds of the sale as nearly as may be under the provisions of the last foregoing sub-section.

(5) Notwithstanding anything in the foregoing sub-sections, the railway administration may recover by suit any such rate, terminal or other charge as aforesaid or balance thereof.

57. When any animals or goods have come into the possession of a railway administration for carriage or otherwise and are not claimed within a reasonable time by the owner or other person appearing to the railway administration to be entitled thereto, the railway administration may sell them as nearly as may be under the provisions of the last foregoing section, rendering the surplus, if any, of the proceeds of the sale to any person entitled thereto.

58. If the railway administration has any doubt as to the person entitled to any animals, goods or sale-proceeds under either of the two last foregoing sections, it may withhold delivery thereof until the person claiming them has established his title thereto in a Civil Court.

animals or goods until the person entitled in its opinion to receive them has given an indemnity, to the satisfaction of the railway administration, against the claims of any other person with respect to the animals or goods.

[V, 1897, 60. (1) The owner or person having charge of any goods which have been carried upon a railway, or are brought upon a railway for the purpose of being carried thereon, shall, on the request of any railway servant appointed in this behalf by the railway administration, deliver to him an exact account in writing signed by such owner or person of the quantity and description of the goods.

Requisitions for written accounts of quantity and description of goods.

(2) If an account delivered under sub-section (1) is materially false with respect to the quantity or description of any goods to which it purports to relate, the railway administration may charge in respect of the carriage of the goods a rate not exceeding double the highest rate which may be in force at the time on the railway for any class of goods.

[Vict., c. 101.] (3) If any difference arises between a railway servant and an owner of or a person having the charge of any goods carried or to be carried on a railway, respecting the quantity or description of goods of which an account has been required or delivered under this section, the railway servant may detain and examine the goods.

(4) If an account has not been delivered under sub-section (1) on request made therefor under that sub-section, the person to whom the request was addressed or, if that person is not the owner of the goods, then that person and the owner jointly and severally shall be liable to pay to the railway administration the cost of the detention and examination of the goods, and the railway administration shall be exonerated from all responsibility for any loss which may have been caused by the detention or examination.

(5) If it appears from the examination that the quantity of the goods is larger than, or their description different from, that stated in an account delivered under sub-section (1), the person who delivered the account or, if that person is not the owner of the goods, then that person and the owner jointly and severally shall be liable to pay to the railway administration the cost of the detention and examination of the goods, and the railway administration shall be exonerated from all responsibility for any such loss as aforesaid.

(6) If it appears that the quantity of the goods is not larger than, or their description not different from, that stated in an account delivered under sub-section (1), the railway administration shall pay the cost of the detention and examination and be responsible to the owner of the goods for any loss which may have been caused by the detention or examination thereof.

IV, s. 16: XI, 1886, and Dangerous or offensive goods. 61. (1) No person shall be entitled to take with him, or to require a railway administration to carry, any dangerous or offensive goods upon a railway.

Secretary of Government of India. (2) No person shall take any such goods with him upon a railway without giving notice of the same to the stationmaster or other railway

of the package containing them or otherwise giving notice in writing of their nature to the railway servant to whom he tenders or delivers them.

(3) Any railway servant may refuse to receive such goods for carriage and, when such goods have been so received without such notice as is mentioned in the last foregoing sub-section having to his knowledge been given, may refuse to carry them or may stop their transit.

(4) If any railway servant has reason to believe any such goods to be contained in a package with respect to the contents whereof such notice as is mentioned in sub-section (2) has not to his knowledge been given, he may cause the package to be opened for the purpose of ascertaining its contents.

(5) Nothing in this section shall be construed to derogate from the Indian Explosives Act, 1881, or any rule under that Act, and nothing in sub-sections (1), (2) and (4) shall be construed to apply to any goods tendered or delivered for carriage by order or on behalf of the Government or to any goods which an officer, soldier, sailor or police-officer or a person enrolled as a volunteer under the Indian Volunteers Act, 1869, may take with him upon a railway in the course of his employment or duty as such.

Carriage of Passengers.

62. The Governor General in Council may require any railway administration to provide and maintain in proper order, in any train worked by it which carries passengers, such efficient means of communication between the passengers and the railway servants in charge of the train as the Governor General in Council has approved.

63. Every railway administration shall fix, subject to the approval of the Governor General in Council, the maximum number of passengers which may be carried in each compartment of every description of carriage, and shall exhibit the number so fixed in a conspicuous manner inside or outside each compartment, in English or in one or more of the vernacular languages in common use in the territory traversed by the railway, or both in English and in one or more of such vernacular languages, as the Governor General in Council, after consultation with the railway administration, may determine.

64. Every railway administration shall in every passenger-train reserve at least one compartment for the exclusive use of females.

65. Every railway administration shall cause to be posted in a conspicuous place at every station on its railway, in English and in a vernacular language in common use in the territory where the station is situated, a copy of the time-tables for the time being in force on the railway, and lists of the fares chargeable for travelling from the station where the lists are posted to every place for which card-tickets are ordinarily issued to passengers at that station.

a ticket, specifying the class of carriage for which, and the place from and the place to which, the fare has been paid, and the amount of the fare.

(2) The matters required by sub-section (1) to be specified on a ticket shall be set forth—

- (a) if the class of carriage to be specified thereon is the lowest class, then in a vernacular language in common use in the territory traversed by the railway; and
- (b) if the class of carriage to be so specified is any other than the lowest class, then in English.

IV, 1879, 67. (1) Fares shall be deemed to be accepted, and tickets to be issued, subject to the condition of there being room available in the train for which the tickets are issued.

(2) A person to whom a ticket has been issued and for whom there is not room available in the train for which the ticket was issued shall on returning the ticket within an hour after the departure of the train be entitled to have his fare at once refunded.

IV, 1879, 68. No person shall enter any carriage on a railway for the purpose of travelling without pass or ticket.

IV, 1879, 69. Every passenger by railway shall, on the requisition of any railway servant appointed by the railway administration in this behalf, present his pass or ticket to the railway servant for examination, and at the end of the journey for which the pass or ticket was issued or, in the case of a season pass or ticket, at the expiration of the period for which it is eminent deliver up the pass or ticket to the railway servant.

IV, 1879, 70. A return ticket shall not be transferable and may be used only by the person for whose journey to and from the places specified thereon it was issued.

IV, 1879, 71. (1) A railway administration may refuse to carry a person suffering from any infectious disorder.

(2) A person suffering from such a disorder shall not enter or travel upon a railway without the special permission of the station-master or other railway servant in charge of the place where he enters upon the railway.

(3) A railway servant giving such permission as is mentioned in the last foregoing sub-section must arrange for the segregation of the person suffering from the disorder from other persons being or travelling upon the railway.

provisions of this Act, be that of a bailee under Chapter IX of the Indian Contract Act, 1872.

(2) An agreement purporting to limit that responsibility shall, in so far as it purports to affect such limitation, be void unless it—

- (a) is in writing signed by or on behalf of the person sending or delivering the animals or goods, and
- (b) is otherwise in a form approved by the Governor General in Council.

(3) Nothing in the common law of England or in the Carriers Act, 1865, with respect to the carriage of animals or goods, shall apply to their carriage by railway.

73. (1) The responsibility of a railway administration under the last foregoing section for the loss, destruction or deterioration of animals delivered to the administration to be carried on a railway shall not in any case exceed, in the case of elephants or horses five hundred rupees a head or, in the case of camels or horned cattle, fifty rupees a head or, in the case of sheep, goats, dogs or other animals, ten rupees a head, unless the person sending or delivering them to the administration caused them to be declared, or declared them, at the time of their delivery for carriage by railway, to be respectively of higher value than five hundred, fifty or ten rupees a head, as the case may be.

(2) Where such higher value has been declared, the railway administration may charge, in respect of the increased risk, a percentage upon the excess of the value so declared over the respective sums aforesaid.

(3) In every proceeding against a railway administration for the recovery of compensation for the loss, destruction or deterioration of any animal the burden of proving the value of the animal and, where the animal has been injured, the extent of the injury shall lie upon the person claiming the compensation.

74. A railway administration shall not be responsible for the loss, destruction or deterioration of any luggage belonging to or in charge of a passenger unless a railway servant has booked and given a receipt for the luggage and the passenger has left the luggage to be carried by the railway administration in a wagon or other place appropriated for the carriage of luggage or of luggage and other goods.

75. (1) When any articles mentioned in the second schedule are contained in any parcel or package delivered to a railway administration, and the value of such articles in the parcel or package exceeds one hundred rupees, the railway administration shall not be responsible for the loss, destruction or deterioration of the parcel or package unless the person sending or delivering the parcel or package to the administration caused its value and contents to be de-

108. (1) If a passenger travels in a train without having a pass or ticket with him, or, being in or having alighted from a train, fails or refuses to present for examination or to deliver up his pass or ticket immediately on requisition being made therefor under section 69, he shall be liable to pay, on the demand of any railway servant appointed by the railway administration in this behalf, the penalty hereinafter in this section mentioned, in addition to the ordinary single fare for the distance which he has travelled or, where there is any doubt as to the station from which he started, the ordinary single fare from the station from which the train originally started, or, if the tickets of passengers travelling in the train have been examined since the original starting of the train, the ordinary single fare from the place where the tickets were examined or, in case of their having been examined more than once, were last examined.

(2) If a passenger travels or attempts to travel in or on a carriage, or by a train, of a higher class than that for which he has obtained a pass or purchased a ticket, or travels in or on a carriage beyond the place authorised by his pass or ticket, he shall be liable to pay, on the demand of any railway servant appointed by the railway administration in this behalf, the penalty hereinafter in this section mentioned, in addition to any difference between any fare paid by him and the fare payable in respect of such journey as he has made.

(3) The penalty referred to in sub-section (1) and sub-section (2) shall,—

(a) where the passenger has immediately after incurring the penalty and before being detected by a railway servant notified to the railway servant in charge of the train the fact of the penalty having been incurred, be one rupee, two annas or eight annas, and

(b) in any other case, be six rupees, one rupee or three rupees,

according as the passenger is travelling or has travelled or has attempted to travel in a carriage of the highest class or in a carriage of the lowest class or in a carriage of any other class or kind.

(4) If a passenger liable to pay the penalty and fare mentioned in sub-section (1), or the penalty and any difference of fare mentioned in sub-section (2), fails or refuses to pay the same on demand being made therefor under one or other of those sub-sections, as the case may be, he may, if in the train, be removed therefrom, and the sum payable by him shall, on application made to any Magistrate by any railway servant appointed by the railway administration in this behalf, be recovered by the Magistrate from the passenger as if it were a fine imposed on the passenger by the Magistrate and shall, as it is recovered, be paid to the railway administration.

109. If a person uses or attempts to use a pass or ticket on any day for which the pass or ticket is

in addition to the amount of the single fare for any distance which he has travelled.

110. If a person sells or attempts to sell, or Transferring return parts or attempts to part half of return ticket. with the possession of, the return half of a return ticket in order to enable any other person to travel therewith, or purchases such half of a return ticket or travels or attempts to travel therewith, he shall be punished with fine which may extend to fifty rupees, in addition to the amount of the single fare for the return journey authorised by the ticket.

111. That portion of any fine imposed under Disposal of fines under either of the two last foregoing sections. the two last foregoing going sections which presents the single fare therein mentioned shall, as the fine is recovered, be paid to the railway administration before any portion of the fine is credited to the Government.

112. If a passenger wilfully alters or defaces his pass or ticket so as to render the date, number or any material portion thereof illegible, he shall be punished with fine which may extend to fifty rupees.

113. If a person suffering from an infectious disorder enters or travels upon a railway in contravention of section 71, sub-section (2), he, and any person having charge of him upon the railway when he so entered or travelled thereon, shall be punished with fine which may extend to twenty rupees, in addition to the forfeiture of any fare which either of them may have paid, and of any pass or ticket which either of them may have obtained or purchased, and may be removed from the railway by any railway servant.

114. (1) If a passenger enters or leaves, or attempts to enter or leave, any carriage while the train is in motion, or elsewhere than at the side of the carriage adjoining the platform or other place appointed by the railway administration for passengers to enter or leave the carriage, or opens the door of any carriage while the train is in motion, he shall be punished with fine which may extend to twenty rupees.

(2) If a passenger, after being warned by a railway servant to desist, persists in travelling on the roof, steps or footboard of any carriage or on an engine, or in any other part of a train not intended for the use of passengers, he shall be punished with fine which may extend to fifty rupees and may be removed from the railway by any railway servant.

SUPPLEMENTAL PROVISIONS.

131. Notwithstanding anything to the contrary in any enactment, or in any agreement or award based on any enactment, the following rules shall regulate the levy of taxes in respect of railways and from railway administrations in aid of the funds of local authorities, namely:—

(1) A railway administration shall not be liable to pay any tax in aid of the funds of any local authority unless the Governor General in Council has, by an order in writing, declared the railway administration to be liable to pay the tax.

(2) While an order made by the Governor General in Council under clause (1) of this section is in force, the railway administration shall be liable to pay to the local authority either the tax mentioned in the order or, in lieu thereof, such sum, if any, as an officer appointed in this behalf by the Governor General in Council may, having regard to all the circumstances of the case, from time to time determine to be fair and reasonable.

(3) The Governor General in Council may at any time revoke or vary an order under clause (1) of this section.

(4) Nothing in this section is to be construed as debarring any railway administration from entering into a contract with any local authority for the supply of water or light, or for the scavenging of railway premises, or for any other service which the local authority may be rendering or be prepared to render within any part of the local area under its control.

(5) "Local authority" in this section means a local authority as defined in the General Clauses Act, 1857, and includes any authority legally entitled to or entrusted with the control or management of any fund for the maintenance of watchmen or for the conservancy of a river.

STATEMENT OF OBJECTS AND REASONS.

The preparation of an Indian Railway Code consistent, so far as public interests permit, with the letter of the contracts subsisting between the Government and railway companies has been under consideration for many years, and the Indian Railways Bill has been drawn with special reference to the objections to which the drafts prepared in 1866 and in 1881 were considered both in India and in England to be open.

2. The references in the margin indicate generally the documents which have been considered in the preparation of the Bill. But some of those documents are not accessible to the public, and partly for this reason, and partly for the purpose of explaining the changes which it is proposed to introduce into the law relating to railways in India, the following portions of the Bill appear to call for special remark:—

- (1) *Section 2, sub-section (1).*—Among the enactments to be repealed are section 10 of the Carriers Act, 1865, which was superseded by the last paragraph of section 2 of the Indian Railway Act, 1879, and will be rendered unnecessary by section 72, sub-section (3), of the Bill. As regards section 16 of the Bengal Embankment Act, 1882, it is considered that the retention by the Collector of the power conferred upon him by that section will be undesirable if sections 11 and 12 of the Bill become law. Section 3, sub-section (1), and section 112 of the Bill take the place of section 51, Act IV of 1879, and section 49, Act XI of 1886.
- (2) *Section 3, clause (3), sub-clause (d).*—Sub-clause (d) of the definition of “railway” has been restricted to such vessels as are used on rivers and other inland waters within the local extent of the Act. It has been held that the corresponding clause in Act IV of 1879 must be read in this restricted sense, as, apart from the local extent of that Act, a wider construction of the clause might bring the Railways Act into collision with the Merchant Shipping Acts and the provisions of the general law relating to the carriage of passengers and goods by sea.
- (3) *Section 3, clauses (3) and (6).*—These clauses are supplemented by sub-section (1) of section 114, which applies certain portions of the proposed Act to railways under construction and to railways not used for the public carriage of passengers, animals or goods, and by sub-section (2) of the same section, which declares the expression “railway servant” in certain sections of the Act to include the servants of railway contractors.
- (4) *Section 3, clause (5).*—For the purposes of Chapter VII of the Bill, relating to the responsibility of railway administrations as carriers, it is proper to define the expression “railway administration”, in the case of a railway administered by the Government or a Native State, to include the Government or State, as the case may be.
- (5) *Section 3, clause (13), and sections 44 et seqq.*—These provisions are in the terms of sections 55 and 24, respectively, of the Railway and Canal Traffic Act, 1888.
- (6) *Section 5, clause (c).*—In accordance with a suggestion made by one of the railway companies with reference to the draft Bill of 1884, communications between railway companies and their legal advisers have been expressly excepted from the documents of which an Inspector of Railways may require the production.
- (7) *Section 7.*—This section follows generally the terms of an English enactment, but supersedes any local enactments which prohibit the construction of railways over gas-pipes and the like without the previous permission of municipal commissioners. The expense of diverting the course of a railway for the purpose of avoiding a gas-pipe would usually be out of all proportion to any damage which might possibly be caused by the railway passing over the pipe.
- (8) *Section 8.*—This section confers on railway administrations a power which the telegraph authority has under the Indian Telegraph Act, 1885.
- (9) *Sections 11 and 12.*—The former of these sections imposes on the railway administration the duty, subject to certain exceptions, of constructing such accommodation works for the use of owners and occupiers of lands as are proved to be necessary within ten years from the date on which the railway passing through the lands was first opened for public traffic. Under the latter section an owner or occupier may require any reasonable accommodation work to be constructed by a railway administration at his expense after the expiration of the ten years.
- (10) *Section 13.*—This section provides for the erection of fences in pursuance of express requisitions by the Governor General in Council, instead of under rules which can hardly be so drawn as to be applicable to all cases. The section also empowers the Governor General in Council to require the construction of screens in places where there is danger of horses being frightened by the sight or noise of rolling-stock moving on a railway.

- (11) *Section 14.*—This section reproduces the substance of section 7 of the Railways Clauses Act, 1863, and, following section 16 of the Railway and Canal Traffic Act, 1888, reserves to the Governor General in Council power to require as a condition of an order being made on a railway administration for the construction of works at a level-crossing that the local authority, if any, which maintains the road crossed on the level shall undertake to pay the whole or a fair share of the cost of the works.
- (12) *Section 15.*—In permitting a railway administration to act in a case of emergency without the permission of a Magistrate, and so going beyond the provisions of the corresponding section of the Indian Telegraph Act, 1885, this section confers a power which it is deemed essential that railway authorities should possess.
- (13) *Chapter IV.*—Section 16, sub-section (2), is designed to prevent the recurrence of the very serious accidents which have from time to time occurred from the unregulated use of locomotive power on railways under construction.

Provision has been made in sections 21 and 22 for the opening of a railway, without the sanction of the Governor General in Council or an Inspector, where there has been an accident resulting in a temporary suspension of traffic or where works are of so unimportant a character that the application to them of the general law relating to the opening of railways is unnecessary.

- (14) *Chapter V.*—This Chapter is the most important part of the Bill, and in its preparation careful regard has been had to the Railway and Canal Traffic Act, 1888, and to the Annual Reports of the Railway Commissioners.

Closely following the law in England, the Chapter imposes on railway administrations the general duty of arranging to receive, forward and deliver traffic without unreasonable delay and without partiality or undue preference, and the special duty of so treating through traffic at through rates. If the Governor General in Council is satisfied that any person has just ground of complaint against a railway administration for breach of either duty, he may refer the case to a Railway Commission for decision. Such a Commission is to be appointed only when there are cases to be referred to it, and it will be deemed to be dissolved as soon as it has decided those cases. It is to consist of a Law Commissioner who is to be a Judge of the High Court having jurisdiction in reference to European British subjects under the Code of Criminal Procedure, 1882, in the place where the Governor General in Council has ordered the Commission to sit, and of two Lay Commissioners, of whom one must be an expert in railway business and one may be a representative of the mercantile community or any other person whom the Governor General in Council sees fit to appoint. The Commission so constituted may in any case referred to it make any order, by way of injunction, which may in the circumstances appear to the Commissioners to be suitable. If two of the Commissioners concur upon a question of fact, their decision on that question is to be conclusive. From other decisions of the Commissioners an appeal will lie to a bench of not less than three Judges of the High Court of which the Law Commissioner was a member or, from a decision of a Railway Commission in Burma, to such a bench of the High Court of Judicature at Fort William in Bengal. Orders made by a Railway Commission are to be enforced by the High Court of which the Law Commissioner was a member as if they were orders made by the High Court in the exercise of its original civil jurisdiction.

Sections 46 and 47, following English law, require railway administrations to keep open to the inspection of the public a book showing the rates for the time being charged for the carriage of animals and goods, and to comply with requisitions for details of gross charges made by and paid to them for the carriage of goods.

Clauses (b) and (c) of section 28 provide for the reference to Railway Commissions of other differences than such as relate to traffic facilities.

- (15) *Section 48.*—This section will remove any doubt as to the validity of any existing rules, and provides that, when rules have once been published in the Gazette of India, they may be extended to a railway by a reference to that Gazette and an announcement of their adoption for the railway, without being again published at length in the Gazette.
- (16) *Section 49.*—This section provides for the settlement by the Governor General in Council of differences between railway administrations respecting the use of any common terminus or line of rails where the differences are such as to be likely to affect the safety of the public.
- (17) *Sections 50, 51 and 52.*—The effect of these sections will be to confer on railway companies domiciled in India the same privileges as are enjoyed by Indian railway companies domiciled in the United Kingdom.

- (18) *Section 55.*—Some such clause is considered necessary for the purpose of covering the conditions which all railway administrations in India do in fact impose and in their quarterly handbooks of fares and rates publish for the information of the public.
- (19) *Sections 57, 58 and 59.*—The first of these sections legalizes the existing practice with respect to the disposal of unclaimed property. The second and third of them have been suggested partly by existing practice, partly by the case of *Eagleton v. The East Indian Railway Company* (S B. L. R. 581), and partly by the proposal to give railway receipts the same effect as bills of lading.
- The proposal to give such an effect to railway receipts has not been adopted in the Bill, because railway administrations are understood to be averse to it and it is not justified by existing legislation elsewhere.
- (20) *Sections 60, 78 and 102.*—The very common practice of falsely and fraudulently classifying goods is held to justify these clauses.
- (21) *Section 64.*—This section requires every railway administration to reserve in every passenger-train at least one compartment of the lowest class for the exclusive use of females.
- (22) *Section 67.*—The provisions of section 18 of the Indian Railway Act, 1879, respecting the preferential rights of ticket-holders have been omitted as being unnecessary and in practice unworkable. The carriage of troops on railways administered by companies is regulated by the contracts between the Government and the companies.
- (23) *Sections 70 and 110.*—These sections prohibit the transfer of return tickets.
- (24) *Chapter VII.*—This Chapter follows the rule embodied in section 10 of the Indian Railway Act, 1879. There have been very few complaints against the practical operation of this rule, which is based upon a judgment of the Bombay High Court reported at I. L. R. 3 Bom. 109; and, though the soundness of that judgment has been questioned, the Government of India, as at present advised, is of opinion that experience does not justify any material modification of existing legislation.

Section 73, respecting the carriage of animals, reproduces the substance of section 7 of the Railway and Canal Traffic Act of 1854; and section 75, following section 1 of the Carriers Act (1 Will. IV, c. 68), restricts the obligation of declaring the contents of parcels containing gold, silver and other precious articles to cases in which the value of the articles exceeds one hundred rupees.

Section 77 is designed to prevent the preferring of stale claims against railway administrations; section 79 saves certain military regulations; section 80 provides for suits for compensation for injury to through-booked traffic; and section 81 limits, substantially in accordance with the law of England, the liability of a railway administration in respect of accidents happening at sea to passengers, animals or goods which the administration has contracted to carry partly by railway and partly by sea.

- (25) *Section 94.*—This section provides that penalties incurred by railway administrations must be recovered in a District Court at the suit of the Secretary of State for India in Council, and authorises the Governor General in Council to remit such penalties.
- (26) *Section 100.*—The object of this section is to abate the nuisance caused by rolling-stock being kept standing on level-crossings.
- (27) *Sections 108 and 128.*—In the framing of these sections regard has been had to both French and German law. The provisions of sections 31 and 32 of the Indian Railway Act, 1879, are, like the English bye-laws on which they were based (36 W. R. 726), ineffective for their purpose, the difficulty of proving fraud under the latter section, even when it clearly exists, being often found in practice to be insuperable.
- (28) *Section 131.*—In this section it is proposed to deal with the question of the taxation of railways by municipal committees, cantonment committees, district boards and other like authorities. In the opinion of the Government of India the exemption which Guaranteed and State railways enjoy in some provinces from assessment to local rates on land should be extended to all railways throughout India. As regards municipal taxes, it is considered that such as have been levied hitherto in any municipality or cantonment may generally continue to be levied there, though possibly in a commuted form.
- (29) *Section 132.*—The necessity of such a section was illustrated recently by the attachment, in the North-Western Provinces, at the instance of a private decree-holder, of the engine attached to a mail-train.

- (30) *Section 133.*—The expansion of section 27 of the Indian Railway Act, 1879, has been suggested by a case in which a railway servant engaged in trade in contravention of rules which were binding on him and to the prejudice of the railway administration which he was serving.
- (31) *Section 134.*—Much inconvenience to railway administrations in India is said to result from there being no means of summarily ejecting from railway buildings persons who have ceased to be entitled to occupy them.
- (32) *Section 141.*—There have been instances of subordinate Courts objecting to the manager of a State railway appearing before them by deputy even where the attendance of the representative of the railway is required for purely formal purposes. There have also been many instances of great and unnecessary expense being imposed on railway administrations by reason of subordinate Courts refusing to allow petty prosecutions to be conducted by railway servants.
- (33) *Section 145.*—This section is suggested by section 122 of the Bill.

FINANCIAL DEPARTMENT.

FINANCE.

Darjeeling, the 31st October 1888.

RESOLUTION.

THE Lieutenant-Governor is now in a position to review the actual financial results of the year 1886-87, the revised estimates for the year 1887-88, and the budget estimates for 1888-89. The Accountant-General's memorandum on the accounts of the first year has been received, and the Government of India have considered the estimates which the Lieutenant-Governor has formed of the financial position of this Government at the close of the past year, and of the funds at its disposal during the current year.

ACCOUNTS OF 1886-87.

2. The actuals of 1886-87 furnished by the Accountant-General are compared in the following table with the revised estimate adopted in the Financial Resolution of the 24th December 1887 :—

3. In the Resolution of the 24th December 1887, it was shown that the year 1886-87 had opened with a credit balance of Rs. 14,70,000 that the revenues under all the heads might, during the year, amount to Rs. 4,40,12,000 ; and that the total expenditure during the year would probably not exceed Rs. 4,36,02,000, a credit balance of Rs. 18,80,000 being left at the close of the year. The actual result has been more favourable than this estimate by Rs. 1,19,000. The expenditure of the Irrigation Department fell short of the estimate by Rs. 1,63,000, while the receipts were also Rs. 8,000 less than had been expected. The operations of the Civil Department showed a net result worse by Rs. 36,000, as exhibited in the following table :—

	Better. Rs.	Worse. Rs.
Land Revenue	66,000
Provincial Rates	5,000
Interest ...	4,000
Jails ...	1,000
Police	4,000
Marine ...	1,000
Education ...	18,000
Stationery and Printing ...	1,000
Interest on debt ...	13,000
Capital ...	1,000
	39,000	75,000
Total	36,000

4. The revised estimate made no allowance in favour of the Imperial Government for the surplus of sale proceeds of the Indian Law Reports over the cost of printing. These aggregated Rs. 28,000, and a credit for this amount has been given to Imperial by a debit against Provincial under Land Revenue. The Provincial portion of the survey and settlement charges exceeded the revised

estimate by about Rs. 35,000. There were other adjustments between Imperial and Provincial, bringing in a loss of about Rs. 3,000 to the latter, so that the total net loss under Land Revenue compared with the revised estimate has been Rs. 66,000. The difference under Education is due to the elimination of charges debitable to local funds from the Provincial account. The differences under the remaining heads are unimportant and need not be noticed. The Provincial balance on the 31st March 1887 was Rs. 19,99,000.

REVISED ESTIMATE, 1887-88.

5. The financial year which has just expired was the first year of the quinquennial period for which a new contract has been made with the Government of India. The following table shows the revised estimate as submitted to the Government of India in March last, the estimates as passed by the Government of India, and the estimates as now adopted by the Government of Bengal :—

6. The revised estimates as now adopted under the Civil heads, except I and 3—Land Revenue, 6—Stamps, IX and 11—Forests, XVI and 19—Jails, 20—Police, 24—Medical, 30—Stationery and Printing, and XXV and 32—Miscellaneous, have been fixed on the basis of the actuals of twelve months as reported by the Accountant-General in his preliminary accounts of March 1887.

7. *I and 3—Land Revenue.*—The total Land Revenue receipts for the year 1887-88, as estimated by the Accountant-General when he submitted his estimate for the current year, amounted to Rs. 3,81,70,000, and this estimate has been raised by the Government of India to Rs. 3,82,00,000. The Comptroller-General's statements show that the total collections in 1887-88 amounted to Rs. 3,79,96,000. The 10 per cent. on collections from Government estates will have aggregated Rs. 3,95,000, so that the total Provincial share of Land Revenue for the year will not have exceeded $\frac{1}{4}$ th of (Rs. 3,79,96,000—3,95,000)+Rs. 3,95,000, or Rs. 97,96,000. This amount has been taken as the revised estimate of Provincial Land Revenue (proper) for 1887-88.

The revised estimate, as submitted to the Government of India, allowed for the payment of Rs. 75,000 to "Imperial" on account of the excess of net earnings of the Eastern Bengal Railway over the contract assignment of 30 lakhs, and also for the payment of Rs. 1,59,000 to the Government of the North-Western Provinces in adjustment of their claim for arrears of duty on Shah-jehanpore rum. This accounts for the difference under the Land Revenue adjustment between the original estimate of this Government and that of the Government of India. The deduction on account of excess net receipts of the Eastern Bengal Railway has been made by the Government of India under "XXVI—State Railways, gross earnings," and no allowance need therefore be made under "Land Revenue." As orders were issued by the Lieutenant-Governor for the adjustment of the claim of the Government of the North-Western Provinces before the close of the year 1887-88, the deduction of Rs. 1,59,000 from the Provincial share of Land Revenue of this Government will be maintained in the revised estimate as now adopted. The Accountant-General has advised that a refund of Rs. 5,836, or Rs. 6,000 in round numbers, will be made to Bengal on account of the unauthorized credit afforded to Imperial in 1885-86 for copying fees realized in court-fee stamps. A sum of Rs. 41,000 has been added on account of the Police charges of the Eastern Bengal State Railway, sanctioned in the Finance and Commerce Department No. 3837, dated the 24th October 1888, in order that the charges may be adjusted in the Provincial section of the accounts from 1887-88. The net payment to Imperial on account of all adjustments will thus amount to Rs. (3,70,000+1,59,000—6,000—41,000=) 4,82,000.

The preliminary accounts of March 1888, furnished by the Accountant-General, show that the total Land Revenue charges in 1887-88 amounted to Rs. 33,57,000. These do not probably include the survey charges transferred from the estimate of the Government of India. The latest estimate of the Surveyor-General of these charges is Rs. 68,000. This amount, added to the total charges shown in the preliminary account, will raise the revised estimate from Rs. 33,00,000 to Rs. 34,25,000.

8. *6—Stamps.*—The preliminary account furnished by the Accountant-General does not show the value of stamp paper supplied to Bengal from the Central Store. A sum of Rs. 1,91,000 has been taken as the estimated cost of paper for the current year, and this may also be taken as the estimate for last year. The Provincial share will then amount to Rs. 1,43,000. The Provincial expenditure under the remaining heads amounted to Rs. 2,24,000. The revised estimate will stand at Rs. 3,67,000 against Rs. 3,61,000, the estimate reported to the Government of India.

9. *IX and 11—Forests.*—The preliminary accounts furnished by the Accountant-General show that the Provincial share of Forest receipts amounted to Rs. 2,88,000, and of Forest expenditure to Rs. 1,70,000. These figures are subject to considerable modifications. The estimate as passed by the Government of India will be retained.

10. *XVI and 19—Jails.*—The preliminary accounts of the Jail Department are also subject to considerable adjustments. Thus the receipts of 1886-87, when finally adjusted, rose from Rs. 6,19,000 in the preliminary account to Rs. 7,15,000 in the final account. The expenditure also rose

from Rs. 16,44,000 to Rs. 16,66,000. The preliminary accounts of 1887-88 show that the receipts in that year were Rs. 6,55,000, and the expenditure Rs. 15,20,000. The actuals of 1886-87 will be taken.

11. 20—*Police*.—The preliminary accounts furnished by the Accountant-General show that the Provincial Police expenditure amounted to Rs. 47,88,000. A sum of Rs. 41,000, which represents the Police charges of the Eastern Bengal State Railway, has been added to this for reasons explained in paragraph 7 above. The revised estimate for 1887-88 will therefore be taken at Rs. 48,29,000.

12. 24—*Medical*.—The account of March 1888 shows that the total expenditure under this head in 1887-88 was Rs. 14,16,000, against Rs. 14,36,000 shown in the preliminary account of March 1887. The actual expenditure in 1886-87 after final adjustments amounted to Rs. 14,64,000. The revised estimate for 1887-88 will be taken at Rs. 14,50,000.

13. 30—*Stationery and Printing*.—The preliminary account of the Accountant-General does not include the value of stationery supplied from Central Stores. The cost in 1886-87 amounted to Rs. 5,41,000, and the estimate for 1888-89 is Rs. 5,45,000. A sum of Rs. 5,45,000 may be taken as the estimate for last year. The expenditure under other sub-heads amounted to Rs. 5,04,000, so that the revised estimate of total expenditure may be placed at Rs. 10,49,000, against Rs. 10,41,000 estimated by the Government of India.

14. XXV and 32—*Miscellaneous*.—The actuals under these heads undergo considerable adjustment before they are finally closed. The preliminary accounts show the "unclaimed deposits" to have been Rs. 74,580 against Rs. 3,60,000, the estimate for the year, and the "miscellaneous refunds" to have been Rs. 2,77,459 against the estimate of Rs. 10,000. The total receipts in 1886-87 amounted to Rs. 7,03,000, although they were shown in preliminary accounts to have been Rs. 3,68,000. The receipts in the preliminary accounts of 1887-88 are shown to be Rs. 4,44,000. The actual receipts after all adjustments will probably amount to Rs. 7,75,000, and the total expenditure to Rs. 3,00,000. These figures will stand as the revised estimate for 1887-88.

15. XXVI and 38—*Railways*.—The estimates of the Government of India are compared in the following table with those originally passed by the Government of Bengal :—

The Government of India have provisionally taken Rs. 3,50,000 as the excess of net receipts of the Eastern Bengal Railway over the contract assignment of 30 lakhs. In accordance with the instructions of the Government of India, the Manager of the Eastern Bengal System has recast the revised estimate passed by the Government of India and has shown separately the net receipts of the broad and metre-gauge sections of the Eastern Bengal System. The Manager's estimate shows that the excess of net receipts of the Eastern Bengal Railway over the contract assignment may be Rs. 2,84,000 :—

		Receipts Rs.	Expenditure Rs.	Net receipts Rs.
Eastern Bengal Railway System—				
Broad-gauge section (Eastern Bengal Railway)	...	63,37,000	30,53,000	32,84,000

Total	...	96,75,000	46,50,000	50,25,000

The returns of the Railway Department show that the actual gross receipts of the Eastern Bengal Railway System in 1887-88 will approximately have amounted to Rs. 95,67,000, against Rs. 96,75,000 estimated by the Government of India. The proportionate distribution of these receipts between broad and narrow-gauge sections will give for the Eastern Bengal Railway about Rs. 62,66,000, and for the other railways included in the narrow-gauge sections, Rs. 33,01,000. The estimate of working expenses as passed by the Government of India, and recast by the Manager of the Eastern Bengal Railway, will be retained, as no later information is available to modify it. The net receipts of the two sections (broad and narrow-gauge) will thus have amounted to Rs. 32,13,000 and Rs. 17,04,000, respectively, of which a sum of Rs. 2,13,000, being the excess of net receipts of the Eastern Bengal Railway over the assignment of 30 lakhs, is payable to Imperial. The returns of the Tirhoot and Nalhati Railways show that the actual gross receipts in 1887-88 will have amounted to Rs. 18,51,000 and Rs. 97,000 respectively. The net receipts from all Railways, so far as the Provincial account is concerned, will have amounted to Rs. 55,37,000, against Rs. 54,95,000 estimated by the Government of India, thus—

41—*Miscellaneous Railway Expenditure.*—The latest return of the Examiner of Public Works Accounts shows that the Miscellaneous Railway expenditure in 1887-88 will have amounted to Rs. 68,000 against Rs. 70,000, the estimate originally adopted. The revised estimate will now be placed at Rs. 68,000.

16. *XXIX and 42—Irrigation, Major Works.*—The Government of India have passed the estimate as originally proposed by the Government of Bengal. The collection of water-rates during 1887-88, as compared with the estimate of the year, show, however, a decrease of more than 2½ lakhs, chiefly under Sone Canals. The statement received from the Examiner of Public Works Accounts shows that the total receipts will not have amounted to more than Rs. 11,03,000, against Rs. 13,58,000 originally estimated, and the working expenses to have been Rs. 15,04,000, against the estimate of Rs. 15,25,000. The figures now reported by the Examiner will be taken as the revised estimates for 1887-88.

The Examiner's statement also shows that the capital outlay on these works in 1887-88 will have amounted to Rs. 5,17,000, against Rs. 7,50,000 provided for in the revised estimate. This will reduce the estimate of charges for interest by about Rs. 9,000 for 1888-89, and Rs. 5,000 for 1887-88.

17. *XXX and 43—Irrigation Minor Works by Public Works Department.*—The approximate account furnished by the Examiner of Public Works Accounts shows that the receipts under this head in 1887-88 aggregated Rs. 8,63,000, and the expenditure Rs. 15,18,000. The expenditure in the Civil Department was Rs. 2,000. The estimates will accordingly be modified.

18. *XXXII and 45—Civil Works by Public Works Department.*—The statement of the Examiner of Public Works Accounts shows that the total receipts under this head will approximately have amounted to Rs. 1,75,000, and the total expenditure to Rs. 27,61,000. These figures will be adopted as the revised estimates for 1887-88.

19. *45—Civil Works by Civil Officers.*—The revised estimate, as originally submitted to the Government of India, provided Rs. 17,000 for contributions to Municipal and other Excluded Local Funds, and Rs. 5,000 for charges on account of ferries in districts in which the Local Self-Government Act had not been introduced. A sum of Rs. 2,000 was also provided for refunds of ferry receipts. The Government of India have raised the estimate to Rs. 87,000, of which Rs. 57,000 represents refunds of receipts wrongly credited under this head in 1886-87. The preliminary accounts show that these refunds aggregated Rs. 1,39,000, and that the other charges included under this head, exclusive of grants to Excluded Local Funds, amounted to Rs. 27,000. The estimate has now accordingly been raised to Rs. (1,39,000+27,000+17,000=) 1,83,000.

20. According to the revised estimate now adopted, the closing balance will stand at Rs. 32,47,000, against Rs. 35,99,000 anticipated by the Government of India when passing the estimate for the current year.

BUDGET ESTIMATE, 1888-89.

21. The Lieutenant-Governor has already in separate Resolutions reviewed the estimates of receipts and expenditure for the current year. A brief summary only of the general character of these estimates need now

be given. The following table shows the estimates of the Government of Bengal and the Government of India :—

RECEIPTS.

22. *Land Revenue.*—The Government of India have raised the estimate of total Land Revenue of the year 1888-89 from Rs. 3,82,00,000 to Rs. 3,82,60,000. As, however, the collections of last year only aggregated Rs. 3,79,96,000, the Lieutenant-Governor would not raise the estimate originally framed. The 10 per cent. on collections of Government estates has been estimated at Rs. 4,00,000, so that the Provincial share of Land Revenue (proper) may amount to $\frac{1}{4}$ th of (Rs. 3,82,00,000 — 4,00,000) + 4,00,000, or Rs. 98,50,000, against Rs. 98,69,000 estimated by the Government of India. The adjust-

ments between Imperial and Provincial will probably result in a net deduction of Rs. 5,19,000, as shown below:—

	Estimate of the Government of India.	Estimate of the Government of Bengal as now adopted.
	Rs.	Rs.

23. *Salt*.—The Provincial Salt revenue is recorded under the heads of Rents of Warehouses, Fines and forfeitures, and Miscellaneous. The first head, which is the most important, represents the receipts from bonding warehouses. The contract assumed that these receipts would amount to Rs. 1,00,000. The revised estimate for 1887-88 amounts to Rs. 78,000, and the estimate for the current year is Rs. 89,000. The large decrease in 1887-88 was due to a reduction in the importation of Karkutch salt.

24. *Stamps*.—The total receipts from stamps were originally estimated by the Accountant-General at Rs. 1,35,10,000. The receipts in 1887-88 will probably have amounted to Rs. 1,38,15,000, against Rs. 1,34,63,000 obtained in the preceding year. The Government of India have adopted the estimate of the Local Government, amounting to Rs. 1,41,00,000, for the current year. The receipts in the first six months of the current year amounted to Rs. 73,61,416, against Rs. 68,94,470 obtained in the corresponding period of 1887-88, showing an increase of Rs. 4,66,946. The Lieutenant-Governor thinks that the estimate can safely be raised to Rs. 1,42,00,000. The Provincial share will amount to Rs. 1,06,50,000.

25. *Excise*.—The total Excise revenue will probably have amounted to Rs. 1,08,66,000 in 1887-88 against Rs. 1,00,00,000, the original estimate for the year. The latest district returns show that the receipts in the first six months of the current year were Rs. 2,10,629 in excess of the receipts realized in the corresponding period of last year. The estimate of Rs. 1,10,00,000 for the current year, which has been accepted by the Government of India, will be retained. The Provincial share will be Rs. 27,50,000.

26. *Provincial Rates*.—The receipts from "Public Works cess" will have amounted to Rs. 38,20,000 against Rs. 38,49,000, the revised estimate originally adopted. The "rates levied for the management of Wards' and Attached Estates" will have aggregated Rs. 1,03,000, and the "proportionate cost of establishment for collecting the cesses recovered by deduction from road cess" amounted to Rs. 3,04,000. The revised estimate of total receipts under this head thus amounts to Rs. 42,27,000. The rates for the management of the Burdwan estate were in arrears, and were probably all recovered in 1887-88. There is no probability that the receipts on this account in 1888-89 will amount to the receipts of 1887-88, or that the original estimate of Rs. 81,000 will be exceeded. The original estimate of total receipts amounting to Rs. 42,03,000, which has also been adopted by the Government of India, will stand.

27. *Customs*.—The Provincial Customs revenue consists of "warehouse and wharf rents," of "foes for the registration of cargo-boats and for the attendance of preventive officers on holidays and after the usual hours," and of sale-proceeds of under-valued goods. The estimate of Rs. 62,000 against Rs. 60,000, the revised estimate for the current year, will stand.

28. *Assessed Taxes*.—The estimate of the Government of India provided for an increase of one lakh over the revised estimate for last year. The receipts in 1887-88 will have amounted to Rs. 37,38,000, and for 1888-89 they may be

estimated at Rs. 38,38,000. An irregular practice was found to have arisen under which the pay of extra peons employed on the execution of distress warrants for the recovery of arrears of income-tax and the cost of contingencies were realized by Collectors, only savings from defaulting assesseees being credited to Government. It has now been ruled that the costs should be credited in full and the actual charges drawn on bills. A grant of Rs. 11,000 has been placed at the disposal of the Board of Revenue to meet the cost of temporary establishments and contingencies for the Warrant Department of the Collectors' offices, and a corresponding amount may be added on the receipt side. The total receipts under assessed taxes are now estimated at Rs. 38,49,000. The Provincial share will therefore be Rs. 19,24,000.

29. *Forests.*—The Provincial share of the receipts under this head is estimated at Rs. 3,65,000, against Rs. 3,50,000 for last year. The increase is chiefly due to the inclusion of the receipts for the Bengal share of drift timber operations on the Gunduck river.

30. *Registration.*—The Government of India have raised the estimate of the Local Government from Rs. 10,00,000 to Rs. 10,20,000. The receipts in 1887-88 will probably have amounted to Rs. 10,18,000. The estimate of the Government of India will be adopted.

31. *Law and Justice (Judicial Courts.)*—The fees, fines and forfeitures of Judicial Courts are estimated at Rs. 7,75,000 against Rs. 7,77,000, the latest estimate for 1887-88.

32. *Jails.*—The Inspector-General of Jails originally estimated the total receipts for the current year at Rs. 7,73,000. The estimate was reduced to Rs. 7,45,000 with reference to the actuals of 1886-87 which amounted to Rs. 7,45,000. The estimate for the current year is fixed at that sum.

33. *Police.*—The Accountant-General's original estimate of Provincial receipts under this head was Rs. 2,78,000, which included a provision of Rs. 25,000 for sale-proceeds of unclaimed stray cattle and fees on such cattle realized in districts where the Local Self-Government Act has not been introduced. It is anticipated that these receipts may amount to Rs. 77,000. The estimate has accordingly been raised to Rs. 3,30,000. As under orders of the Government of India, Military Department, the cost of Cantonment Police will be recovered from the Cantonment Funds, a sum of Rs. 11,000, representing the existing charges on this account, will be added to the estimate of Provincial receipts. The total will stand at Rs. 3,41,000.

34. *Marine.*—The contract assignment for Provincial Marine receipts is Rs. 8,08,000. The Chittagong pilotage receipts are now adjusted under this head, and there has lately been greater activity in trade. The receipts in 1887-88 will have amounted to Rs. 9,10,000. The estimate of Rs. 9,00,000 for 1888-89, which has been passed by the Government of India, will be raised by Rs. 25,000 on account of the sale-proceeds of the *Cassandra* and the *Undaunted* which were not taken into account when the estimates were framed.

35. *Education.*—The estimate of receipts, as passed by the Government of India, amounts to Rs. 5,25,000 against Rs. 6,63,000, the latest estimate for 1887-88. The estimate for 1887-88 includes about Rs. 1,30,000 on account of refunds of charges paid by Government on behalf of District Boards in 1886-87. The estimate of the Government of India will be adopted.

36. *Medical.*—The estimate of the receipts under this head for the current year was placed at Rs. 1,56,000 with reference to the actuals of 1886-87. The average receipts in the four years 1882-86 were Rs. 1,42,000, and the actuals in 1887-88 will have amounted to not more than Rs. 1,31,000. The hospital receipts last year were only Rs. 48,000, against Rs. 73,000 obtained in 1886-87. It will not be safe to place the estimate for the current year at a higher figure than Rs. 1,40,000, the amount which the Government of India passed as the revised estimate for 1887-88.

37. *Scientific and other Minor Departments.*—The Accountant-General's original estimate of receipts under this head was Rs. 1,38,000, of which Rs. 1,17,000 represented receipts from cinchona plantations. An improved method of extracting the alkaloids from cinchona bark has been adopted, and an increase of Rs. 27,000 in receipts is anticipated. The cinchona receipts in 1887-88 will have amounted to Rs. 1,25,000, and there is every probability

of the Superintendent's estimate being obtained. The estimate of Rs. 1,65,000 for total receipts originally passed by this Government will be retained.

38. *Superannuation*.—The Provincial receipts under this head consist chiefly of contributions received from officers employed on foreign service. The total receipts in 1887-88 will probably have been Rs. 46,000, and a like amount has been taken as the estimate for the current year.

39. *Stationery and Printing*.—The Government of India have passed the estimate of the Government of Bengal, amounting to Rs. 1,81,500. It will stand at Rs. 1,82,000 in round numbers.

40. *Miscellaneous*.—The total receipts under this head in 1887-88 will probably have, after all adjustments, amounted to Rs. 7,75,000. The estimate for the current year may be raised from Rs. 7,08,000 to Rs. 7,50,000.

41. *State Railways (gross earnings)*.—The estimates of State Railways, as passed by the Government of India, have been recast, showing separately the receipts and working expenses of the broad and narrow-gauge sections of the Eastern Bengal System. The estimates are compared below with the revised estimates for 1887-88 as adopted in paragraph 15 above:—

	Revised estimate for 1887-88.	Estimate for 1888-89 original- ly reported to the Government of India.	Estimate of the Govern- ment of India for 1888-89.	Estimate for 1888-89 now adopted.

The Manager of the Tirhoot State Railway has explained that the decrease in the receipts from that line has been due to the circumstance that dealers in

produce have held back their stocks under an apprehension of scarcity, and that this apprehension being now removed, a considerable expansion in revenue may be anticipated. The Lieutenant-Governor, nevertheless, deems it prudent to adopt the estimate of the Government of India.

The total gross receipts will then be Rs. 1,15,37,000, thus:—

		Rs.	Rs.

42. *Irrigation Major Works (direct receipts).*—The estimate for 1888-89 has been fixed at the same amount as the original estimate for 1887-88, viz. Rs. 13,58,000. It is, however, not expected that the collections of water-rates on the Sone Canals will reach the current demand, as the rate-payers have held back, considering that large remissions of the dues would be sanctioned as one of the consequences of the report of the late Commission of Enquiry. The total receipts in 1887-88 will not have amounted to more than Rs. 11,03,000. It will not be safe to place the estimate for 1888-89 at a higher figure than 12 lakhs.

43. *Irrigation Minor Works.*—The estimate of receipts by Public Works Department as passed by this Government has been accepted by the Government of India, and will stand.

The annual demands for recoveries on account of zemindari embankments are fixed, and amount to Rs. 1,02,198. The total receipts for 1888-89, which are collected by civil officers, are estimated at Rs. 1,03,000, which includes Rs. 700 on account of sale of grass in Chumparun.

44. *Civil Works.*—The estimate of receipts made by the Public Works Department is Rs. 1,75,000, and that of those made by Civil Officers, Rs. 2,13,000. In the budget, as originally passed for 1887-88, no provision was made for ferry receipts and charges, as the question of introducing the Local Self-Government Act from 1st April 1887 into all the districts not excluded by section 1 of the Act was under consideration. The Act has not been extended to the districts of Lohardugga, Hazaribagh, Manbhoom, Singbhoom, Dumka, Darjeeling and Chittagong Hill Tracts, and provision will be made in the Provincial budget for the receipts and charges on account of ferries in these districts, as well as for those of some ferries plying wholly or partly within municipal limits in the districts into which the Act has been introduced. In certain districts, too, it will not be possible to transfer to the Boards the entire proceeds from the ferries which have been made over to them for management. The Provincial ferry receipts in 1887-88 will probably have amounted to Rs. 2,29,000. The estimate for next year amounts to Rs. 2,11,000. The cemetery receipts are estimated at Rs. 2,000. The estimate of total receipts by Civil Officers under Civil Works will therefore be Rs. 2,13,000.

EXPENDITURE.

45. *Refunds and Drawbacks* follow the proportions assigned for the revenues in the contract. The amount chargeable in 1887-88 may be taken at Rs. 1,52,000. The estimate for the current year has been placed at Rs. 1,48,000.

46. *Assignments and Compensations.*—The only sub-head under this head, which is Provincial, is "Malikana," which was formerly classed under Land Revenue, and has been transferred here in accordance with Note 78 to Appendix H of the Civil Account Code, Volume II. The allowances in 1887-88 will probably have amounted to Rs. 1,89,000, but the average expenditure in the preceding three years was Rs. 1,47,000. The increase in 1887-88 was due to the payment

of arrears, chiefly in Monghyr, Backergunge, and Durbhunga. The estimate of Rs. 1,49,000 for 1888-89, passed by this Government, and accepted by the Government of India, will be adopted.

47. *Land Revenue*.—The estimate for the current year is thus compared with the revised estimate for 1887-88—

	Revised estimate, 1887-88, passed by the Govern- ment of India.	Revised estimate, 1887-88, adopted in this Resolution.	Estimate, 1888-89.
	Rs.	Rs.	Rs.
1. Charges of district administration ...	27,84,000	28,32,000	28,98,000
2. Management of Government estates ...	2,61,000	3,53,000	3,30,000
3. Survey and settlement charges ...	1,71,000	1,52,000	2,96,000
4. Land Records and Agriculture ...	84,000	88,000	66,000
Total ...	33,00,000	34,25,000	35,90,000

The increase under the first head is due to the general development of administrative charges, to the transfer of Rs. 20,000 from the Miscellaneous budget to provide for the payment of municipal rates and taxes on Government buildings occupied by Revenue offices, and to increased provision for the process-serving establishment. The increase under the third head is chiefly due to the increase of Surveyor-General's estimate from Rs. 68,900 in 1887-88 to Rs. 1,72,000 in 1888-89. The estimate as passed by the Government of India thus amounts to Rs. 35,90,000. This will be increased by Rs. 5,000 to provide for the temporary establishment sanctioned in Government order No. 1735-750, dated the 21st May 1888, for certificate work of the Majnamutha and Jellamutha estates in Midnapore, and by Rs. 2,000 on account of the additional establishments sanctioned in Government order No. 2238-286 Agri., dated the 4th July 1888, for the Director of Land Records and Agriculture. The total grant will be Rs. 35,97,000.

48. *Stamps*.—The Provincial portion of the expenditure under this head in 1887-88 will have amounted to Rs. 3,67,000, and the estimate for the current year has been passed by the Government of India for Rs. 3,64,000. The reduction of the rate of discount, sanctioned in Government order No. 1380, dated 29th March 1888, on the sale of court-fee stamps of higher values than one rupee, will, it is anticipated, bring in a saving of Rs. 26,000, and will reduce the Provincial share of expenditure under Stamps by Rs. 18,000. The estimate as originally passed by the Local Government, amounting to Rs. (3,64,000—18,000=) 3,46,000, will stand.

49. *Excise*.—The total expenditure of the Excise Department for the current year has been estimated at Rs. 4,46,000 against Rs. 4,24,000, the amount probably expended in 1887-88. The Board have submitted fresh proposals, which would increase the expenditure to Rs. 4,50,000. On this a reduction of Rs. 2,000, in round numbers, will be made on account of the sum made over to the Patna Municipality for metalling the Kumrar road, which connects the Patna distillery with the Durgah road and thereby with the City of Patna. The grant will stand at Rs. 4,48,000, thus:—

	Budget provision.	Grant now sanctioned.
	Rs.	Rs.
Presidency Administrative establishment ...	8,700	4,675
Ditto Executive ditto ...	74,500	74,500
Deputy Collectors ...	28,800	34,500
Sub-Deputy Collectors ...	14,400	12,600
District establishments ...	2,40,773	2,45,037
Travelling allowances ...	52,480	52,480
Supplies, &c. ...	25,947	23,604
Add for rounding ...	400	504
Total ...	4,46,000	4,48,000
Provincial ...	1,11,000	1,12,000

The expenditure is divided between Imperial and Provincial in the proportion of three-fourths and one-fourth. The Provincial share for the current year will be Rs. 1,12,000.

50. *Provincial Rates.*—Before the enactment of the Local Self-Government Act, the cost of collecting the cesses was finally recorded in the books of the District Road Funds, the Government share of the cost of collecting the Public Works cess being adjusted under contributions from Provincial to Local. The cost of collecting the cesses is now recorded in the Provincial account, and is estimated at Rs. 2,91,000. The estimate has been passed by the Government of India, and will stand.

51. *Customs.*—The estimate of total expenditure of the Customs Department, as passed by the Government of India, amounts to Rs. 5,39,000. The estimate makes no provision for the additional establishment required for carrying out the provisions of the Petroleum Act, II of 1888. A temporary establishment, costing Rs. 300 per mensem, was employed during the first 4½ months of the current year, and since then a permanent establishment, at a cost of Rs. 553-4, has since been sanctioned under the orders of the Board of Revenue. The estimate will be raised by Rs. 6,000. As this is a new charge, for which no provision was made in the Provincial contract, an application has been made to the Government of India for an additional assignment to the Provincial Revenues to meet the expenditure, but pending the receipt of orders no credit for an allotment will be taken under Land Revenue.

52. *Assessed Taxes.*—The total expenditure for the collection of income-tax was originally estimated at Rs. 1,44,000. The expenditure in 1887-88 will have amounted to Rs. 1,52,000. On the recommendation of the Board of Revenue, sanction has already been accorded to the employment of establishment at a cost of Rs. 1,51,000 for the current year, and to this has been added Rs. 11,000 for temporary establishment and contingencies of the Collectors' Warrant Department, as stated in paragraph 28 above, and Rs. 6,475 to meet the initial charges and the increase of establishment sanctioned in connection with the transfer of the Income-tax Office from the Calcutta Collectorate to the Custom House. The estimate will then stand at Rs. 1,69,000, and the Provincial share at Rs. 84,000, as shown below:—

	Rs.
District offices	1,00,554
Collector's office, Calcutta	40,072
Increase of establishment for transfer of the Income-tax Office from the Calcutta Collectorate to the Custom House	5,496
Purchase of furniture for ditto	979
Commissioners' offices	4,380
Board's office	5,976
Warrant Department	11,000
Add for rounding	543
Total	1,69,000
Provincial share	84,000

The Lieutenant-Governor has also sanctioned an expenditure of Rs. 4,098 for making additions and alterations to the Custom House premises for the accommodation of the Income-tax Office. The work will, however, be undertaken by the Public Works Department, and the charge will be adjusted in the books of that Department.

53. *Forests.*—The expenditure of the Forest Department for the current year is estimated at Rs. 4,38,000, against Rs. 4,22,000 for 1887-88. The increase is chiefly attributable to a provision made for the Bengal share of drift timber operations in the Gunduck river.

54. *Registration.*—The expenditure of the Registration Department for 1888-89 is estimated by the Government of India at Rs. 5,70,000 against Rs. 5,78,000, the amount probably expended in 1887-88. The estimate of the Government of India does not include any provision for the payment of municipal rates and taxes on buildings occupied by the Registration offices. A provision of Rs. 3,000 was made on this account by the Local Government. The estimate will thus stand at Rs. 5,73,000 and the Provincial share at Rs. 2,86,000.

55. *General Administration*.—The total expenditure in 1887-88 may be assumed to have amounted to Rs. 15,39,000, while the estimate for the current year as originally passed by the Local Government amounted to Rs. 15,33,000. An increase of establishment, costing Rs. 4,000, has since been sanctioned in consequence of the transfer of the Marine Department from the Financial to the Public Works side of the Secretariat. The salaries of the establishment of the Marine Department will continue to be adjusted under General Administration. The estimate under this head will accordingly be raised by Rs. 4,000, and to meet this extra cost a corresponding reduction has been made in the Public Works grant for 1888-89. A further increase of Rs. 1,000 will be made under this head to provide for the pay of two assistants lately sanctioned in the Statistical Department, to enable that Department to submit to the Government of India certain quarterly returns of the river-borne trade of Calcutta. The total grant under this head will stand at Rs. 15,38,000.

56. *Law and Justice (Judicial)*.—The estimate of expenditure under this head as passed by the Government of India amounts to Rs. 81,39,000 against Rs. 79,41,000, the probable expenditure of 1887-88. There was one Judge absent on furlough during 1887-88, and the appointment was not filled up. A provision of Rs. 57,000 has been made in the estimate for 1888-89 for 19 additional Munsifs, and Rs. 33,000 for their establishment. A grant of Rs. 20,000 has also been provided under this head by transfer from the Miscellaneous budget to provide for the payment of municipal rates and taxes on buildings occupied by judicial courts. Since the estimate has been passed, a charge of Rs. 3,528 has been sanctioned, irrespective of budget provision, on account of establishment and office rent for the additional Judge, appointed for the trial of cases arising out of the acquisition of lands required for Kidderpore Docks. The appointment of two additional Munsifs for six months, and one for three months, has been sanctioned at an estimated cost of Rs. 3,000 for the districts of Hooghly and Sewan, respectively. A provision of Rs. 6,000 will also be made for an additional Subordinate Judge and his establishment, which it is proposed to appoint for the district of Bhagulpore. A re-grant of the savings in the grant for contract and other contingencies of the District Judge's court, Nuddea, for 1887-88, amounting to about Rs. 1,000, has been sanctioned for utilization during the current year. The estimate of total expenditure which would thus have risen from Rs. 81,39,000 to Rs. 81,53,000, will be reduced by Rs. 2,000, the amount transferred to the Public Works Department for the construction of racks in the Court of the Judge of Burdwan.

57. *Law and Justice (Jails)*.—The estimate as originally passed by the Local Government provided for a grant of Rs. 10,81,000 under "Jails" and of Rs. 6,19,000 under "Jail manufactures." The expenditure in past years has been as follows:—

			Jails.	Jail manufacture.	Total.
			Rs.	Rs.	Rs.
1882-83	10,32,000	6,31,000	16,63,000
1883-84	11,06,000	5,91,000	16,97,000
1884-85	10,90,000	5,87,000	16,77,000
1885-86	11,78,000	5,65,000	17,43,000
1886-87	10,97,000	5,69,000	16,66,000
1887-88 (approximate)	16,66,000

In view of the fact that there has actually been a reduction under district jails owing to the abolition of the Bhagulpore Jail and the reduction of the status of 14 other district jails, the Lieutenant-Governor would reduce the estimate of total expenditure to Rs. 16,75,000.

58. *Police*.—The estimate for 1888-89 provides for an expenditure of Rs. 47,12,000 against Rs. 48,29,000, the latest estimate for 1887-88. The estimate for 1887-88 includes a provision of about Rs. 80,000 for refunds of pound receipts wrongly credited in 1886-87. The original estimate of Rs. 47,12,000 for the current year, which is exclusive of the charges on account of the Salt Police in Orissa, but includes the salaries and contingencies of the force employed in cantonments, will be retained. The estimate makes no provision for the Police charges of the Eastern Bengal State Railway. As these charges have now been provincialized, a sum of Rs. 41,000 must be added to the original estimate. The estimate will therefore be raised to Rs. 47,53,000.

59. *Marine*.—The estimate as passed by the Local Government provided for an expenditure of Rs. 9,91,000. but the Government of India have reduced it to Rs. 9,60,000, the reduction being chiefly under the head of "Pilotage and Pilot establishment." Since the budget has been passed, an application has been received for a special allotment of three lakhs for the purchase of a new vessel to replace the *Undaunted*. As this vessel has been condemned, a provision of three lakhs will be made under this head to enable the purchase being made as soon as possible. The budget, as passed by Government, includes a provision of Rs. 3,000 to meet the anticipated deficit of the Balasore Port Fund. It appears that the Port Fund closed the year 1887-88 with a deficit of Rs. 22,829, and that no portion of the grant of Rs. 20,000 sanctioned to cover this deficit was drawn in 1887-88. It is also anticipated that the deficit for the year 1888-89 may amount to Rs. 7,036, so that the total amount required to cover the deficit during the current year will amount to Rs. 30,000, and a grant of this amount will be provided for under this head. The total grant for Marine will then stand at Rs. 13,18,000, of which Rs. 4,00,000 will be required for the purchase of two vessels to replace the *Cassandra* and the *Undaunted*.

60. *Education*.—The total Provincial expenditure on Education in 1887-88 will have amounted to Rs. 24,14,000, and the estimate for the current year, including an increased provision of Rs. 3,000 for the training of *gurus*, amounts to Rs. 24,16,000. This provision, it has been pointed out by the Director of Public Instruction, will not be sufficient to meet all the building grants to be made during the year, the increase of salaries of teachers and contingencies of the Art School in Calcutta, and the pay and establishment of two Mahomedan Assistant Inspectors whose appointment is under the consideration of Government. A sum of Rs. 30,000 will be added to the estimate originally passed, and the grant placed at Rs. 24,46,000 for the current year.

61. *Medical*.—The expenditure under this head has been estimated at Rs. 14,83,000. The estimate is susceptible of reduction with reference to the expenditure of 1887-88, which probably will not have amounted to more than Rs. 14,50,000. The estimate may be placed at Rs. 14,70,000, including a provision of Rs. 1,522 for grants to the Barrackpore and Dinapore Cantonments for two years, 1887-88 and 1888-89, on account of the vaccination and dispensary charges of the Cantonments, which the funds are unable to meet.

62. *Political*.—The political charges, exclusive of those connected with special Political missions and the maintenance of Political refugees and detenus, have been provincialized with an allotment of Rs. 21,000, with effect from the commencement of the current financial year. These charges for the current year are estimated at Rs. 21,000.

63. *Scientific and other Minor Departments*.—The estimate of Rs. 3,38,000 under this head includes a provision of Rs. 15,000 for the extension of the Palm-house and other miscellaneous improvements in the Botanic Gardens at Seehpore. As the expenditure is to be finally adjusted in the Public Works accounts, the grant will be removed from this head. The grant, on the other hand, will be increased by Rs. 1,000 to provide for incidental charges connected with the collection of specimens of Bengal arts and industries for transmission to the Poona Exhibition.

64. *Superannuation* charges may be taken to have amounted to Rs. 12,79,000 in 1887-88, and the estimate for the current year has been placed by the Government of India at a like amount. The figure will stand.

65. *Stationery and Printing*.—The expenditure under this head is estimated at Rs. 10,65,000 against Rs. 10,49,000, the amount probably expended in 1887-88. An increase of Rs. 4,464 on account of temporary establishment has been provisionally sanctioned for the Stationery and Form Branches. Increases are also anticipated under the heads of Stationery purchased in the country and Printing at Private Presses. The estimate of Rs. 10,65,000 will be retained.

66. *Miscellaneous*.—The estimate of Rs. 1,97,000 under this head has been raised to Rs. 2,17,000 to provide for a grant of Rs. 20,000 sanctioned to the National Association in aid of the funds raised by them for the construction of a zenana hospital in Calcutta.

67. *Famine Relief*.—A grant of Rs. 15,000 has already been sanctioned for gratuitous relief in Orissa. The sum will accordingly be entered under this head. It is however too early to assert with any certainty that this grant will not have to be increased, or to make any estimate of what may have to be expended on this account. Both from Orissa and from Behar the Lieutenant-Governor has recently received very gloomy anticipations, but it is even yet not too late for these to be falsified by a fall of rain.

68. *Railways*.—The estimates as passed by the Government of India, and recast by the Public Works Department of this Government, will be adopted except under 41—*Miscellaneous Railway Expenditure*, which has been raised from Rs. 70,000 to Rs. 93,000 to meet the cost of the survey of a line of railway from Sarai Station on the Tirhoot State Railway to Somastipore, and of a line from Durbhunga to Sitamarhce.

69. *Irrigation*.—The estimates as passed by the Government of India have been accepted by the Public Works Department of this Government, and will stand except that made under the sub-head of "Interest." The estimate under this sub-head will, as explained in paragraph 16 above, be reduced by Rs. 9,000. The estimate of the Government of India provides for a grant of Rs. 2,25,000 for the completion of the Orissa Coast Canal, but no allotment has been made to Provincial to meet this charge. The estimate of the work, which was taken into consideration at the time of the settlement of the last Provincial contract, was Rs. 41,16,200. A revised estimate for the work, amounting to Rs. 44,74,941, has been received, and is under consideration of the Public Works Department. When the decision of the Public Works Department on this estimate is communicated to the Financial Department, an application will be submitted to the Government of India for a special allotment to meet the excess charge. Pending the orders of the Government of India, no credit for an allotment will be taken in the budget.

70. *Civil Works*.—The grant for civil works by Public Works Department was fixed at Rs. 40,00,000. This has subsequently been reduced to Rs. 39,13,000 by the following additions and deductions:—

	Rs.
As originally fixed	40,00,000
<i>Add—</i>	
Grant for additional accommodation to the Bhowanipore Lunatic Asylum	13,196
Grant for the extension of the Palm-house of the Botanical Gardens, Sechpore	15,000
Grant for the construction of racks in the Court of the Judge of Burdwan	1,900
Grant for the repairs of the Hemtapara road in the Bhootan Dooars	1,500
For additions and alterations to the Custom House premises for the accommodation of Income-tax Office	4,098
	<hr/> 40,35,694
<i>Deduct—</i>	
	Rs.
Grant to the Baraset Board	1,136
Grant for increase of establishment in the Marine Branch of the Secretariat transferred to the Public Works Department	4,000
Grant to the District Board, Nuddea, for feeder roads to Majergram station of the Bengal Central Railway	2,500
Grant on account of transfer of roads to the 24-Pergunnahs District Board	82,163
Grant to the Jessore District Board	18,659
Grant to the Hooghly District Board	14,684
	<hr/> 1,23,142
Total grant	<hr/> 39,12,552
Or in round numbers	<hr/> 39,13,000

The estimate of civil works by the Civil Department amounts to Rs. 30,000. This will be raised by Rs. 2,000 to provide for the payment of Rs. 2,343 to the Patna Municipality for metalling the road connecting the Patna distillery with the Durgah road, and by Rs. 1,000 to meet an additional grant of Rs. 1,136 to the Burial Board sanctioned since the general estimate has been passed.

71. *Contributions*.—A grant of Rs. 10,63,000 was provided by the Local Government for contributions and grants to District and other Incorporated Local Funds. It will be sufficient if a provision of Rs. 7,30,000 is made under this head.

72. *Provincial Deficit*.—The opening balance of the year was Rs. 32,47,000. According to the estimate originally framed, it was expected that the year would close with a Provincial credit balance of Rs. 21,06,000. According to the estimate now adopted, the closing balance will be Rs. 22,92,000. The balance will thus be reduced by Rs. 9,55,000, and this represents the excess of the expenditure of the year over its receipts.

ORDER.—Ordered, that a copy of this Resolution be submitted to the Government of India, Department of Finance and Commerce, for information.

Ordered also, that a copy of the above Resolution be forwarded to the Board of Revenue, to all Commissioners of Divisions, to the Accountant-General, to the Inspectors-General of Civil Hospitals, Police, Jails and Registration, to the Director of Public Instruction, to the Conservator of Forests, to the Port Officer, Calcutta, to the Superintendent of the Botanical Gardens, and to all Departments of this Government for information.

By order of, the Lieutenant-Governor of Bengal,

COLMAN MACAULAY,

Secretary to the Government of Bengal.

BENGAL DISTRESS RELIEF FUND.

THE following correspondence is published for general information.

By order of the Lieutenant-Governor of Bengal,

P. NOLAN,

Dated 6th November 1888.

Secy. to the Government of Bengal.

No. 268T—R, dated Darjeeling, the 28th October 1888. .

From—P. NOLAN, Esq., Secy. to the Govt. of Bengal, Revenue Dept. (Famine),
To—The Honorary Secretary, Bengal Distress Relief Fund.

I AM directed to acknowledge the receipt of your letter, dated the 4th October 1888, forwarding, for the consideration and approval of the Lieutenant-Governor, a set of rules for the working of the Bengal Distress Relief Fund. In reply, I am to state that the Lieutenant-Governor entirely approves the rules, which appear to have been drawn up by the Trustees with much care and judgment.

2. Some applications have already been made by the Government to the Trustees for funds to be spent on relief of distress, and it will probably be necessary to forward similar requests hereafter.

3. This correspondence will be published in an early issue of the *Calcutta Gazette*.

BENGAL DISTRESS RELIEF FUND.

Dated Calcutta, the 4th October 1888.

From—S. E. J. CLARKE, Esq., Honorary Secretary, Bengal Distress Relief Fund,
To—The Secretary to the Government of Bengal, Revenue Department.

THE Trustees of the Bengal Distress Relief Fund direct me to submit, for the consideration and approval of His Honour the Lieutenant-Governor, a body of rules for the working of the Fund, prepared by the Honorary Secretary, and passed by them at their meeting on Monday last, 1st October; and in doing so, to explain to His Honour the circumstances which have called for such action on the part of the Trustees.

Hon'ble H. J. Reynolds, Officiating
Chairman.
Sir A. Wilson, Kt.
Hon'ble Rajah Doorga Churn Law,
C.I.E.
H. W. Hallott, Esq.

In submitting with my letter of 22nd of July 1886 the report of the general operations of the Inundations Distress Relief Fund, the Committee of that Fund suggested that the balance of the Fund should be invested so as to form the "nucleus of a Distress Fund, to be applied promptly on the occurrence of such calamities as famines or inundations in Bengal." This suggestion commended itself to His Honour Sir Rivers Thompson, who was pleased, in your No. 1964—67Fam., dated 16th August 1886, to accord to it his sanction. His Honour also approved of a further suggestion made by the Committee that the Distress Relief Fund thus formed should be under the management of four Trustees, that is, a Member of the Board of Revenue, the President of the Bengal Chamber of Commerce, the President of the British Indian Association, and the Master of the Calcutta Trades' Association. Of the Board thus formed, it was ruled that the Member of the Board of Revenue, in charge of the Miscellaneous Revenue Department, should act as Member and as President of the Board.

The suggestion of the Committee thus approved by the Lieutenant-Governor was confirmed by a general meeting of the subscribers to the Fund held on the 27th August 1886. Since then the operations of the Fund have been confined to the recovery of balances from the various districts to which grants had been made. The position of the Fund is as under:—

Government securities to the value of Rs. 20,000 purchased on the 14th April 1886.

Similar securities to the value of Rs. 4,000 purchased on 27th July 1887.

Cash in hand at date Rs. 5,711-12-1.

On the 1st of November next, interest will accrue to the amount of about Rs. 466, so that in round numbers the Fund may be taken to amount to Rs. 30,000.

Fortunately, during the past two years, no occasion has arisen to call for the assistance of the Fund. Of late, however, the accounts in the public papers and the publication of various district reports in the *Calcutta Gazette* appear to show that unhappily severe distress may be experienced at different points in the provinces under the administration of His Honour. Should an appeal to the public become necessary, it appeared to be desirable to have ready at hand a machinery capable of expanding, at short notice, to the proportions of a general charitable movement. At the same time the existence of what the Trustees hope may prove a permanent fund for the relief of distress suggested the expediency of placing before District Officers the details of the organisation of the fund as a useful guide, should it be necessary for them to supplement local efforts for relief, or to seek for outside help and

There is another side of the matter which has not escaped the attention of the Board of Trustees. If the Fund be placed upon the basis of a recognised public institution, it will, at all times, commend itself to the attention of the generous and charitably disposed amongst the public generally, and besides receiving subscriptions at special times of crisis may also at any time be strengthened by donations, either in cash, or by gift, by will or otherwise. Thus in adopting the rules now submitted, the Trustees have had an equal regard to future as well as present possible contingencies.

In commending the rules to His Honour's favourable consideration, I am to say that if, in His Honour's opinion, occasion has arisen for the services of the Distress Relief Fund, the Trustees are prepared to act on the power given them under the rules of granting immediate relief, or of forming a general movement to aid existing distress, as His Honour may consider best suited to present circumstances.

In conclusion—and should His Honour approve the rules as submitted—I am to solicit the favour of their being published, together with this letter and His Honour's reply, in an early number of the *Calcutta Gazette*. Further, should it be necessary in Sir Stuart Bayley's opinion to make immediate grants from the Fund, I am to ask that the Board in making such grants may have the advantage of consulting with yourself as to their extent and application.

BENGAL DISTRESS RELIEF FUND.

Draft of proposed Rules passed at a Meeting of the Board of Trustees held on Monday, 1st October 1888.

NAME.

1. This Fund shall be known as the Bengal Distress Relief Fund.

OBJECT.

2. The object of the Fund shall be the alleviation, by grants of money or otherwise, of well authenticated distress from inundations, failure of the crops, or other general cause in any portion of the territories administered by His Honour the Lieutenant-Governor of Bengal.

FUNDS.

3. The Bengal Distress Relief Fund shall consist—*first*, of the unexpended balance of the Inundations Distress Relief Fund of 1885; *second*, of the unexpended balances of grants to the various districts made from this Fund and recovered from the districts; and, *third*, of subscriptions received from time to time from generous and charitably disposed persons, or in response to a general appeal to the sympathies and aid of the public at large.

4. The Fund being so far as possible a permanent fund, subscriptions and donations in its aid will be thankfully received at any time and duly acknowledged in the public newspapers.

5. When not required for the active relief of distress, the moneys of the Fund shall, to as large an extent as possible, be invested in the purchase of Government securities, which securities shall remain in deposit with the Bank of Bengal.

6. Funds for the immediate work of relief shall be provided at the discretion of the Trustees in the case of need arising by the sale of a portion of the securities belonging to the Fund.

7. When an Executive Committee, as hereinafter provided for, shall have been formed, it shall be within the competency of such Committee to exercise the power conferred on the Trustees by the preceding rule.

8. If subscriptions and donations provide funds sufficient for relief operations by the Executive Committee, resort shall not be had to the investments of the Fund which, as a rule, shall be regarded as a means for affording prompt relief in cases of emergency and at the outbreak of distress, and in all other cases as a reserve to secure the permanency of the Fund.

9. As soon as a General Committee shall be formed, it shall be its first duty to invite aid from the general public.

10. All subscriptions and donations to the Fund shall be deemed to have been made in aid of its objects generally.

CONSTITUTION.

11. When, happily, there is no distress requiring the active operations of the Fund, its control shall be vested in a body of four Trustees, namely, the Member of the Board of Revenue for the Lower Provinces of Bengal, in charge of the Miscellaneous Revenue Department, the President of the Bengal Chamber of Commerce, the President of the British Indian Association, and the Master of the Calcutta Trades' Association, and the first of these shall be *ex-officio* Chairman of the Board.

The Secretary of the Bengal Chamber of Commerce may, with the permission of that body, act as Secretary to the Fund, and in case of his not so acting, the Trustees may appoint the Secretary of any of the other public bodies named above Honorary Secretary of

12. When the Government of Bengal shall notify to the Board of Trustees the existence in any part of the Bengal Provinces of distress requiring assistance from the Fund, the Board shall, at a meeting of the leading members of the different communities, to be called by the Chairman, appoint a general Committee to be called the "General Committee of the Bengal Distress Relief Fund." Such Committee shall consist of any number, not exceeding fifty (50) of the principal citizens of Calcutta, and a number, not exceeding fifty (50), of the leading residents of the mofussil.

13. As soon as the General Committee shall have been appointed, it shall hold a meeting and appoint an Executive Committee of not less than seven, or more than eleven members including the Chairman.

14. The General Committee may, at its discretion, call at any time a public meeting to interest the general body of the public in the work of the Fund, or for any other purpose connected with relief operations.

15. It shall be within the power of the General Committee to call for and receive from the Executive Committee such reports as may be necessary of the operations of the Fund. All reports so received shall be submitted for the approval of His Honour the Lieutenant-Governor of Bengal.

16. As a rule, during the continuance of distress, the General Committee shall meet at least once in every month. Ten members of the General Committee shall form a quorum.

17. The Chairman of the Board of Trustees shall be *ex-officio* Chairman of the General and Executive Committees.

18. The Executive Committee shall meet during the continuance of distress once a week, and shall be vested with full powers to carry on, at its discretion, the work of relief by means of grants to district and sub-divisional authorities, local bodies, or individuals as may appear best suited to accomplish the end in view. Five members of the Executive Committee shall form a quorum.

19. The Executive Committee shall present to the monthly meetings of the General Committee an abstract of the relief work done during the month, and, so far as possible, an estimate of assistance still to be required of the Fund.

20. The Executive Committee shall at intervals of six months, if the work of relief shall continue for any lengthened period, draw up and submit to the General Committee a report of the operations of the Fund.

21. On receiving from the Government of Bengal intimation that the need for relief has passed away, the operations of the Fund shall be closed, a final report drawn up by the Executive Committee, and the Executive and General Committees shall then be dissolved, the management of the Fund reverting to the Board of Trustees as provided for in Rule 11.

22. Vacancies on either of the Committees shall be filled up by the General Committee.

RELIEF.

23. All applications, except in Calcutta, from public bodies or individuals, must be authenticated by the nearest civil authority. As a rule, the Fund will not make grants except to officers in charge of districts or sub-divisions. Exceptions may be made in special cases, and where such exceptions will not interfere with the relief operations of local authorities.

24. All applications for relief should state, besides the character and causes of the distress, the manner in which it is proposed that relief shall be given, and the character and extent of any local public work it is proposed to undertake.

25. Relief may take the form of supplies of food or seed-grain on the special requisition of any local authority. But, ordinarily, the relief shall be by grants from the Fund payable with the sanction of the Local Government through the various treasuries.

26. With the previous sanction of the Local Government, arrangements may be made with the Accountant-General of Bengal to afford relief in urgent cases by a telegraphic remittance from that officer.

27. Local authorities who may receive relief shall submit a monthly report of their relief operations to the Executive Committee.

28. Grants for relief shall not be expended in any other way than that indicated in the application upon which the grant has been made.

GENERAL.

29. The accounts of the Fund shall be audited by the Auditors of the Bengal Chamber of Commerce.

30. Notwithstanding anything provided in the above Rules, it shall be within the authority of the General Committee at their discretion, and in case of distress occurring in any Indian Province other than Bengal, to make a grant-in-aid of relief operations in such province of a sum not exceeding one-fourth part of the total available monies at their disposal. Such grant shall be in recognition of aid received during past calamities by Bengal from her sister provinces, and as a mark of her sympathy with the sufferings of the people of those provinces.

31. Should there happily be no General Committee of the Fund, and no distress in Bengal, then the power provided for in the foregoing section shall be exercised by the Board of Trustees at their discretion under the sanction of His Honour the Lieutenant-Governor of Bengal.

S. E. J. CLARKE,
Honorary Secretary.

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the crops in the different districts of Bengal, as reported to Government, during the week ending the 3rd November 1888.

No.	District and date of return.	Rainfall at Sudder Station in inches.	Character of the weather and state and prospects of the crops.
BENGAL.			
<i>Western Districts.</i>			
BURDWAN DIVN.	1 Burdwan Nov. 3, '88	Nil	Weather—warmer than last week. The clouds that raised hope of rain at the beginning of the week have passed away. Price of common rice in Culna and Rancegunge has risen to 1½ seers per rupee; elsewhere it is still about 16 seers.
	2 Bankoora „ 3, '88	Nil	Weather—hot and cloudy. <i>Amun</i> suffering for want of moisture; so is sugarcane. Fields are being prepared for the sowing of <i>rubbi</i> crops. Irrigation is, however, going on. New coarse rice now selling at 17½ seers per rupee.
	3 Birbhum „ 3, '88	Nil	Weather—hot for the season. There has been no rain and the prospects of the <i>amun</i> crop are very poor.
	4 Midnapur „ 3, '88	Nil	Weather—cloudy and close, but no rain. Crops on high lands suffering severely from drought. The canal-irrigated crop is doing well, but many leases could not be renewed on account of the supply failing. In Tumlook the crop, where not destroyed, promises to be from 8 annas to 12 annas.
	5 Hughli „ 3, '88	Nil	Weather—cloudy and hot. The continued absence of rain during the week has seriously affected the prospect of the winter rice crop, which is now certain to be a short one, especially in Jehanabad. If rain falls during next week it may still do good.
PRESIDENCY DIVN.	Howrah „ 6, '88	Nil	Weather—cloudy and not so cool as it should be; but rain holds off. Rain urgently wanted, or the paddy crop will be almost wholly lost.
	<i>Central Districts.</i>		
	6 24-Pergha. Nov. 6, '88	Nil	Weather—cloudy every day, but no rain. Rain is much wanted for the rice crops on the higher lands; already much injury has been done.
	7 Nuddea „ 3, '88	Nil	Weather—cool and dry; rain everywhere wanted. Prospects of <i>amun</i> not so good in Ranaghat for want of rain, poor in Sudder and Kushtea, and fair in Meherpore and Chuadanga. Cultivation of cold-weather crops goes on. Price of common rice much risen in Sudder and Kushtea. In Sudder it sells at Rs. 3-2 per maund. In Meherpore, Chuadanga and Ranaghat the cheapest rice is selling from Rs. 2 to Rs. 2-4 per maund.
	8 Khoolna „ 3, '88	Nil	Weather—seasonable. Rain is wanted for all crops now standing.
	9 Jessore „ 3, '88	Nil	Weather—seasonable. Rain badly wanted for <i>amun</i> and <i>rubbi</i> crops.
	10 Moorshedabad „ 3, '88	Nil	Weather—slightly cloudy at times. <i>Amun</i> greatly suffering for want of rain. <i>Rubbi</i> sowings commenced, but require moisture.
	11 Dinagepur „ 3, '88	Nil	Weather—fine and clear. The average outturn of the winter rice for the whole district is not expected to exceed 8 annas, will probably be less, but rain in the course of the next week will make a difference. In some places the crop has failed entirely.
	12 Rajshahy „ 3, '88	Nil	Weather—cold at nights. Rain urgently wanted. Rice sells at an average of 15 seers per rupee.
	13 Rangpur „ 3, '88	Nil	Weather—seasonable. There is no improvement in the prospects of the <i>amun</i> crop, and it is certain that the outturn will fall considerably below the average.
RAJSHAHY DIVN.	14 Bogra „ 3, '88	Nil	Weather—cloudy throughout early part of week. Rain badly wanted. <i>Amun</i> suffering. Sugarcane excellent. Jute good.
	15 Pubna „ 3, '88	Nil	Weather—hot and cool at night. Rain much needed for the benefit of the <i>amun</i> paddy on low land. Prospect of other crops appears good.
	16 Darjeeling „ 3, '88	Nil	Weather—fair. Rain much wanted for the winter crops. Price of rice going up.
	17 Julpigoree „ 4, '88	0-17	Weather—seasonable. <i>Haimanti</i> paddy suffering for want of rain. Transplantation of tobacco going on. Mustard is being sown. Sugarcane good. Common rice sells at the Sudder station at 16 seers per rupee.
	<i>Eastern Districts.</i>		
DACCA DIVN.	18 Dacca Nov. 3, '88	Nil	Weather—fine and seasonable. Ploughing for winter crops going on. Peas and mustard are being sown in some parts of the district. <i>Amun</i> paddy has commenced to ripen. Prospects good.
	19 Furreedpur „ 3, '88	Nil	Weather—seasonable. Prospects of crops continue to be fair, but want of rain is beginning to be somewhat seriously felt.
	20 Backergunjo „ 2, '88	Nil	Weather—very warm for the time of year. Prospects of crops fair. Rain is much wanted.
	21 Mymensingh „ 2, '88	Nil	Weather—seasonable. Prospects of crops good.

No.	District and date of return.	Rainfall at Sudder Station in inches.	Character of the weather and state and prospects of the crops.
BENGAL—concluded.			
<i>Eastern Districts—concl.</i>			
CHITTAGONG DIV.	22 Chittagong	Report not received.
	23 Noakholly Nov. 2, '88	Nil	Weather—seasonable; cloudy last two days. <i>Amun</i> generally doing well. Land is being prepared for <i>rubbi</i> crops. Rain will improve prospects.
	24 Tipperah „ 1, '88	Nil	Weather—seasonable. The rice crop is very good, but would be all the better in places for a little rain. A beginning is being made with cold-weather cultivation.
	25 Chittagong Hill Tracts. Oct. 30, '88	Nil	Weather—foggy in the morning and hot at noon. Cotton ripening in pod. Paddy in low lands flowering, but rain much wanted. Prospect of paddy not good.
	Hill Tipperah „ 31, '88	Nil	Weather—unsettled; sky rather cloudy. Prospects of paddy fair. Cotton and <i>til</i> being gathered.
BEHAR.			
PATNA DIV.	26 Patna Nov. 3, '88	Nil	Weather—fair. Paddy crop withering for want of rain except on canal-irrigated land. <i>Rubbi</i> sowings retarded. Prices of all food-grains risen 3 to 4 seers per rupee during the last fortnight.
	27 Gya „ 3, '88	0.40	Weather—cooler. It has rained only in a small area and in scattered places. Paddy is tolerably good in low lands, but has withered in uplands. Rain badly wanted even for <i>rubbi</i> sowing.
	28 Shahabad „ 3, '88	Nil	Weather—bright and clear; mornings and evenings cool. Paddy crop is a failure except in places where canal water is available. <i>Rubbi</i> sowings still continue, but much retarded owing to absence of moisture. Rain urgently wanted. Prospects are generally gloomy. Prices rising.
	29 Durbhanga „ 3, '88	Nil	Weather—clear and getting cool. The unirrigable high land rice will fail this year. It is withering and being cut for fodder. <i>Rubbi</i> sowings slightly going on, but no moisture in soil. Prices rising daily.
	30 Mozufferpur „ 3, '88	Nil	Weather—cool in the mornings and evenings, hot during the day; occasionally cloudy. <i>Rubbi</i> sowings progressing. Rain urgently wanted for <i>rubbi</i> as well as for paddy. Prices of food-grains rising.
	31 Sarun „ 3, '88	Nil	Weather—clouding over, but no rain; rather warm again. <i>Rubbi</i> sowing continues. Sowing of poppy is in full progress. Paddy is suffering for want of rain; the outturn, however, will not be less than 8 annas.
	32 Chumparun „ 3, '88	Nil	Weather—cool and fair. Rice greatly damaged for want of rain. Prospects decidedly bad. <i>Rubbi</i> sowings germinating fairly in the Bettiah sub-division. Prices fluctuating. Rain indispensably necessary.
	33 Monghyr Jamui „ 3, '88	0.72	Weather—days hot; nights cool; occasionally cloudy, but no rain. Prospects of both winter rice and <i>rubbi</i> crop; have much improved in the greater portion of the Jamui sub-division where there was rain during the week, elsewhere prospects very critical for want of rain. Prices of food-grains steady.
	34 Bhagulpur „ 3, '88	0.06	The clouds have cleared off. In a few villages, in the west the rain of 29th was rather heavier than at the Sudder and did good. The high land rice is now beyond improvement. In the north sub-division the late rice can scarcely yield more than a 4 or 5-anna outturn all round; in the other three sub-divisions there is still a hope of 7 or 8 annas. <i>Rubbi</i> sowings still retarded, and grubs have done some harm to sowings already made in places.
	35 Purneah „ 3, '88	Nil	Weather—a little warmer than seasonable. Standing crops on high lands gone completely; on low lands the present prospects range from 6 to 8 annas. Common rice 10 to 15 seers per rupee.
BHAGULPORE DIV.	36 Maldah „ 3, '88	Nil	Weather—getting colder. The winter rice crop on high lands is withering for want of rain. Spring crops being sown. Price of rice a little better than last week.
	37 Sonthal Perghe. „ 3, '88	1.24	Weather—still cloudy, but growing colder. Rain fell throughout Deoghur sub-division and in most parts of Doonka sub-division. Winter rice reported safe, though a moderate crop everywhere except in Rajmahal. In Doonka and Deoghur it will be good. <i>Rubbi</i> sowing will now begin.
	Deoghur ...	1.31	
	Jamtara ...	Nil	
ORISSA.	Pakur ...	0.05	
	Rajmahal ...	Nil	
ORISSA DIV.	38 Cuttack „ 2, '88	Nil	Weather—cloudy occasionally. <i>Sarad</i> rice-plants, except on the canal banks, are greatly suffering for want of rain. People are busily engaged in irrigating their fields. Price of rice rapidly rising. The state of things at Banki and Kaurika is worse, but various works of relief have been opened.
	39 Poree Khoorda „ 1, '88	1.43	Weather—cloudy with occasional drizzling towards the end of week. The <i>sarad</i> crop is dying in most parts of the district for want of rain. Sufficient rain is urgently wanted. The state of the late <i>laghu</i> is critical. Common rice is selling at 15 seers 8 chittacks per rupee in the Sudder sub-division and 13 seers 4 chittacks in the Khoordah sub-division.
	40 Balasore „ 2, '88	0.03	Weather—cloudy. Much of the <i>sarad</i> rice in low lands was destroyed by floods in August and September, that on the high lands is now fast withering for want of water. If no rain falls within a week there will be scarcity. Prices rising rapidly everywhere, and are now from 30 to 50 per cent. higher than at corresponding period of last year.

No.	District and date of return.	Rainfall at Sudder Station in inches.	Character of the weather and state and prospects of the crops.
CHOTA NAGPORE.			
<i>South-West Frontier Agency.</i>			
CHOTA NAGPORE DIV.	41. Hazaribagh Nov. 2, '88	0.80	Weather—cloudy. Prospects improved by rain of the 28th and 29th ultimo. <i>Rubb.</i> sowings in full swing. More rain wanted in parts. Prices unchanged. Cattle-disease in thannas Burbi, Giridi, and Khurrukdiha.
	42. Lohardugga „ 3, '88	0.42	Weather—cloudy. Slight rain during the week, more urgently wanted. Prospects of crops not favourable. Prices rising. <i>Rubb.</i> sowing retarded for want of rain.
	43. Singbhoom „ 2, '88	Nil	Weather—still cloudy, but no rain. No change in the prospects. It is doubtful whether rain would do any good now. 4 annas of the winter rice may be looked upon as lost. No further damage anticipated. Cattle-disease reported from different parts of the district.
	44. Manbhoom „	Report not received.

CALCUTTA, the 6th November 1888.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE WEEK ENDING FRIDAY, THE 2ND OF NOVEMBER 1888.

THE principal point of interest in the meteorology of the past week has been the formation of a severe cyclone in the Bay of Bengal and its subsequent advance over Madras. At the close of the previous week, fine weather prevailed in Bengal and at the head of the Bay, and conditions were favourable for the setting in of the north-east monsoon. In the centre and south of the Bay a moderate monsoon only was blowing, north-easterly winds being generally reported on the Madras coast, and moderate to heavy rain at most of the coast stations. Conditions were to a great extent unchanged on the 27th, except that winds on the Madras coast became more westerly, and the area of heaviest rainfall was transferred to Ceylon. On this day there were no signs whatever of the formation or existence of any storm in the Bay. On the 28th there was a considerable increase in the wind velocities at the stations in the east of the centre of the Bay, and pressure began to fall briskly along the Madras coast, but still there was no evidence of the existence of any depression in the Bay. Almost similar conditions continued on the 29th, and it is evident that a depression was forming to the west of the centre of the Bay, though the west coast stations still showed no signs of its existence. On the morning of the 30th, the wind directions on the Madras coast from Vizagapatam southwards appeared to form part of a cyclonic circulation, while the Ceylon stations commenced to show a rather powerful indraught. The centre of the depression, as judged by the coast observations on this day, was some distance off the coast to the east or east north-east of Madras. During this day the storm rapidly intensified, and by Wednesday morning, the 31st October, it was a well-defined cyclonic storm, the centre of which was perhaps 80 or 100 miles to the east of Madras. The cyclone during the Wednesday continued to drift towards Madras, and the centre passed almost over that station at about 10 p.m. on this day, when a pressure slightly below 29 inches was recorded. The cyclone was an exceedingly fierce one, and must have done much damage, but the main force of the storm, so far as observations have been received, appears to have expended itself near Madras, and the central calm passed probably only a few miles to the south of that station. A severe gale of wind with high sea, however, prevailed along the whole of the west coast from Coconada southwards, though the storm does not appear to have made itself much felt as far south as Negapatam. The cyclone on striking the coast was apparently moving almost due westerly, and it rapidly advanced inland quite unbroken; and at 8 a.m. of the 1st November, the centre was not far from Cuddapah; while on the morning of the 2nd, the storm had advanced across the Peninsula, and the centre was crossing the west coast near Mangalore into the Indian Ocean. In its advance across the Peninsula, the storm gave cyclonic winds, and very heavy rain, which disturbed conditions, afterwards commenced to drift in a northerly condition. The subsequent line of advance of the storm, however, and its effect on the weather in Northern India and in Bengal, belong to the meteorology of the subsequent week.

Directly the storm was known to have formed off the coast, that is on Tuesday morning, the 30th instant, information of the fact was telegraphed to the Madras ports, and on Tuesday evening these ports were informed that the cyclonic storm was of considerable intensity, and that it would probably strike the coast close to Madras, though perhaps a little to the north of it. Further warnings of similar character were also telegraphed to these ports as the storm advanced towards, and finally crossed the coast.

The disturbed conditions brought about by the storm were very general, and they affected the weather even as far as Orissa; and from the 30th and 31st rain showers became rather frequent, particularly in the southern districts of Pooree and Cuttack; but up to the close of the week the effects of the cyclone had not made themselves felt in any way in South Bengal, beyond the fact that the sky had commenced to cloud over.

The only other facts of importance in the meteorology of the week have been the occurrence of fairly general rain in the South Bhagulpur, Sonthal Pergunnahs, and Hazaribagh districts, and of showers in Lohardugga, Manbhoom, Monghyr, Shahabad, Gya, Julpigoree and the Darjeeling Hills districts.

Pressure.—The variations of pressure during the week have been unimportant, and the cyclonic storm in the Bay has been too far to the south to do more than very slightly affect the pressures in the extreme south of the province. Pressure has thus been in excess of the normal in all districts, the excess ranging from about 0.06 inch in the north-west of the province, and at Dacca to one of 0.03 inch in Orissa. The mean excess for the week for the whole province is equal to about 0.05 inch. In Assam the excess pressure has been equal to about 0.03 inch.

Temperature.—Has been decidedly above the normal almost throughout the week. The mean temperature for the week for all districts has been no less than 2.3° in excess of the normal; while in South-West Bengal, South Behar and Chutia Nagpur, the excess has been about 3°. In Assam an excess temperature of 1° only is recorded.

Rainfall.—Has been absent in South-West and East Bengal, and in North Behar, and practically absent, in North Bengal. In Orissa and Chutia Nagpur, though the falls have been irregularly distributed, they have averaged four-tenths of an inch, and in South Behar, though the falls have been very local and irregular, they have averaged 0.21 inch for the district. In Chutia Nagpur this fall is considerable for the period, while in South Behar the amount is almost normal. In Orissa, on the other hand, the actual fall is less than half the amount which is normally due.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the province for the week ending Friday, the 2nd of November 1888 :—

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h., 10h., 16h., and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the New Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o overcast, = fog, > dew.

MEMORANDUM.

DURING the week ending 13th October 1888, the principal Municipalities in Bengal (excepting Chittagong and Mozufferpore, from which no data have yet been received), returned the birth and death-rates of 18·6 and 26·6 per 1,000 of population, respectively, against 24·5 and 31·7 per 1,000, respectively, in the preceding week, showing a large reduction in the registration of both the events.

2. The following Municipalities returned the highest proportions of births and deaths :—

<i>Births.</i>				<i>Deaths.</i>			
			Ratio per mille.				Ratio per mille.
Beaulah	42·0	Gya	68·3

Comillah	38·5	Comillah	46·2
Durbhanga	34·8	Monghyr	38·9
Serampore	33·4				
Darjeeling	32·6				

3. The subjoined table gives the death-rates from the principal diseases. The figures denote that, as compared with the results of the preceding week, there was an abatement of mortality from all the diseases excepting small-pox, and injury :—

Europeans in the Municipalities were recently taken, for the census of this section of the community, taken in February 1931, was not reliable owing to the Europeans being at a minimum in that month. The number of the natives as necessary to represent them. The ratios have consequently been calculated on the revised population under all heads in the above table, except "Age," the ratios under which have been omitted, inasmuch as the census of the Europeans is based on a basis of calculation owing to the results of the census under this head not having been recorded under the authorized form of age classification.

AFRICA—EAST.

RED SEA—EASTERN SHORE.

Kamarán Bay—Reef off Southern Entrance.

THE British Admiralty has given notice (Notice to Mariners No. 318 of 1888) that information has been received through the Board of Trade that on the 1st August 1888 the British steam vessel *Bussorah*, when entering Kamarán Bay by the South Channel, struck on the southern side of the entrance:—

The bearings given for the position of the vessel when aground in 3 fathoms water, are as follows:—

Northern extreme of Ras-el Bayádh—N. $61\frac{1}{2}^{\circ}$ E.

Southern extreme of Ras-el Bayádh—S. $8\frac{3}{4}^{\circ}$ W.

South-west extreme of Kamarán Island—N. $47\frac{1}{4}^{\circ}$ W.

As the southern entrance to Kamarán Bay has previously been reported to be narrower than shown on the plan, it appears probable that the shore reef outside Ras-el Bayádh is wider than given on the chart, and Mariners should use caution in entering.

NOTE.—In the caution printed on chart No. 14, the word “not” is omitted from the second paragraph, which should run as follows:—When there is any wind the reefs are not easily seen.

(The bearings are magnetic. Variation $3\frac{1}{4}^{\circ}$ Westerly in 1888).

AFRICA—EAST COAST.

RED SEA.

Shoal ground south-eastward of the Zebayir Islands.

THE British Admiralty has given notice (No. 306 of 1888) that in the course of a recent examination of the southern part of the frequented channel of the Red Sea by Her Majesty's Surveying vessel *Sylvia*, a sounding of 14 fathoms over rock was obtained to the south-eastward of the Zebayir Islands, in Lat. $14^{\circ} 57' 15''$ N., Long. $42^{\circ} 20' 25''$ E.

No shoaler water was found, but as the spot has not been completely examined, it should be avoided, and ships should not pass eastward of the Zebayir Islands.

the Governor-General in Council proposes to make the following rules: and any alterations that may be proposed, or suggestions that may be made concerning them, will be considered by the Governor-General in Council within one month from the date of the first publication of the rules in the Gazette:—

[*Note.*—The following rules do not modify or affect the rules relating to the pilgrim traffic between India and the Red Sea ports contained in the Notification of the Department of Finance and Commerce, No. 986, dated the 15th February 1884, or any other subsequent notifications or rules concerning the said traffic issued in modification of the said notification.]

A.—Food, fuel, and water.

I.—(1). In the case of every ship to which the said Act applies, the scale on which food, fuel, and water are to be supplied to the passengers per head per diem shall, subject as regards food to the provisions of section 17 of the Act, be as follows:—

					For passengers bound for ports within 48 hours' sail.	For passengers bound for ports over 48 hours' sail.
(a) Food of fair quality—						
Rice	1 lb.	1 lb.
Flour or ship's biscuit	4 oz.	4 oz.
Pulse	4 oz.	4 oz.
Ghee or oil	$\frac{1}{2}$ oz.	1 oz.
Onions	2 oz.	2 oz.
Pumpkins, yams, or other vegetables	2 oz.	2 oz.
Tamarind	1 oz.	1 oz.
Condiments (chillies, garlic, coriander seed, and turmeric)	$\frac{1}{2}$ oz.	$\frac{1}{2}$ oz.
Salt	$\frac{1}{2}$ oz.	$\frac{1}{2}$ oz.
(b) Fuel—						
Firewood	2 lbs.	2 lbs.
(c) Water—						
Fresh water to be stored in iron tanks or sweet casks	1 imperial gall.	1 imperial gall.

[*Note.*—In the case of ships sailing from ports in the Presidency of Madras, the scale of tamarind, condiments, and salt shall be double that specified above, and one ounce of tamarind shall be supplied in the case of passengers bound for ports within 48 hours' sail.]

(2). In the case of steam-ships carrying an apparatus for distilling fresh from salt water a supply equal to five-sevenths of a gallon per head per diem shall suffice.

(3). In Calcutta, Bombay, and Rangoon such water shall be obtained from the municipal pipes, and in Chittagong from the port water-works.

B.—Medical stores and other appliances and fittings for maintaining health, cleanliness and decency.

II.—(1). Every such ship shall have on board—

(a) if she carry a surgeon, a supply of medicines and surgical appliances as set forth in Schedule A hereunto annexed;

(b) if she do not carry a surgeon, a supply of medicines and appliances as set forth in Schedule B hereunto annexed, together with written or printed instructions for their use in a language which the commander or some other officer of the ship can read; provided that, if the ship is about to commence a "short voyage" only as defined by section 5 of the Act, the ship need only have on board the medicines and surgical appliances mentioned in Schedule C hereunto annexed.

(2). The medicines and surgical appliances above specified shall be supplied for the use of the passengers whenever circumstances so require; and if the medical officer, or, where there is none, the master of the ship, omits, when circumstances so require, to supply the same, he shall be punished with fine which may extend to two hundred rupees.

III.—(1). Every such ship carrying more than one hundred passengers as defined in the Act shall have the following hospital accommodation, or the following materials for the construction of hospital accommodation, for the passengers:

A.—In the case of ships making long voyages.

(a) There shall be a permanent hospital set apart on the upper deck and fitted up either in the poop or deck-house. This hospital shall contain not more than six bunks, and shall have a superficial deck area of at least 144 feet and not less than 86½ cubic feet of air space. It shall be lighted and ventilated to the satisfaction of the surveying officers, and shall be provided with a raised floor or platform at least four inches off the deck. Every permanent hospital must be made as secure as any other deck-house, and the roof must be well caulked and covered with painted canvas. In all such permanent hospitals, iron fittings are preferable to wood. No case of small-pox, cholera, yellow fever, or plague shall on any account be treated in the permanent hospital.

(b) To provide for the treatment of such cases of sickness as it may be considered desirable to separate (such as small-pox, cholera, yellow fever or plague), and for any general outbreak of sickness when the permanent hospital accommodation becomes insufficient, each ship shall carry the materials for the construction of a temporary hospital upon its upper deck. The part of the upper deck upon which such hospital shall be erected shall be pointed out and measured off by the surveying officers. The framework of the hospital may be either of iron (in pieces that can be easily fitted together) or of wooden spars or bamboos. The roof must be taut, and both that and the side walls must be made of stout canvas and be perfectly water-tight, due provision being at the same time made for ventilation. The superficial area of the floor shall be not less than 144 feet, and such floor shall be raised at least four inches from the deck. Sheet, iron is preferable as the material of the floor.

B.—In the case of ships making short voyages.

(c) Each ship shall carry the materials for the erection of a temporary hospital, as described in clause (b) above, for the treatment of cases of the kind referred to in the said clause, provided that the superficial area reserved for such hospital need not be more than 72 feet. This space must always be deducted from the area measured for passengers on board of such ships.

(2). The permanent hospital, in the case of ships provided with the same, shall be available at all times for the use of sick passengers (other than those suffering from small-pox, cholera, yellow fever, or plague), and the temporary hospital shall always be erected at once and made available for the use of sick passengers whenever the circumstances as described above so require.

(3). If the master of any ship omits either to keep any hospital available for the use of sick passengers, or to erect a temporary hospital as required by this rule, he shall be punished with fine which may extend to two hundred rupees, and with a further fine of twenty rupees for every day after the first during which the omission continues.

IV.—(1) Every such ship shall be fitted with not less than two privies sufficiently screened from public view and readily accessible and available at all times for the use of the passengers, and with one more such privy for every 100 passengers, or part of that number, carried in excess of 100 ; but no privies shall be allowed in the between-decks.

(2). A proportion of such privies, in any case not less than one, if there be any females among the passengers, shall be set apart for the exclusive use of females, such proportion corresponding, as nearly as may be, to the proportion of female to male passengers.

V.—Every such ship shall be provided with, and have available for the use of the passengers, not less than two places for washing sufficiently screened from public view, whereof a full proportion, as described in Rule IV, shall be set apart exclusively for females. A sufficient number of hand-pumps shall also be provided for supplying sea-water for purposes of ablution.

VI.—On every such ship cattle shall be kept securely penned in, so as not to inconvenience the passengers.

VII.—(1). Every such ship shall be provided with not less than two cabooses or cooking ranges on deck, properly housed and covered, to which passengers shall have ready access at certain times in each day. The ranges shall be made of substantial plate-iron lined inside with bricks, and raised at least four inches from the deck, with an outlet or chimney at the top for the escape of smoke. Each range shall contain at least five cooking places, and an additional range shall be provided for every two hundred passengers carried in excess of one hundred. Cooking on board in the passengers' own stoves is prohibited, and any passenger so cooking or attempting to cook shall be punished with fine which may extend to one hundred rupees.

(2). The crew of the ship shall not be allowed to use the cooking ranges set apart for passengers during the period passengers are on board, but shall be provided with a separate cooking range.

(3). In the case of ships engaged in the coasting trade and carrying passengers on short voyages from port to port, who do not ordinarily cook food on board, the number of cooking ranges may be reduced to such number, not being less than two, as may seem adequate to the requirements of the passengers.

VIII.—The master of any ship omitting to keep any privy, washing place, or cooking range available for the use of the passengers, or any cattle securely penned in, or allowing the crew of the ship to use any cooking range set apart for passengers in breach of the foregoing rules, shall be punished with fine which may extend to two hundred rupees, and when the breach is a continuing one with a further fine of twenty rupees for every day after the first during which the breach continues.

C.—Boats, anchors and cables.

IX.—Every such ship shall be provided with boats according to the scale laid down in the annexed schedule, all such boats being fully fitted with all usual appliances.

Schedule of boat accommodation.

REGISTERED TONNAGE OF SHIP.	Number of boats not less than.	SAILING VESSELS.		STEAM VESSELS.	
		Minimum cubic contents of life-boats.	Minimum cubic contents of all the boats of the ship.	Minimum cubic contents of life-boats.	Minimum cubic contents of all the boats of the ship.
		Feet.	Feet.	Feet.	Feet.
Less than 200 tons ...	2	90	236·4	138	368·4
200 tons and less than 400 tons ...	3	120	427·2	181·2	657
400 " " 600 " ...	4	150	723	198	877·2
600 " " 800 " ...	5	198	1,038	198	1,038
800 " " 1,000 " ...	5	240	1,227	240	1,227
1,000 " " 1,250 " ...	6	540	1,527	540	1,527

1,500 " upwards ...	7	556·8	2,160	556·8	2,160

In ships of 200 tons and upwards, no boat of less than 90 feet of cubical contents is to be counted in the number.

In ships of 600 tons and upwards two of the boats should be life-boats.

No greater number of boats need be taken than are sufficient to carry all the crew and passengers on board.

The cubic contents of the boats in the foregoing table are ascertained by multiplying their outside length, their outside width and their inside depth together, and then the product by 0·6.

X.—Every such ship shall be provided with not less than three anchors and cables.

*D.—Instruments for purposes of navigation.***XI.—Every such ship shall be provided with—**

- (a) not less than two good compasses; and, if she be an iron ship, with a record of the deviation of her compasses on every point entered in the log-book;
- (b) charts suitable for the voyage she is about to undertake;
- (c) not less than one chronometer and not less than two sextants or quadrants and barometers, unless her size be under 240 tons, and she be bound on a short voyage, in which case it shall suffice if she be provided with a sextant or a quadrant.

*E.—Apparatus for extinguishing and precautions against fire.***XII.—Every such ship shall be provided—**

- (a) if she be a steam-ship, with hose sufficient to reach from her engines to her stem and taffrail;
- (b) if she be a sailing ship, with one fire-engine or force-pump, with hose sufficient to reach from her stem to her taffrail; and if her tonnage exceed 800 tons, with a second such engine or force-pump, with like hose; and
- (c) in the case both of steam-ships and sailing-ships, with fire-buckets in the proportion of three for every 100 tons up to 600, and two for every 100 tons above 600, provided that 50 in all shall suffice.

XIII.—If fire annihilators or fire-engines are carried, they shall be placed by the master under the special charge of one of the principal officers of the ship and the ship's carpenter, who should be held responsible that, with the buckets and other fire apparatus, they are kept in a state fit for immediate use. The engine shall be worked not less than once a week, and shall be kept in proper order. As soon as possible after leaving port, the officers and crew shall be divided into parties and assigned to stations in case of fire. The master of any such ship failing to comply with the requirements of this rule shall be punished with fine which may extend to two hundred rupees.

XIV.—The cargo of every such ship shall, before leaving port, be properly stowed away, and the decks cleared of any loose straw, hay or other inflammable material. If any such ship leaves port without having the cargo so stowed, and the decks so cleared, the master shall be punished with fine which may extend to two hundred rupees.

XV.—Immediately before leaving port, the passengers of every such ship shall be called on to deliver up whatever lucifer matches, gunpowder or other inflammable articles they may have about them. Any passenger omitting or refusing to deliver up any such articles when called upon to do so shall be punished with fine which may extend to one hundred rupees.

XVI.—No naked lights shall on any account be used in the hold or store-rooms or in the between-decks, except under trustworthy superintendence. No person shall read in bed with a naked light. Smoking between-decks is strictly prohibited. Spirits must never be opened in the hold, but should be hoisted on deck for the purpose. Any person committing a breach of this rule shall be punished with fine which may extend to two hundred rupees.

Appliances for saving life and making signals of distress.

XVII.—Every such ship shall be provided with an adequate supply of life-buoys, not less than four for each vessel, signals of distress, and inextinguishable lights fitted for attachment to the life-buoys.

Miscellaneous.

XVIII.—Every such ship to which clause (4) of section 18 of the Act does not apply shall be provided with a single awning of stout canvas over the whole of the portion of the deck used by the passengers.

XIX.—In the case of every such ship about to proceed on a long voyage, the whole of the open space on the upper deck of the ship shall be left unencumbered, so as to be available for the use of passengers, or at least so much of that space shall be left unencumbered as to allow not less than six superficial feet thereof for each passenger proceeding on the voyage.

XX.—(1). Certificate B, provided for in section 11 of the Act, shall not be granted until the officer appointed to grant the same is satisfied that, in addition to the food, fuel, and pure water required by clause (c) of that section, the medical stores and other appliances, the fittings for maintaining health, cleanliness, and decency, the boats, anchors, and cable, the instruments for purposes of navigation, the apparatus for extinguishing fire, the appliances for saving life and making signals of distress, the awning for the portion of the deck used by the passengers, and the upper-deck space for each passenger required by the foregoing rules have also been provided on board.

(2). The certificate shall state that the same have been so provided.

NOTIFICATION No. 137Mne.

The 12th November 1888.—Whereas it is provided by section 74 of Act XII of 1875 (the Indian Ports Act) that any Magistrate, upon an application being made to him by the Consul of any Foreign Power to which the Foreign Deserters Act, 1852, has by an Order of Her Majesty in Council, been or shall hereafter be, declared to be applicable, or by the representative of such Consul, and upon complaint on oath of the desertion of any seaman, not being a slave, from any ship of such Foreign Power, may, until a revocation of such Order-in-Council has been publicly notified, issue his warrant for the apprehension of any such deserter, and may take the further proceedings provided by the Act: And whereas Her Majesty in Council has been pleased to issue an Order-in-Council, dated the 10th day of August 1888, making the Foreign Deserters Act applicable to the Independent State of the Congo, and the Governor-General in Council has been pleased to direct the publication of the Order, the Lieutenant-Governor directs the publication of the Order-in-Council in the *Calcutta Gazette* for the information and guidance of the Magistrates within the Presidency of Bengal, as follows:—

AT THE COURT AT OSBORNE HOUSE, ISLE OF WIGHT.

The 10th day of August 1888.

PRESENT:

THE QUEEN'S MOST EXCELLENT MAJESTY IN COUNCIL.

WHEREAS by the "Foreign Deserters Act, 1852," it is provided that whenever it is made to appear to Her Majesty that due facilities are or will be given for recovering and apprehending seamen who desert from British merchant ships in the territories of any Foreign Power, Her Majesty may, by Order-in-Council stating that such facilities are or will be given, declare that seamen, not being slaves, who desert from merchant ships belonging to a subject of such power when within Her Majesty's dominions shall be liable to be apprehended and carried on board their respective ships, and may limit the operation of such Order, and may render the operation thereof subject to such conditions and qualifications, if any, as may be deemed expedient:

And whereas it has been made to appear to Her Majesty that due facilities will be given for recovering and apprehending seamen who desert from British merchant ships in the territories of the Independent State of the Congo:

Now, therefore, Her Majesty, by virtue of the power vested in Her by the said "Foreign Deserters Act, 1852," and by and with the advice of Her Privy Council, is pleased to order and declare, and it is hereby ordered and declared, that from and after the publication hereof in the London Gazette, seamen, not being slaves and not being British subjects, who within Her Majesty's dominions desert from merchant ships belonging to citizens of the Independent State of the Congo, shall be liable to be apprehended and carried on board their respective ships: Provided always that if any such deserter has committed any crime in Her Majesty's dominions, he may be detained till he has been tried by a competent court and until his sentence, if any, has been carried into effect.

And the Secretary of State for the Home Department, the Secretary of State for the Colonies, and the Secretary of State for India in Council, are to give the necessary directions herein accordingly.

NOTICE BY THE ACCOUNTANT-GENERAL, BENGAL.

SUPPLY BILLS.

NOTICE is hereby given that supply bills for sums of Rs. 500 and above in even rupees are usually obtainable on the treasuries named below at the rates of premium shewn.

Any person desiring to obtain a supply bill should send to the Bank of Bengal, Calcutta, a written application containing the following information—(1) his own name and address; (2) the name of the person to whom payment is to be made; (3) the treasury on which the bill is to be granted; and (4) the amount for which the bill is to be granted. With this application the cost of the bill (the amount plus the premium) should be paid into the Bank. If payment by telegram is desired (but this is admissible only in cases in which the name of the payee has been previously registered in the Accountant-General's office), the fact should be stated in the application, and an additional rupee paid with the cost.

The Bank of Bengal will, if the amount is available at the treasury named, receive the money tendered, and grant a receipt, returning the application therewith. The receipt and the application should then be sent to the Accountant-General's office, by which the bill will be granted.

The Bank of Bengal will be advised by the Accountant-General on the 1st and 16th of each month of the amounts available at the several treasuries, and will receive the amounts tendered by the first comers till those amounts are exhausted.

If the Bank refuses to receive any sum tendered owing to the amount not being available at the treasury, the application will be retained by the Bank and forwarded by it to the Accountant-General, who will advise the Bank and the applicant if the amount can be made available.

JOHN ELIOT, M.A., Meteorological Reporter
to the Govt. of Bengal

CALCUTTA, the 26th August 1875.

THE following Reports of the Bengal Meteorological Department, issued by orders by the Government of Bengal, can be supplied to the public at the prices annexed:—

1st.—Bay of Bengal Daily Report giving observations taken at 20 stations on or near the coast of the Bay, with a chart and summary. This is published in connection with the Calcutta Storm Signal Service. The report giving 10 A.M. observations of the day is distributed by peon in Calcutta after 4 P.M. Price to subscribers in Calcutta, Rs. 2 per mensem.

2nd.—Bengal Daily Report containing observations taken at 37 meteorological stations, and transmitted to Calcutta by weather telegrams, with a brief summary of the weather in Bengal during the preceding 24 hours. The report giving the 10 A.M. observations of each day is printed in time for the evening mail. This report for the present will only be published during the south-west monsoon, i.e., from May 15th to November 15th. Price Rs. 2-8 per mensem, including postage.

3rd.—A Weekly and Monthly Statement of Meteorological Observations taken at 44 observing stations, and of rainfall recorded at 245 sub-divisional stations together with summaries of the more important features of the meteorology of the past week or month of the province, and of the distribution of the rainfall and its variation from the normal. Price of the Weekly Report including postage, Rs. 6 per annum, payable in advance, and of the Monthly Summary Report, Rs. 2 per annum, payable in advance.

Subscriptions payable to the Meteorological Reporter to the Government of Bengal for the Bay of Bengal Daily Report, and to the Accountant and Treasurer, Bengal Secretariat, for the other reports.

Subscribers are therefore requested to send in their subscriptions for the complete series before the 31st March in each year. Those who register their names after that date will understand that copies will be supplied only if available.

H. A. D. PHILLIPS,

Under-Secy. to the Govt. of Bengal.

The 24th November 1886.

The following revised advertisement is published in substitution for that which appeared at page 1084, Part II of the Calcutta Gazette of the 9th July 1884:—

The Indian Law Reports,

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court, are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st April 1888, the terms of subscription and sale will be as follows for current issues as well as for back numbers of the Reports from 1876:—

Terms of subscription payable annually in advance.

For the complete series, including postage, Rs. 22-8.

The Report of the Committee for the management of the Calcutta Zoological Gardens for the year 1887-88.

THE total income of the Gardens during the year under report, inclusive of the Government grant of Rs. 20,000, amounted to Rs. 45,279 against Rs. 47,541 in the previous year, while the expenditure rose from Rs. 40,650 to Rs. 43,992, this increase being due chiefly to the comparatively heavy outlay incurred in the purchase of several valuable animals from the menagerie of the late King of Oudh. Of the advance of Rs. 5,000 sanctioned by Government for this purpose, a portion only, viz. Rs. 1,487-11, was drawn, the greater part of the cost being defrayed from the ordinary resources at the disposal of the Committee.

2. The income derived from donations and subscriptions fell to Rs. 1,080 only as against Rs. 5,989 in 1886-87, when, however, the figure reached was, owing to the munificent gift of Rs. 5,000 made by the Nawab of Moorshedabad, unusually high. The entrance receipts amounted to Rs. 8,294 against Rs. 7,140 in the previous year, and the receipts from the other sources, detailed on the margin, aggregated Rs. 7,684 against Rs. 7,295 in 1886-87.

3. The establishment employed in the Gardens cost Rs. 9,809, or Rs. 661 more than in the previous year; feeding, Rs. 9,335; purchase of animals, Rs. 5,211; transport of animals, Rs. 1,449; and construction and repair of buildings and roads, Rs. 13,527. The opening balance of the year was Rs. 6,891, and the closing balance Rs. 1,286.

4. The principal works undertaken during the year were the construction of a snake-pit and rockery at an expenditure of Rs. 2,000, the construction of a deer-kiosk costing Rs. 1,220, and the removal of the peafowl house from the former site, and its reconstruction in a more conspicuous part of the Gardens.

5. The number of visitors to the Gardens who paid entrance fees was 108,041 against 97,099 in the previous year, and against an average number of 127,313 for the six preceding years. These figures are exclusive of a large number of students and children under eight years of age, who were admitted into the Gardens during the year free of charge.

6. The most important additions made in the course of the year were an Indian and a Javan rhinoceros, two Bactrian camels, three Russian bears, a young clouded leopard, and an adult man-eating tiger. The leopard was presented by Mr. C. J. Soltoun, Assam, the man-eating tiger by His Highness the Maharajah of Gidhaur, and the remaining animals were obtained by purchase. Of the presentations made, there were 48 mammals, 79 birds, and four reptiles. As many as 131 presentations were made during the year, a very satisfactory indication of the continuance of public interest in the institution.

7. The acknowledgments of Government are due to the members of the Committee for their efficient management of the Gardens during the year.

By order of the Lieutenant-Governor of Bengal,

P. NOLAN,

Secretary to the Government of Bengal.

DISTRESS IN KHOORDA.

The following papers are published for general information.

No. 292TR, dated Darjeeling, the 7th November 1888.

From—P. NOLAN, Esq., Secretary to the Government of Bengal, Revenue Dept.,
To—The Secretary to the Government of India, Revenue and Agricultural Dept.

WITH reference to the correspondence ending with your letter No. 70—7-8F, dated 18th October 1888, I am directed to submit, for the information of the Government of India, copy of a letter, No. 1961R, without date, from the Commissioner of the Orissa Division, with enclosure, reporting on the administration of relief in the Khoorda sub-division for the fortnight ending 30th September 1888. The reports indicate that the condition of the people in the affected area improved during the period to which they relate, but that there was reason to apprehend a failure of the next rice crop. I am, however, to observe that there has been good rain during the last few days all over South Orissa, which has now extended also to Cuttack and Balasore. As the Lieutenant-Governor is about to visit Orissa, further comments are unnecessary.

No. 1961R, dated Cuttack, the October 1888.

From—O. F. WORSLEY, Esq., Commissioner of the Orissa Division,
To—The Secretary to the Government of Bengal, Revenue Department.

IN accordance with paragraph 9 of the Famine Code, I have the honour to submit copy of a report noted in the margin from the Collector of Pooree on the administration of relief in Khoorda sub-division for the fortnight ending 30th September 1888.

2. There was a marked improvement in the condition of the people in the affected area during the fortnight under review, and at the present time the distress caused by the long drought in June and July may be said to be practically at an end. There are, however, a few sporadic cases of indigence, chiefly among children, in which some help is still required in the way of food.

3. From the 10th to the 19th instant, I was on tour with the Collector in Khoorda sub-division, and we visited portions of the three circles (Nos. I, II, and III) which have not yet been closed. From the appearance of the people I should have concluded that there had been nothing unusual in the season; and after passing through many villages and observing the well-built houses of the cultivating classes, and their gardens and enormous herds of cattle, I was able to understand how, in spite of short harvests in two successive years, and of the large losses of rice seedlings three months ago, they had needed so little assistance. The ryots of the Khoorda Estate are in fact as substantial a body of tenants as I have ever seen; and considering the low rents which they pay, it would be strange if their condition were otherwise than good. It was manifest to me that the recent distress must (as maintained all along by the local officers) have been confined almost entirely to the landless labourers. The resources of the cultivators, as described by Mr. Taylor (*vide* paragraph 4 of the Collector's report), are very different from those of an average Behar ryot in the rainy season.

4. In the course of my tour, I also visited Kalapathar village in the south-west corner of Banki Estate. Among the inhabitants of that village, I saw no signs of distress, but some 40 or 50 persons, mostly old men and women and young children of the aboriginal classes, were produced before me from neighbouring villages, who were greatly reduced and in need of charitable relief, which they were receiving. The total number of persons employed on improvement works or receiving charitable relief in Banki Estate was, I understood, less than a thousand, and I have not thought it necessary to call for fortnightly reports from the Collector of Cuttack.

5. Unfortunately, however, we have no sooner got rid of the consequences entailed by a failure of the July rains than we are threatened with another drought of a far more serious nature. The long break in the rains, or (as is feared by some) their premature cessation, is causing the utmost anxiety and alarm not only in each district of the division, but in many of the Tributary States. The sarad rice crop, which is the principal crop in Orissa, is generally backward this year, and requires the full average rainfall of October; but up to this date scarcely one-third of that average has fallen anywhere; while in many places there has been little or no rain at all. At Khoorda itself there has been only 0.57 against an average rainfall of 6.80 inches in October. From all I can learn, I believe that good rain within the next ten days will secure a fair crop, and that without rain the plant on the high lands, where not irrigated, will be lost. What proportion of the cultivation is low or irrigated land, or what outturn may be expected in the absence of rain, cannot now be estimated: but detailed enquiries on these points will be made from the beginning of next month if rain does not fall in the meantime.

6. The want of rain has not yet had much influence upon the prices of food-grains, and the extraordinary low price of mandia or marua, which ranges in Khoorda sub-division from 46 to 52½ seers per rupee, seems to show that there is plenty of cheap food to be purchased in the tracts where distress has recently been most felt.

7. I enclose a map showing the parts of Khoorda sub-division in which charitable relief was discontinued in the second half of September 1888.

No. 6T, dated Camp, Chandka, the 18th October 1888

From—D. B. ALLEN, Esq., Officiating Collector of Pooree,
To—The Commissioner of the Orissa Division.

I HAVE the honour to submit the report required by the Famine Code for the fortnight ending the 30th ultimo. Mr. Taylor's report for this period was submitted to me yesterday. He attributes the delay to his having had to wait for details of persons employed on some of the improvement works. I do not propose to forward this report *in extenso*, though it is a full and interesting one, as the diminution in distress alluded to in my last report continued during the fortnight under review.

2. During the fortnight I visited the South Chilka tracts, and every circle in the sub-division. The Inspectors of the Banpur and Rameswar Circles were sent back to their regular duties, and relief operations were entirely closed in the former and much restricted in the latter circle, which was put in charge of the Inspector of Police. With the exception of the Banpur Circle, the affected area has remained the same as before, but there has been a decided reduction in the portion of the population affected, and in the amount of relief that it has been necessary to afford.

3. The result of the cyclone of the 15th and 16th ultimo, which gave over six inches of rain at Khoorda, was decidedly beneficial. Mr. Taylor writes that "though a great many trees were uprooted in the north-east and north-west circles, the crops did not suffer except in the case of small areas of biali and mandia, which were ready for the sickle." Pān barns and household gardens were also somewhat injured; "but in all the other circles of Khoorda no damage worth speaking of was done by the cyclone. Everywhere on the estate the copious rainfall did incalculable good to the backward rice crops, and the improvement in the dhan all over the estate, and specially in the western circle, is far beyond what I could have believed possible. In no village do I think the loss will exceed 8 annas, and in a great many villages 12 to 18 annas crop may be looked for if we get some more rain during the current month." Unfortunately the rainfall during the current month has been unusually scanty, and unless rain falls generally within the next few days, the outturn estimated by Mr. Taylor will, I fear, prove to be excessive. The rain gauge at Khoorda registered the fall from the 15th to 30th at 7.52 inches, but at Banpur there was only 2.9 and in Chandka only 1.2 inches.

4. Speaking further of the general state of the affected tracts, Mr. Taylor writes: "As may be imagined, this favourable turn taken by the crops has greatly reduced the distress, not that the classes who are getting relief have any crops to gather, but the improved prospect has given confidence and heart to the people generally. The mahajan is now lending grain, and the purse strings of private charity have to some extent been loosened. Ryots will now give a handful of rice or some rice-water to their poorer neighbours, or employ them on pounding rice, thatching and other little jobs.

"Another thing which has affected the distressed classes favourably is that they all, as well as the substantial ryots and other residents, have some bari or garden land in their homesteads, and this year every bari has been literally crammed with vegetables and other articles of food, such as maize, mandia, jawar, &c. Since I have been at Khoorda, I have never observed so much garden cultivation as there is this year.

"The suan crop is over, but many persons have collected and kept a store, and chakunda sag (*cassia-tara*) is still available as a pot herb, though the leaves are now too old and not so

nutritious as before. Some wild fruits, such as paniala (*flacour tiaca taghacta*), &c., can also be gathered in the jungles, and with guavas and eastard-apples supplement the food-supply.

"Another very important source of food-supply since the cyclone has been fish. Millions of little fishes of various species come from the tanks, wheels, nallas and rivers into all the paddy fields after heavy rains. These are fished for daily by all classes of the people, and even little children can catch a good feed of fish.

"The result of all this is very satisfactory, especially to the very poor, and there is a marked improvement in their physique. In villages where, when relief operations commenced, there were, say, 30 or 50 wretched creatures, mere skin and bone, there are now perhaps five or six, chiefly children, who still require some help in the way of food. In many villages no further gratuitous relief is necessary." The public health continues to be as good as usual at this season of the year.

5. The number of public works open in or near the affected tracts are reported by Mr. Taylor as follows:—

(a). Road work under the District Board, metalling, petty repairs and constructions.

1. Khoorda and Kalapathar road	18 miles.
2. Bagmari and Bolegur road	16 "
3. Chandka to Sardeipur <i>via</i> Khandgiri and Bhubaneswar	17 "
4. Tikatab and Kaduaberni road (new work)	6 "
5. Khoorda and Patnaika Road	8 "

Under the Khoorda Local Board from money advanced from the Improvement Fund.

6. Bhaliabari and Bengitangi village road	3 miles.
7. Kararmal and Bajpur village road	2 "

(b). Repairs and metalling along the whole length of the Cuttack and Ganjam Trunk Road, 73 miles, under the Executive Engineer, Pooree Division.

Repairs to the Kuakhai and Dya river embankments under the Executive Engineer, Pooree Division.

(c). Nil.

(d). Twelve petty works were opened by the Maharani of Pooree in the Ikhsajat villages of Rameswar and Tapang during the month of September, and 29 works under the Khas Mehal Improvement Fund have been opened in addition to the 110 works mentioned in Mr. Taylor's No. 531 of 8th ultimo.

6. Under clauses 4 and 5 of section 9 of the Famine Code, Mr. Taylor gives figures for this and the previous fortnight, which I now reproduce.

"Charitable Relief.

"(a). Persons relieved through Government agency for the fortnight ending 15th September 1888:—

	Men.	Women.	Children.	Total.

--------	-------	-------	-------	--------

"Daily average	188	276	521	985
----------------	-----	-----	-----	-----

"The very large reduction in the number of persons relieved during the second fortnight is due to the reductions made by circle officers under the orders received, to the rainfall of the 16th September, which gave ample field work all over the estate, to the increase to the poor of food-supply as noted in paragraphs 3 and 4, and to the number of works opened for those who could not before get work, and which enabled the stronger members of families to contribute towards the support of their families.

"The numbers given do not, however, represent the actual number of persons on the lists of charitable relief, but show the number of daily, weekly or half-monthly doles given. By dividing the figures by 3, an approximation will be obtained to the actual number of persons on the lists.

"(b). Persons relieved through private agency—

"Four hundred and seventy-eight families living in 14 villages of the Ikhsajat mehal were relieved by the agent of the Maharani of Pooree at a cost of Rs. 59-4-3 during the month of September 1888.

"The number of persons employed on works opened by the District Board during the last fortnight of September was 2,612 men, 439 women, and 704 children.

"The number of persons employed on works carried out by the Maharani of Pooree was 2,270 men and 179 children.

"Number of persons employed on khas mehal improvement work for the fortnight ending 15th September 1888:—

	Men.	Women.	Children.	Total.
' North-east Circle ...	12,900	1,410	5,590	19,900

" Banpur do. ...	784	223	1,007
" Total ...	21,767	2,926	11,057	35,750
" Daily average ...	1,451	195	737	2,383

"For the fortnight ending 30th September 1888—

" North-east Circle ...	4,948	42	4,990
" North-west do. ...	395	750	1,330	2,475
" Western do. ...	1,861	187	463	2,511

" Monthly total ...	33,487	3,983	13,593	51,068
" Average ...	1,116	132	451	1,702

It will be seen that there was a satisfactory reduction during the last fortnight in the numbers receiving gratuitous relief, and I have satisfied myself by personal enquiries that all Circle Inspectors are now restricting the distribution of such relief to the minimum amount necessary to prevent death from starvation.

7. The number of persons employed on works is comparatively few. This is mainly due to the fact that up to the end of September field work for nearly all capable of labouring was available all over the sub-division, and the rate of wage paid on these works was as a rule fixed at a point that would not attract labourers, who could obtain ordinary work in the fields. In the South Chilka tracts the number of persons relieved gratuitously during the fortnight was only 87, while those on works were 1,038, of whom 17 were boys. Judging from the Inspectors' reports, I directed the close of operations in this area from the 1st instant, but the break in the rains will, I fear, necessitate the re-opening of relief works on a small scale. However, I am confident that Baboo B. M. Mukerjee will not incur any expenditure that is not absolutely essential for the purpose of saving life.

8. Under clause 6, Mr. Taylor writes: "Only Rs. 2-7 was paid to females at Jajarsingh for spinning cotton, Rs. 25 was advanced for cotton to Gobind Mangraj, and Rs. 21 was advanced to weavers for carrying on their trade." Nothing has been done at Satpara under this head.

9. Under clause 7, Mr. Taylor reports: "The stock of grain in the estate is sufficient, and the mahajans have been lending paddy and selling for cash, and from Banpur and Kuhuri there has been export of dhan to Ganjam at 10 and 11 rupees per bharan of 80—4-seer gounies in former—and Rs. 23-8 per bharan of 8-seer gounies in the latter place.

"The following prices for food-grains and salt prevailed in the several circles as reported by Circle Inspectors, canoongos, and police during September. The figures given are in seers of 80 tolahs per rupee:—

South of the Chilka, stocks were sufficient and prices reasonable up to the end of the last month. Since then there has been a scarcity of grain in the markets, but measures are being taken to prevent any serious consequences arising from a failure of the local supplies.

10. The financial statement clause 8 is given by Mr. Taylor for the whole month of September, and as his figures for the last fortnight were apparently not quite accurate, I give a summary of his accounts for the whole month.

A.—Receipts—

Under the Agriculturists' Loans Act, the amount sanctioned was Rs. 90,000. Of this, Rs. 65,000 had been made over in previous months, and Rs. 20,000 in September. Under the Khas Mehal Improvement Fund of Rs. 28,372 sanctioned for Khoorda, Rs. 15,000 had been drawn in previous months, and Rs. 5,000 in the month under review. Under gratuitous relief, Rs. 15,000 were sanctioned. The whole of that sum has been drawn by Mr. Taylor, but he probably will not require the full amount, and the balance will more than cover the small expenditure under this head by the Inspector of the South Chilka area. Of private subscriptions, there is no account, except the Rs. 1,000 advanced by the Maharani of Pooree, but no doubt a good deal of help has been given in a small way by the more substantial ryots to their poorer neighbours.

11. B.—Expenditure—

- (a). On charitable relief, the actual expenditure up to the end of August has now been found to have been only Rs. 8,302. During the first fortnight of September, there was a further expenditure of Rs. 3,261, and during the second fortnight Rs. 1,487. This was distributed over the five circles of the sub-division as follows:—

		First fortnight.	Second fortnight.
		Rs. A. P.	Rs. A. P.
North-east Circle	...	931 14 9	578 12 1½
North-west Do.	...	555 4 1	289 1 9
Western Do.	...	447 1 0	438 1 6
Rameswar Do.	...	399 10 0	165 0 0
Banpur Do.	...	927 9 9	16 11 0
		<u>3,261 7 7</u>	<u>1,487 10 1½</u>

- (b). During the month of September, Rs. 3,338-1-6 was advanced for works by Circle Inspectors and Mr. Taylor. Rupees 412-10 was paid for old works on adjustment of accounts, and Rs. 204-13-6 was laid out in the purchase of tools.

Rupees 9,953 was advanced to 3,155 ryots during the month under the Agriculturists' Loans Act, of which Rs. 3,157 was advanced during the fortnight ending 30th September.

12. Besides the above a sum of about Rs. 1,000 has been expended as travelling allowance, carriage of grain, feed of elephants, &c., &c., of which the accounts have not yet been properly adjusted. In the Chilka tracts, the expenditure on gratuitous relief and works up to 30th September has amounted to only Rs. 675.

13. C.—Balance in hand—

- (a) Gratuitous relief, Rs. 1,714-13-3½, of which Rs. 1,444-14-7½ are in the hands of Circle Inspectors, plus value of dhan and rice to be realized, say, Rs. 2,000.
 (b) Improvement works, Rs. 5,077-2-4, of which Rs. 938-10-6 are in the hands of circle officers, and Rs. 8,372 not yet drawn—total Rs. 13,449-2-4.
 (d) (2). For tuccavi advances Rs. 15,193-5.

14. As regards future requirements, Mr. Taylor now writes that "as the Commissioner has promised to sanction any sum really required for relief in excess of the Rs. 15,000 already received, I will not at present ask for more money, as I now hope that nearly all expenditure will be covered by the Rs. 15,000 originally granted." This is the view that I expressed in my last fortnightly report. Of course, if there be no more rain, there may be a fresh outbreak of distress, and no doubt there have been within the last few days grave apprehensions expressed all over the sub-division of the ultimate fate of the bulk of the winter paddy, but the crop is at present safe, and the distress of August and September is practically at an end. Whether we shall have a renewal of distress hereafter, time alone can show. So far prospects, though critical, cannot yet be described as alarming; but unless rain comes soon, we must anticipate a partial failure of the winter paddy crop. Meanwhile a plentiful crop of mandia is now coming into the market, and is being sold at a remarkably cheap rate. A good deal of high land has been sown down with kulthi, kalai, and other rubbi crops, and the fields, where an early rice crop has been harvested, are also being cultivated in many places for a second crop.

15. As regards deaths from starvation, further enquiries have shown that many of those originally reported as due to that cause were really not owing to the recent distress. I am having a statement prepared showing the result of enquiries made into each reported case of death from starvation, and, when complete, it will be forwarded to your office. A map is sent herewith.

BENGAL—concluded.			
Eastern Districts—concl'd.			
CHITTAGONG DIVN.	22 Chittagong	Report not received.
	23 Noakholly Nov. 9, '88	Nil	Weather—seasonable. <i>Rajasail</i> paddy being reaped. Rain wanted for <i>amun</i> paddy. Sowing of <i>rubbi</i> crops commenced.
	24 Tipperah „ 8, '88	Nil	Weather—seasonable. Prospects of standing crops still favourable, but a good shower of rain appears to be indispensably required to enable the <i>dhan</i> plants to come up strong in ear. Lands are being prepared for the cultivation of <i>rubbi</i> crops, and mustard seed and other seasonable crops are being sown here and there.
	25 Chittagong Hill Tracts „ 6, '88	0.06	Weather—cloudy in the morning and evening throughout the week. Gathering of cotton commenced in some places; prospects not good. Paddy in low lands still flowering in some places; rain much wanted; prospects not good.
	Hill Tipperah „ 7, '88	Nil	Weather—not settled; cloudy. Chillies and tobacco being transplanted. Prospects of <i>amun</i> paddy, <i>til</i> and cotton fair.
BEHAR.			
PATNA DIVN.	26 Patna „ 10, '88	Nil	Weather—days hot, mornings and evenings cool. <i>Rubbi</i> sowings progressing, but rain most urgently wanted. The Sub-divisional Officer of Behar reports that the paddy plants are being cut for fodder for cattle. Prices of food grains rising.
	27 Gya „ 10, '88	Nil	Weather—cool. About 8 annas of paddy crop destroyed for want of rain. Sowing of poppy is going on. Sowing of <i>rubbi</i> is being delayed for want of moisture in the soil.
	28 Shahabad „ 10, '88	Nil	Weather—fair; mornings and evenings are cool. Paddy crop is fast withering for want of rain, except on canal-irrigated lands. <i>Rubbi</i> is being sown only on low lands; elsewhere sowing is practically stopped owing to absence of moisture. Prospects of this crop are gloomy. Sowing of poppy crop has commenced; prospects are reported to be unfavourable, and there will be difficulty in getting the full area sown in consequence of the want of moisture. Prices very high.
	29 Darbhanga „ 10, '88	Nil	Weather—clear; getting cool. The high land rice crops in the north-western part of the Madhubani sub-division and some places in the Sudder sub-division are being cut for fodder. <i>Rubbi</i> sowings slowly going on where there is moisture in the land. Prices almost stationary.
	30 Mozufferpur „ 10, '88	Nil	Weather—days hot; nights cool. <i>Rubbi</i> sowings progressing, but retarded in many places for want of sufficient moisture, and the young plants are suffering from the same cause. In parts of Sitamarhi paddy being cut for fodder. Prices rising. The price of common rice varies throughout the district from 11 to 14 seers, and of <i>makai</i> from 16 to 22 seers per rupee.
	31 Sarun „ 10, '88	Nil	Weather—warm generally; cloudy but no rain. Sowing of <i>rubbi</i> and poppy in full progress. Rain urgently wanted.
	32 Chumprau „ 10, '88	Nil	Weather—cold. Paddy ripening. The upland crop, where irrigation was impossible, has failed. <i>Rubbi</i> sowings still in progress. Rain much wanted for poppy sowing.
	33 Monghyr „ 10, '88	Nil	Weather—seasonable; getting cool. Paddy crop on high lands almost wholly gone in places, and <i>rubbi</i> sowings still retarded for want of rain. Price of rice going down a little.
	34 Bhagulpur „ 10, '88	Nil	Weather—too cloudy and hot for the season. Owing to irrigation, the late rice in the Supaul sub-division is coming on better than was expected, and may yet yield an outturn of 6 annas. Over the rest of the district it may be half an average crop, and is best in Madhepura. <i>Rubbi</i> sowings still very backward. Prices easier.
	35 Purneah „ 10, '88	Nil	Weather—bright and clear and sun very powerful. Not a sign of the rain so long looked for and so much wanted. There is no improvement in the previous prospect that the outturn of the <i>aghani</i> crop will not exceed 8 annas in any part of the district, and will probably not exceed 4 or 5 annas in some parts. Common rice 11 to 14 seers per rupee.
BRAGULPORE DIVN.	36 Maldah „ 10, '88	Nil	Weather—cool and generally fine, but occasionally cloudy. The continued drought has greatly injured the prospects of the rice crops. In some parts they are being irrigated, but the outturn will not exceed 8 annas on the whole, and will probably be less. Prices are, however, easier, and common rice is now selling at an average of 17 seers per rupee. The prospects of spring crops are generally fair, but in some places these too have suffered for want of rain, and to a small extent from insects.
	Sonthal Pergas „ 10, '88	0.16	Weather—winds variable; cloudy; clouds going off. The rice crops in Doonka, Deoghur and Jaintia will be very good; in Pakour and Godda fairly good; and in Rajmahal about 8 annas of rice sown on high land will suffer. Grubs are appearing in Rajmahal, and <i>rubbi</i> sowings need rain. Prices beginning to fall.
	38 Cuttack „ 9, '88	1.63	Weather—hot and cloudy at times. The rainfall during the week has benefitted the crops considerably and removed much of the apprehension which has hitherto prevailed. The high land paddy has suffered even as it is, but prospects are decidedly brighter, and prices show a tendency to fall.
	39 Pooree Khoorda „ 8, '88	7.09 5.48	Weather—cloudy and rainy. The late rain has been favourable to the winter rice (late <i>sarad</i>) crop. No more rain is wanted for the present crop. Early <i>laghu</i> is being reaped in some places. Common rice 16 seers 14 chittacks per rupee in the Sudder sub-division, and 13 seers 12 chittacks in the Khoorda sub-division.
BRISSA.	40 Balasore „ 9, '88	0.11	Weather—hot and cloudy. There having been very little rain during the week, prospects of crops continue on the whole unfavourable, except within the jurisdictions of thanas Soroh and Chaudbali, where a good fall is reported. Prices continue same as last week.

No.	District and date of return.	Rainfall at Sudder Station in inches.	Character of the weather and state and prospects of the crops.
CHOTA NAGPORE.			
<i>South-West Frontier Agency.</i>			
CHOTA NAGPORE DIVN.	41 Hazaribagh Nov. 9, '88	Nil	Weather—rather unsettled, cloudy. Rain wanted for <i>rubbi</i> crops. Paddy on high lands being reaped. A 12-anna outturn of the entire crop expected.
	42 Lohardugga „ 10, '88	0.06	Weather—cloudy. Slight rain during the week at head-quarters. It is badly needed for <i>rubbi</i> sowing. Prospect of winter paddy not favourable. Prices have a tendency to fall.
	43 Singbhoom „ 9, '88	0.62	Weather—early part of week cloudy; rain on 6th and 7th; at present fine with sunshine. The two days' rain has benefited the <i>rubbi</i> crops and done no damage to the <i>dhan</i> , the prospects of which are as previously reported.
	44 Manbhoom „ 10, '88	Nil	Weather—cloudy. Reaping of paddy going on. Probable outturn 6 to 12 annas. Crops damaged everywhere more or less for want of rain. Coarse new rice selling at 18 seers the rupee in the Purulia market.

SUMMARY OF THE RAINFALL AND METEOROLOGICAL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE MONTH OF OCTOBER 1888.

OCTOBER is the month in which, as a rule, the south-west monsoon entirely retreats from the province of Bengal, and its place is taken by the north-east monsoon, which slowly and gradually establishes itself over the province. The south west monsoon, in its gradual retreat southwards, is followed by the northerly wind current, and over the area of interaction light and variable winds prevail. As this interaction in normal years takes place for a portion of the month over Bengal, winds over the province are usually light and variable; but as the south-west monsoon retreats over the Bay, conditions become favourable for the formation of cyclonic storms, and it is in October that the largest and fiercest cyclones are formed, for during this month most of the conditions are favourable for their production on an extensive scale. These storms differ widely in different years in their nature and in their line of march, and they sometimes travel towards Bengal, and in other cases they cross the peninsula and pass into the Arabian Sea.

The general rainfall, due to the continuance of the south-west monsoon over Bengal, usually ceases during the first and second weeks in October, but even after this time local showers may fall. After the second week of October any rainfall which is brought up to Bengal is usually due to the formation and movement of cyclonic storms in the Bay, and it will evidently depend on the direction of their march and on the nature of such storms whether any rain at all is received in the latter half of October; and if any is received, the amounts will vary with the nature of the storm.

The rainfall of October in normal years is consequently due to two distinct causes, and as the second is, from its nature, an extremely variable and uncertain one, the average distribution of rainfall in October is decidedly more irregular than in the previous monsoon months, and also in any particular year its actual distribution may be of an extremely capricious character. The normal distribution of rainfall in October can therefore only be described with approximate accuracy. The average rainfall in Behar (with the exception of the Purneah and North Bhagulpore districts) and Chutia Nagpur (excluding the districts bordering on South-West Bengal) varies from two and a half to four inches. The amount is least in the Gya district. Rainfall varies from four to six inches in the case of the previously excepted districts, the western districts of Orissa, and the whole of Bengal, excluding the Julpigoree district, and a narrow strip extending along the coast and bounded on the north by a curved line running through Cuttack, Jajpore, Diamond Harbour, Port Canning, Chandpore and Chittagong. Over this long narrow area, the width of which varies from 20 to 60 miles, the average rainfall exceeds six inches.

The principal features to be considered, therefore, in the meteorology of October, are the date of the retreat of the south-west monsoon from the province, and the nature and the direction of movement of the cyclonic storms formed in the Bay.

Meteorology of the month.—At the close of September weather in Bengal was similar to that which usually obtains at the close of the monsoon rains, and the monsoon current had to a great extent retired from the province at a date about ten days or a fortnight earlier than usual. The period of transition when light and variable winds obtain in Bengal had also been remarkably short. The rains proper, which are brought up by the usual south-west monsoon humid current, had thus practically ceased, and the usual heavy local showers which fall during the retreat of this current had been almost absent. For the last few days of September and at the commencement of October, winds in Bengal were northerly and north-westerly, and fine weather was generally reported. From the 1st of October, however, certain changes took place in the Bay which resulted in the formation of a cyclonic storm of moderate intensity. The history of this storm is shortly as follows:—

Cyclonic storm of October 1st to 9th.—This storm appears to have formed some little distance to the south-west of Diamond Island on the 1st of October. On the morning of the 2nd it had not altered its position, but it had commenced to intensify rather rapidly. Again up to the morning of the 3rd it remained almost stationary, and the wind velocities at Diamond Island and on the South Burma coast showed that it was even at this time a storm of considerable intensity. On the morning of the 4th the storm was found to have moved in a north-westerly direction, and it was on this day about the middle of the Bay and to the west-north-west of Diamond Island. On the 5th the storm had advanced further in a north-westerly direction, and it was off the South Orissa coast to the east or east-south-east of Gopalpore. On the 6th the direction of the movement of the storm had changed, and it had commenced to recurve, and the centre was to the south of Saugor Island and to the east of False Point. On this day the storm centre was probably not more than about 100 miles from land, and the intensity of the storm was apparently not greater than it had been when it was in the neighbourhood of Diamond Island. The usual history in the case of these storms is that they very rapidly increase in intensity as they advance up the Bay, but the subsequent history of the storm appears to show that this rapid intensification from some cause or other did not take place in this storm to the usual extent. Up to the morning of the 6th also the rate of movement of the storm had been exceedingly small, but from the time when the storm commenced to recurve and to move in a north-easterly direction, its movement became much more rapid, and the storm centre crossed the coast of the Sunderbuns almost midway between Saugor Island and Chittagong about midnight on the 6th, and on the morning of the 7th at 8 A.M. the storm was well to the north-east of Dacca. On the 8th the

broken up and disappeared. The storm was accompanied by very strong winds and very stormy weather at sea, particularly to the east and south of the centre, but as it crossed the coast it broke up very rapidly, giving very heavy rain and strong winds to the south-east of Bengal.

During the formation of the storm, and in its north-westerly advance towards the Orissa coast, rain showers were rather numerous in that district and in South-West and East Bengal. As a rule, these showers were not very heavy, but a few stations reported amounts of one and two inches. When, however, the storm commenced to pass inland, the rainfall in the districts affected by it became particularly heavy, and thus on the 6th Bhola and Bauphal, in the Backergunge district, each received more than 10 inches, while Cox's Bazar and Kutubdia each received six inches, and at several stations falls of four and five inches were reported. On the 7th also amounts of five inches and above were received at Barrisal, Noakholly, Ramganj, Laksham and Durgapur, but from this date rainfall very rapidly diminished, and in fact almost ceased, over the province.

The inrush of moist winds following in the rear of the storm was very much less powerful than usual. In the case of most storms of this character, a wave of moist winds with moderate to heavy rainfall would have spread over the whole province, but unfortunately the heavy rainfall was confined strictly to the immediate path of the storm, and the effects of the storm scarcely reached North Bengal, and only the Julpigoree, Cooch Behar and Darjeeling hill districts and part of Purneah received rainfall due to the general disturbed conditions on about the 13th and 14th.

Following on the disappearance of this storm from about the middle of the month, a rapid increase in the barometric pressure took place over the province, and the distribution of pressure became such as to entirely change the conditions prevailing over Bengal and the Bay, and even at this early period the conditions became those which immediately precede the cold weather. The usual conditions in fact became almost reversed, and pressure became relatively high over Bengal and relatively low over the Bay. This was followed by the setting in of northerly winds, the winds being more or less westerly at the western stations, and north-easterly at the eastern stations. Temperature, therefore, fell. Humidity rapidly decreased, and the sky became lightly clouded, and up till the close of the month, except for disturbed conditions on the 28th and 29th in parts of Behar and Chutia Nagpur, which gave fairly general rain in South Bhagulpore, Sonthal Pergunnahs and Hazaribagh districts, and showers in Lohardugga, Manbhoon, Monghyr, Shahabad, Gya, Julpigoree and Darjeeling districts, weather was generally fine with passing clouds, and the whole province was practically rainless up till the 31st, when general rain commenced to fall over the greater part of Orissa.

The rainfall in Orissa at the close of the month was brought about by the formation of a severe cyclone in the Bay, which passed over Madras on the night of the 31st. The history of this severe storm, which has been previously given in the usual weekly reports, is as follows:—

Cyclone of October 29th to November 6th.—During the last week of October fine weather prevailed in Bengal and at the head of the Bay, and conditions were favourable for the north-east monsoon. In the centre and south of the Bay a moderate monsoon only was blowing, north-easterly winds being generally reported on the Madras coast, and moderate to heavy rain at most of the coast stations. Conditions were to a great extent unchanged on the 27th, except that winds on the Madras coast became more westerly, and the area of heaviest rainfall was transferred to Ceylon. On this day there were no signs whatever of the formation or existence of any storm in the Bay. On the 28th there was a considerable increase in the wind velocities at the stations in the east of the centre of the Bay, and pressure began to fall briskly along the Madras coast, but still there was no evidence of the existence of any depression in the Bay. Almost similar conditions continued on the 29th, and it is evident that a depression was forming to the west of the centre of the Bay, though the west coast stations still showed no signs of its existence. On the morning of the 30th, the wind directions on the Madras coast from Vizagapatam southwards formed part of a cyclonic circulation, while the Ceylon stations commenced to show a rather powerful indraught. The centre of the depression, as judged by the coast observations on this day, was some distance off the coast to the east or east north-east of Madras. During this day the storm rapidly intensified, and on the morning of the 31st October, it was a well-defined cyclonic storm, the centre of which was perhaps 80 or 100 miles to the east of Madras. The cyclone during the 31st continued to drift towards Madras, and the centre passed almost over that station at about 10 p.m. on this day, when a pressure slightly below 29 inches was recorded. The cyclone was an exceedingly fierce one, and must have done much damage, but the main force of the storm, so far as observations have been received, appears to have expended itself near Madras, and the central calm passed probably only a few miles to the south of that station. A severe gale of wind with high sea, however, prevailed along the whole of the west coast from Coconada southwards, though the storm does not appear to have made itself much felt as far south as Negapatam. The cyclone on striking the coast was apparently moving almost due westerly, and it rapidly advanced inland quite unbroken; and at 8 a.m. of the 1st November, the centre was not far from Uddapah; while on the morning of the 2nd, the storm had advanced across the Peninsula, and the centre was crossing the west coast near Mangalore into the Indian Ocean. In its advance across the Peninsula, the storm gave cyclonic winds and very heavy rain, which disturbed conditions afterwards commenced to drift in a northerly condition.

The storm having passed out to sea near Mangalore, then continued its advance in a north-westerly direction. On the 3rd the centre was probably opposite the Bombay coast

between Karwar and Goa. On the 4th it was nearly opposite Bombay; on the 5th it had become very feeble, and was drifting towards the Kattiawar coast, and on the 6th it practically filled up and disappeared.

The disturbed conditions brought about by the storm were very general, and they affected the weather even as far as Ori-sa; and from the 30th and 31st rain showers became rather frequent, particularly in the southern districts of Pooree and Cuttack; but up to the close of the month the effects of the cyclone had not made themselves felt in any way in South Bengal beyond the fact that the sky had commenced to cloud over.

The principal points in the meteorology of October have, therefore, been the very early cessation of the south-west monsoon rains and the formation of two rather severe cyclones, one of which crossed the Sunderbuns, and the other which passed over Madras.

Pressure.—The variations of pressure during the month have been rather large. In the first instance, pressure fell rapidly in the south and south-east of the province in connection with the first cyclonic storm, and this storm having filled up, a very rapid rise of pressure took place; so that for the greater part of the remainder of the month it was above the normal. For the whole period, therefore, pressure has been in excess of the normal over the entire province, the average excess having been 0.046 inch. This excess was very evenly distributed. In Assam a mean excess of 0.04 inch has been registered.

Temperature.—The mean temperature of the whole month has not shown much variation from the normal. The largest variation is an excess of one degree in South Behar, but in other districts the variations are less than half a degree. In North Bengal, North Behar, and Chutia Nagpur temperatures have been in slight excess, and in East Bengal in slight defect; while Orissa and South-West Bengal show normal temperatures. For the whole province the average variation of the mean temperature of the month from the normal has only been an excess of a fifth of a degree. In Assam the mean temperature has been a tenth of a degree above the normal.

Rainfall.—Practically the only rainfall in the province has been that brought up at the commencement of the month by the cyclonic storm previously described. This gave the heaviest falls in the south-eastern and southern districts, and thus the stations in East Bengal received an average fall of 4.75 inches, or an amount nearly equal to the normal. In South-West Bengal and Orissa the falls have averaged only about one and-a-half inches, or from a third to a fourth the normal falls. In Chutia Nagpur an average fall of only one inch is recorded, or again about a third of the normal amount. In North Bengal the fall has averaged 0.77 inch, or about a sixth of the usual quantity, and in South Behar the fall has equalled 0.54 inch, or again about a sixth of the normal fall. Finally, North Behar has been practically rainless throughout the month. The rainfall generally in Bengal in October has thus been a mere fraction of the normal amount, and, further, the falls have been practically confined to the early part of the month, and thus the rain, in addition to being extremely deficient in amount, was not even well distributed as to time, and has certainly done less good than if it had been spread over a longer period.

The following table gives a comparison between the actual monthly and total rainfall and the normal rainfall of the province up to the end of October in the same form that has been employed in previous monthly abstracts of the present year. The figures represent the ratio of the rainfall of each month of the present year to the normal rainfall expressed as a percentage. The table thus gives a condensed summary of the rainfall data of the year for each meteorological division. The first ten columns give the percentage amount of rainfall received in each month, and the last column the percentage rainfall of the whole period from the 1st of January to the end of October.—

METEOROLOGICAL DIVISION.	January.	February.	March.	April.	May.	June.	July.	August.	September.	October.	Actual rainfall of first ten months of 1888 expressed as a percentage of the normal fall for the period.
Orissa	410	193	41	48	99	30	81	185	89	24	98
South-West Bengal ...	207	125	67	141	62	57	131	157	77	34	101

Chutia Nagpur	235	104	5	24	39	30	128	134	81	34	93

The extreme lightness of the rainfall in October is clearly shown in the table, for, with the exception of East Bengal, which has recorded a fall of 88 per cent., all other districts show percentages of from 34 down to zero. Taking the various divisions as having an equal value in the calculation, the rainfall of the whole province may be said to have equalled 30 per cent. of the normal quantity.

Even though the province generally shows this extremely large defect, there are districts in which even an excess fall is registered. This is the case in South-East Bengal, where the precise line of march of the cyclonic storm is shown as an area of considerable excess rainfall. This area thus includes parts of the following districts:—Backergunge, Noakholly, Tipperah and Chittagong. Slight local excess falls have also been reported at Kishnaghur and Giridi. The greater part of the province, however, shows a defective fall of at least from 2 to 4 inches, and a considerable area shows defects of from 4 to 6 inches.

The following table gives full data of the comparison of the actual and normal rainfall of the month of October in all districts of the province. The figures are obtained in the manner explained in preceding monthly summaries. The first column gives the average district rainfall as determined from the rainfall observations of the past 15 years. The second column gives the actual district rainfall as determined from the actual weighted rainfall of the month at the reporting stations in the district. The third column expresses the ratio of the actual district rainfall to the normal district rainfall expressed as a percentage. The fourth column gives the same information as the third column in a slightly different form. It states by what percentage the actual rainfall varied in excess (+) or in defect (—) from the normal fall :—

Abstract of the results of Meteorological Observations taken at the Alipore Observatory in the month of October 1888.

			Inches.	Date.	Hour.
The mean pressure of the month	29 879		
The average pressure of October from 24 years' registers	29 832		
The highest pressure in the month	30 090	25th	10h.
The lowest pressure in the month	29 638	6th	16h.
The range of pressure	0 452		
			Hours.		
The total number of hours of bright sunshine during the month			257 1		
The maximum possible number of hours of sunshine	359 1		
			°		
The mean temperature of the month	79 6		
The average temperature of October from 24 years' registers	81 5		
The highest temperature in the month	91 4	2nd.	
The lowest temperature in the month	66 9	21st.	
The range of temperature during the month	24 5		
The mean daily range of temperature	14 2		
The greatest range of temperature in one day	19 1	20th.	
			Per cent.		
The mean humidity of the month	81		
The average humidity of October from 24 years' registers	79		
			Inches.		
The mean vapour tension of the month	0 812		
The average vapour tension of October from 9 years' registers	0 854		
The mean cloud proportion of the month	2 50		
The average cloud proportion of October from 11 years' registers	4 12		
			Inches.		
The total rainfall of the month	2 51		
The total rainfall indicated by a Beckley's self-registering rain-gauge (mouth of the gauge about 52 feet above the ground)	2 38		
The average fall of October from 48 years' registers	5 61		
The greatest fall in 24 hours	1 12	6th.	
			Days.		
The number of rainy days in the month	4		
The average number of rainy days in October from 24 years' registers	10		
			°		
The mean maximum equilibrium temperature of solar radiation during the month	143 5		
The mean difference of sun and air temperatures	56 4		
The greatest sun temperature	153 7	2nd.	
The greatest excess of sun over air temperature	63 2	13th.	
The mean temperature of the nocturnal radiation thermometer on woollen cloth	67 5		
The mean depression of the nocturnal radiation thermometer below the minimum air temperature at 4 feet above the ground	5 4		
The greatest depression of the nocturnal radiation thermometer below the minimum air temperature	8 0	20th.	
			Miles.		
The mean movement of the wind per day	35 1		
The greatest movement of the wind in one day	165 0	7th.	
The greatest movement of the wind in one hour	13 0	2nd, 4 to 5 P.M.	
The number of hours with winds from each of the 8 points—

The results of observations at the Alipore Observatory are not rigorously comparable with the registers of past years (at the Park-street Observatory). The barometer is about 3 feet higher at Alipore, and, other things being equal, reads therefore 0 03 lower. The diurnal range of temperature is also greater at Alipore, and the mean temperature apparently about 0 8 lower and finally, the thermometer which furnished the record of temperature at the Surveyor-General's Office during 20 years and upwards is found to read 0 6 higher than the Kew standard thermometer, which is the standard of reference at the present Observatory.

CALCUTTA, the 13th November 1888.

**SUMMARY OF THE RAINFALL AND METEOROLOGICAL OBSERVATIONS
TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVA-
TIONS TAKEN IN ASSAM, FOR THE WEEK ENDING FRIDAY,
THE 9TH OF NOVEMBER 1888.**

THE weather conditions during the previous week had become disturbed in the south of the province owing to a rather fierce cyclone which had formed in the south of the Bay, and which had passed over Madras. The storm had crossed the Peninsula in a westerly direction, and on the morning of the 2nd it was passing into the Indian Ocean near Mangalore. On leaving the land it appears to have travelled in a north-westerly direction, and on the 3rd the centre was probably opposite the coast between Karwar and Goa. On the 4th it had again advanced and was nearly opposite Bombay, though probably at some distance from land. On the 5th the storm had become decidedly more feeble, and was drifting towards the Kattiawar coast, and on the 6th it had practically filled up and had disappeared. This storm therefore had a life history of about 9 days, and its course was perhaps 1,200 or 1,300 miles long.

Following in the track of the storm, a heavy wave of rainfall set in along the Madras coast, and these disturbed conditions gradually drifted northwards along the coast. Rainfall set in over the south of Orissa on the 31st of October, and afterwards spread over the whole of this Division, and continued almost throughout the week, the falls being particularly heavy in the southern districts. At first it appeared highly probable that the wave of moisture-laden winds would continue to spread northwards into the southern and western districts of Bengal, but though the disturbed conditions were sufficiently developed to give heavily-clouded skies over the greater part of the province, and indeed to give almost overcast skies to the south-western districts for a considerable part of the present week, yet no general rainfall occurred, and only a few light and unimportant showers were reported on one or two days in the following districts:—Chittagong Hill Tracts, Noakholly, Dacca, Darjeeling Hills, Lohardugga, and Singhbhum, the falls being heaviest in the two last-named districts.

At the close of the week, however, those disturbed conditions were again gradually dispersing and retreating, and rainfall on the 9th was confined entirely to Orissa and to the districts of South-West Bengal, and it had also become very light. In the retreat, however, of the slightly-disturbed conditions more frequent showers were received, and on the 9th showers were rather numerous in South-West Bengal, the rainfall being almost general in the Hooghly, Beerbhoom, and Moorshedabad districts; while in the districts of 24-Pergunnahs, Bankoora, Nuddea and Satkhira local showers were received.

Pressure.—The pressure variations during the week have been particularly small, and from day to day the changes have scarcely exceeded one or two hundredths of an inch. For the first two days of the week pressure was increasing, there was then a slight fall, which lasted over about four days, and on the 9th pressure was again rising. The mean pressure for the week has been very slightly in excess of the normal at almost all stations, and for the whole province of Bengal the variation is an excess of 0.012 inch only. In Assam the mean pressure has been 0.019 inch in excess of the normal.

Temperature.—The temperature changes during the week have been rather irregular in the various districts, but temperature has not fallen to the extent usual at this season. The mean temperature has therefore been above the normal in all districts. The average excess in South Behar and Chutia Nagpur has been about one and-a-half degrees. In South-West Bengal, North Bengal, and Orissa the excess has equalled one degree, while in North Behar a defect of almost this amount has been registered. For the whole province, therefore, the general excess has averaged nearly one degree. In Assam a defect of nearly one degree is reported.

Rainfall.—The distribution of the rainfall of the past week has already been described, and it therefore only remains to give its general amount. For all practical purposes East and North Bengal, Behar and Chutia Nagpur have been rainless. In South-West Bengal the general fall has averaged 0.21 inch, but the fall has been very unequally distributed. Jessore, Midnapore and South-West Midnapore and South 24-Pergunnahs have received no rain. In Jessore the fall has only averaged a hundredth of an inch. The 24-Pergunnahs, Howrah, Hooghly, Burdwan, and Nuddea districts average about a fifth of an inch. The Beerbhoom and West Burdwan districts average 0.36 inch and the Moorshedabad district 0.61 inch. In Orissa the general average fall has been no less than 1.58 inches, but at Pooree a fall of nearly six inches is reported, and at Khurda one of 4.2 inches (up to the 6th). All the stations in Orissa have received moderate to heavy rain, the falls being heaviest in the Pooree and lightest in the Balasore district.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the province for the week ending Friday, the 9th of November 1888:—

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph. The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

MEMORANDUM.

A BRIEF summary of the principal results in connection with the mortuary statistics of the districts in Bengal for the month of August 1888, as presented in the statement appended to this memorandum, is subjoined:—

1. The deaths of 109,203 persons were registered in a population of 66,055,695, representing an annual casualty-rate of 19·80 per 1,000, against 20·64 per 1,000 in the preceding month, and 24·96 per 1,000 in the corresponding month of 1887, indicating, as compared with the latter period, a large decrease in mortality

2. The undermentioned districts furnished the highest proportions of deaths:—

3. The mortality from the principal death-causes mentioned in the appended table is shown below. The figures indicate that cholera and fever prevailed with considerably less fatality during the month under notice, as compared with the corresponding month of the preceding year, and that the fatal results from the rest of the diseases exhibited only fractional variations, excepting injury, which maintained the same death-rate:—

Ratio per mille during—					
August 1888. August 1887.					
Cholera	2·16	3·48
Small-pox	·04	·02
Fever	13·20	16·56
Bowel-complaints	·60	1·08
Injury	·60	·60
Other causes	2·88	3·12

4. While small-pox, bowel-complaints and injury did not prevail with more than normal severity anywhere, and the maladies coming under the head of "Other causes," which proved noticeably fatal only in Puri, viz., at the rate of 12·12 per 1,000 of population, cholera and fever caused the highest mortality in the following districts:—

MEMORANDUM.

THE birth and death returns of the principal Municipalities in Bengal (excluding Mozufferpore, from which no data have yet been furnished), for the week ending 20th October 1888, exhibit the following results:—

1. That the ratios per mille of births and deaths for the period above referred to stand at—births 19·6 and deaths 28·6: the corresponding figures of the preceding week, ending 13th October, being 18·6 and 26·6, respectively, indicating an improvement in the registration of both the events.

2. That the highest proportions of births and deaths were returned from the following Municipalities:—

Births.				Deaths.			
			Ratio per mille.				Ratio per mille.
Bali	49·1	Gya	55·3
Monghyr	41·6	Suburbs of Calcutta	53·2
Durbhanga	38·5	Bali	52·6
				Monghyr	39·8
				Puri	37·8
				Howrah	34·4

3. That the rates of mortality from the principal diseases, contrasted with the similar information for the preceding week, stood as follows:—

						Ratio per mille during the weeks ending—	
						20th October 1888.	13th October 1888.
Cholera	6·0	4·9
Small-pox	1
Fever	11·7	10·3
Bowel-complaints	3·5	3·3
Injury	·2	·3
Other causes	7·2	7·7

indicating chiefly, that the mortality from cholera and fever had increased to a noticeable extent.

4. That excluding small-pox, from which no death was reported to have occurred, and bowel-complaints and injury, the casualties from which do not call for notice, cholera, fever and the maladies coming under the head of "Other causes" proved conspicuously fatal in the following Municipalities:—

Cholera.	Ratio per mille.	Fever.	Ratio per mille.	Other causes.	Ratio per mille.

the census of the Europeans in the Darjiling Municipality was recently taken, as the census of this portion of the community, taken in February 1881, was not reliable owing to the Europeans being at a minimum in that month. The number of the natives, as it was not necessary to re-census them. The ratios have consequently been calculated on the population under all heads in the above table, except "Age," the ratios under which have been omitted, inasmuch as the census of the Europeans cannot be employed as a basis of calculation owing to the results of the census under this head not having been recorded under the authorized form of age classification.

General remarks on the fluctuation of principal staples carried over the East Indian Railway during four weeks ended 22nd September 1888.

INCREASES.

Coal and coke.—There was a decrease in the upwards, and an increase in the downwards coal traffic; the former was due to smaller demands from the public, and the latter to improved despatches to the Eastern Bengal State Railway, *via* the Jubilee Bridge.

Jute, raw.—This is a continuation of the increase in August.

Gunny.—This increase was due to a good demand for gunnies from Delhi and stations above.

Wheat.—Due to a rising market at home, and also to a good demand for local consumption.

Rice (husked and unhusked).—This is attributable to considerable despatches of rice having been made to up-country stations, principally in the Dinapore district, to meet demands caused by a partial failure of the rainy season makai or Indian-corn crop.

Oil.—This increase was chiefly in kerosine oil from Howrah to up-country-stations.

Railway material, Foreign.—Due to despatches to Asansol for the Bengal-Nagpur Railway.

Seeds.—The increase was chiefly in linseed, mustard, castor and poppy seed; the former was despatched to Bombay solely from stations above Mirzapore, and the latter three for local consumption.

Stone.—Due chiefly to despatches from Mirzapore, Chunar and Pahara.

Potatoes.—This increase was almost entirely in hill potatoes grown in the neighbourhood of Naini Tal.

DECREASES.

Cotton.—The despatches consisted entirely of the old crop, and the decrease was due to the same reason as referred to in previous months.

Piece-goods, European.—This decrease may principally be ascribed to the Doorga Poojah holidays having taken place in September 1887, but they fell later in 1888.

Fruits, other kinds.—This was principally in betel-nuts from Howrah and Sealdah owing to absence of demand.

Grain and pulses.—

Other rain and spring crops.—The decreases in these staples were due to heavy upward despatches last year in response to demands in the North-West Provinces and Rajputana consequent on failure of crops, whereas this year there have not been the same requirements.

Brass and copper.—Due to absence of demand owing to enhanced prices.

Salt.—Due to limited demand and stock at the large centres having been sufficient to meet requirements.

Sugar and jaggree.—This decrease was chiefly at the sugar-despatching stations in the Dinapore district suffering from poor crops.

Ghee.—This is attributable to want of demand in the Calcutta market.

INCREASE.

Tons.

Coal 143

This increase is due to greater demand for silk factories being worked on an extensive scale by steam power.

Cotton piece-goods—

(1) European 12

This is attributable to Junghipur piece-goods being carried this year by this way, the Muraroi road being unfit for cart traffic.

Grains—

(5) Others 17

This increase is due to export of *kalai* owing to high market rate in other places.

Provisions—

(2) Dried fruits and nuts 15

This increase is due to export of cocoanuts for Doorgapujah.

Railway plant and rolling-stock 114

This increase is due to more materials carried during the month.

Oilseeds—

(2) Mustard and rape 17

This increase is due to greater import, the bazar being high.

Silk, raw—

(2) Indian 19

This increase is due to Junghipur silk being exported *via* Azinganj, the Muraroi road being unfit for cart traffic.

DECREASE.

Cotton, raw 9

This decrease is due to dull market.

Grains—

(2) Rice 136

This decrease is due to less export from intermediate stations for low rates.

Oilseeds—

(6) Others 22

The decrease under this head is due to gooja seed not being imported this year.

Stone and lime 68

This was imported last year for building purposes, but there is no further demand this year, hence the decrease.

NOTIFICATION.

The 15th November 1888.—Baboo Suresh Chandra Chatterjee, Deputy Collector, is appointed Deputy Collector of Income-tax in the district of Khoolna, *vice* Baboo Uma Charan Ganguli, on leave, and, under section 40 of Act II of 1886, is vested with the powers of a Collector under the Act.

H. J. S. COTTON,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 9th November 1888.—The following rules, framed by the Board of Revenue, Lower Provinces, with the sanction of Government, under section 19A of Act VII (B.C.) of 1878, as amended by section 6 of Act I (B.C.) of 1883, for regulating the importation and sale of spirits manufactured in British India and imported by sea into Calcutta, and for the levy of Excise duty thereon, are published for general information :—

1. All spirit manufactured in British India and imported into Calcutta, whether imported by sea under bond or otherwise, shall be landed under Customs *green boat-note* and placed in the Custom-house godown, and will remain in the custody of the Collector of Customs until the importer, owner, or agent applies for its removal into the Excise godown.

2. Applications for removal shall be made in the usual bill-of-entry form, supported by the bill-of-lading or delivery order. The bill-of-entry will be made out "for removal into the Excise godown" instead of "into town" as at present, and the officer in charge of the Excise godown will give the Customs officer a receipt in full for the number of casks or packages received.

3. As soon as possible after the spirit has been received in the Excise godown, it will be tested and gauged by an officer appointed by the Superintendent of Excise Revenue, and in the case of spirit landed under bond, the result will be communicated to the officer holding the bond in Madras or elsewhere.

4. Excise duty shall be levied by the Superintendent of Excise Revenue on all such spirit landed under bond, subject to a wastage allowance similar to that laid down in section 116 of the Sea Customs Act.

5. In the case of duty paid spirit, if the Excise duty at the port of exportation is lower than the duty chargeable in Calcutta, the differential duty under section 151 of the Sea Customs Act will be levied by the Superintendent of Excise Revenue at such rate as the Local Government may from time to time, by notification in the local Gazette, fix.

6. Passes for the removal of the spirit from the Excise godown will be issued by the Superintendent of Excise Revenue in accordance with section 18 of Act VII (B.C.) of 1878.

7. All charges incurred in the landing and removal of the spirit must be paid by the importer, owner or agent to the Collector of Customs, failing which the amount will be levied by him under section 119 of the Sea Customs Act, and no portion of the spirit shall be removed from the Excise godown until a "*No demand certificate*" has been received by the Superintendent of Excise Revenue from the Collector of Customs.

8. All charges on account of rent, cooperage, storing, removing, &c., incurred after such spirit has been received into the Excise godown must be paid by the importer, owner or agent, as the case may be, to the Superintendent of Excise Revenue before the spirit is removed from the Excise godown, at such rates as may, from time to time, be fixed by the Board of Revenue.

K. G. GUPTA,
Offg. Secy. to the Board of Revenue.

NOTIFICATION.

The 9th November 1888.—Under section 151 of the Sea Customs Act, it is hereby notified that if country spirit manufactured in British India, upon which excise duty has been paid, is imported by sea into Calcutta, and the rate of excise duty at the port of exportation is lower than that chargeable in Calcutta, a differential duty will be levied by the Excise Superintendent of Calcutta at one rupee per gallon of spirit London Proof.

J. WARE EDGAR,
Chief Secy. to the Govt. of Bengal.

NOTIFICATION.

The 19th November 1888.—The following revised Rules are substituted for rules XV and XVIII of the Rules made by the Lieutenant-Governor under the power vested in him by section 4 of Act III (B.C.) of 1879 (entitled "an Act to provide for the periodical inspection of steam-boilers and prime-movers attached thereto in the Town and Suburbs of Calcutta and in Howrah") and since extended by notifications to places in the districts of Hooghly, Howrah, and the 24-Pergunnahs, within a radius of 30 miles from Calcutta, and to the sub-divisions of Raneeunge, Giridhi and Gobindpore:—

XV.—The Inspector shall give one week's notice of every such intended thorough examination; and if after that notice the boilers are not empty, cool, clean, and ready for inspection on the date named, the Inspector shall prohibit the boilers from working, and shall report the case to the Commissioners. Further, if any request be made to remove fittings or settings, and such be not complied with, the Inspector shall in like manner stop the working of the boilers.

Provided that the inspection of boilers in the Raneeunge, Giridhi, and Govindpore sub-divisions, shall be made during the months of November to May inclusive, and the Inspector shall give 14 days' notice of the day when he will make such inspection.

If any boiler needs inspection in the Raneeunge, Giridhi, and Govindpore sub-divisions during the months of June to October inclusive, either as being a new boiler requiring a certificate, or as being a boiler which the owner for any other reason wishes to have inspected, it may, on the application of the owner, manager or agent, be inspected during that period.

XVIII.—In addition to the above fees, a charge to cover the travelling expenses of the Inspector will be made in the case of all boilers or prime-movers situated outside the town of Calcutta. The charge for such inspection will be calculated according to the distance from Government House to the place where the boiler is situated and back again, and will be at the rate of six annas a mile by road and two annas a mile by rail.

In the Raneeunge, Giridhi, and Gobindpore sub-divisions the travelling charges incurred on account of inspection of boilers will be borne by Government, except in the case of an inspection during the months of June to October made on the application of the owner, manager or agent; and the Inspector will draw travelling allowance in accordance with the rules sanctioned by Government, and in the case of inspection in June to October, the sum drawn will be paid by the owner applying for the inspection.

THE Port Officer, Karachi, has given notice (Notice to Mariners, dated 22nd October 1888) of intended new Fixed Light at Manora Point in lieu of the present Revolving Light.

The new light will be a fixed first order dioptric white light, showing with full brilliancy to seaward on a horizontal arc of 180 degrees, that is, from north-west by west to south-east by east, the landward half circle being partially screened by a dioptric mirror, which will intensify the light to seaward.

The focal plane of the light will be 152 feet above mean sea-level, and in clear weather it will be visible from a steamer's bridge at 20 nautical miles.

The light will be in—

Latitude 24° 47' 37" N.

Longitude 66° 58' 6" E. ;

bearing from the existing light N. 26° 20' W., at a distance of 607 yards.

The tower will adjoin Saint Paul's Church to northward, with 16 yards' interval between, and will be round, built of light drab coloured stone (but whitewashed on seaward half) and 91 feet in height from ground to top of coping.

The new light will be exhibited and the existing light discontinued as early as practicable after the 1st April 1889.

The exact date will be hereafter notified.

The existing light tower will for the present be left standing for military purposes, though its light will be removed.

AFRICA—EAST.

RED SEA—EASTERN SHORE.

Kamarán Bay—Reef off Southern Entrance.

THE British Admiralty has given notice (Notice to Mariners No. 318 of 1888) that information has been received through the Board of Trade that on the 1st August 1888 the British steam vessel *Bussorah*, when entering Kamarán Bay by the South Channel, struck on the southern side of the entrance:—

The bearings given for the position of the vessel when aground in 3 fathoms water, are as follows:—

Northern extreme of Ras-el Bayádh—N. $61\frac{3}{4}^{\circ}$ E.

Southern extreme of Ras-el Bayádh—S. $8\frac{3}{4}^{\circ}$ W.

South-west extreme of Kamarán Island—N. $47\frac{1}{4}^{\circ}$ W.

As the southern entrance to Kamarán Bay has previously been reported to be narrower than shown on the plan, it appears probable that the shore reef outside Ras-el Bayádh is wider than given on the chart, and Mariners should use caution in entering.

NOTE.—In the caution printed on chart No. 14, the word “not” is omitted from the second paragraph, which should run as follows:—When there is any wind the reefs are not easily seen.

(The bearings are magnetic. Variation $3\frac{1}{2}^{\circ}$ Westerly in 1888).

<i>(c) Water—</i>						
Fresh water to be stored in iron tanks or sweet casks	1 imperial gall.	1 imperial gall.

[*Note.*—In the case of ships sailing from ports in the Presidency of Madras, the scale of tamarind, condiments, and salt shall be double that specified above, and one ounce of tamarind shall be supplied in the case of passengers bound for ports within 48 hours' sail.]

(2). In the case of steam-ships carrying an apparatus for distilling fresh from salt water a supply equal to five-sevenths of a gallon per head per diem shall suffice.

(3). In Calcutta, Bombay, and Rangoon such water shall be obtained from the municipal pipes, and in Chittagong from the port water-works.

B.—Medical stores and other appliances and fittings for maintaining health, cleanliness and decency.

II.—(1). Every such ship shall have on board—

(a) if she carry a surgeon, a supply of medicines and surgical appliances as set forth in Schedule A hereunto annexed;

(b) if she do not carry a surgeon, a supply of medicines and appliances as set forth in Schedule B hereunto annexed, together with written or printed instructions for their use in a language which the commander or some other officer of the ship can read; provided that, if the ship is about to commence a "short voyage" only as defined by section 5 of the Act, the ship need only have on board the medicines and surgical appliances mentioned in Schedule C hereunto annexed.

(2). The medicines and surgical appliances above specified shall be supplied for the use of the passengers whenever circumstances so require; and if the medical officer, or, where there is none, the master of the ship, omits, when circumstances so require, to supply the same, he shall be punished with fine which may extend to two hundred rupees.

III.—(1). Every such ship carrying more than one hundred passengers as defined in the Act shall have the following hospital accommodation, or the following materials for the construction of hospital accommodation, for the passengers:

A.—In the case of ships making long voyages.

(a) There shall be a permanent hospital set apart on the upper deck and fitted up either in the poop or deck-house. This hospital shall contain not more than six bunks, and shall have a superficial deck area of at least 144 feet and not less than 864 cubic feet of air space. It shall be lighted and ventilated to the satisfaction of the surveying officers, and shall be provided with a raised floor or platform at least four inches off the deck. Every permanent hospital must be made as secure as any other deck-house, and the roof must be well caulked and covered with painted canvas. In all such permanent hospitals, iron fittings are preferable to wood. No case of small-pox, cholera, yellow fever, or plague shall on any account be treated in the permanent hospital.

(b) To provide for the treatment of such cases of sickness as it may be considered desirable to separate (such as small-pox, cholera, yellow fever or plague), and for any general outbreak of sickness when the permanent hospital accommodation becomes insufficient, each ship shall carry the materials for the construction of a temporary hospital upon its upper deck. The part of the upper deck upon which such hospital shall be erected shall be pointed out and measured off by the surveying officers. The framework of the hospital may be either of iron (in pieces that can be easily fitted together) or of wooden spars or bamboos. The roof must be tented, and both that and the side walls must be made of stout canvas and be perfectly water-tight, due provision being at the same time made for ventilation. The superficial area of the floor shall be not less than 144 feet, and such floor shall be raised at least four inches from the deck. Sheet, iron is preferable as the material of the floor.

B.—In the case of ships making short voyages.

(c) Each ship shall carry the materials for the erection of a temporary hospital, as described in clause (b) above, for the treatment of cases of the kind referred to in the said clause, provided that the superficial area reserved for such hospital need not be more than 72 feet. This space must always be deducted from the area measured for passengers on board of such ships.

(2). The permanent hospital, in the case of ships provided with the same, shall be available at all times for the use of sick passengers (other than those suffering from small-pox, cholera, yellow fever, or plague), and the temporary hospital shall always be erected at once and made available for the use of sick passengers whenever the circumstances as described above so require.

(3). If the master of any ship omits either to keep any hospital available for the use of sick passengers, or to erect a temporary hospital as required by this rule, he shall be punished with fine which may extend to two hundred rupees, and with a further fine of twenty rupees for every day after the first during which the omission continues.

IV.—(1) Every such ship shall be fitted with not less than two privies sufficiently screened from public view and readily accessible and available at all times for the use of the passengers, and with one more such privy for every 100 passengers, or part of that number, carried in excess of 100; but no privies shall be allowed in the between-decks.

(2). A proportion of such privies, in any case not less than one, if there be any females among the passengers, shall be set apart for the exclusive use of females, such proportion corresponding, as nearly as may be, to the proportion of female to male passengers.

V.—Every such ship shall be provided with, and have available for the use of the passengers, not less than two places for washing sufficiently screened from public view, whereof a full proportion, as described in Rule IV, shall be set apart exclusively for females. A sufficient number of hand-pumps shall also be provided for supplying sea-water for purposes of ablution.

VI.—On every such ship cattle shall be kept securely penned in, so as not to inconvenience the passengers.

VII.—(1). Every such ship shall be provided with not less than two cabooses or cooking ranges on deck, properly housed and covered, to which passengers shall have ready access at certain times in each day. The ranges shall be made of substantial plate-iron lined inside with bricks, and raised at least four inches from the deck, with an outlet or chimney at the top for the escape of smoke. Each range shall contain at least five cooking places, and an additional range shall be provided for every two hundred passengers carried in excess of one hundred. Cooking on board in the passengers' own stoves is prohibited, and any passenger so cooking or attempting to cook shall be punished with fine which may extend to one hundred rupees.

(2). The crew of the ship shall not be allowed to use the cooking ranges set apart for passengers during the period passengers are on board, but shall be provided with a separate cooking range.

(3). In the case of ships engaged in the coasting trade and carrying passengers on short voyages from port to port, who do not ordinarily cook food on board, the number of cooking ranges may be reduced to such number, not being less than two, as may seem adequate to the requirements of the passengers.

VIII.—The master of any ship omitting to keep any privy, washing place, or cooking range available for the use of the passengers, or any cattle securely penned in, or allowing the crew of the ship to use any cooking range set apart for passengers in breach of the foregoing rules, shall be punished with fine which may extend to two hundred rupees, and when the breach is a continuing one with a further fine of twenty rupees for every day after the first during which the breach continues.

C.—Boats, anchors and cables.

IX.—Every such ship shall be provided with boats according to the scale laid down in the annexed schedule, all such boats being fully fitted with all usual appliances.

Schedule of boat accommodation.

REGISTERED TONNAGE OF SHIP.	Number of boats not less than.	SAILING VESSELS.		STEAM VESSELS.	
		Minimum cubic contents of life-boats.	Minimum cubic contents of all the boats of the ship.	Minimum cubic contents of life-boats.	Minimum cubic contents of all the boats of the ship.

. In ships of 200 tons and upwards, no boat of less than 90 feet of cubical contents is to be counted in the number.

In ships of 600 tons and upwards two of the boats should be life-boats.

Not fewer number of boats need be taken than are sufficient to carry all the crew and passengers on board.

The cubic contents of the boats in the foregoing table are ascertained by multiplying their outside length, their outside width and their inside depth together, and then the product by 0.6.

X.—Every such ship shall be provided with not less than three anchors and cables.

D.—Instruments for purposes of navigation.

XI.—Every such ship shall be provided with—

- (a) not less than two good compasses; and, if she be an iron ship, with a record of the deviation of her compasses on every point entered in the log-book;
- (b) charts suitable for the voyage she is about to undertake;
- (c) not less than one chronometer and not less than two sextants or quadrants and barometers, unless her size be under 240 tons, and she be bound on a short voyage, in which case it shall suffice if she be provided with a sextant or a quadrant.

E.—Apparatus for extinguishing and precautions against fire.

XII.—Every such ship shall be provided—

- (a) if she be a steam-ship, with hose sufficient to reach from her engines to her stem and taffrail;
- (b) if she be a sailing ship, with one fire-engine or force-pump, with hose sufficient to reach from her stem to her taffrail; and if her tonnage exceed 800 tons, with a second such engine or force-pump, with like hose; and
- (c) in the case both of steam-ships and sailing ships, with fire-buckets in the proportion of three for every 100 tons up to 600, and two for every 100 tons above 600, provided that 50 in all shall suffice.

XIII.—If fire annihilators or fire-engines are carried, they shall be placed by the master under the special charge of one of the principal officers of the ship and the ship's carpenter, who should be held responsible that, with the buckets and other fire apparatus, they are kept in a state fit for immediate use. The engine shall be worked not less than once a week, and shall be kept in proper order. As soon as possible after leaving port, the officers and crew shall be divided into parties and assigned to stations in case of fire. The master of any such ship failing to comply with the requirements of this rule shall be punished with fine which may extend to two hundred rupees.

XIV.—The cargo of every such ship shall, before leaving port be properly stowed away, and the decks cleared of any loose straw, hay, or other inflammable material. If any such ship leaves port without having the cargo so stowed, and the decks so cleared, the master shall be punished with fine which may extend to two hundred rupees.

XV.—Immediately before leaving port, the passengers of every such ship shall be called on to deliver up whatever lucifer matches, gunpowder or other inflammable articles they may have about them. Any passenger omitting or refusing to deliver up any such articles when called upon to do so shall be punished with fine which may extend to one hundred rupees.

XVI.—No naked lights shall on any account be used in the hold or store-rooms or in the between-decks, except under trustworthy superintendence. No person shall read in bed with a naked light. Smoking between-decks is strictly prohibited. Spirits must never be opened in the hold, but should be hoisted on deck for the purpose. Any person committing a breach of this rule shall be punished with fine which may extend to two hundred rupees.

Appliances for saving life and making signals of distress.

XVII.—Every such ship shall be provided with an adequate supply of life-buoys, not less than four for each vessel, signals of distress, and inextinguishable lights fitted for attachment to the life-buoys.

Miscellaneous.

XVIII.—Every such ship to which clause (4) of section 18 of the Act does not apply shall be provided with a single awning of stout canvas over the whole of the portion of the deck used by the passengers.

XIX.—In the case of every such ship about to proceed on a long voyage, the whole of the open space on the upper deck of the ship shall be left unencumbered, so as to be available for the use of passengers, or at least so much of that space shall be left unencumbered as to allow not less than six superficial feet there of for each passenger proceeding on the voyage.

XX.—(1). Certificate B, provided for in section 11 of the Act, shall not be granted until the officer appointed to grant the same is satisfied that, in addition to the food, fuel, and pure water required by clause (c) of that section, the medical stores and other appliances, the fittings for maintaining health, cleanliness, and decency, the boats, anchors, and the instruments for purposes of navigation, the apparatus for extinguishing fire, the appliances for saving life and making signals of distress, the awning for the portion of the deck used by the passengers, and the upper-deck space for each passenger required by

NOTICE BY THE ACCOUNTANT-GENERAL, BENGAL.

SUPPLY BILLS.

NOTICE is hereby given that supply bills for sums of Rs. 500 and above in even rupees are usually obtainable on the treasuries named below at the rates of premium shewn.

Any person desiring to obtain a supply bill should send to the Bank of Bengal, Calcutta, a written application containing the following information—(1) his own name and address; (2) the name of the person to whom payment is to be made; (3) the treasury on which the bill is to be granted; and (4) the amount for which the bill is to be granted. With this application the cost of the bill (the amount plus the premium) should be paid into the Bank. If payment by telegram is desired (but this is admissible only in cases in which the name of the payee has been previously registered in the Accountant-General's office), the fact should be stated in the application, and an additional rupee paid with the cost.

The Bank of Bengal will, if the amount is available at the treasury named, receive the money tendered, and grant a receipt, returning the application therewith. The receipt and the application should then be sent to the Accountant-General's office, by which the bill will be granted.

The Bank of Bengal will be advised by the Accountant-General on the 1st and 16th of each month of the amounts available at the several treasuries, and will receive the amounts tendered by the first comers till those amounts are exhausted.

If the Bank refuses to receive any sum tendered owing to the amount not being available at the treasury, the application will be retained by the Bank and forwarded by it to the Accountant-General, who will advise the Bank and the applicant if the amount can be made available.

The following Extraordinary, issued by the Government of India, Home Department, is republished for general information :—

J. WARE EDGAR,
Chief Secy. to the Govt. of Bengal.

NOTIFICATION.

PUBLIC.

No. 2965.

Simla, the 12th November 1888.

THE Most Honourable Henry-Charles-Keith Petty-FitzMaurice, Marquess of Lansdowne, G.C.M.G., Earl Wycombe, of Chipping Wycombe, County Bucks, Viscount Caln and Calnstone, County Wilts, and Lord Wycombe, Baron of Chipping Wycombe, County Bucks in the Peerage of Great Britain; Earl of Kerry and Earl of Shelburne, Viscount Clanmaurice and Fitzmaurice, Baron of Kerry, Lixnaw, and Dunkerron, in the Peerage of Ireland, is expected to arrive at Aden on or about the 27th instant and at Bombay on or about the 3rd December, to assume the office of Viceroy and Governor-General of India.

The Resident at Aden will receive the Marquess of Lansdowne with all the honours and distinctions which are due to the Viceroy of India.

His Excellency the Governor of Bombay will make arrangements, in communication with the Naval authorities, for the landing and reception of the Marquess of Lansdowne at Bombay with all the honours and distinctions which are due to the Viceroy of India.

An Aide-de-Camp of the Viceroy will proceed to Bombay to attend upon the Marquess of Lansdowne throughout his journey from Bombay to Calcutta.

One of the principal Civil Officers of each Government or Administration will be deputed to meet the Marquess of Lansdowne as he enters the limits of such Government or Administration, and will remain in attendance upon His Lordship until he passes beyond those limits.

At the Railway stations at which halts are made for rest and refreshment, Civil and Military Officers will be in attendance. There will also be a Guard of Honour upon the platform.

Should the Marquess of Lansdowne make any stay at Allahabad, His Honour the Lieutenant-Governor of the North-Western Provinces will make all arrangements, in communication with the Military authorities, for His Lordship's reception in a suitable manner.

At stations between Bombay and Howrah, other than those mentioned in the two preceding paragraphs, the attendance of officers is dispensed with.

Proper police precautions will be taken at all the stations along the line at which the train stops.

Upon the Marquess of Lansdowne's arrival at the Howrah terminus of the East Indian Railway, His Lordship will be received by the Secretaries to the Government of India and by the Military Secretary and Aides-de-Camp to the Viceroy.

The following officers will also be in attendance upon the Howrah Railway platform :—

The Commissioner of Burdwan.

One of the Secretaries to the Government of Bengal.

The Brigadier-General Commanding the Presidency District with the District Staff.

The Commissioner of Police and Chairman of the Justices of the Peace for the Town of Calcutta.

The Sheriff of Calcutta.

The Magistrate of Howrah.

A Guard of Honour of Native Infantry will be drawn up at the Howrah terminus.

The Marquess of Lansdowne, attended by his personal staff, by the Secretaries to the Government of India, by the Military Secretary and Aides-de-Camp of the Viceroy, will proceed to Government House in the Viceroy's carriages escorted by the Body Guard.

The line of route will be lined throughout by troops under the orders of the Brigadier-General Commanding the Presidency District.

A Royal Salute will be fired from the ramparts of Fort William as the cortège appears upon the Hooghly Bridge.

A Guard of Honour of British Infantry and a Guard of Honour of the Administrative Battalion Presidency Volunteers will be drawn up opposite the grand entrance of Government House.

The Marquess of Lansdowne will be received as he alights from the carriage at the foot of the grand staircase by His Honour the Lieutenant-Governor of Bengal attended by his personal staff.

All the Civil and Military Officers of Government at the Presidency will be in attendance upon the grand staircase of Government House. Consular Officers and other Representatives of Foreign Governments at Calcutta, and all non-official gentlemen, are invited to be present upon the grand staircase.

His Excellency the Viceroy and Governor-General, attended by his personal staff and the Members of the Governor-General's Council, will receive the Marquess of Lansdowne at the top of the grand staircase, and will conduct His Lordship to the Throne-room.

The troops will then be withdrawn.

Full dress will be worn by Civil and Military Officers, and morning dress by all gentlemen not entitled to wear uniform.

The date and hour of the Marquess of Lansdowne's arrival at Howrah and the ceremonial to be observed on his assumption of the office of Viceroy and Governor-General of India will be notified hereafter.

By order of the Governor-General in Council,

A. P. MACDONNELL,

Secretary to the Government of India.

MILITARY SECRETARY'S OFFICE.

NOTIFICATION.

Simla, the 13th November 1888.

HIS EXCELLENCY THE VICEROY AND GOVERNOR-GENERAL OF INDIA will arrive at Calcutta (Sealdah Railway Station) at 4-30 P.M. (*Calcutta time*), on Thursday, the 29th November 1888. His Excellency will be received by the Chairman of the Justices and Commissioner of Police for the Town of Calcutta, the Commissioner of the Presidency Division and the Magistrate of Alipur; and at Government House by His Honour the Lieutenant-Governor of Bengal and Staff, Members of His Excellency's Council, General Officer Commanding the Presidency District and Staff, the principal Civil and Military Officers, and other gentlemen who are desirous of attending.

A Guard-of-Honour of the Eastern Bengal Railway Volunteers and a Guard-of-Honour of Native Infantry, with Band and Colour, will be drawn up on the platform of the Sealdah Railway Station.

The route taken will be by the Circular Road, Dhurumtolla, Esplanade East, and Old Court House Street, into Government House by the North-East Entrance.

The Body Guard and the Calcutta Mounted Volunteer Corps will form His Excellency's Escort.

A Viceregal Salute will be fired from the Ramparts of Fort William as His Excellency alights from the train.

A Guard-of-Honour of British Infantry and of the Presidency Volunteers will be drawn up in front of the Grand Staircase of Government House.

Full dress will be worn by Officers entitled to uniform. Gentlemen not entitled to wear uniform will appear in *Morning dress*.

By Command,

WILLIAM BERESFORD, *Lieut.-Col.,*

Military Secretary to the Viceroy.

A. БОРООАН, Offg. Collector.

NOTICE is hereby given that the undermentioned plots of land no longer required by Government, situated along the branch line of the Tirhoot State Railway, i.e., from mouzah Sazawulpore to Muttoopore, in the district of Monghyr, will be put up to sale at places and on dates specified below :—

Number of lots.	Place of sale.	Date of sale.
2, 3, 4, &c. to 15.	Tegrah Station, Tirhoot State Railway.	22nd December 1888.

The purchasers of the several plots of land will be subject to the following conditions :—

- 1st.—The purchasers will have no power to make any excavation on the land nearer than 15 feet from the Railway fencing, or plough the land closer than 3 feet from its foundation.
- 2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.
- 3rd.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the 15th day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale.
- 4th.—The balance of purchase-money due under the third condition may be paid either to the Collector or into the Government Treasury, Monghyr.
- 5th.—The plots of land will be sold revenue-free to the highest bidders.
- 6th.—The purchaser shall be put in possession on receipt of the orders of the District Collector approving of the sale; but such possession shall be liable to be disturbed in case the final confirmation of the Board of Revenue should not be accorded to the proceedings.

G. H. SIMMONS, Traffic Manager.

Rules framed by the Local Board of Madaripur, under section 32 of the Local Self-Government Act, and confirmed by the Lieutenant-Governor of Bengal.

CLAUSE (a).—Meetings.

1. If the Chairman is temporarily absent from his duties, or if the office of Chairman is temporarily vacant, the duties of the Chairman under these rules shall be performed by the Vice-Chairman.
2. Meeting shall be either ordinary or special.
3. An ordinary meeting of the Local Board shall be held on the first Saturday of every month after sunset; provided that, if the first Saturday of any month falls on a gazetted holiday, or if for any other reason it is deemed inconvenient, the Chairman may fix another day and hour for the ordinary meeting of the Board.
4. A special meeting of the Local Board may be called at any time by the Chairman. The Chairman shall be bound to call a special meeting on a requisition signed by one-fourth of the total number of members.
5. The subjects referred to in rule 65 of Part IV of the General Rules, and in section 29 of the Act, shall be dealt with at special meeting only.
6. All other subjects which come within the province of the Board may be dealt with at either ordinary or special meetings.
7. Meetings shall ordinarily be held at the office of the Local Board; provided that in any special case it may be held at such other place as the Chairman may determine.
8. The notice under rule 67 of the General Rules shall be forwarded to each member with a copy of the list of business to be transacted by post or by such other method as may be convenient; provided that a vernacular translation of the same shall be supplied to any member who does not understand English, and provided that, if a local newspaper be published at the head-quarters of the Local Board, the Board, by a resolution duly passed, may decide that the publication of such notice in the newspaper in question shall be sufficient.
9. Notices by motions, accompanied by verbatim drafts, must be sent to the Chairman, or, in case of there being a Secretary, to the Secretary, in time to be included in the list of business for next meeting. Notices received too late shall be inserted in the list of business of the next succeeding meeting.
10. A notice book shall be kept by the clerk, but when the Board has no clerk, by the Vice-Chairman of the Board, in which all notices of motions shall be entered. All such notices shall be stated and numbered as received by the Vice-Chairman.

Adjourned meetings.

11. An adjourned meeting is not competent to transact any business save that which the original meeting left unfinished.
12. An adjourned meeting, being merely a continuation of the original meeting, does not require any fresh notice.

CONDUCT OF PROCEEDINGS AT MEETINGS, &c.

CLAUSE—(b)—Order of business

13. At ordinary meetings, the business shall be conducted in the following order:—
 - (a). The minutes of the last ordinary meeting, and of any special meeting held since, shall be read, and, if approved as correctly entered, shall be signed by the Chairman of such meeting.
 - (b). Business postponed from the last ordinary meeting shall be considered.
 - (c). A progress report of works shall be laid before the Board.
 - (d). Letters of the District Board shall be read and accounts and statements, and all plans, reports, and estimates, together with all applications and other business set down in the notice paper, shall be considered and passed.

(e). *Motions of which due notice has been given to be discussed.*

14. At a special meeting, only the business for which the meeting was called shall be considered; provided that, with the consent of the majority of the members present, any other business may be considered.

15. In the event of any objection being raised to the manner in which any resolution has been recorded, the Chairman shall decide the question after reference to the original draft of the resolution; and if he finds the minute to be inaccurate, shall make the necessary correction in the minute book.

16. Unless by permission of the majority of the members, all subjects shall be discussed in the order in which they appear in the notice paper.

Of motions and amendments.

17. Every motion and amendment duly moved must be seconded, and until seconded no debate thereon can take place.

18. Every motion and amendment, after being reduced to writing under rule 74 of the General Rules shall be signed by the proposer and seconder before being put to the vote.

19. Every amendment shall be so worded as to be capable of making an intelligible sentence either alone or in its proper place in an original motion, as the case may be; provided that no amendment can merely negative the original motion.

20. After a motion has been moved and seconded, an amendment may be moved at any stage of the debate thereon.

21. On the discussion being concluded, in the event of several amendments having been proposed, the President shall put the last amendment to the vote first; if it is negatived, he shall put the last preceding amendment; and lastly the first amendment; and if all the amendments are lost, the original proposition shall be put to the vote.

22. When a motion or an amendment has been put and been declared by the President to be duly carried, no further proposals for amending the motion or amendment can be entertained.

Of the right to speak.

23. Every member shall ordinarily stand when addressing the meeting, provided that the Chairman may for any reason permit any member to sit while so doing.

24. The member who first addressed the meeting shall be entitled to be heard first, and should more than one member rise to address the meeting at the same time, the order of precedence shall be determined by the President.

25. Any member shall be at liberty to call the attention of the President to a point of order, even when a member is speaking. On a point of order being raised, the member addressing the meeting shall resume his seat until the question has been decided by the President. After the decision of the President, the same point of order cannot be raised again. Except as provided by this rule, no member shall interrupt a speaker in possession of the meeting.

26. Except as provided in the last preceding rule, no member shall speak except to move or second a motion or amendment, or to support or oppose a motion or amendment which has been duly moved and seconded.

27. A speaker who has exhausted his right to speak on an original motion, may speak on any amendment being moved, as that raises a new question.

28. The mover of a motion or amendment shall in all cases have a right of reply, but otherwise no member shall speak more than once on the same motion or amendment, unless in explanation of some part of his original speech.

Miscellaneous.

29. Unless more than one-half of the members of the Board consent by signing a requisition, no subject once finally disposed of can be considered within six months.

30. When any business, of which notice has not been given, is considered at a meeting, the decision recorded or resolution adopted at such meeting shall be of no effect unless and until confirmed at the next succeeding ordinary meeting, or at a special meeting called expressly for this purpose.

31. When a motion or amendment is put to the vote, the President or Secretary shall record against it, first, the names of members voting for it, and then names of those voting against it.

32. Voting by proxy is prohibited, and no member may vote upon any motion or amendment unless he be present in person at the time when it is put to the vote.

Of protests in dissents.

33. Protest must be limited to a concise and definite statement of the motives which prompted the votes of members who voted in the minority on a given question.

34. Protests must be handed to the Chairman before the conclusion of the meeting at which the resolution protested against was passed.

35. Protests duly made shall be appended to and published with the minutes.

Of adjournments.

36. It shall be competent to any member to move the adjournment of the debate or of the meeting in a speech not exceeding five minutes in duration.

37. When a motion for the adjournment of the meeting or of a debate is made, it shall be seconded without a speech, and put by the Chairman to the vote without debate or amendment.

38. No motion for the adjournment of the meeting or of a debate shall be admissible which proposes an adjournment beyond the next ordinary meeting.

CLAUSE (c).—The custody of common seal, and the purposes for which it shall be used.

39. (Not confirmed by the Lieutenant-Governor of Bengal.)

40. (Ditto ditto ditto.)

CLAUSE (d).—Division of duties among the members of the Local Board.

41. The Local Board may from time to time appoint, out of its members, such and so many Committees either of general or special nature, and consisting of such number of persons as they think fit for any purposes which, in the opinion of the Board, can be conveniently regulated and managed by means of such Committees; but the acts of every such Committee shall be submitted to the Board for their approval.

42. The members of the General Committee shall hold office for one year only, but shall be eligible for re-appointment.

43. Save in case of illness, a member of a General Committee who, without the previous permission of the Board, shall fail to attend six consecutive meetings of such Committee, shall thereby cease to be a member, and the Committee shall apply to the Board to appoint another member in his place.

44. The Local Board may from time to time delegate to one or more of its members the duty of inspecting any work which is being carried out under its orders.

Proceedings of Committees.

45. A Committee may meet and adjourn as it thinks proper.
 46. The quorum of a Committee shall be three members.
 47. A Committee may elect a Chairman of its meeting.
 48. If no Chairman is elected, or if the Chairman is not present at the time for holding any meeting, the members present shall choose one of their members to be Chairman.
 49. Every question at a meeting shall be determined by a majority of the votes of the members present and voting on that question.
 50. In case of an equal division of votes, the Chairman shall have a second or casting vote.

CLAUSE (e).—Powers of Chairman.

51. The Chairman of the Local Board is empowered to enter into contracts relating to works and expenditure sanctioned by the Board in respect of sums or involving values not exceeding Rs. 200. Exceeding this amount up to Rs. 500 the contract shall be made by the Chairman and Vice-Chairman, and in absence of Vice-Chairman by the Chairman and a member of the Board.

52. The general superintendence and control of the establishment maintained by the District Board shall vest in and be exercised by the Chairman.

53. The powers of the Vice-Chairman shall be such as the Chairman may by an order in writing delegate to him from time to time. Such powers may at any time be withdrawn or modified by an order similarly made provided that nothing done by the Vice-Chairman, with the express or implied consent of the Chairman, shall be invalid for want of such written order. It shall be the duty of the Vice-Chairman to supply all information to the members concerning any matter or transaction of the Board.

CLAUSE (f).—The persons by whom receipts shall be granted for money received under the Act.

54. Receipts for money received under the Act shall be signed by the Chairman, Vice-Chairman, or, when a Secretary has been appointed, by the Secretary of the Board.

CLAUSE (g).—The duties, appointments, leave, suspension and removal of the Officers and servants of the Board.

55. Subject to the scale of establishment laid down by the District Board, the Chairman may appoint and dismiss all officers whose salary is less than Rs. 10 per month, provided that all such appointments and dismissals shall be reported to the next meeting for confirmation of the Board.

56. Except as otherwise provided in the Act or General Rules, the appointment and dismissal of officers and servants of the Board employed on a salary of Rs. 10 or upwards, shall rest with the Local Board.

57. Except as otherwise provided in the General Rules, the Chairman may suspend any officer or servant of the Board for misconduct or incompetence, provided that the matter shall be laid before the Board for orders at their next ordinary meeting.

58. Casual leave for a period not exceeding seven days at any one time, or 15 days in 12 months, and leave on medical certificate for any period not exceeding a month, may be granted by the Chairman with or without pay, and with or without the appointment of a substitute, to any officer or servant of the Board. All other leave must be granted by the Board at a meeting.

59. Except as otherwise provided by the Act and the General Rules, all persons employed by the Board, whose services may be no longer required, shall be liable to discharge after the receipt of one month's notice, or one month's pay in lieu of notice; and no such person shall withdraw from the duties of his office without having given previous notice for the period of one month on pain of forfeiture of one month's salary.

60. The Board shall have power to inflict for neglect of duty a fine not exceeding one month's pay upon any officer or servant employed by them. This power shall be exercised by the Chairman; provided that the orders of the Chairman inflicting a fine on an officer drawing Rs. 10 per mensem or upwards shall be submitted for the confirmation of the Board at its next ordinary meeting.

61. All officers and servants employed by the District Board shall, if required, furnish such security as the Board may from time to time fix.

Notice.

THE right of working the copper mines at Chunabatti, in the sub-division of Alipur, Western Doars, will be put up to auction on 15th March 1889 in the Court of the Sub-divisional Officer of Alipur. Settlement will be made with the highest bidder for five years, commencing from 1st April 1889. Chunabatti is situated two miles west of Buxa in the Western Doars. Plenty of labour, firewood and good water is available on the spot. There is a good road, and the mines can be worked with little difficulty. It is believed that any person or company who may work the mines will obtain a good profit. Sixteen seers of copper are said to be obtainable from each bazar maund of ore. A specimen of the copper can be seen at the Office of the Secretary to the Chamber of Commerce, Calcutta. Any further information will be supplied by the undersigned.

JOHN ELIOT, M.A., Meteorological Reporter
to the Govt. of Bengal

CALCUTTA, the 26th August 1875.

THE following Reports of the Bengal Meteorological Department, issued by orders by the Government of Bengal, can be supplied to the public at the prices annexed:—

1st.—Bay of Bengal Daily Report giving observations taken at 20 stations on or near the coast of the Bay, with a chart and summary. This is published in connection with the Calcutta Storm Signal Service. The report giving 10 A.M. observations of the day is distributed by post in Calcutta after 4 P.M. Price to subscribers in Calcutta, Rs. 2 per mensem.

2nd.—Bengal Daily Report containing observations taken at 37 meteorological stations, and transmitted to Calcutta by weather telegrams, with a brief summary of the weather in Bengal during the preceding 24 hours. The report giving the 10 A.M. observations of each day is printed in time for the evening mail. This report for the present will only be published during the south-west monsoon, i.e., from May 15th to November 15th. Price Rs. 2-8 per mensem, including postage.

3rd.—A Weekly and Monthly Statement of Meteorological Observations taken at 44 observing stations, and of rainfall recorded at 245 sub-divisional stations together with summaries of the more important features of the meteorology of the past week or month of the province, and of the distribution of the rainfall and its variation from the normal. Price of the Weekly Report including postage, Rs. 6 per annum, payable in advance, and of the Monthly Summary Report, Rs. 2 per annum, payable in advance.

Subscriptions payable to the Meteorological Reporter to the Government of Bengal for the Bay of Bengal Daily Report, and to the Accountant and Treasurer, Bengal Secretariat, for the other reports.

H. A. D. PHILLIPS,

Under-Secy. to the Govt. of Bengal.

The 24th November 1886.

The following revised advertisement is published in substitution for that which appeared at page 1084, Part II of the Calcutta Gazette of the 9th July 1884:—

The Indian Law Reports,

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat, and the Madras, Bombay, and Allahabad series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st April 1888, the terms of subscription and sale will be as follows for current issues as well as for back numbers of the Reports from 1876:—

Terms of subscription payable annually in advance

RESOLUTION ON THE ADMINISTRATION REPORT OF THE TRIBUTARY STATES OF ORISSA FOR THE YEAR 1887-88.

RESOLUTION.

POLITICAL.

Darjeeling, the 8th November 1888.

READ—

The Annual Report on the Administration of the Tributary States of Orissa for the year 1887-88.

Read also—

The Reports for the years 1885-86 and 1886-87, and the orders of Government recorded thereon.

Mr. C. T. Metcalfe, C.S.I., held charge of the office of Superintendent of the Tributary States from the beginning of the year to the 12th of August, when he went on privilege leave, and again from the 13th of November to the 12th of March, when he took furlough. Mr. Worsley was in charge during his absence. Neither the Superintendent nor the Assistant Superintendent were able, from various causes, to make tours of any length. The Managers of Mohurbhunj, Dhenkanal, Baramba and Narsingpur and the Tehsildar of Angul made useful tours. In the Khondmals, Baboo Haradhone Ghose, the tehsildar, who had for some time been in bad health, died towards the end of January. He and Moonshee Mahomed Ali, who succeeded him temporarily, spent only 52 days on tour. The Rajah of Nilgiri having recovered the power of speech and reason was restored to the administration of his State in August 1887.

2. *Weather and Crops.*—The anxiety which the irregularity and deficiency

and crops during the year preceding of such interest at present that the Lieutenant-Governor thinks it desirable to reproduce here the excellent *résumé* of the facts contained in the report of the Superintendent:—

The year was marked generally by deficient rainfall, and there was consequently a partial failure of crops in most of the States. Rain gauges are kept and rainfall is recorded in Angul, Khondmals, Keonjhar, Mohurbhunj, Talcher, Dhenkanal, Daspalla, Narsingpur, and Rumpur, and the statement given below shows the quantity of rain that fell in each of those places during each month of the year under report —

From the following table it will be seen that the total rainfall during the year under report was everywhere much less than that of the preceding year, and as a necessary consequence the crops were poor.

Dhenkanal, Pal Lehara, Keonjhar, Talcher, Angul, Athmalik, Khandpara, and Daspalla suffered most from shortness of rain, and the rice harvest in these States was considerably below the average. Narsingpur, Rumpur, Nayagurh and Khondmals suffered less; while in Mohurbhunj, Nilgiri, Hindole, and Baramba the rains, though scanty, fell opportunely; and little loss was sustained. No reports have been received from Boad, Tigiria and Athgurrh; but from enquiries it has been ascertained that in Boad the harvest was bad, and in Athgurrh and Tigiria there had been average crops.

Ordinarily the Gurjat States produce a much larger quantity of the autumn and winter crops than is required for local consumption, and a greater part of the excess quantity is exported to Cuttack and other places of trade, but during the year of report there was no excess produce. The export of oilseeds and other cold-weather crops has greatly diminished, and rice has been for some time and still is being imported to some States from outside.

At one time there were serious apprehensions entertained of a scarcity, and measures of relief were advocated by the local officers of Angul and Dhenkanal. But the resources of the people, who are accustomed to the use of edible roots and jungle produce, aided by a good mango crop and constant importations of food-grains, have enabled them to tide over the worst months; and provided that the shortness of the early rains of this year is not followed by a failure of the later rains, I do not anticipate any change for the worse.

I give below a short account of the state of weather and crops in each State as far as is available —

Mohurbhunj.						Inches.
1883	
1884	61.99
1885	69.95
1886	64.24

The rainfall of 1883 was the next lightest to that of 1887; but whereas in 1883 very serious damage to rice crops was caused, the rice harvest of 1887 was an average 12-anna one all over the State. In 1883 as well as in 1887 there was a total absence of rain from the middle to the end of October. In 1883 the rainfall for October was 0.02 inch; in October 1887 the rainfall up to 16th was 2.53 inches, and none fell during the rest of that month. Light showers, however, in November 1883 and 1887 sufficed to prevent an extensive failure of rice crops on high lands. The rubber crops throughout Mohurbhunj did not exceed 12 annas except on alluvial tracts, where full crops are annually secured. There was a cyclone on the 25th and 26th May, during which 3.47 inches of rain fell, but no damage was done to the crops, though many trees were blown down and houses unhatched.

The rainfall of the year was 68.37 inches against 79.66 inches in the preceding year.

Nilgiri.

The largest quantity of rain fell in May, and on the 25th and 26th of that month the effects of the cyclone were felt here as in Mohurbhunj. Much damage was done to houses and trees, but the crops sustained little injury. Towards the end of the season the fall of rain was very scanty, and the crops suffered to some extent, but a few well-distributed showers in October prevented any material loss. The Manager estimates the average outturn of the year at about 13 annas.

The total rainfall was 48.75 inches against 77.89 of the preceding year, and an average fall of 60 to 63 inches in ordinary years. There were heavy falls of rain in May, which did not allow the cultivators

Dhenkanal.

sufficient intervals for ploughing and sowing. The sowings were delayed, and the transplantation of seedlings had not been completed when a break in the rains occurred in September. During September and October, the most critical time of the year, the rain was altogether insufficient, and a partial failure of crops necessarily ensued. The Manager has estimated the outturn of the late and early rice crops at not more than eight annas on the average. The rainfall of 2.07 inches in January last did a little good to some of the rubber crops, but was injurious to oilseed and tobacco crops. The deficiency of rain at a time when it was most wanted not only injured the staple rice crop, but (through want of good moisture in the soil) also affected the rubber crops, the outturn of which was below the average. In Dhenkanal sugarcane is cultivated to a large extent, and the outturn of this crop was an average one. During the last two years experiments were made in the cultivation of potatoes, and the results were promising.

The rainfall of the year was almost the same as that of the previous year, being 30.18 inches against 31.58, and, as in the preceding year, the autumn crop was a poor one.

Keonjhar.

The rain commenced late in May. The falls during the months of June, July, and August were very deficient and entirely ceased in September.

Pal Lahara

Want of seasonable showers seriously damaged the paddy crop, which has been estimated at four annas only, while the outturn of rubber and other miscellaneous crops is reported to have been eight annas on the average.

The total rainfall registered during the year was 39.97 inches against 48.6 of the previous year. The rains commenced late in June, and were insufficient in July, August, and September. The Chief of

Talcher.

this State has estimated the outturn of the paddy crop at 10 annas on the average. The outturn of the rubber crops, such as moong, biri, arhar, and kulthi, was good, and there was a bumper crop of sugarcane.

The rainfall during the year was very scanty, being 36.62 inches against 57.59 of the preceding year. Want of timely showers in seven out of

Angul.

the ten pergunnals comprised in the estate retarded agricultural operations, and the rice crop suffered severely in many places. The outturn of the beali or early rice crop was only two annas, and that of the saradh or late rice crop was not more than six or eight annas on the average. The rubber as well as the oilseed crops of the year were similarly affected, and the outturn of these crops did not exceed four annas on the average. Applications for remissions of rent have been made, and are now under consideration.

In the neighbouring State of Athmalik the rainfall was also insufficient. There was no rain in the months of April, May, October, February, and March. The rainfall in June was insufficient for commencing agricultural operations. Copious rain fell during the month of July, and agricultural operations were pushed on with vigour; but owing to insufficient rain during the months of August, September, October, and November the crops yielded a poor outturn. The estimate of the rice harvest was only six annas, and the outturn of the rubber and miscellaneous crops is reported to have been eight annas on the average.

The rainfall was not less than that of an ordinary year. The outturn of the rice crop has been estimated by the Rajah at 12 annas. The rubber crop was an average one.

Hindolo.

The weather during June, July, and the first-half of August was very favourable for sowing, transplanting, and weeding the paddy crop; but owing to the absence of rain during the latter half of August

Baramba.

and the first week of September, the early rice crop grown on high lands suffered for a time; but fortunately rain fell in the second week of September. During the latter half of September and the first fortnight of October there was a second long break in the rains. There arose then a general cry for water, and artificial irrigation, wherever possible, was largely resorted to; but subsequently rain fell in sufficient quantity towards the end of October, and the crops

were saved. The outturn of the rice crop was 12 annas. The outturn of other crops is reported to have been good.

The rainfall registered during the year was 32·57 inches. About two-thirds of the cultivated area of this Killah lie near the hills, and the remaining one-third is on the bank of the Mahanuddy river. The crops both on high and low lands promised well for some months, but owing to want of rain in October their good condition could not be maintained. Artificial irrigation, wherever possible, was adopted. The average outturn of the rice crop was about eight annas. The outturn of the cold-weather crops was also not more than eight annas on the average.

The total rainfall during the year was 35·83 against 63·59 in 1886-87 and 45·97 in 1885-86. This quantity, though less than the average of the previous two years, fell at fairly seasonable times, and an average 10-anna rice crop was harvested. The rubbero crops were excellent with the exception of moong, which suffered for want of rain in December and January. The mango crop helped the people to a great extent.

The rainfall was rather less than that of an ordinary year, but an average outturn of 10-anna crop was reaped. There were bumper crops of sugarcane, castor-oil seed and linseed, and mango.

There was no rain in April, May, and June, and the falls in July and August were insufficient. There were, however, heavy showers in September and October, a few light ones in November and December, but none during January, February, and March. Want of sufficient rain in July and August seriously damaged the crops, and the outturn of rice crop and also of the rubbero crops was only 6 annas on the average.

The total rainfall of the year was 49·89 against 59·78 of the preceding year. The want of seasonable rain injured the crops. The outturn of the rice crop was 8 annas on the average. The other crops almost failed, the average outturn being only 4 annas.

The total rainfall registered was 46·30 against 59·18 of the previous year. The rainfall was insufficient in June, and also in August and September, when rain is specially wanted for harrowing, weeding and transplanting operations. The result was that there was only an 8 anna crop against a full outturn in the preceding year.

The Gurjat States are hilly and undulating, and artificial means of irrigation are easily and cheaply provided by damming rivers and rivulets, and reserving the water that comes down from the hills and high lands. In most of the prosperous States numerous reservoirs have been formed, and others are being daily added—some at the cost of the Chiefs and some at the cost of capitalists; but in Khondmals, where the residents are chiefly aborigines, and have not been in the habit of living by regular cultivation, no such reservoirs existed, and none have been formed by the Government since it has taken charge of the Mehal. Such reservoirs are needed not only for the crops, but for the supply of good drinking water, the want of which is everywhere felt, and is probably one of the causes of the unhealthiness of the place. I intend henceforth, with the sanction of Government, to devote a portion of the Khondmal Road Fund to the formation of such reservoirs, and will shortly submit separate proposals regarding the same.

3. *Public Health, Vaccination, and Charitable Dispensaries.*—Public health appears to have been fairly good. In Dhenkanal, Baramba, Narsingpur and Rumpur, however, there were a good many cases of cholera. In Dhenkanal medicines were distributed to people in the affected tracts, but the mass of the people declined to use them, believing the disease had been sent by a certain goddess and could not be averted by any earthly power. The superstition of the people interferes greatly with the popularisation of vaccination. The number of operations reported, however, has greatly increased in Dhenkanal, Mohurbhunj, Narsingpur and Taleher. In the Khondmals the operations are said to have been mostly unsuccessful, and the cause of this should be enquired into, as there can be little hope of the prejudices of the people being overcome if their objections to vaccination are strengthened by seeing it frequently fail. A dispensary was opened at Bysinga in Dhenkanal, raising the number in the Tributary Mehals to 14.

4. *Material Condition of the People.*—The partial failure of the crops in some States in 1886-87 and the recurrence of short harvests in 1887-88 has caused some privation among the poorer classes, who were, however, as noticed above, saved from severe distress by an excellent mango crop and their habit of making use of jungle roots, fruits and leaves. The aboriginal tribes, as a rule, live on these jungle products for six months every year. Angul, Athmalik and Baramba are the only States in which the price of paddy and rice has risen considerably, while in some States, such as Mohurbhunj and Narsingpur, they have fallen in price. The great difference in prices between the different States, ranging from 13 seers of rice per rupee in Angul to 26 seers in the

Khondmals, are due to the absence of cheap and easy communication; hence neighbouring tracts may show plenty in one district and privation almost amounting to famine in another. There is no change to note in the price of labour, for which there is little demand, except for agricultural work in which the labourers are employed by the year, receiving wages in cash or kind amounting to about Rs. 15 per annum, a share in the produce of the lands in which they are employed, and an advance of Rs. 10 or Rs. 20 repayable without interest on the expiry of the term of service.

5. *Mines and Manufactures and Trade and Commerce.*—The experimental washings for gold in Mohurbhunj proved a failure, the cost of the operations exceeding the value of the gold found. Owing to the short crops exports have fallen off, while, as noted above, in some cases it has been necessary to import food-grains. One of the chief articles of import is salt. Owing to its mode of conveyance on pack bullocks its price has always been high, but there has been a rise in Angul from Rs. 6 per maund in 1886-87 to Rs. 13-8 in the corresponding month of 1887-88, an almost prohibitory price into the cause of which the Superintendent is enquiring.

6. *State of Public Feeling and Police.*—In Pal Lahera the panic caused in April 1887 by the dacoit gang of Coles under Fonda and Buxu Colo has subsided, the dacoits having been dispersed or arrested. The two ringleaders were lately caught and sentenced to long terms of imprisonment. The excitement caused in Baramba and Narsingpur by the new Forest Regulation and Stamp Rules is said to have subsided. A further report as to the agency by which the Forest Rules are to be administered has been promised by the Superintendent. Since the beginning of 1887, the Police of Dhenkanal, Baramba, and Narsingpur have been placed under the supervision of the Assistant Superintendent of the Gurjat Police. The other States, excepting Tigiria, keep small bodies of police varying from 115 men costing Rs. 11,712 a year in Mohurbhunj to 12 men costing Rs. 318 in Pal Lahera. No information has been furnished by the Chiefs of Athgurl, Boad and Keonjhur. In Tigiria, police work is performed by a number of Pathan paiks who hold jagirs.

7. *Administration of Justice.*—The total number of civil and revenue cases decreased from 16,492 to 11,073, the decrease being most marked in the three Wards' estates of Baramba, Dhenkanal and Narsingpur, as shown in the table below:—

			1886-87.	1887-88.
Baramba	1,962	1,401
Dhenkanal	8,220	3,205
Narsingpur	804	479

In Baramba and Narsingpur the decrease is attributed to the introduction of court-fee stamps and to the completion of the record of rights in land in connection with the settlement of the States. In Dhenkanal the number of institutions was unusually large in 1886-87, in order to avoid the operation of rules of limitation introduced in that year and founded upon the Limitation Act of British India. These figures do not include the cases instituted and tried in the courts of the Tributary Chiefs. In Runpur the number of cases pending at the close of the year shows a decrease as compared with the previous year, but is still far too high, as 352 cases were pending on the 31st March 1888, while only 464 cases were instituted during the year. On the 31st March 1887 no less than 1,057 cases were pending. The total number of offences reported from the Tributary Mehals was 2,383 against 2,141 the year before. Out of 3,886 persons sent up, 1,212 were acquitted or discharged and 2,592 convicted. The increase is principally in Mohurbhunj, where the total number reported rose from 598 to 723, while the number reported under Chapter X of the Indian Penal Code alone rose from 25 to 105. Besides these, a number of criminal cases were brought to trial in the Courts of the Tributary Chiefs of various States. 35 out of 38 criminal appeals, heard by the Superintendent or Assistant Superintendent, were confirmed. Out of 117 civil, revenue and miscellaneous appeals, 43 were confirmed and 74 revised, remanded or altered. In Runpur most of the complaints have been directed against the Dewan's proceedings, there being a party opposed to him. In Keonjhur many complaints were made against the peshkar of the Atgurl sub-divisional office, who was supposed to have undue

influence over the Maharaja and the late Manager, but these have ceased since the death of the latter and the appointment of his successor. Complaints are frequently made regarding the administration of Athgurb, Khandpara and Daspalla, though not so often as formerly.

8. *Revenue*.—In Angul the current demand for 1887-88 came to Rs. 52,168-3-1; land revenue has risen since 1882-83 from Rs. 32,641-7-7½ to Rs. 34,352-1; excise from Rs. 1,244 to Rs. 2,007-14; sale proceeds of opium have increased from Rs. 2,496 in 1883-84 to Rs. 5,920, and the forest revenue from Rs. 287-4 to Rs. 4,206-9-8. The Court-fees and Stamp Acts were introduced in December 1885, and the sale proceeds of stamps amounted to Rs. 2,847-13-4 in 1887-88. The collections of land revenue are in arrear Rs. 19,677-12-4. This is entirely due to the bad crops gathered during the last two years. The assessment is so light that in previous years there were practically no balances of uncollected revenue; in 1885-86 for instance the balance was Rs. 14-12-6, and Rs. 4,626-7-9 were collected in advance. Survey operations have been commenced preliminary to a fresh settlement which is expected to lead to a considerable increase of revenue. In the Khondmals no land revenue is paid. The Khonds voluntarily agreed in 1874 to pay *three annas* per plough towards a road fund, Government promising to contribute an equal sum. The road fund shows a balance of Rs. 11,679-2-3, while the receipts during the past year came to Rs. 3,873-0-3. The Superintendent expects that the whole balance will be utilised during the next two or three years, as several important works are in contemplation.

Mohurbhunj, which is the largest of the Tributary States, came under the management of this Government after the death of the Maharaja in 1882. The current demand for 1882-83 came to Rs. 2,03,231-15-6 only against Rs. 3,72,390-15-6½ in 1887-88. Land revenue has increased from Rs. 1,62,091-1-1 to Rs. 2,03,696-5-9, mainly owing to enhanced assessments in those pergunnahs where a fresh settlement has been made. The proceedings are not yet complete, and a considerable further increase to the revenue under this head is assured. The forest revenue for 1887-88 came to Rs. 32,009-7-11½. The demand for 1883-84 amounted to Rs. 15,908-2-5, and by the falling in of leases fell in 1885-86 to Rs. 9,640-9-5. The increase since then is due to the enhancement of the house rate for fuel and wood from two to six annas per house, and the additional revenue gained from making the tusser industry a source of income. The excise demand has risen to Rs. 9,540-9, against Rs. 4,600-1-3 in 1886-87, though the number of shops was the same in both years. A further report on this increase will be called for. Special stamps were introduced in January 1887, and the sale proceeds in 1887-88 amounted to Rs. 7,365-3. Since the estate has been under Government, Rs. 2,52,139-9-7 have been spent on public works, Rs. 61,100 were invested in 1886-87 and 1887-88 in Government promissory notes, and Rs. 63,082-11-3½ have been spent on the settlement department. Of this sum Rs. 31,756-6-7 were spent in 1887-88. The settlement proceedings have been completed in all but eleven pergunnahs, and are expected to give on completion a considerable increase of revenue. The receipts for 1887-88 came to Rs. 4,38,061-3-5, and the expenditure to Rs. 3,19,741-13, leaving a balance in hand of Rs. 1,18,319-6-5 at the close of the year. The actual cash balance at the credit of the State in the several treasuries was Rs. 1,35,730-2-10, and does not appear in the accounts, as hitherto in the Manager's office balances in the sub-treasuries were not taken into account until remitted to the Baripada treasury. The mistake has been pointed out to the Manager.

The Dhenkanal State has been under Government since 1877. A fresh settlement has been made since then, and the operations, which are now almost complete, have cost the State Rs. 55,367-6-3, and have added Rs. 19,241-2-11 to the land revenue. Since 1882-83, Rs. 1,61,223-8-5½ have been spent on public works, and Rs. 1,01,397-3-4 invested in Government promissory notes (deducting price of notes sold in 1886-87), besides Rs. 13,881-12-8 lent to Narsingpur. Excise receipts have risen to Rs. 5,678-5-1 from Rs. 2,689-2-3 in 1882-83 and Rs. 2,064-13-3 in 1883-84. This figure was only exceeded in 1885-86, when the demand amounted to Rs. 5,922-3-9. The total receipts in 1887-88, including deposits and advances, amounted to Rs. 1,80,830-7-6. The total amount available, including the cash balance at the commencement of the year, was Rs. 1,92,137-12-5. The total expenditure was Rs. 1,74,714-9-11.

Baramba came under the management of the Superintendent in July 1881. The State was at that time about Rs. 28,000 in debt. The debt has been paid off, and the revenue has been raised from Rs. 22,805-8-11½ in 1882-83 to Rs. 31,500-13-11 in 1887-88, though a number of cesses have been abolished. The land revenue demand has risen from Rs. 14,347-13-11½ to Rs. 21,165-14-10, a resettlement having been made at a cost of Rs. 11,817-7-7½. A small sum, Rs. 3,171, has been invested in Government securities, and Rs. 19,450-2-3½ have been spent on public works. The police force has been strengthened, and the annual expenditure on it raised to Rs. 1,870-10-5 from Rs. 325-15-9 in 1882-83. The year 1887-88 opened with a cash balance of Rs. 8,254-9-1; receipts including cash recoveries or adjustments of advances and deposits amounted to Rs. 40,207-3-11. The total expenditure came to Rs. 41,091-13-9, leaving a cash balance at the close of the year of Rs. 7,369-15-3.

The Narsingpur State was taken under the management of the Superintendent in December 1884 on the death of the Rajah, who left a minor son. He left his State Rs. 15,000 in debt on loans at a very exorbitant rate of interest. A loan was effected from the Dhenkanal State to pay these off, and this has now been discharged in full. The revenue of the State has increased from Rs. 27,803-2-5 in 1884-85 to Rs. 31,376-4-4. The land revenue demand has risen from Rs. 24,573 to Rs. 27,165, and opium fees from Rs. 50 to Rs. 1,077. Rs. 1,595-8-4 is now received from forest revenue. The police force has been strengthened and the annual expenditure on it raised from Rs. 678-5-3 to Rs. 1,449-5-1.

9. *Survey*.—In Angul the preliminary survey operations preparatory to the settlement are not yet complete. In Mohurbhunj four pergunnahs were resettled with a net increase of revenue amounting to Rs. 23,337. The settlement operations are now proceeding in ten pergunnahs. In Bamunghati the question of rates has not yet been decided. In Killah Nilgiri 94 out of 272 villages have been measured; and as they contain the largest portion of cultivated land, half the work of measurement is considered to be complete. In Dhenkanal it only remains to enquire into the validity and extent of rent-free tenures. In Baramba and Narsingpur the preparation of records was all that remained to be done at the close of the year 1887-88.

10. *Registration*.—The Chiefs of some of the States have opened registration offices on the model of the offices in India. The system is not altogether new in the Gurjats, as it has been customary for the people from time immemorial, when contemplating some future disposal of property, or the creation of rights by adoption, to make presents to the Chief of their State, and to obtain his recognition of the transaction. It has now for the first time been systematised, and in the States under direct management rules have been laid down regarding the rates of fees on compulsory registration. The system is as yet in its infancy, and in the States under Government management only 130 documents were registered, on which fees amounting to Rs. 131 were levied. The Chiefs of Athmalik, Daspalla, Khandpara, Nyagurh, Nilgiri and Runkpur register documents in their offices, but no rules have been laid down as to the fees to be levied. It is stated that 258 documents were registered, and fees levied (the figures for Khandpara are not available) amounting to Rs. 308-6-9. In last year's report it was stated that such documents were registered in Talcher also, but no mention is made of that State this year. The fees levied in Khandpara, two annas per rupee of the consideration money on deeds of conveyance, and one anna per rupee on the value of bonds, appear to be excessive, and any tendency on the part of the Chiefs to use registration as a convenient method of imposing oppressive taxation must be watched.

11. *Stamps*.—The Stamp and Court-fees Acts were introduced into Angul in 1885, and led at first to a great reduction in the number of suits. Litigation is now, however, again increasing, and the total value of stamps sold has risen from Rs. 1,714 in 1886-87 to Rs. 2,085-14. Special stamps were introduced in August 1886 into Mohurbhunj, Dhenkanal, Baramba and Narsingpur. The sales have risen from Rs. 2,462-12-3 in 1886-87 to Rs. 11,055-4-6. The increase has been greatest in Mohurbhunj, where the sales rose from Rs. 1,299-5 in 1886-87 to Rs. 7,365-3. The expenditure incurred during the year in the four States amounts to Rs. 3,961-12-2. The very large expenditure compared with the income is due to the fact that a large quantity of stamp and

plain paper was purchased and paid for during the year, leaving stamps to the value of Rs. 40,112-8 in stock on the 31st March 1888. In Nilgiri, the Manager levies court-fees in cash according to a table of rates prepared by him, and stated to be as a rule lower than those in force in British territory. He attributes the falling off in income from Rs. 1,524-12 to Rs. 748-5-6 to the fact that rules of limitation having been introduced in 1886-87, there was an abnormal number of institutions in that year. As the Superintendent points out, the levy of court-fees in cash gives opportunities for fraud, and the Lieutenant-Governor agrees with him that such innovations should not be made in the Gurjat Mehals without the approval of Government.

12. *Excise.*—In Angul all shops for the sale of excisable articles were as heretofore sold by auction to the highest bidder, excepting outstills which were licensed to three abkars for a period of three years. The collections came to Rs. 2,007-14 against Rs. 1,998-7 in 1886-87. The reduction in the number of outstills from 470 to 12 in the Khondmals has formed the subject of separate correspondence. In Mohurbhunj the excise revenue demand rose from Rs. 4,600-1-3 to Rs. 9,540-9. The largest increase was under still-head duty, which rose from Rs. 1,475-14 to Rs. 4,978-14-6. In Dhenkanal the demand rose from Rs. 4,219-12-1 to Rs. 5,678, of which all but Rs. 124-3-11 were collected. The demand in Baramba rose from Rs. 600 to Rs. 774-5-4, there being a considerable increase under the head of madat, ganja, and country liquor, while under the head of opium there was a fall of Rs. 108-8. One opium shop had to be closed, as it was within three miles of the Banki opium shop in the Cuttack district. In Narsingpur the demand rose from Rs. 1,021-2-6 to Rs. 1,253-9, while Rs. 926-2-3 were collected, including the outstandings from the previous year, leaving an outstanding balance of Rs. 711-6-9, far too large a sum considering the smallness of the demand. The demand for the States of Runpur, Nilgiri, Khandpara, Daspalla, Hindole, Athmalik, and Talcher came to Rs. 5,766-4-0, while there was a balance at the close of the year of Rs. 2,031-3-2. Including collections on account of previous years, Rs. 4,790-15 was collected. The demand for 1886-87 was Rs. 4,730-13. No figures are given for the excise shops in Keonjhar, Tigiria, Athguri, and Boud. A report regarding the best means of discouraging or suppressing the cultivation of ganja in the Tributary States is now before Government.

13. *Roads and Communications.*—The two provincial roads from Cuttack to Sambalpur form the highways of commerce within the Tributary States. They are at present in certain portions impassable during heavy rains, but could, the Superintendent remarks, be metalled or covered with sand and bridged at no great expense, so as to be passable throughout the year. Mr. Metcalfe took in hand a new line to Angul, and the Cuttack District Board and the Board and Dhenkanal States have completed their portions of the road, but the Chief of Athguri has as yet done very little. Mr. Worsley states that all that remains to be done by him would cost only Rs. 1,500. The importance of completing the work in his own interests should be impressed on him. The Public Works Department will be asked to consider the question of taking over this road in place of the Government road now existing. It will also be asked to consider the suggestions of the Superintendent as to improving portion of the roads at present impassable at certain times of the year. In Angul Rs. 1,259 were spent on repairs to roads out of the 10 per cent. grant for public improvements, which amounted to Rs. 2,757. In the Khondmals a short cut is under construction from Chamunda on the Sonepur road to the Khondmals. A scheme of public works to be taken in hand within the limits of funds now available is in course of preparation. Rs. 4,297-14-7 were expended from the fund during the year under report. In the Wards' States and in Runpur and Talcher some activity has been shown in the construction of local roads. The Lieutenant-Governor fully agrees with the Superintendent in his remarks regarding metalling roads in the native States now administered by us. The great object to be aimed at in constructing roads should be to open out the country so far as funds are available, and the construction of metalled roads delays this, owing to the great initial expenditure required and the very heavy expense of keeping them in repair. It is more doubtful as to how far the expenditure of money on bridging should be discountenanced. A properly-constructed bridge requires practically no repairs, so that the work once done involves no further expenditure on the keep up. Bridging is, however, very expensive, and the only

safe rule appears to be that bridges should be constructed when funds permit, where without them traffic would suffer much interruption, but not otherwise. Nilgiri is reported to be much in want of roads, and the Chief of that State should be urged to attend to this subject.

14. *Education*.—The number of schools was 1,255 with 16,619 pupils, against 1,023 schools and 15,771 pupils in 1886-87 as stated in last year's report. The figures, however, for last year are not reliable, and it is possible that the apparent increase in the number of schools is incorrect. There were six girls' schools against three the year before, and 149 girls attended these against 94 in 1886-87. The number of girls attending boys' schools fell from 311 to 248. It is satisfactory to note that 1,663 children of the aboriginal races attended against 1,495 the previous year. The payment-by-result system is now in force excepting in Athguri, Tigiria, Athmalik, Boad, Daspalla, Khandpara and Naya-guri, where the schools now existing are entirely supported by the people. As opportunity offers, the Chiefs of these States should be advised to assist in the education of their people. The total expenditure of the year on education amounted to Rs. 67,117, of which Rs. 7,796 was paid by Government.

15. *Postal Communications*.—The present arrangements under which the Chiefs contribute to the maintenance of post-offices are not altogether satisfactory, and are now under the consideration of Government.

16. *Forest Conservancy*.—Two hundred and eighty square miles in area are reserved in Angul. Grazing is allowed from June to November in scrub and bamboo jungles in localities approved of by the divisional officers. Fees are levied for forest produce. The receipts were Rs. 8,882-0-5 and the total expenditure Rs. 15,742-0-3. In the Khondmals the felling of trees for sale has been prohibited. In Dhenkanal dead and fallen trees are removed and sold, while the cutting of standing green trees is not allowed, and the Superintendent has under consideration the proper conservancy of the forests. In Baramba and Narsingpur a house-rate is levied for the privilege of taking firewood and building materials from the forests. The question of the management of these forests is under consideration. In Mohurbhunj the forests are under the direct administration of the Manager, and the total demand was Rs. 37,993. The revenue was almost doubled during the past year owing partly to revised assessments and partly to the duty now levied on tussur. In Athmalik, Khandpara, Daspalla, Hindole, Pal Lehara, Talcher, Nilgiri and Runpur, measures of various kinds have been taken to protect the forests.

By order of the Lieutenant-Governor of Bengal,

J. WARE EDGAR,

Chief Secretary to the Govt. of Bengal.

**RESOLUTION ON THE ADMINISTRATION REPORT OF THE
TRIBUTARY AND POLITICAL STATES OF CHOTA
NAGPORE FOR THE YEAR 1887-88.**

RESOLUTION.

POLITICAL.

Dated Darjeeling, the 8th November 1888.

READ—

The Report on the Administration of the Tributary and Political States of the Chota Nagpore Division for the year 1887-88.

Read also—

The Reports for 1885-86 and 1886-87, and the Resolutions recorded thereon.

The Annual Report is submitted by Mr. C. C. Stevens, who was in charge of the Chota Nagpore Division throughout the year. With the permission of the Lieutenant-Governor he made no tour in the Tributary States, every part of which he had visited during the two preceding years. The Deputy Commissioner of Singbhoom visited Bonai during his cold-weather tour, where he dealt with various complaints by and against the Chief of the State. He found the Chief to be extremely unpopular, and the people desirous of British rule, which they see to have greatly benefited a portion of the State called the Korca Dehat, under our management since 1879. The discontent culminated in June last in some serious disturbances among the Gond settlers in Bonai, which have been dealt with in separate orders.

2. Except in Gangpore the rainfall was insufficient and badly distributed, and crops were generally under the average. In parts of Gangpore the outturn of *rabbi* was good, and the season was favourable for the cultivation of sugar-cane. Prices rose in Kharsowan; but as the Railway afforded ample employment, there was no distress.

3. The general health of the people was fairly good. In Sirgooja there were 719 deaths from cholera and 139 from small-pox. In Udaipore an outbreak of small-pox is reported to have been stamped out in about two months, two vaccinators having been sent to the locality. There were 36,784 vaccination operations against 24,300 last year. Of this number, 3,598 were performed in Changblakar, where there have never previously been any. Cattle-disease was again very prevalent in Sirgooja, where 13,799 deaths are reported. The Commissioner explains that these do not represent the losses of that State alone, as immense herds come up to graze from neighbouring and more thickly-populated districts. Even so, the figures are very unsatisfactory, and some effort should be made to ascertain the causes of the excessive mortality.

4. If the figures are accurate, education, which has always been very backward, has retrograded during the year under review. The number of patshalas has fallen from 58 to 52, and the number of pupils from 1,530 to 1,293. The falling off in Serankella alone is from 23 to 11 patshalas with 629 pupils as against 875 in 1886-87. No remarks are made in the report on this very unsatisfactory state of things.

5. Of 21 persons committed to the Sessions, 12 were convicted and 9 acquitted; in 1886-87 the corresponding figures were 20 convictions and 4 acquittals. In one of these cases a man accused an old woman of being a witch and not leaving his family alone: she replied she would eat him up too; whereupon he struck her with a pestle, killing her. In Sirjooga there were 36 extortion cases against 1 the year before, all committed by a gang of Lohars who systematically levied black-mail. The Commissioner has lately sentenced five members of the gang to terms of imprisonment varying from $1\frac{1}{2}$ to 6 years. In Jushpore thefts increased from 18 cases with 44 persons to 33 cases with 106 persons. In Gangpore 22 cases of house-breaking were reported, and 77 persons were suspected. The corresponding figures for the previous year were 5 cases and 10 persons. The fines imposed rose from Rs. 1,982 to Rs. 2,803, and Rs. 2,217 were realised against Rs. 1,510 the year before. Any tendency to impose fines, as a source of revenue, instead of inflicting severer sentences, must be watched and checked. There were 22 escapes among 604 prisoners,

showing very great laxity in discipline. Of these escapes, 13 took place in Sirgooja alone, where there were 10 in 1886-87. The Commissioner is requested to see if nothing can be done to improve matters in this respect. The number of civil suits and cases of execution of decrees have increased slightly. There appears to be some mistake in paragraph 32 of the Report, as the statement that litigation has on the whole decreased is directly opposed to the figures. As in previous years, there were comparatively few execution cases excepting in Seraikella and Khursowan.

RESOLUTION ON THE ADMINISTRATION REPORT OF THE
CHITTAGONG HILL TRACTS FRONTIER FOR THE
YEAR 1887-88.

RESOLUTION.

POLITICAL.

Darjeeling, the 17th November 1888.

READ—

Letter from the Commissioner of Chittagong, No. 415HT--VI-7, dated the 15th June 1888, forwarding the Report on the Administration of the Chittagong Hill Tracts Frontier for the year 1887-88.

During the past year there were three raids made by the tribes beyond the frontier, two of which were more serious than any which have occurred since 1872. The first was an attempted attack on the village of the widow of a chief named Vanoya, on the 27th January 1888, by a party of Northern Howlongs. A guard had been posted in the village at the Rani's request, and as the village sentries were on the alert, the enemy retired, killing a villager whom they met on their way back.

2. The second raid was committed on the 3rd February 1888. The camp of Lieutenant Stewart, who was employed on survey duty within the Hill Tracts district, was attacked by Howsata Shendos, and he was killed along with his two European soldiers and a native sepoy. The camp was taken by surprise, and the remainder of the guard appear to have been seized with a panic, and to have fled without attempting resistance.

3. In the third case an attack was made on the village of Rowajah Prenkyne situated on the China Khal, in the south of the Hill Tracts, on the 15th February 1888, by Southern Shendos; 4 men were killed and 2 wounded, one of whom has since died, while 23 persons were carried off as captives. These raids were committed on the north, centre and south of our line, and the Commissioner of Chittagong and the Deputy Commissioner of the Chittagong Hill Tracts recommended that an expedition should be sent to prevent the perpetration of the outrages which, in their opinion, show clearly that the memory of the punishment inflicted in 1871-72 had faded from the minds of the tribes. Failing an expedition, the Commissioner recommended that the frontier guards should be considerably strengthened, and at least three new posts held in force. The Government of India has since decided against undertaking the punishment of these outrages during the coming season, but a force of 250 sepoy has been despatched to the Hill Tracts to act as a reserve.

4. No durbar was held owing to the disturbed state of the trans-frontier tribes.

5. There has been a great development of the frontier trade owing partly to the opening of the Demagri Bazar to the tribes of Northern Howlongs. 3,841 Lushais resorted to the Demagri Bazar against 4,902 during 1886-87. The number fell off greatly from June to September. The Deputy Commissioner cannot explain the reason, but thinks that possibly it was due to the state of the crops.

6. With the exception of Sirthay, all the frontier posts were occupied. The frontier force performed their arduous duties in a satisfactory manner, though there was a large number of casualties chiefly under the heads of discharges and transfers, as the up-country element in the force is rapidly disappearing and being replaced by hillmen. A sum of Rs. 33,145-6-7 was expended in provisioning the frontier force. The wastage of provisions was excessive, and the Commissioner will ask the District Superintendent of Police to look more closely after this.

7. The coolie corps is not yet a success; the Commissioner's special report on the subject is awaited. All efforts to obtain scouts failed, notwithstanding the high wages offered. A cart road from Peshki Surrah to upper Burkal was commenced; also a portion of the road from Poletye to Pyramid hill. The work on the latter was stopped owing to the workmen absconding after the raid in which Lieutenant Stewart was killed, and after that only the men of the coolie corps could be got to work on it. The same cause interfered with the survey of the Ruma and Rangamati road. One party under Captain Shakespear proceeded up to Ohipum No. 3, and, after surveying about 21 miles, was recalled on the death of Lieutenant Stewart. A second party under Lieutenant Stewart surveyed about 20 miles before his death.

8. Some of the Lushai Chiefs, living under the protection of the Government at Sirthay, having constantly refused to give coolies for carriage of provisions, though they owed large sums to Government on account of advances, were warned several times, and as this had no effect, the Deputy Commissioner was at last obliged to attach and sell their property for the realization of their advances.

Chief Secretary to the Govt. of Bengal.

RESOLUTION ON THE ANNUAL REPORT ON THE CALCUTTA MEDICAL INSTITUTIONS FOR THE YEAR 1887.

RESOLUTION.

MEDICAL.

Darjeeling, the 13th November 1888.

READ—

Report on the Calcutta Medical Institutions for the year 1887.

Read also—

The Report for the year 1886 and the Resolution recorded on it.

The year under report was unusually healthy in Calcutta. The death-rate fell from 26·42 per mille in 1886 to 25·34, the lowest on record during the last twelve years. In Howrah the recorded death-rate was 17·55, against 22·63 in 1886, and in the Suburbs 42·17, against 40·51. There was a decrease in mortality in Calcutta under all heads excepting Other causes.

2. The following table shows the extent to which the public resorted to the hospitals during the past two years :—

* Reckoned on cases treated, exclusive of ophthalmic cases.

3. Compared with the figures of the previous year, the total number of in-door patients shows a decrease of 1,296, while the total number of out-door patients rose from 240,380 to 241,064. It is remarkable that the total attendance at the hospitals was larger during the last two years than in 1884 and 1885, when the death-rate among the general population was much higher, showing that the attendance at the hospitals bears no direct relation to the death-rate among the general population. The attendance at the hospitals has shown a tendency to increase, while the mortality in the town has been steadily decreasing. The Inspector-General also shows that the mortality of the population during the years 1886 and 1887 from certain diseases, such as fever, diarrhoea and dysentery, does not correspond with the hospital attendance due to the same diseases during those years. With a view to throwing some light on this matter, he proposes that the death-rate in the different localities from which each hospital derives its patients should be shown in the mortuary table at the first page of the report. The Lieutenant-Governor approves of this proposal.

4. Of the 263,849 patients treated in the different institutions, 157,269 were adult males, 41,217 were females, and 65,003 were children. There was a large increase in the number of children treated in the General Hospital, where one of the female wards has been set apart for them. It is satisfactory to notice that out of 281 children treated in this hospital only 17 died. The statistics according to race were 7,540 Europeans, 29,116 Eurasians, 91,975 Mahomedans, 125,663 Hindus, and 9,550 other races. There was a considerable falling off in the number of Europeans who sought relief in the hospitals, probably due to the smaller number of sailors who visited the port.

5. The total death rate for all the Calcutta Hospitals, excluding the Eye Infirmary, is 116 per mille, the same as in 1886, and lower than in any other year since 1880. The very high death-rates in the Campbell Hospital and the Howrah General Hospital are attributed to the large number of destitute and moribund patients annually admitted to those institutions. Though the

death-rates are higher than in 1886, they are lower than in any other previous year since 1881.

6. The number of admissions from dysentery rose from 1,601 in 1886 to 1,703, but there were only 447 deaths, against 455 the year before. There were 612 admissions for cholera, which in 341 cases proved fatal. Mortality among the European patients treated for this disease was greater in the General Hospital than in the Medical College. The Inspector-General remarks "that this difference is not likely to be due to any particular mode of treatment, but probably to the more virulent character of disease among the class of patients admitted into the General Hospital." The Lieutenant-Governor is glad to find that there were no cases of cholera among the patients under treatment in the General Hospital—a result which is attributed by Dr. Birch to the precautions adopted to secure the purity of the water and to the establishment of a dairy within the college compound for the supply of milk and butter to the patients. The decrease in the number of cases of small-pox during the last two years points to the conclusion that the operations of the Vaccination Department have of late been very successful in the town, but the Inspector-General is of opinion that without further experience it is impossible to say whether it is due to this cause alone. In order to effect the complete segregation of small-pox patients, it has been decided in future to admit such patients only to the Campbell Hospital, and for this purpose sanction has been accorded to the construction of a separate ward at a cost of Rs. 50,000. The total number of cases of enteric fever treated in all the hospitals was 13. Of these, 11 were admitted to the Presidency General Hospital and 2 into the Howrah Hospital. Both the cases admitted to the Howrah Hospital and 3 of those admitted to the General Hospital proved fatal. The above figures seem to show that Calcutta enjoys comparative immunity from this disease, and this, Dr. Hilson thinks, may perhaps be attributed to the purity of the water-supply. Cerebro-spinal fever shows 4 cases, all fatal, admitted into the Campbell Hospital, and 13 admissions with four deaths in the Mayo Hospital. The disease has also been present of late years in the Alipore Jail, and deserves special attention.

7. There were 2,672 admissions to the voluntary lock-hospitals for venereal diseases, against 2,113 in 1886. The number of in-door patients shows a slight diminution, being 458 against 484 in the previous year. Of the total number of in-door patients, 28 were Europeans and 430 natives. The total number of admissions for venereal diseases in all the institutions was 14,402, against 13,860 in 1886. Of these, 1,494 were Europeans and 12,798 natives. The Inspector-General proposes to abridge and remodel the statement showing the number of venereal diseases. He should in future submit a separate report on the subject, which is one that can be most conveniently dealt with by itself.

8. The number of important operations performed during the year was 1,488, against 1,561 in the previous year. Of these, 81 only proved fatal, or 50·81 per mille, against 64·07 in 1886. Dr. Hilson's remarks on the necessity of affording larger scope to the Assistant Surgeons, both at the Medical College Hospital and also at the Campbell Hospital, for performing important operations, deserve the careful consideration of the officers in charge of those institutions. The number of surgical operations performed at the Howrah Hospital seems to be much below what might be expected at such a well-equipped institution. The Inspector-General notes that in the Chandney Dispensary attached to the Mayo Hospital, it is reported that 52 out of 66 major operations were dislocations. This he refuses to believe, and states he has no hesitation in saying that the record of these cases is erroneous. He is requested to inquire and report specially on the whole management of this dispensary.

9. In the Eden Hospital, which is devoted entirely to midwifery and diseases of women, 1,607 patients were treated during the year, against 1,541 in the previous year. Of these, 946 were Europeans and 661 natives. The daily average of both classes was 67·8, against 74·1 in 1886. There were 39 deaths among the Europeans and 58 among the natives, against 28 and 40 respectively in the previous year. The number of confinement cases treated was 439, with 25 deaths, against 445 in the previous year, and 17 deaths. The above figures show a diminution in the number of cases admitted, and an

increase in the number of deaths due to the prevalence of septicæmia in the hospital, which has caused no less than 15 deaths. Dr. Harvey remarks that he believes all precautions to prevent the recurrence of this cause will be fruitless until better arrangements are made for the washing of soiled bedding and linen. The erection of a steam laundry has been sanctioned with a view to providing the requisite arrangements.

10. The Lieutenant-Governor is glad to find that the nurses employed in the hospitals continue to afford satisfaction, and that the superintendence exercised by the ladies of the Clewer Sisterhood is recognized in the reports of the medical officers of the different institutions as of the greatest value. The Honorary Secretary of the Hospital Nurses' Institution reported that the nurses employed in the Canning Hospital attended 54 cases of illness, in addition to their work at the hospital, and have earned for the institution a sum of Rs. 7,011 in fees. The *dhais* also attended nine cases in native families. Two passed females of the North-Western Provinces Branch of Lady Dufferin's Fund have been sent to the Eden Hospital to be trained in midwifery.

11. The total invested capital of the institutions rose from Rs. 5,49,300 to Rs. 5,80,200. The increase appertains to the Medical College Hospital, Mayo Hospital, Ezra Hospital, and the Howrah General Hospital. The total income during the year, including opening balance, amounted to Rs. 4,45,839. Of this sum, Rs. 2,53,419 were contributed by Government. The total expenditure fell from Rs. 4,37,671 to Rs. 3,99,069. The decrease falls mainly under the heads of diet, miscellaneous charges and buildings and repairs. Dieting expenses decreased considerably in the Medical, Presidency, and Campbell Hospitals, owing to the smaller number of patients. There was also a considerable reduction in the miscellaneous charges in the Medical and Presidency Hospitals. The increased expenditure on establishment in the Presidency Hospital was due to the opening of a contagious diseases ward, and to the entertainment of extra establishments for cholera and small-pox cases.

12. The thanks of the Lieutenant-Governor are due to Dr. Hilson for his practical and useful report.

By order of the Lieutenant-Governor of Bengal,

J. WARE EDGAR,

Chief Secretary to the Govt. of Bengal.

The Legal Remembrancer has curtailed his report considerably in compliance with the orders of Government conveyed in No. 743J, dated the 21st February 1888.

2. The following statement shows the result of Government litigation in all the Civil Courts of Bengal during the year 1887-88 as compared with the two previous years:—

previous years.

The result of litigation last year was generally more favourable to Government than in the two previous years, except in Courts of first instance, where the falling off is very slight. Of the 56 cases decided against Government in the Courts of first instance, 21 were land acquisition suits, in which the Judge awarded compensation in excess of what had been offered by the Deputy Collectors. Eight out of 13 cases decided against Government in the lower appellate courts were also land acquisition cases. The very favourable results in the High Court are due to the fact that 99 appeals, preferred by the Midnapore khas mehal ryots against the late settlement assessments, were dismissed.

3. The Legal Remembrancer has apparently misunderstood the remarks contained in paragraph 2 of last year's Resolution, in which he was asked to submit a special report on two points—(1) the means to be adopted to secure a more careful examination of the probabilities of success before engaging in litigation; (2) the possibility of keeping a stricter watch over the progress of cases when instituted. In his report he deals only with the result of cases before the High Court, and asserts that the result of litigation there often depends on, and is determined by, "the ill-conduct of the Lower Courts and various technicalities quite irrespective of the justice of the position taken up." The Lieutenant-Governor had, however, in view all the cases specifically noticed in the report, whether decided by Courts of first instance or Appellate Courts, and his remarks did not refer exclusively to the figures showing the result of appeals to the High Court. It was clear to the Lieutenant-Governor, on a

perusal of the summary of various cases decided against Government, given by the Legal Remembrancer in his report for 1886-87, that some of these cases should never have been brought into Court by Government, and that others should not have been defended by the Government, and he asked the Legal Remembrancer for his suggestions on the subject to be contained in a special report. This, however, has not yet been received, and the Lieutenant-Governor trusts that it will be submitted at an early date.

4. The figures in the margin show the result of the litigation in which the Court of Wards was concerned in 1887-88

	1885-86. Rs.	1886-87. Rs.	1887-88. Rs.
Decided in favour of Court of Wards ...	1,113	1,034	707
Decided against Court of Wards ...	158	310	185
Compromised, remanded or withdrawn ...	44	91	68
Percentage in favour of Court of Wards ...	87½	77	79½

and the two preceding years. The decrease in the number of cases is due to two large estates having passed out of the hands of the Court of Wards. The percentage decided in favour of the Court of Wards, though slightly better than 1886-87, is still

very low, owing to the fact that 90 appeals preferred by the Manager of the Dighaputea Estate, without reference to the Legal Remembrancer, were rejected. In the Courts of first instance the percentage of cases decided in favour of the Court of Wards was 89½, but here also a considerable portion of the cases decided against the Court came from the Dighaputea Estate. The attention of the Revenue Department will be called to the matter, as the Manager does not appear to have been justified in instituting the appeals.

5. The following table shows the amount of Government decrees recovered during 1886-87, as compared with the amounts recovered during the two previous years:—

	1885-86. Rs.	1886-87. Rs.	1887-88. Rs.
Amount under realization ...	6,26,182	50,449	48,884
Realized during the year ...	12,338	13,367	11,389
Percentage of recovery ...	2	26½	23½

As was stated in last year's Resolution, excluding the Canning decrees, which were ultimately remitted, the percentage realized in 1885-86 was 27½. Calculated in the same way, the percentage for 1884-85 was 33.

6. The following table shows the amount of Wards' decrees recovered during the last three years:—

	1885-86. Rs.	1886-87. Rs.	1887-88. Rs.
Amount under realization ...	9,37,524	11,07,579	13,20,600
Realized during the year ...	1,69,179	1,63,806	2,59,312
Percentage of recovery ...	18	14½	19½

The largest outstanding balances are against the Burdwan Raj, Dighaputea and Tikari Estates, and most of the decrees are said to be outstanding from long before the estate came under the Court of Wards. The percentage of collections is somewhat better than last year, but is still very unsatisfactory. The Legal Remembrancer has not reported, as requested in paragraph 9 of last year's Resolution, on the desirability of paying nazirs and their subordinates a commission upon realizations. The Board of Revenue issued a circular calling upon officers to show more energy in the realization of decrees, too late, however, to affect materially the returns for 1887-88. The Legal Remembrancer's report shows that in some instances Collectors allow themselves to be far too easily baffled in enforcing Government claims.

ORDER.—Ordered that a copy of this Resolution be forwarded to the Superintendent and Remembrancer of Legal Affairs for information and submission of the report referred to in paragraph 3.

Ordered also that a copy of this Resolution, with a copy of the Report, be forwarded to the Revenue Department, with reference to the remarks contained in paragraph 4 of the Resolution.

By order of the Lieutenant-Governor of Bengal,

J. WARE EDGAR,

Chief Secretary to the Govt. of Bengal.

**RESOLUTION ON THE ANNUAL REPORT OF THE GOVERNMENT
CINCHONA PLANTATION AND CINCHONA FACTORY IN
BENGAL FOR THE YEAR 1887-88.**

FINANCIAL DEPARTMENT—MISCELLANEOUS.

Darjeeling, the 9th November 1888.

RESOLUTION.

READ—

The Annual Report of the Government Cinchona Plantation and Cinchona Factory in Bengal for the year 1887-88.

The Report is submitted by Mr. Gammie, the acting Superintendent.

2. The weather during the year under review was favourable for the planting of young cinchona trees. Rain fell abundantly during the months of April and May, and the seedlings, which had been planted out at the best season of the year, prospered in an unusual degree.

The policy of replacing the red bark, or cinchona febrifuge-yielding plant, by the *ledgeriana* and hybrid varieties, which yield quinine, was steadily adhered to: 375,092 trees, chiefly of the former kind, were uprooted for their bark, and 424,200 seedlings of the latter were put out in the plantation.

3. The number of cinchona plants, including the nursery stock, at the Government plantations on the 1st April 1888, was 5,335,504, of which 2,182,000 were of the kind known as *succirubra*, or red bark, and 2,950,200 were hybrid and *calisaya ledgeriana*. The crop of the year amounted to 290,410lbs. dry bark, of which 221,090lbs. were red (*succirubra*), 62,410lbs. were *calisaya*, and 6,910lbs. were hybrid bark. With the exception of 855½lbs., which were supplied to the Medical Department and to the public, all the bark was made over to the factory as usual. The attempts to naturalize the species of cinchona which yield the hard Carthagena and cuprea barks have hitherto been unsuccessful; but the three new varieties—*verde*, *morada*, and *zamba morada*—which were procured from South America and sent out to this country by the Secretary of State in 1883, have been cultivated with success. The quality of the bark yielded by these plants is not greatly inferior to that of the *calisaya ledgeriana*, and the introduction of these varieties is considered to be one of the most important and promising experiments which have ever been made at the plantation.

4. The year was marked by the discovery of a process for the manufacture of sulphate of quinine, which is expected to produce a permanent reduction in the price of the article. The details of the method have been published in the *Calcutta Gazette*, dated the 28th March 1888, and further experience has confirmed the opinion which was then expressed that by this process quinine can be obtained in a form undistinguishable, either chemically or physically, from the best brands of European manufacture.

5. The outturn of medicine at the factory, which is regulated by the demand, was 6,916lbs. of ordinary cinchona febrifuge, 1lb. of crystalline febrifuge, and 331½lbs. of sulphate of quinine. The issues during the year were larger than those in 1886-87 by 2,204½lbs., as will be seen from the following table:—

6. The balance sheet shows a net profit on the year's working of Rs. 26,804-3-9. The expenditure on the whole of the plantations, including

Rungjung, and the factory was Rs. 76,706-12-11, or Rs. 2,196-4-4 less than that of the previous year. The revenue derived from the sale of febrifuge, seed, plants and bark amounted to Rs. 1,37,511-3-8, against Rs. 99,950-8 in the previous year, as shown below—

7. The thanks of the Lieutenant-Governor are due to Dr. King, F.R.S., for the efficient working of the Department. His Honour has himself inspected the factory and the plantation and observed the working of the new process, and he has much pleasure in bearing testimony to the evidence which was afforded to him of the remarkable efficiency of Mr. Gammie's administration. Sir Steuart Bayley will take an early opportunity of bringing Mr. Gammie's services to the notice of the Government of India.

ORDER.—Ordered that a copy of this Resolution, and of the Report referred to, be submitted to the Government of India, Home Department, for information.

Ordered also that a copy of the Resolution, and of the Report, be forwarded to the Superintendent of the Cinchona Plantation; the Government of Madras; and the Inspector-General of Civil Hospitals, Bengal, for information.

By order of the Lieutenant-Governor of Bengal,

COLMAN MACAULAY,

Secretary to the Government of Bengal.

RESOLUTION ON THE ADMINISTRATION REPORT OF THE CALCUTTA MUNICIPAL CORPORATION FOR THE YEAR 1887-88.

MUNICIPAL DEPARTMENT—MUNICIPAL.

Calcutta, the 12th November 1888.

RESOLUTION.

READ—

The Administration Report of the Calcutta Municipal Corporation for the year 1887-88.

This report is preceded by an introductory chapter of considerable interest, in which the Commissioners have instituted a comparison between Calcutta as it was in the year 1876, when the present Municipality was created, and as it is now in 1888, which is the last year of its corporate existence. It is pointed out that such a comparison is the more instructive because, unlike most cities, the circumstances of Calcutta are such that its boundaries and population have remained stationary. It is shown that during the last 12 years the drainage scheme has been completed, the filtered and unfiltered water-supply doubled, and the roads much increased in length and better lighted and watered. Tanks have been filled up, bathing platforms constructed, bustees cleansed, and the value of land has been doubled without any increase on account of debt.

2. Over $2\frac{1}{2}$ lakhs of rupees have been spent yearly on drainage works. The total number of premises connected with the sewers on the 31st March 1888 was 23,849; the number similarly connected up to the end of 1876 was 7,214 only. In 1876 there were 47 miles of pipe sewers, in 1888 there were 144 miles. The enormous improvement effected by the obliteration of the old open drains or elongated cess-pools, as they have been called, can only be appreciated by those who remember Calcutta in former days; but it may still be partially realised by a visit to the Suburbs of the Town, where open drains still exist. Arrangements have also been made for drainage inspection, and improvements have been effected in flushing and in the system of cleansing the sewers.

3. In 1876 the average quantity of filtered water supplied to the Town per diem was 6,541,154 gallons, and of unfiltered water 721,675 gallons. During the past year the average supply had increased to 10,326,601 and 2,501,830 gallons respectively. A comprehensive scheme of extension has been sanctioned by the Commissioners, which will not only increase the supply of filtered water to the Town to 16,000,000 gallons, but will also provide an additional four million gallons for the Suburbs. The capital sunk in the water-works up to the end of March 1876 was Rs. 71,56,986: this amount had increased by the end of the past year to Rs. 1,22,86,485.

4. The roadway of the Town has been augmented during the past 12 years by about 10 per cent., and the area of roads watered by 33 per cent. The lighting of the Town has increased from 3,418 lamps to 4,761. About 240 impure and insanitary tanks—cups of poison as they were described in a previous report—have been filled up, and tanks other than those in private enclosures are now very rare in any part of the Town except the extreme north. In the place of the tanks, the Town has been studded with 86 bathing platforms for the use of the poorer inhabitants. Five public squares have been constructed and laid out at considerable expense, to the great advantage of the people living in the neighbourhood. A sixth has lately been sanctioned, and the land is now being acquired. For the first time, an attempt has been made to deal with the almost insoluble difficulty of bustee reclamation. It is through the personal exertions of the Chairman, Sir Henry Harrison, that organised measures have at last been adopted to reconstruct and arrange these bustees, to ventilate them by roads, and to remove refuse from them daily.

5. It was observed by one of the late Health Officers of Calcutta, in a published address, that "Calcutta has to sight and sense within living memory undergone a revolution," and it may be added that during the past 12 years the changes effected have been more rapid and decisive than in the twenty years which preceded them. The evidence of improvement is not wanting. Dividing these twelve years into three quadrennial periods, it is found that during the first of these periods the number of deaths was 54,263,

during the second 48,174, and during the third 47,827. The decrease is principally in fever mortality, and is directly due to the completion of the drainage system, the consequent obliteration of the surface ditches, the greater dryness of the subsoil, and to the work done by the organised mehter service. It is true that the cholera deaths show a converse tendency to increase, but if the deaths from cholera, diarrhoea and dysentery are combined together, in consequence of the imperfect medical diagnosis in such cases, the figures of the three periods, 12,866, 12,294 and 12,133, will be found to show a slight, but very slight, inclination to decrease. As the Commissioners, however, point out, the improvement is most decisive in its effect upon the wealth of the Town. It is stated to be, on the whole, a very moderate estimate, that the value of land in Calcutta has doubled since 1876. The value of buildings has increased but little; yet the official valuation of the Town, which was Rs. 1,23,32,344 in 1876, had increased to Rs. 1,43,75,673 in 1888. The same rate of taxation yields therefore 15 per cent. more in taxes; and whereas it took a 6 per cent. rate in 1876 to meet the interest charges at that time, a 6 per cent. rate now would cover the parallel charges and leave a margin.

6. The Lieutenant-Governor has perused this portion of the Commissioners' report with much satisfaction, and it is a source of unqualified gratification to him to know that these results have been attained without irritation or friction. The wrangling and strife which marked the early days of municipal life in Calcutta have long since passed away, and the relations between the Commissioners and their official Chairman are now of the most friendly and cordial character. The action of a Municipal Government, as has been well said, must address itself to the instincts, intelligence and co-operation of the governed and the conciliatory spirit which, for many years past, has moulded the policy of the Calcutta Corporation has amply justified itself, if justification were necessary, by the successful record of work done. At the same time Sir Stuart Bayley avails himself of this opportunity of saying, as he will not fail to say on all suitable occasions, that the principal value of such a retrospect as the Commissioners have now made, is to be found in the strong encouragement and inducement it affords them to persevere in the path of improvement. While fully acknowledging the importance of the work which the Commissioners have accomplished, it is not possible for the Lieutenant-Governor to be blind to the magnitude of the work which has been left undone or only partially done. The arrangements for the drainage of the Town have still to be perfected. The water-supply, even after the present extensions have been carried out, will still be insufficient for the needs of the people. The removal of refuse and rubbish is far from complete. The arrangement of upper storey privies, of which the present Health Officer gives so graphic a description in this year's report, is deplorably defective. The system of sanitary inspection, on the improvement of which the Government of India have lately laid so much stress, is still very deficient. Schemes for large model dairies and an establishment for washing clothes, such as have proved so beneficial in Bombay, are in abeyance. The Municipality has not yet identified itself with the completion of a new large street in any portion of the city. Although new squares have been opened out and new roads have been constructed, what has been done is altogether insufficient for the requirements of the metropolis. The structural condition of the city has been almost entirely neglected in past days, and there is no department of municipal administration in Calcutta which needs so much attention in the future. The new Central Road from the Howrah Bridge to Sealdah, which is now in contemplation, is a beneficial scheme which, if carried out, is likely to prove of inestimable advantage, and it is with great regret, therefore, that the Lieutenant-Governor has learnt that the Government of India do not feel themselves at liberty to sanction the contribution by the Howrah Bridge Commissioners of their surplus revenue of two lacs of rupees so as to enable the Corporation to meet the initial interest on the loan which it would be necessary to raise to meet the cost of the road. But it will be a grave misfortune if the Municipal Commissioners allow the project to be abandoned on this account. It must be remembered also that the action of the Commissioners must extend in the future not only to the Town, but to the insanitary Suburbs. The Suburbs of the Town will, under the new Act which has lately been passed, be amalgamated with

Calcutta for municipal purposes, and when the whole of this area is united under one active sanitary administration, the duties and responsibilities of the Corporation will be largely increased. To improve the Suburbs a heavy outlay of expenditure will be necessary, and the unremitting exertions of the Commissioners will be called for for many years to furnish to the suburban residents an adequate water-supply a proper system of drainage, continuous cleansing, and other measures of immediate sanitary necessity.

7. Turning now to the work done during the year itself, the Lieutenant-Governor is pleased to observe the regular attendance of Commissioners both at the General Meetings and at the Committees and Sub-Committees. No less than 14 Commissioners attended more than 50 times, and there are five Commissioners who attended 100 times and upwards. No less than 39 Commissioners attended more than 50 per cent. of the meetings and Committees to which they were invited. This degree of interest taken by the Commissioners in their work is one of the most satisfactory features of municipal government in the metropolis.

8. The total income of the Municipality was Rs. 31,18,625 against Rs. 30,01,636 in the previous year, and the disbursement Rs. 30,33,567 against Rs. 29,96,189. With the sanction of Government, a 5 per cent. loan was raised for the following purposes :—

	Rs.
Water-supply	7,05,500
Bustee and town improvement	2,50,000
Extension of drainage	1,60,000
Repayment of 6 per cent. loans of 1867	4,39,000
Total	15,54,500

Having regard to the amount represented by transfer into new debentures, a sum of twelve lakhs only was advertised for by the Commissioners. The total amount of tenders was Rs. 37,10,000, of which Rs. 34,15,000 were at and above par. Tenders at and above Rs. 101-1 were accepted: the average rate of successful tenders was Rs. 101-10-11, and the loan is now quoted at a high premium. The Lieutenant-Governor congratulates the Commissioners on this very successful financial position. The total loan liability of the Corporation at the close of the year amounted to Rs. 1,77,79,182.

9. The expenditure actually incurred under the head of town and bustee improvements was Rs. 3,33,416 against Rs. 2,03,244 in the previous year; 18 tanks were filled up by the Corporation, and 10 by the owners after notice had been served on them. The report furnishes a lucid account of the water-works extension scheme, and of the delays which have hitherto prevented its completion. It is stated that the delay in completing the works is solely due to the condition of the money market, and that ever since funds have been plentiful the works have been pushed on as fast as circumstances admitted. The Lieutenant-Governor cannot, however, accept this explanation without some qualification. It was said by Mr. Kimbor in his evidence before the Sanitary Commission in 1884 that it was possible to complete the extension in three working seasons or even less; but this period has passed, and the works are still in progress, and it is now stated that "by February at latest the Town ought to be enjoying its full supply of 16 million gallons properly distributed by the aid of the engines at Halliday Street." His Honour trusts that the steps now being taken will ensure the fulfilment of this anticipation without any risk of failure. The remaining four millions are intended for the Suburbs, and it will be left for the amalgamated Municipality to make arrangements for receiving this supply. In regard to drainage works, it is reported that the Hastings drainage has been completed, and that of Bagh Bazar is rapidly approaching completion. The total expenditure from capital on drainage during the past year was Rs. 2,14,843. As soon as the amalgamation comes into force, fresh drainage operations will have to be taken in hand for the new area. The Lieutenant-Governor will await with much interest the effect of drainage in the Hastings' ward, which for many years in the past has shown a higher death-rate than any other ward in the city. Not in drainage only, but in other respects, it is believed to have been brought into a better sanitary condition during the past two years.

10. The report of the Health Officer, annexed to the Commissioners' report, is again a very valuable paper, and worthy of Dr. Simpson's high reputation as an earnest and able sanitarian. The year 1887 was the healthiest on record, the mortality being 10,979, or only 25·3 per mille. Not only was the cholera mortality lower than in any year since 1880, but the year was also marked by a further fall in the death-ratio from fever. The result of Dr. Simpson's investigations is to show that 70 per cent. of the mortality from cholera is among the poorer population who live in tiled huts. His special report on this disease will prove of the greatest interest to persons specially engaged in investigating the phenomena of cholera.

11. The Commissioners report favourably of the working of the executive departmental officers of the Corporation. The collections made by Mr. O. C. Dutt, the able Collector of rates, amounted to Rs. 23,79,122, and exceed the amount received by the Municipality in any previous year. The new License Officer, Baboo Romoni Mohun Chatterjee, has begun well both in improving the collections and reorganising the department. The Assessor and Surveyor, Baboo Mahtab Chunder Mullick, whose invidious duties expose him to much hostile and unfair criticism, is highly spoken of as enjoying the entire confidence of the Commissioners. Mr. Jones, the Superintendent of the Market, discharged his duties with his usual efficiency. Messrs. Wintgens and Dickson, the Assistant Engineers, and Mr. Cooper, who is in charge of maintaining roads and sewers, gave satisfaction during the year. The resignation of Mr. Turnbull, who had been the valued Secretary to the Corporation for thirty years, was referred to in last year's report. The Vice-Chairman, Baboo Gopal Lall Mitter, remained in charge of his office throughout the year. The Hon'ble Sir Henry Harrison, the Chairman of the Corporation, was on leave for six months. During his absence Mr. Cotton officiated as Chairman.

12. Upon the whole, the Lieutenant-Governor has no doubt that the administration of the Town of Calcutta by the present Commissioners, who are now about to lay down their office, merits the favourable opinion of Government and the commendation of the rate-payers: although the success attained is not unqualified, the result is one of which the Commissioners need not be ashamed: although much is still wanting, it must be acknowledged that much has been done: in the future it will be more easy to overcome difficulties of which the nature of the solution has already been indicated: the defects of system which experience has brought to light have been to some extent remedied by recent legislation, and with the increased powers which the new law bestows on the municipal authorities, it may be anticipated with confidence that the Corporation of the amalgamated Town and Suburbs will continue with even greater success to discharge the heavier duties and responsibilities which will devolve upon it.

By order of the Lieutenant-Governor of Bengal,

H. J. S. COTTON,

Offg. Secretary to the Govt. of Bengal.

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the crops in the different districts of Bengal, as reported to Government, during the week ending the 17th November 1888.

No.	District and date of return.	Rainfall at Sudder Station in inches.	Character of the weather and state and prospects of the crops.	
BENGAL.				
Western Districts.				
BURDWAN DIV.	1 Burdwan Nov. 17, '88	1.94	Weather—cooler than last week. Rain fell in the district about 12th and 13th, and will be beneficial to the <i>rubbi</i> crops, though too late for the <i>aman</i> rice.	
	Culna ...	3.79		
	Cutwa ...	1.31		
	Rancegunge ...	0.53		
	Bankoora „ 17, '88	1.40	Weather—getting cool. Sharp showers on the 12th and 14th. Rain has been general, but too late to do much good to <i>haimanti</i> rice. Prospects of this crop in thanas Souainukhi and Indus and of <i>rubbi</i> crops generally are, however, somewhat better than before. Sugarcane doing well. A further fall in prices: coarse rice at Bankoora 21 seers per rupee.	
	2	Birbhum „ 17, '88	0.89	Weather—seasonable. <i>Amun</i> has been benefited by the rain, but the probable outturn for the whole district will not be more than 8 annas. Prospects of <i>rubbi</i> fair.
	Rampur Hat ...	1.74		
	4 Midnapur „ 17, '88	0.19	Nearly 4 inches of rain in Contai sub-division, but the fall was light in the rest of the district. The weather is now cold, and all clouds cleared. In Contai, the rain, it is thought, may do some good to the rice, but in other parts it was rather harmful. It will, however, be useful for the <i>rubbi</i> . Prices are varying, rising in some thanas and falling in others.	
	5 Hugh „ 17, '88	1.65	Weather—at first stormy and warm; then cold and blue. The rain has done much good to late rice and to <i>rubbi</i> crops, and has generally improved prospects all round.	
	Serampur ...	3.64	Weather—seasonable. <i>Rubbi</i> prospects good through recent rain. Paddy in flower, spoiled: paddy in bud or in ear greatly benefited.	
Jehanabad ...	0.50			
Howrah „ 19, '88	3.05			
Uluberia ...	0.55			
Central Districts.				
PRESIDENCY DIV.	6 24-Pergas Nov. 20, '88	2.30	Weather—cool and seasonable. Rain in the beginning of the week has somewhat improved prospects of crops. Cold-weather sowing continues.	
	7 Nudda „ 17, '88	1.11	Weather—cloudy at first and then rainy. Rain, which has fallen pretty generally, has done much good to <i>aman</i> rice and <i>rubbi</i> crops. Rain in the Kooshtea sub-division was very slight, while in Ranaghat it was heavy.	
	Kooshtea ...	0.23		
	Moherpur ...	1.19		
	Choudadanga ...	1.15		
	Ranaghat ...	4.45	Weather—seasonable. There being no sufficient rain during the week, it is apprehended that there will be a loss in the outturn of winter rice.	
	8 Khoolna „ 18, '88	0.15		
	9 Jessore „ 17, '88	2.37	Weather—seasonable. The recent rain has been beneficial to the standing crops. Price of rice rising.	
	Jhenidah ...	0.72		
	Magoom ...	1.53		
	Narsil ...	2.14		
	Bongong ...	1.20	Weather—getting cool. Rain will much benefit <i>haimanti</i> crop. <i>Kalai</i> getting on well. <i>Rubbi</i> sowings going on.	
	10 Moorsheadabad „ 17, '88	0.45		
	Lalbagh ...	1.46		
	Kandi ...	1.35		
	Jangipur ...	0.33	Weather—fine and cool. The late rain, which was heavy in some parts and pretty general, has been good for the <i>rubbi</i> crops. Prices lower.	
	11 Dinagepur „ 17, '88	0.37		
12 Rajshahye „ 17, '88	0.22	Weather—cold and seasonable. The recent rain has done some benefit to the crops. Price of rice has fallen a little. Everywhere the crops have suffered much from want of rain.		
Nattote ...	0.25			
Nowgong ...	0.21	Weather—cloudy and rainy on the 14th and 15th; otherwise seasonable. Prospects have been considerably improved by the recent rain, which appears to have been general. The outturn of the <i>aman</i> crop will not fall short of 10 annas. The rain has also much improved the prospects of the <i>rubbi</i> crops.		
13 Rungpur „ 17, '88	0.90			
Kurigram ...	1.11			
Nilphamari ...	0.55			
14 Bogra „ 17, '88	0.48	Weather—seasonable. The rain, though late and meagre, has done some good. An <i>aman</i> outturn of nearly 12 annas average may be expected. <i>Rubbi</i> prospects fair.		
Nowkhila ...	0.68			
15 Pabna „ 17, '88	0.58	Weather—nights cool, but days still rather warm for the season. More rain is wanted. <i>Amun</i> paddy is being reaped in some places. <i>Moong</i> and <i>mas-kalai</i> promise well.		
Serajgunge ...	0.12			
16 Darjeehug „ 17, '88	0.50	Weather—fine and clear. Hill crops have benefited by the rain; in the plains rain is still wanted for winter rice.		
17 Julpigoree „ 17, '88	Nil	Weather—cool. Cloudy at times. <i>Amun</i> paddy is in ear. Its prospects continue bad owing to want of rain. Transplantation of tobacco in progress. Common rice sells at the Julpigoree market at 15 seers a rupee.		
Eastern Districts.				
DACA DIV.	18 Dacca Nov. 17, '88	0.48	Weather—seasonable. Winter crops are being sown. Harvesting of early <i>aman</i> going on. Late <i>aman</i> ripening. Recent rain has done much good to the crops in the field. Prospects of crops continue good.	
	Manickgunge ...	0.29		
	Munshigunge ...	1.7		
	Narsingunge ...	0.71		
	19 Furreedpur „ 17, '88	0.49	Weather—seasonable. Prospects somewhat improved by the rain that has fallen.	
	Goulundo ...	0.13		
	Madaripur ...	1.65	Weather—hot for the time of the year and cloudy. Prospects of crops good in Gournadi, Abnpur, Perozepur, and Kowari, but in other places the crops are suffering for want of rain.	
	20 Backergunge „ 15, '88	0.24		
	21 Mymensingh „ 16, '88	0.19	Weather—fine and seasonable. Prospects of crops good. <i>Amun</i> crop is being harvested.	
	Netrokona ...	0.09		

No.	District and date of return.		Rainfall at Sudder Station in inches.	Character of the weather and state and prospects of the crops.
BENGAL—concluded.				
Eastern Districts—concl.				
CHITTAGONG DIVN.	22	Chittagong	Report not received.
	23	Nonkholly Nov. 16, '88	0'09	Weather—seasonable. Reaping of <i>rajasail</i> going on. <i>Amun</i> crops are thriving. Rain wanted.
	24	Fenny ...	0'10	
	24	Tipperah „ 15, '88	0'35	Weather—seasonable. Getting cold. The crops are generally good everywhere, though they would have been excellent had a shower of rain fallen about the beginning of the month. Winter cultivation has commenced with good prospects.
CHITTAGONG DIVN.	25	Chittagong Hill Tracts. „ 13, '88	Nil	Weather—fair, with foggy mornings throughout the week. Harvesting of early plough-paddy commenced. Late plough-paddy is forming into seed. Prospects not good. Gathering of cotton commenced. A very poor outturn of this crop is expected this year.
		Hill Tipperah „ 14, '88	Nil	Weather—cloudy. Chillies and tobacco being transplanted. Mustard and onions being sown. <i>Til</i> and cotton being gathered. <i>Amun</i> paddy not doing very well.
BEHAR	26	Patna „ 17, '88	Nil	Weather—fair; mornings and evenings cool. <i>Rubbi</i> sowings progressing, but retarded in many places for want of sufficient moisture, and the young plants are suffering from the same cause. The sub-divisional officer of Barh reports that paddy has almost all dried up in his sub-division, and that there may be one anna outturn. Prices of food-grains are almost stationary.
	27	Gya „ 17, '88	Nil	Weather—cool. Outturn of paddy expected to be eight annas. Sowing of poppy proceeding. Sowing of <i>rubbi</i> still going on where the land can be irrigated.
PATNA DIVN.	28	Shahabad „ 17, '88	Nil	Weather—bright and clear; getting cool. Paddy crop is suffering for want of rain except on canal-irrigated lands. <i>Rubbi</i> is still being sown, but much retarded owing to absence of moisture. Rain badly wanted. Poppy sowings have made good progress, but owing to high temperature the plants which have germinated have suffered to some extent. Prices very high.
		Sasseram ...	0'29	
		Bhabuah ...	0'30	
	29	Dubhanga „ 17, '88	Nil	Weather—occasionally cloudy; getting cool. Harvesting of paddy has commenced. <i>Rubbi</i> sowings almost at a standstill for want of rain. Prices stationary.
	30	Mozufferpur „ 17, '88	Nil	Weather—cool and bright. Rain wanted for <i>rubbi</i> . In the Sitamarhi sub-division paddy in the high lands reported lost, that in the low lands very poor; <i>rubbi</i> plants suffering for want of sufficient moisture. In Sudder and Hajipur paddy will be not less than half a crop; <i>rubbi</i> sowings are still going on, and are germinating fairly. Prices of food-grains not so high as last week.
	31	Saran „ 17, '88	Nil	Weather—getting cool. Prospects unchanged. Prices rising.
MAGADH DIVN.	32	Chumparun „ 17, '88	Nil	Weather—cold, with variable wind. In the Bettiah sub-division <i>rubbi</i> is coming up well, and the seed in more than half the poppy cultivation has germinated. Prospects of <i>aghani</i> better than at first estimated. In the Sudder sub-division no alteration to report in prospects of <i>aghani dhan</i> . <i>Rubbi</i> has not germinated in many places. Rain much required. The poppy seed has germinated only in about one-sixth of the area engaged for according to the latest reports.
	33	Monghyr „ 17, '88	Nil	Weather—seasonable and clear. Winter rice on low lands doing fairly well and expected to be 8 annas on the whole. <i>Rubbi</i> sowings slowly going on where there is moisture in the soil. Prices stationary.
	34	Bhagulpur „ 17, '88	Nil	Weather—fair and rather hot. Prospects continue unchanged. In Supool affairs look rather better, and prices have slightly fallen. From Madhepura no change in the state of things is announced. In Banka rice has risen somewhat in price, but the coarser food-grains are cheaper. In the Sudder sub-division there are still hopes for the <i>rubbi</i> if rain should fall; but insects are damaging the plants. Rice in the Sudder will be at the outside an 8 to 10-anna crop.
	35	Purneah „ 17, '88	Rainfall not shown.	Weather—seasonable. There has been no rain to speak of since last week's report, and therefore no improvement in the prospects of the crops. Winter sowings, however, are doing fairly well, and the price of common rice has a downward tendency.
		Kishengunge ...	0'15	
		Arareah ...	0'08	
MAGADH DIVN.	36	Maldah „ 17, '88	0'22	Weather—clear and cool, but occasionally cloudy. The showers have done some good to the <i>rubbi</i> crops, which generally promise fairly well; but little or no good to the winter rice, the yield of which will not be more than 8 annas on the whole. Prices are easier; common rice selling at an average of 17½ seers per rupee.
		Shibzango ...	0'34	
		Gajol ...	0'30	
	37	Sonthal Pergas. „ 17, '88	1'20	Weather—cloudy all through the week, now clear. Fair reports of rice crop from nearly all the sub-divisions except Rajmela, where only 8 annas crop expected. Rain in the week has done some good to <i>rubbi</i> crops which promise well. Prices beginning to fall.
	Deoghur ...	0'37		
	Godda ...	0'30		
	Jamtara ...	0'53		
ORISSA		Pakur ...	0'18	
		Rajmahal ...	0'25	
ORISSA DIVN.	38	Cuttack „ 16, '88	1'19	Weather—fair. Copious rainfall all over the district has improved the state of <i>saral</i> crop, except in parts of Jagpur. The outturn at Banki, which suffered most, is estimated to be 6 annas. Price of rice slightly lower.
	39	Poorce „ 15, '88	0'40	Weather—seasonable. Winter rice (<i>saral</i>) is in ear. Early <i>laghu</i> is being harvested. Miscellaneous crops doing well. Common rice 17 seers 5 chittacks per rupee in the Sudder sub-division, and 13 seers 13 chittacks in the Khoorda sub-division.
		Khoorda ...	0'26	
	40	Balasore „ 16, '88	0'77	Weather—cooling down. More or less rain throughout the district, which will benefit both <i>rubbi</i> and <i>saral</i> crops. Prospects to some extent improved. Price of rice varies from 18 to 25 seers per rupee according to quality, except in Chandbally, where it ranges from 16 to 24 seers.

No.	District and date of return.		Rainfall at Sudder Station in inches.	Character of the weather and state and prospects of the crops.
CHOTA NAGPORE.				
South-West Frontier Agency.				
CHOTA NAGPORE DIVN.	41	Hazaribagh Nov. 16, '88	0.32	Weather—bright and clear; much colder since the recent rain. Rain has been more or less general, and has greatly improved prospects of <i>rubbi</i> crops. Rice being harvested; a 12-anna crop all round expected.
	42	Lohardugga „ 17, '88	0.02	Weather clear and cool, with no prospect of rain. Rain badly needed for <i>rubbi</i> sowing. High land paddy being reaped. No change in prices.
		Palamow ...	0.10	
	43	Singbhoom „ 16, '88	0.03	Weather—fine and seasonable. Crop prospects much improved by the rain.
44	Manbhoom „ 17, '88	0.66	Weather—seasonable. Slight rain during the week. It is doubtful whether the rain will do any good to the paddy crop, which is ripe and is being reaped, but it will do great good to the <i>rubbi</i> crops. New coarse rice is being sold in the district from 16 to 24 seers per rupee.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h, 10h, 16h, and 22h

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Alipore Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o overcast, g gloomy, d drizzling rain, p passing temporary showers, t thunder, = fog, Δ dew.

CALCUTTA, the 20th November 1888.

SUMMARY OF THE RAINFALL AND METEOROLOGICAL OBSERVATIONS
TAKEN IN BENGAL FOR THE WEEK ENDING FRIDAY, THE
16TH OF NOVEMBER 1888.

At the close of the previous week conditions in Bengal were distinctly abnormal for the season. The cyclonic storm which had passed over Madras on the night of the 31st of October had caused a wave of moisture-laden winds to advance northwards up the west coast of the Bay, and heavy rainfall had been received in Orissa; while over the remainder of Bengal this wave had only caused skies to cloud over very heavily, and up to the 9th practically no rain had fallen in any division except Orissa. At this period it also almost appeared that the moist winds would retreat from Bengal or disperse without giving rise to any rainfall of importance, and on the 9th, skies were generally clearing. This gradual retreat, however, of the disturbed conditions did not continue, and for the first two or three days moist winds, and in many cases southerly and south-easterly winds, were still reported at the western and south-western stations in the province. Apparently at this time also there was a rather strong northerly wind current setting in from Northern India, and this commenced to interact with and drive back the more or less moist winds. As the result of this interaction, pressure commenced to rise rapidly, and rainfall also commenced on the 12th in Chutia Nagpur, and on about the 13th in the western and south-western districts, and it then gradually extended to East and North Bengal on the 14th and 15th. Rainfall has thus been almost general in all districts except Behar, though the amounts received have been very variable, and in some cases extremely heavy falls have been reported, though at the majority of stations the falls have been light. Even in Behar a few showers have been received in the Purneah, Shahabad and Gya districts, and moderate to heavy rain in the Southal Pergunnahs, but the remaining districts in this division have been almost absolutely rainless. The strong northerly current having thus driven back the variable but moist winds, the previously disturbed conditions were rapidly replaced by fine settled weather of north-east monsoon character, when skies quickly cleared, humidity and temperature rapidly decreased, and rainfall entirely ceased.

Pressure.—The pressure variations during the first half of the week were not very large, though pressure generally fell slowly, but during the second half of the week a rather rapid increase took place. For the whole week the mean pressure variation from the normal has only equalled a few thousandths of an inch, and nearly half the number of stations show very slight defects, and the remainder slight excess pressures.

Temperatures.—During the continuance of the disturbed conditions in the first half of the week, temperature remained decidedly high, but for the last two or three days it became comparatively low. The average mean temperature in East and North Bengal and North Behar has been slightly below the normal; but in South-West Bengal, South Behar and Chutia Nagpur, it has been from two to two and a half degrees above it, and in Orissa the mean temperature has been no less than 3·6° above the normal. For the whole province the mean variation is an excess of 1·3°.

The variations of the average temperature during the week from the normal can be seen from the following table, where the average maximum, minimum, and mean temperatures at nine typical stations in different districts in the province are given, compared with the normal means for the same period. It will be seen that the day temperatures have generally been not very far removed from the normal, while the night or minimum temperatures are rather largely above it at almost all stations :—

Rainfall.—The rainfall during the week has been very important. An average fall of no less than 1·26 inches has occurred at the stations in South West Bengal, one of 0·55 inch in Orissa, one of 0·44 inch in North Bengal, one of 0·36 inch in East Bengal, one of 0·27 inch in Chutia Nagpur, and one of 0·21 inch in South Behar. North Behar, as previously stated, has been practically rainless. At some stations particularly heavy falls were reported, and at Contai, Alipore, Serampore, Culna, Ranaghat, and Narail, falls exceeding two inches were received within twenty-four hours.

The rainfall of the province, district by district, taking into account all the rainfall-recording stations in each district from which complete rainfall returns for the week have been received, is as follows :—

The following districts have received an average amount of from one and a half to two inches :—Howrah, Hooghly, Burdwan, Nuddea, and Jessore. The following from one to one and a half inches :—24-Pergunnahs; from three quarters to one inch :—Cuttack, Balasore, Midnapore, Beerbhoom, and Furreedpore; from half to three quarters of an inch :—Rangpore, Bogra, Moorshedabad, Maldah, Mymensingh, Dacca, and Bankoora; from a quarter to half an inch :—Tippurah, Manbhoom, Khoorna, Pubna, Darjeeling, Dinagepore, and Sonthal Pergunnahs; from a tenth to a quarter of an inch :—Backergunge, Noakhally, Rajshaliye, Shahabad, Bhagulpore, Hazaribagh, Lohardugga, Cooch Behar, and Parna; less than a tenth of an inch :—Pooree, Purneah, Gya, Julpigoree, and Singbhoon; while the following districts have been rainless :—Monghyr, Mozufferpur, Durbhunga, Chumparun, Sarun, and Chittagong Hill Tracts.

MEMORANDUM.

From the annexed table, exhibiting the vital statistics of the principal Municipalities in Bengal during the week ending 27th October 1888, it appears—

1. That during the week in question births and deaths were recorded in the proportions, respectively, of 29·1 and 37·4 per 1,000 of population, as opposed to 19·6 and 28·6 per 1,000, respectively, during the preceding week ending 20th October, indicating a very considerable advance in the registration of both.

2. That they were registered in the highest proportions by the following Municipalities :—

Births.			Deaths.		
		Ratio per mille.			Ratio mille.
Narainganj	...	91·1	Utterpara	...	94·4
Bhagulpore	...	79·6	Bhagulpore	...	85·1

3. That the mortality from the specific death-causes stood as follows :—

						Ratio per mille during the weeks ending—	
						27th October 1888.	20th October 1888.
Cholera	8·4	6·0
Small-pox	·03	...
Fever	15·7	11·7
Bowel-complaints	3·6	3·5
Injury	·5	·2
Other causes	9·1	7·2

denoting that, in comparison with the preceding week, there was a large increase of mortality from cholera, fever and the maladies classed under the head of "Other causes," but no important differences in the casualty-rates from the rest of the diseases.

4. That the Municipalities noted below were reported to have returned the highest death-rates from cholera, fever and other causes; the rest of the diseases (indicated in the foregoing table) exhibiting no special local severity :—

OFFICE OF SANITARY COMMISSIONER FOR BENGAL;

W. H. GREGG, *Dip. Publ. Health, Camb.*,
Offg. Sanitary Commissioner for Bengal.

MEMORANDUM.

THE returns from the principal Municipalities in Bengal presented, during the week ending 3rd November 1888, the following results:—

1. Births and deaths were recorded in these Municipalities at the rates, respectively, of 22·7 and 31·6 per 1,000 of population, as opposed to 29·1 and 37·4 per 1,000 in the preceding week ending 27th October, indicating a large retrogression in the registration of both the events

2. The following Municipalities returned the highest rates of births and deaths:—

Births.				Deaths.			
			Ratio per mille.				Ratio per mille.
Narainganj	62·1	Beaulah	70·9
Bhagulpore	48·0	Gya	56·0
Beaulah	42·0	Suburbs of Calcutta	47·4
Puri	39·9	Uttarpara	47·2
Monghyr	36·2	Narainganj	45·5

Comillah	30·8	Burdwan	35·1
Durbhanga	29·9	Howrah	33·2
				Patna	32·1
				Hughli	29·5

3. In comparison with the results of the preceding week, there was a reduction in the death-rates from cholera, fever, and the maladies coming under the head of "Other causes"; the fatal results from the other diseases exhibiting only fractional differences, and small-pox presenting no death—*vide* subjoined table:—

				Ratio per mille during the weeks ending—	
				3rd Nov. 1888.	27th Oct. 1888.
Cholera	7·1	8·1
Small-pox	·03
Fever	12·3	15·7
Bowel-complaints	4·2	3·6
Injury	·4	5
Other diseases	7·5	9·1

4. The following Municipalities returned conspicuously high mortality from cholera, fever, and "other causes," and no Municipality exhibited any noticeably high death-rate from the other diseases mentioned in the above table, excepting Monghyr, where 13·6 per 1,000 of population died from bowel-complaints:—

Cholera.			Fever.			Other causes.		
		Ratio per mille.			Ratio per mille.			Ratio per mille.
Beaulah	18·4	Beaulah	36·8	Narainganj	24·8

Comparative statement of the principal commodities carried over the Eastern Bengal State Railway during the month of August 1888.

INCREASES.		Tons.
Rice	332
The Northern Bengal State Railway contributed principally to this increase, for which no special reason can be assigned.		
Grains	497
Principally from Kooshtea, Pangsa and Sara.		
Jute, screwed	637
Jute, unscrewed	601
The increase during the month was small, owing to the rise in ocean freights, the looseness of demand from London, and the imperfect telegraphic communication with New York.		
Oilseeds	669
Due to improvement in the London market.		
Railway plant and rolling-stock	837
For repairs and renewals.		
DECREASES.		Tons.
Coal	449
Sufficiency of stocks for Railway and Flotilla purposes.		
Cotton piece-goods	2,150
This decrease is due to the Poojahs having fallen earlier in 1887 than in 1888.		
Salt	714
Falling off in despatches from Dacca and other hide-curing stations.

Comparative Statement of the principal commodities carried over the Bengal Central Railway during the month of August 1888.

INCREASES.

Coal	Tons.
For railway and flotilla purposes. The increase in weight of coal carried being influenced by the increase in number of train miles run.							271
Sugar	196
The increase was principally in the exports from Jhikargacha.							

DECREASES.

Rice	354
Singhia and Khulna show large decreases, the result of a congested market.							
Jute	420
This decrease was induced by a combination of unfavourable circumstances, viz., the advance in ocean freights, the looseness of demand from England, and the unsatisfactory state of telegraphic communication with New York.							
Betel-nuts	121
There was a slight increase in the weight brought to the railway by the Bengal Central Flotilla, but Khulna shows a considerable decrease during the month.

H. J. S. COTTON,
Offg. Secy. to the Govt. of Bengal. ●

Rules for the grant of rewards to informers and others who may render service to Government by detecting or preventing breaches of the Salt Laws.

I. In any case in which a penalty or confiscation has been adjudged by competent authority under any law for the time being in force for the administration or protection of the salt revenue, the Board of Revenue, or the undermentioned officers of the Salt Department, may grant, in such proportions as they may think fit, to any person or persons who may have contributed to the conviction of the offender or to the seizure of the property so confiscated, a reward not exceeding the proceeds of the salt confiscated, *plus* the amount for which any other article confiscated in the same case may sell, *plus* the amount of any fine imposed therein.

Provided always that the aggregate amount of the rewards thus granted in any one case shall not exceed—

	Rs.
If the award be made by the Board of Revenue	500
Ditto ditto by the Commissioner of Salt Revenue, Madras Presidency	200
If the award be made by a Deputy Commissioner of Salt Revenue, Northern Division	100
If the award be made by an Assistant	25

Provided also that the proceeds of confiscated salt shall be taken to be the amount of the duty leviable thereon, whether the salt be actually sold for consumption or destroyed as not fit for consumption.

II. In any case in which any person or persons may have been convicted of an offence against the salt revenue, but in which no penalty or confiscation may have been imposed or realized, or in which any person has performed any service of special merit in respect of the prevention or detection of any act of salt smuggling or of any offence against the Salt Laws, rewards may be granted as follows :—

	Rs.
By the Board of Revenue to an aggregate amount not exceeding	200
By the Commissioner of Salt Revenue, Madras Presidency, to an aggregate amount not exceeding	50
By a Deputy Commissioner of Salt Revenue, Northern Division, to an aggregate amount not exceeding	25
By an Assistant Commissioner of Salt Revenue to an aggregate amount not exceeding	10

III. The Commissioner of Salt Revenue, or the Deputy Commissioner with the sanction of the Commissioner, may incur at his discretion an expenditure, not exceeding Rs. 100 in each case, for the employment of informers, or for any other purpose connected with the prevention or detection of salt smuggling, or of any offence against the laws relating to salt.

IV. Proposed rewards and expenditure exceeding the sums above set forth, should be reported for the previous sanction of Government.

ARABIAN SEA.

BOMBAY COAST.

New Fixed Light at Manora Point—Karachi Harbour.

THE Port Officer, Karachi, has given notice (Notice to Mariners, dated 22nd October 1888) of intended new Fixed Light at Manora Point in lieu of the present Revolving Light.

The new light will be a fixed first order dioptric white light, showing with full brilliancy to seaward on a horizontal arc of 180 degrees, that is, from north-west by west to south-east by east, the landward half circle being partially screened by a dioptric mirror, which will intensify the light to seaward.

The focal plane of the light will be 152 feet above mean sea-level, and in clear weather it will be visible from a steamer's bridge at 20 nautical miles.

The light will be in—

Latitude 24° 47' 37" N.

Longitude 66° 58' 6" E. ;

bearing from the existing light N. 26° 20' W., at a distance of 607 yards.

The tower will adjoin Saint Paul's Church to northward, with 16 yards' interval between, and will be round, built of light drab coloured stone (but whitewashed on seaward half) and 91 feet in height from ground to top of coping.

The new light will be exhibited and the existing light discontinued as early as practicable after the 1st April 1889.

The exact date will be hereafter notified.

The existing light tower will for the present be left standing for military purposes, though its light will be removed.

NOTICE TO MARINERS—(No. 65).

AFRICA—EAST.

RED SEA—EASTERN SHORE.

Kamarán Bay—Reef off Southern Entrance.

THE British Admiralty has given notice (Notice to Mariners No. 318 of 1888) that information has been received through the Board of Trade that on the 1st August 1888 the British steam vessel *Bussorah*, when entering Kamarán Bay by the South Channel, struck on the southern side of the entrance:—

The bearings given for the position of the vessel when aground in 3 fathoms water, are as follows:—

Northern extreme of Ras-el Bayádh—N. $61\frac{1}{4}^{\circ}$ E.

Southern extreme of Ras-el Bayádh—S. $8\frac{3}{4}^{\circ}$ W.

South-west extreme of Kamarán Island—N. $47\frac{1}{4}^{\circ}$ W.

As the southern entrance to Kamarán Bay has previously been reported to be narrower than shown on the plan, it appears probable that the shore reef outside Ras-el Bayádh is wider than given on the chart, and Mariners should use caution in entering.

NOTE.—In the caution printed on chart No. 14, the word “not” is omitted from the second paragraph, which should run as follows:—When there is any wind the reefs are not easily seen.

(The bearings are magnetic. Variation $3\frac{1}{4}^{\circ}$ Westerly in 1888).

[*Note.*—The following rules do not modify or affect the rules relating to the pilgrim traffic between India and the Red Sea ports contained in the Notification of the Department of Finance and Commerce, No. 986, dated the 15th February 1884, or any other subsequent notifications or rules concerning the said traffic issued in modification of the said notification.]

A.—Food, fuel, and water.

1.—(1). In the case of every ship to which the said Act applies, the scale on which food, fuel, and water are to be supplied to the passengers per head per diem shall, subject as regards food to the provisions of section 17 of the Act, be as follows:—

					For passengers bound for ports <i>within</i> 48 hours' sail.	For passengers bound for ports <i>over</i> 48 hours' sail.
(a) <i>Food of fair quality—</i>						
Rice	1 lb.	1 lb.
Flour or ship's biscuit	4 oz.	4 oz.
Pulse	4 oz.	4 oz.
Ghee or oil	$\frac{1}{2}$ oz.	1 oz.
Onions	2 oz.	2 oz.
Pumpkins, yams, or other vegetables	2 oz.	2 oz.
Tamarind	1 oz.	1 oz.
Condiments (chillies, garlic, coriander seed, and turmeric)	$\frac{1}{2}$ oz.	$\frac{1}{2}$ oz.
Salt	$\frac{1}{2}$ oz.	$\frac{1}{2}$ oz.
(b) <i>Fuel—</i>						
Firewood	2 lbs.	2 lbs.
(c) <i>Water—</i>						
Fresh water to be stored in iron tanks or sweet casks	1 imperial gall.	1 imperial gall.

[*Note.*—In the case of ships sailing from ports in the Presidency of Madras, the scale of tamarind, condiments, and salt shall be double that specified above, and one ounce of tamarind shall be supplied in the case of passengers bound for ports within 48 hours' sail.]

(2). In the case of steam-ships carrying an apparatus for distilling fresh from salt water a supply equal to five-sevenths of a gallon per head per diem shall suffice.

(3). In Calcutta, Bombay, and Rangoon such water shall be obtained from the municipal pipes, and in Chittagong from the port water-works.

B.—Medical stores and other appliances and fittings for maintaining health, cleanliness and decency.

II.—(1). Every such ship shall have on board—

(a) if she carry a surgeon, a supply of medicines and surgical appliances as set forth in Schedule A hereunto annexed;

(b) if she do not carry a surgeon, a supply of medicines and appliances as set forth in Schedule B hereunto annexed, together with written or printed instructions for their use in a language which the commander or some other officer of the ship can read; provided that, if the ship is about to commence a "short voyage" only as defined by section 5 of the Act, the ship need only have on board the medicines and surgical appliances mentioned in Schedule C hereunto annexed.

(2). The medicines and surgical appliances above specified shall be supplied for the use of the passengers whenever circumstances so require; and if the medical officer, or, where there is none, the master of the ship, omits, when circumstances so require, to supply the same, he shall be punished with fine which may extend to two hundred rupees.

III.—(1). Every such ship carrying more than one hundred passengers as defined in the Act shall have the following hospital accommodation, or the following materials for the construction of hospital accommodation, for the passengers:

A.—In the case of ships making long voyages.

(a) There shall be a permanent hospital set apart on the upper deck and fitted up either in the poop or deck-house. This hospital shall contain not more than six bunks, and shall have a superficial deck area of at least 14½ feet and not less than 86½ cubic feet of air space. It shall be lighted and ventilated to the satisfaction of the surveying officers, and shall be provided with a raised floor or platform at least four inches off the deck. Every permanent hospital must be made as secure as any other deck-house, and the roof must be well caulked and covered with painted canvas. In all such permanent hospitals, iron fittings are preferable to wood. No case of small-pox, cholera, yellow fever, or plague shall on any account be treated in the permanent hospital.

(b) To provide for the treatment of such cases of sickness as it may be considered desirable to separate (such as small-pox, cholera, yellow fever or plague), and for any general outbreak of sickness when the permanent hospital accommodation becomes insufficient, each ship shall carry the materials for the construction of a temporary hospital upon its upper deck. The part of the upper deck upon which such hospital shall be erected shall be pointed out and measured off by the surveying officers. The framework of the hospital may be either of iron (in pieces that can be easily fitted together) or of wooden spars or bamboos. The roof must be tented, and both that and the side walls must be made of stout canvas and be perfectly water-tight, due provision being at the same time made for ventilation. The superficial area of the floor shall be not less than 14½ feet, and such floor shall be raised at least four inches from the deck. Sheet iron is preferable as the material of the floor.

B.—In the case of ships making short voyages.

(c) Each ship shall carry the materials for the erection of a temporary hospital, as described in clause (b) above, for the treatment of cases of the kind referred to in the said clause, provided that the superficial area reserved for such hospital need not be more than 72 feet. This space must always be deducted from the area measured for passengers on board of such ships.

(2). The permanent hospital, in the case of ships provided with the same, shall be available at all times for the use of sick passengers (other than those suffering from small-pox, cholera, yellow fever, or plague), and the temporary hospital shall always be erected at once and made available for the use of sick passengers whenever the circumstances as described above so require.

(3). If the master of any ship omits either to keep any hospital available for the use of sick passengers, or to erect a temporary hospital as required by this rule, he shall be punished with fine which may extend to two hundred rupees, and with a further fine of twenty rupees for every day after the first during which the omission continues.

IV.—(1) Every such ship shall be fitted with not less than two privies sufficiently screened from public view and readily accessible and available at all times for the use of the passengers, and with one more such privy for every 100 passengers, or part of that number, carried in excess of 100; but no privies shall be allowed in the between-decks.

(2). A proportion of such privies, in any case not less than one, if there be any females among the passengers, shall be set apart for the exclusive use of females, such proportion corresponding, as nearly as may be, to the proportion of female to male passengers.

V.—Every such ship shall be provided with, and have available for the use of the passengers, not less than two places for washing sufficiently screened from public view, whereof a full proportion, as described in Rule IV, shall be set apart exclusively for females. A sufficient number of hand-pumps shall also be provided for supplying sea-water for purposes of ablution.

VI.—On every such ship cattle shall be kept securely penned in, so as not to inconvenience the passengers.

VII.—(1). Every such ship shall be provided with not less than two cabooses or cooking ranges on deck, properly housed and covered, to which passengers shall have ready access at certain times in each day. The ranges shall be made of substantial plate-iron lined inside with bricks, and raised at least four inches from the deck, with an outlet or chimney at the top for the escape of smoke. Each range shall contain at least five cooking places, and an additional range shall be provided for every two hundred passengers carried in excess of one hundred. Cooking on board in the passengers' own stoves is prohibited, and any passenger so cooking or attempting to cook shall be punished with fine which may extend to one hundred rupees.

(2). The crew of the ship shall not be allowed to use the cooking ranges set apart for passengers during the period passengers are on board, but shall be provided with a separate cooking range.

(3). In the case of ships engaged in the coasting trade and carrying passengers on short voyages from port to port, who do not ordinarily cook food on board, the number of cooking ranges may be reduced to such number, not being less than two, as may seem adequate to the requirements of the passengers.

VIII.—The master of any ship omitting to keep any privy, washing place, or cooking range available for the use of the passengers, or any cattle securely penned in, or allowing the crew of the ship to use any cooking range set apart for passengers in breach of the foregoing rules, shall be punished with fine which may extend to two hundred rupees, and when the breach is a continuing one with a further fine of twenty rupees for every day after the first during which the breach continues.

C.—Boats, anchors and cables.

IX.—Every such ship shall be provided with boats according to the scale laid down in the annexed schedule, all such boats being fully fitted with all usual appliances.

Schedule of boat accommodation.

REGISTERED TONNAGE OF SHIP.	Number of boats not less than.	SAILING VESSELS.		STEAM VESSELS.	
		Minimum cubic contents of life-boats.	Minimum cubic contents of all the boats of the ship.	Minimum cubic contents of life-boats.	Minimum cubic contents of all the boats of the ship.
		Feet.	Feet.	Feet.	Feet.
Less than 200 tons	2	90	236·4	138	368·4
200 tons and less than 400 tons	3	120	427·2	181·2	657
400 " " 600 "	4	150	723	198	877·2
600 " " 800 "	5	198	1,038	198	1,038
800 " " 1,000 "	5	240	1,227	240	1,227
1,000 " " 1,250 "	6	510	1,527	540	1,527
1,250 " " 1,500 "	6	510	1,800	540	1,800
1,500 " upwards	7	556·8	2,160	556·8	2,160

In ships of 200 tons and upwards, no boat of less than 90 feet of cubical contents is to be counted in the number.

In ships of 600 tons and upwards two of the boats should be life-boats.

No greater number of boats need be taken than are sufficient to carry all the crew and passengers on board.

The cubic contents of the boats in the foregoing table are ascertained by multiplying their outside length, their outside width and their inside depth together, and then the product by 0·4.

X.—Every such ship shall be provided with not less than three anchors and cables.

D.—Instruments for purposes of navigation.

XI.—Every such ship shall be provided with—

- (a) not less than two good compasses; and, if she be an iron ship, with a record of the deviation of her compasses on every point entered in the log-book;
- (b) charts suitable for the voyage she is about to undertake;
- (c) not less than one chronometer and not less than two sextants or quadrants and barometers, unless her size be under 240 tons, and she be bound on a short voyage, in which case it shall suffice if she be provided with a sextant or a quadrant.

E.—Apparatus for extinguishing and precautions against fire.

XII.—Every such ship shall be provided—

- (a) if she be a steam-ship, with hose sufficient to reach from her engines to her stem and taffrail;
- (b) if she be a sailing ship, with one fire-engine or force-pump, with hose sufficient to reach from her stem to her taffrail; and if her tonnage exceed 800 tons, with a second such engine or force-pump, with like hose; and
- (c) in the case both of steam-ships and sailing ships, with fire-buckets in the proportion of three for every 100 tons up to 600, and two for every 100 tons above 600, provided that 50 in all shall suffice.

XIII.—If fire annihilators or fire-engines are carried, they shall be placed by the master under the special charge of one of the principal officers of the ship and the ship's carpenter, who should be held responsible that, with the buckets and other fire apparatus, they are kept in a state fit for immediate use. The engine shall be worked not less than once a week, and shall be kept in proper order. As soon as possible after leaving port, the officers and crew shall be divided into parties and assigned to stations in case of fire. The master of any such ship failing to comply with the requirements of this rule shall be punished with fine which may extend to two hundred rupees.

XIV.—The cargo of every such ship shall, before leaving port, be properly stowed away, and the decks cleared of any loose straw, hay, or other inflammable material. If any such ship leaves port without having the cargo so stowed, and the decks so cleared, the master shall be punished with fine which may extend to two hundred rupees.

XV.—Immediately before leaving port, the passengers of every such ship shall be called on to deliver up whatever lucifer matches, gunpowder or other inflammable articles they may have about them. Any passenger omitting or refusing to deliver up any such articles when called upon to do so shall be punished with fine which may extend to one hundred rupees.

XVI.—No naked lights shall on any account be used in the hold or store-rooms or in the between-decks, except under trustworthy superintendence. No person shall read in bed with a naked light. Smoking between-decks is strictly prohibited. Spirits must never be opened in the hold, but should be hoisted on deck for the purpose. Any person committing a breach of this rule shall be punished with fine which may extend to two hundred rupees.

Appliances for saving life and making signals of distress.

XVII.—Every such ship shall be provided with an adequate supply of life-buoys, not less than four for each vessel, signals of distress, and inextinguishable lights fitted for attachment to the life-buoys.

Miscellaneous.

XVIII.—Every such ship to which clause (4) of section 18 of the Act does not apply shall be provided with a single awning of stout canvas over the whole of the portion of the deck used by the passengers.

XIX.—In the case of every such ship about to proceed on a long voyage, the whole of the open space on the upper deck of the ship shall be left unencumbered, so as to be available for the use of passengers, or at least so much of that space shall be left unencumbered as to allow not less than six superficial feet thereof for each passenger proceeding on the voyage.

XX.—(1). Certificate B, provided for in section 11 of the Act, shall not be granted until the officer appointed to grant the same is satisfied that, in addition to the food, fuel, and pure water required by clause (c) of that section, the medical stores and other appliances, the fittings for maintaining health, cleanliness, and decency, the boats, anchors, and cables, the instruments for purposes of navigation, the apparatus for extinguishing fire, the appliances for saving life and making signals of distress, the awning for the portion of the deck used by the passengers, and the upper-deck space for each passenger required by the foregoing rules have also been provided on board.

(2) The Certificate B shall state that the same have been so provided.

(b) This paper shall include every interlocutory order, from the date of complaint or the date on which the accused is sent in custody to the Magistrate by the Police, and shall also contain the substance of the final order.

(c) Each order entered in the Order-sheet shall be signed by the Magistrate. The Order-sheet shall be kept in charge of the same officer who has custody of the trial Nuthee, and at the conclusion of the trial shall be permanently attached thereto.

CRIMINAL.

Rule No. 2, dated the 19th September 1888.

For Rules 31 and 32, Chapter VI (at pages 122-124), Rules and Orders, Criminal, substitute the following:—

31. [Chapter XXXI, Section 423, C. C. P.—Rules for the issue and communication of orders passed by Appellate Courts.]

(1.) When an appeal has been disposed of, a copy of the judgment in appeal, and of the order passed, shall be attached to the record of the original Court and returned to it therewith.

(2.) In every case in which a sentence is reversed, the Appellate Court shall fill in the form of warrant of release on appeal prescribed by Rule 15 (a), Chapter II of these Rules and Orders, and shall send the same direct to the Officer in charge of the Jail in which the appellant is confined. It shall at the same time recall and cancel the original warrant of commitment, and this warrant, and the warrant of the Appellate Court directing release of the prisoner, when returned with an endorsement of execution, shall be attached to the record of the original Court and returned to it therewith.

In every case in which a sentence is modified on appeal, the Appellate Court shall prepare a fresh warrant (in the form prescribed in the following rule) in accordance with the terms of the order passed, and shall send the same direct to the Officer in charge of the Jail in which the appellant is confined, and shall recall and cancel the original warrant of commitment, which shall be attached to the record of the original Court and returned to it therewith. When the fresh warrant is returned with an endorsement of execution under section 400, Criminal Procedure Code, the Appellate Court shall forward it to the Court from the decision of which the appeal was preferred, to be attached to the original record. Provided that if an appellant has been released on bail pending the hearing of his appeal, the fresh warrant shall not be sent to the Officer in charge of the Jail until the prisoner has surrendered, and it shall be the duty of the Appellate Court, either directly or through the Court by which the order of release on bail was actually issued, to take measures to secure his surrender.

In every case in which a sentence is confirmed on appeal, the Jail authorities will receive information to this effect by means of the form prescribed in the next succeeding clause.

(3.) Irrespective of the procedure prescribed above, the Appellate Court shall, for the information of the appellant, notify to the Officer in charge of the Jail in which such appellant is confined the result of his appeal. The notification shall be made in the form annexed to this Rule.

Published in the *Calcutta Gazette* of 29th August 1888, Part I, pages 768 and 769, and in the *Assam Gazette* of the 15th September 1888, Part III, pages 375 and 376.

Judicial officers must understand that this notice is intended solely for the communication of the result of the appeal to the appellant, and in no way relieves them from the duty of issuing revised warrants when such are necessary.

The following are the conditions of sale:—

1.—The opium will be sold for exportation by sea only, and no certificate will be granted except to cover such export.

2.—The opium will be ordinarily offered for sale at an upset price of Rs. 800 per chest, and sold to the highest bidder above that price, except under the circumstances for which provision is made by clause 13 of these conditions of sale. The bids must advance by Rs. 5 at a time.

3.—The sale shall commence at the hour of 11 A.M. of the day fixed by previous notification, and shall not be continued after the hour of 5 P.M.; but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or, if the whole quantity advertised shall not be sold on the day appointed, the Board of Revenue may dispose of the lots which remain on hand at a future sale.

4.—Each lot shall contain five chests.

5.—A Promissory Note for a sum, calculated according to the scale noted in the margin, shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale-book,

DEPOSIT.
When the amount bid is less than Rs. 1,200 per chest, Rs. 900 per chest.
On bids of Rs. 1,200 and upwards, but less than Rs. 1,600 per chest, Rs. 300 per chest.
On bids of Rs. 1,600 and upwards, but less than Rs. 2,000 per chest, Rs. 400 per chest.
And so on, Rs. 100 being added to the deposit for every bid additional, to the extent of Rs. 400.

and all such Promissory Notes shall be redeemed on the part of the purchasers at this Office by Bank of Bengal receipts or by substitution of other public securities of the Government of India, on or before 3-30 P.M. in the afternoon of the fifth day after the sale, provided it does not fall on a Saturday, if it falls on a Saturday, the said notes must be redeemed by 1-30 P.M., or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal Receipts or deposit of other public securities as aforesaid shall have been delivered

in, shall be re-sold at such time or times and under such conditions of re-sale as the Board of Revenue shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

6.—The said Promissory Notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not.

7.—The Promissory Notes taken on the day of sale under the fifth condition, if remaining unredemmed at 3-30 P.M. of the fifth day following the day of sale, or 1-30 P.M. if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

8.—No tender of money, Bank of Bengal Receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause 5 on the fifth day following the day of sale will be afterwards accepted. Provided always that money so subsequently tendered may be taken in payment of the said Promissory Note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re-sale as provided for in clauses No. 5 and No. 6.

9.—The opium advertised for sale shall be paid for not later than by 3-30 P.M. of the fifteenth day from the day of sale, provided it does not fall on a Saturday; if it falls on a Saturday, the opium must be paid for by 1-30 P.M.; and in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

10.—Purchasers taking out certificates or orders for the delivery of opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots, or of a different number of lots or chests, whether more or less, than the number of lots or chests originally required to be included in each certificate or order.

11.—No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale-book, or his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

12.—The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall on demand tender at the time a deposit either in Government of India Notes, Bank of Bengal Receipts, or Government Securities, a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these conditions.

13.—With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually until a bid is obtained; and the first *bond fide* bidder for a lot after it has been offered for sale in the mode here described shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 800 specified in the second of these conditions.

14.—The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency opium not exceeding altogether twenty-five lots, provided always that there remain a sufficient number of lots of the opium to complete the said twenty-five.

15.—In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

16.—The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the Office of the Board of Revenue:—No. 1, certificate of the opium advertised for sale; No. 2, report of the examination of such opium.

17.—The public are hereby informed that in providing the investment of the opium manufactured at the Patna Factory and the opium manufactured at the Ghazee-pore Factory for the

year 1887-88, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake. An account of the weight of the drug when packed at the Patna and Ghazee-pore Factories, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta, may be seen on personal application at the Office of the Board of Revenue.

18.—Any further information respecting weight or quality of the opium advertised for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the Office of the Board of Revenue. But, in accordance with established usage, under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment.

By order of the Board of Revenue, L. P.,

K. G. GUPTA, *Offg. Secretary.*

NOTICE BY THE ACCOUNTANT-GENERAL, BENGAL.

SUPPLY BILLS.

NOTICE is hereby given that supply bills for sums of Rs. 500 and above in even rupees are usually obtainable on the treasuries named below at the rates of premium shown.

Any person desiring to obtain a supply bill should send to the Bank of Bengal, Calcutta, a written application containing the following information—(1) his own name and address; (2) the name of the person to whom payment is to be made; (3) the treasury on which the bill is to be granted; and (4) the amount for which the bill is to be granted. With this application the cost of the bill (the amount plus the premium) should be paid into the Bank. If payment by telegram is desired (but this is admissible only in cases in which the name of the payee has been previously registered in the Accountant-General's office), the fact should be stated in the application, and an additional rupee paid with the cost.

The Bank of Bengal will, if the amount is available at the treasury named, receive the money tendered, and grant a receipt, returning the application therewith. The receipt and the application should then be sent to the Accountant-General's office, by which the bill will be granted.

The Bank of Bengal will be advised by the Accountant-General on the 1st and 16th of each month of the amounts available at the several treasuries, and will receive the amounts tendered by the first comers till those amounts are exhausted.

If the Bank refuses to receive any sum tendered owing to the amount not being available at the treasury, the application will be retained by the Bank and forwarded by it to the Accountant-General, who will advise the Bank and the applicant if the amount can be made available.

NOTICE is hereby given that the undermentioned plots of land no longer required by Government, situated along the branch line of the Tirthoot State Railway, i.e., from mouzah Sazawulpore to Muttoopore, in the district of Monghyr, will be put up to sale at places on dates specified below :—

Number of lots.	Place of sale.	Date of sale.
3, 4, &c. to 15.	Tegrah Station, Tirthoot State Railway.	22nd December 1888.

The purchasers of the several plots of land will be subject to the following conditions :—

- 1st.—The purchasers will have no power to make any excavation on the land nearer than 15 feet from the Railway fencing, or plough the land closer than 3 feet from its foundation.
- 2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.
- 3rd.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the 15th day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale.
- 4th.—The balance of purchase-money due under the third condition may be paid either to the Collector or into the Government Treasury, Monghyr.
- 5th.—The plots of land will be sold revenue-free to the highest bidders.
- 6th.—The purchaser shall be put in possession on receipt of the orders of the District Collector approving of the sale; but such possession shall be liable to be disturbed in case the final confirmation of the Board of Revenue should not be accorded to the proceedings.

Notice.

THE right of working the copper mines at Chunabatti, in the sub-division of Alipur, Western Dooars, will be put up to auction on 15th March 1889, in the Court of the Sub-divisional Officer of Alipur. Settlement will be made with the highest bidder for five years, commencing from 1st April 1889. Chunabatti is situated two miles west of Buxa in the Western Dooars. Plenty of labour, firewood and good water is available on the spot. There is a good road, and the mines can be worked with little difficulty. It is believed that any person or company who may work the mines will obtain a good profit. Sixteen seers of copper are said to be obtainable from each bazar maund of ore. A specimen of the copper can be seen at the Office of the Secretary to the Chamber of Commerce, Calcutta. Any further information will be supplied by the undersigned.

THE following Reports of the Bengal Meteorological Department, issued by orders by the Government of Bengal, can be supplied to the public at the prices annexed:—

1st.—Bay of Bengal Daily Report giving observations taken at 20 stations on or near the coast of the Bay, with a chart and summary. This is published in connection with the Calcutta Storm Signal Service. The report giving 10 A.M. observations of the day is distributed by post in Calcutta after 4 P.M. Price to subscribers in Calcutta, Rs. 2 per mensem.

2nd.—Bengal Daily Report containing observations taken at 37 meteorological stations, and transmitted to Calcutta by weather telegrams, with a brief summary of the weather in Bengal during the preceding 24 hours. The report giving the 10 A.M. observations of each day is printed in time for the evening mail. This report for the present will only be published during the south-west monsoon, i.e., from May 15th to November 15th. Price Rs. 2-8 per mensem, including postage.

3rd.—A Weekly and Monthly Statement of Meteorological Observations taken at 44 observing stations, and of rainfall recorded at 245 sub-divisional stations together with summaries of the more important features of the meteorology of the past week or month of the province, and of the distribution of the rainfall and its variation from the normal. Price of the Weekly Report including postage, Rs. 6 per annum, payable in advance, and of the Monthly Summary Report, Rs. 2 per annum, payable in advance.

Subscriptions payable to the Meteorological Reporter to the Government of Bengal for the Bay of Bengal Daily Report, and to the Accountant and Treasurer, Bengal Secretariat, for the other reports.

H. A. D. PHILLIPS,

Under-Secy. to the Govt. of Bengal.

The 24th November 1886.

The following revised advertisement is published in substitution for that which appeared at page 1084, Part II of the Calcutta Gazette of the 9th July 1884:—

The Indian Law Reports,

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st April 1888, the terms of subscription and sale will be as follows for current issues as well as for back numbers of the Reports from 1876:—

RESOLUTION ON THE REPORT ON THE ADMINISTRATION OF THE POLICE DEPARTMENT FOR THE YEAR 1887.

RESOLUTION.

POLICE.

Darjeeling, the 20th November 1888.

Read—

The Report on the Administration of the Police Department for the year 1887.

Read also—

The Reports for the years 1885 and 1886, and the orders of Government recorded thereon.

GENERAL.

1. Mr. Veasey's report was submitted a few days after the date on which it was due. He explains that the Chota Nagpore Report was more than a month late owing to the revised rules for the preparation of the report not having been attended to in the first instance. During the last three years it has always been the last, or the last but one, to come in, and the Lieutenant-Governor trusts that similar delays in its submission may not occur in future.

2. *Cost and numbers of Police Force.*—The actual expenditure for the financial year 1887-88 was Rs. 40,27,968 against Rs. 40,33,658 in 1886-87. The total strength of the police, including Railway Police, was 23,356. The cost of the police employed on purely police work is approximately

estimated at Rs. 26,05,943, or 7-6 pies per head of population. The proportion of police to area and population is shown in the following table:—

PROVINCES.	Number of police.	Area in square miles.	Population.	Proportion of police to square miles.	Proportion of police to population.
Bengal	11,948	70,956	34,821,373	1 to 5.9	1 to 2,904
Behar	5,953	44,139	23,127,104	1 to 7.4	1 to 3,844
Orissa	1,418	9,762	3,789,694	1 to 6.8	1 to 2,672
Chota Nagpore	1,388	26,966	4,225,989	1 to 19.4	1 to 3,044
Total	20,747	151,823	65,964,160	1 to 7.3	1 to 3,179

Batta allowance of one rupee a month, which was first introduced in 1880 in 5 districts, has, since the beginning of 1888, been granted in 13 districts, besides being temporarily allowed to the lower grade constables of the Dacca Special Reserve while on duty in Darjeeling. An increase of Rs. 5 has also been sanctioned to the third and fourth grade constables of this Reserve when at Darjeeling. The difficulty in getting recruits in Bengal near the Metropolis is steadily increasing, and in Mr. Veasey's opinion a further extension of batta to all men upon town duty will become inevitable before long.

3. *Town Police.*—The reports show how distasteful town duty is to the police. In Howrah there were 62 resignations among 309 men in the town police, while there were only 16 out of 247 in the district. In Dacca the town supplied 100 out of 113 resignations for the whole district. In Nuddea the number of vacancies which could not be filled up was so great that in some municipalities the number of men on duty was as much as 50 per cent. below the sanctioned strength, without, however, any serious outbreak of crime occurring. The Inspector-General urges that this bears out his contention that the expensive agency of regular police is altogether in excess of what is wanted for the rural or semi-rural tracts which form a large part of most Bengal municipalities. He also states that in many municipalities the town police are taken from their regular duties and employed in a more or less irregular manner. This is illustrated by the case of Noakholly, where four men out of a strength of fourteen have been detailed to look after tanks. He has promised a special report on the possibility of replacing the regular police in municipalities to some extent by a cheaper and more contented body. This report is awaited. It is evident that the subject is one which cannot be adequately dealt with in an annual report and the resolution upon it.

4. *Rural Police.*—It is difficult to draw any definite conclusions on this subject from the extracts from divisional and district reports, strung together without much method by the Inspector-General. It is alleged that in some districts of the Presidency and Dacca Divisions the chowkidars are too independent of the police to be of much assistance in investigations. There seems indeed to be a general complaint that the rural police are still far from being such useful auxiliaries of the regular police as they ought to be, and the Commissioner of Chittagong is of opinion that the amending Chowkidari Act has effected no improvement in this respect. The Lieutenant-Governor does not, indeed, wish the chowkidars to become a component and subordinate portion of the regular police, but it is very desirable that the two bodies should be more closely associated, and that District Superintendents of Police should have more control over the former. His Honour is prepared to consider any measures permissible under the existing law which may seem likely to bring this about, and he agrees with Mr. Veasey that one very effectual and easily adopted way of securing this would be that chowkidars should be punished by the Magistrate on the recommendation of the District Superintendent. This would also tend to insure more uniformity in discipline, and to prevent the violent fluctuations which now occur in many districts, as for instance in Bhagulpore, where the number of punishments rose from 83 in 1886 to 1,249 in 1887. A new system of chowkidari parades, which should lead to better reporting, has been introduced, under which men belonging to the same village no longer attend on the same day; so that a man going on Tuesday, for instance, cannot be certain how much information has been given

by another chowkidar belonging to his village who went on Monday. The subject of getting better reporting from chowkidars is one to which the efforts of district officers may usefully be directed. It is by keeping the regular police fully informed of the movements of criminals and bad characters, and of the occurrence of crime, that chowkidars can best fulfil their functions as the lowest link in the chain required for the repression of crime, and Colonel Ramsay has shown formerly in Patna and of late in Monghyr how much can be done by systematic attention to place the system of reporting on a better footing, and how useful such reporting may be made. No measures, however, can effect much good unless the chowkidars are regularly paid. There has indeed been some change for the better in this respect, as on the last day of 1887 only 8,183 chowkidars were in arrears for four months and over, against 9,002 in 1886; but there is still, in many places, great room for improvement, and District Magistrates should devote the utmost attention to securing the punctual payment of their chowkidars. It is satisfactory that the use of police agency in the payment of chowkidars has not been carried to such an excess as in 1886, though it is still abused in some districts, as in Tipperah, where orders were issued that station officers were to carry about the money for distribution to chowkidars. Such a use of the police takes them away from their proper work: it is also very likely to lead to embezzlement, as large sums of money have to be distributed by men on small pay under circumstances in which it is impossible to keep any effective check on them. These disadvantages more than counterbalance any possible gain from the closer association between the rural and regular police brought about by such measures. Again, the desired improvement in the working of the chowkidars, and in their relations with the regular police, is not to be secured by dressing them up in comparatively expensive uniform, as has been done in Pubna, Mymensingh, and other districts. It is reported that in Pubna the regular police have been actually employed to distribute uniform among the chowkidars and to collect the cost, Rs. 3-8, for each suit of uniform, or something over a month's pay, from each chowkidar. The Inspector-General will be requested to convey to the officers concerned an expression of the Lieutenant-Governor's displeasure at these practices. The chowkidars remunerated by the tenure of service lands are very unfavourably reported on, and, according to Mr. Veasey, there is probably not a dacoity in Hooghly or Midnapore (where chowkidars holding such tenures are very numerous) in which one or more chowkidars do not have a hand, while in almost every case they failed to give information of the occurrence to the police. In some districts the number of chowkidars holding service tenures are excessive, and in Burdwan, where there are 11,062 such men, those who were dismissed and who resigned last year were very properly not replaced. In Chota Nagpore a thorough reorganization of the whole system of rural police seems to be required. In Hazaribagh, for example, the chowkidars are said to be practically the zemindars' or ticcadars' menials; while in Singbhoom the men are paid yearly, or even at longer intervals, and one chowkidar has 40 villages to look after.

5. *Miscellaneous*.—In this paragraph some disconnected facts are brought together, which, while deserving of brief mention, do not call for separate notice and may be conveniently brought under one head. In Darjeeling an improved scheme for patrolling the Nepaul frontier has been carried out since the close of the year, and in Singbhoom outposts to be held by ghatwals were in course of construction on the Midnapore-Chyebassa road. Three parties of punitive police still remain quartered in Backergunge villages. The men stationed at Ladua in Tipperah have been withdrawn owing to a new outpost at Matlab having rendered their presence unnecessary. The whole available strength of the Dacca Reserve was moved to Darjeeling in September in order to take the guards and set at liberty a portion of the district force required for special duty by the Deputy Commissioner. They subsequently did good service on the Sikkim frontier in services of a varied nature. The police maintained order at 186 fairs attended by about three-and-a-half million of people. Only 141 cases, none of them of a serious nature, were reported. The reports of the inspecting officers show that the drill of the force has been carefully attended to, and that, if there has been no marked improvement in the district reserves, there has been no appreciable falling off. Mr. Veasey remarks on this head: "The

difficulty which we have had all along to contend with in not being able to keep even a small body of men together for any length of time on account of the extreme weakness of the reserves still exists, and has indeed been aggravated by the constantly increasing demands for escorts for both prisoners and treasure." The Dumka Company were supplied with Sniders, and the Dacca Company has been similarly armed during the current year. The annual musketry returns show marked improvement in many districts, and a slight falling off in very few; they may therefore be considered on the whole satisfactory. The expenditure on account of police buildings came to Rs. 1,26,648-15-11 for 1887-88. The number of casualties decreased slightly to 13·4 per cent. against 14·7 in 1886, but this is a number which fluctuates from year to year, and the variations are not important. Maldah is a conspicuous example of how sick leave is given without any attempt at discrimination in some districts; while the death-rate was only 1·5 per cent.; the percentage of men received in hospital rose to 107·2. There were 181 escapes from police custody against 197 in 1886. Only 63 persons were recaptured. On this subject the Inspector-General remarks that local officers are apt to treat the negligence of police officers, to whom the escapes are due, as of little importance, and to embarrass the Executive by their recommendations not to dismiss the men in fault. The strength of police escorts furnished during the year came to 27,507 against 26,999 in 1886. They escorted treasure to the amount of Rs. 13,37,25,525-15 and 16,020 prisoners. None of the treasure was lost in transit. The number of accidental deaths decreased from 30,782 in 1886 to 28,510 in 1887. The decrease falls mainly under the heads of drowning and snake-bite, deaths falling from 14,303 to 12,890, and from 9,979 to 9,093 respectively. There was a slight increase under the head of other causes.

6. *Special Constables*.—A return relating to special constables shows that in Jessore, Pubna and Mymensingh special constables were appointed in far too large numbers. In Jessore the Deputy Magistrate of Narail appointed 262 special constables. In Mymensingh, out of 349 men 261 were appointed in one sub-division, and 112 of them in one case. In Rajshahye special constables were appointed for a term of two years. Mr. Veasey's opinion is that the guiding idea has been to frighten leading residents in disturbed neighbourhoods into good behaviour, and in fact as an easy and expeditious method of binding them over to keep the peace. This subject is under the consideration of the Lieutenant-Governor, and will be dealt with when the information is complete.

7. *Conduct of the Police*.—A charge of torture preferred at Contai in Midnapore, in which a man charged with theft complained that the head-constable who investigated poured water, in which chillies had been macerated, into his mouth and nose, and then sat on his chest, is reported to have been grossly mismanaged by all concerned. It is said that the Sub-divisional Officer made over the case to a Sub-Deputy, and then threw it out on the complainant putting in a petition to the effect that his witnesses would not give evidence. The superior police officers appear to have been equally apathetic, and it was only after much delay and confusion that the matter ended by the reduction of the head-constable originally accused. The Lieutenant-Governor has sent for the papers of the case, as if the facts were as stated above the officers concerned are deserving of the severest censure for their culpably inadequate treatment of the matter. At Utterpara a prisoner died of a ruptured kidney owing to ill-treatment by a constable and head-constable who were convicted under section 325, Indian Penal Code, and sentenced to long terms of imprisonment. In Bogra a Sub-Inspector was sentenced to one year's rigorous imprisonment for the wrongful confinement and ill-treatment of a man. In Balasore a case against a Sub-Inspector and constable broke down. It seemed probable that the witnesses had been tampered with, and both men were dismissed. In a Purneah case, which ended in failure, a Sub-Inspector was accused of employing torture, but the Inspector-General thinks it may have been employed without his cognizance and in order to get up a case against him. In Bhagulpore a Sub-Inspector, constable and three chowkidars, accused of ill-using some Dasadhs, one of whom died, were acquitted at the Sessions, but were dismissed, though the Sub-Inspector was reinstated in a lower grade on appeal to the

the percentage of convictions in the cases brought to trial, and the percentage of cases prosecuted as false to cases instituted:—

		Percentage of prosecutions to cases declared false.	Percentage of cases prosecuted as being false to cases instituted.	Percentage of convictions to cases brought to trial.
Burdwan	...	13.7	1	12.7
Presidency	...	35.1	1.3	35.1
Rajshahye	...	21.5	1	32.9
Dacca	...	32.6	1.7	12.6
Chittagong	...	10.6	0.9	47.3
Patna	...	16.2	1.2	37.8
Bhagulpore	...	36.6	1.7	29.4
Orissa	...	38.1	1.4	42.2
Chota Nagpore	...	28	1.3	36.9

This table shows that the percentage of prosecutions to the number of cases instituted varied comparatively little in different divisions, while the variations were very great in the percentage of prosecutions to cases declared false. This is another indication of the great differences which exist in procedure regarding the more doubtful cases, which some Magistrates classify as false, others as true. The result of prosecutions appears to be very unsatisfactory in Burdwan and Dacca. The satisfactory results in the Presidency Division were largely due to the result of trials in the 24-Pergunnahs, where 41 prosecutions were instituted and 23 convictions obtained out of 52 cases declared false. In connection with this subject, Mr. Veasey points out that in order that a prosecution may succeed, its progress must be watched and any tendency to delay at once noticed. Care must also be taken that preliminary enquiries in which the complainant is called on to show cause why he should not be prosecuted are not allowed to expand into a trial. Mr. Veasey believes that an opinion obtains very generally that it is enough to declare a charge false, and a work of supererogation to push the matter further; but the Lieutenant-Governor trusts that few officers hold such a mistaken view. Sir Stuart Bayley must again repeat what has already been so often stated in the Annual Resolutions on the Police Report, that while cases should not be instituted, where it is obviously impossible to obtain a conviction, yet in every case where there appears to be a fair chance of success a complainant who has brought a false case should be prosecuted, and if convicted should be severely punished. Such a sentence as a fine of ten rupees, which a Subordinate Magistrate in one district considered a sufficient punishment, is useless as a deterrent.

12. *Refusal of enquiry.*—The remarks in the Resolutions on the Police Reports for 1885 and 1886, which were supplemented towards the close of 1887 by a circular from the Inspector-General of Police, have produced a marked effect. While the percentage of cases not enquired into under section 157, Criminal Procedure Code, was .6 in 1884, .7 in 1885, and .4 in 1886, it rose in 1887 to 2.5. The divisional variations are even greater. Thus, in the Presidency the percentage of refusals has risen from .1 in 1886 to 1.9; in Rajshahye from .5 to 6.5, in Bhagulpore from .4 to 4.2. The increase has been least in Patna, Orissa and Chota Nagpore. The figures for Orissa are .8 in 1886 and 1.1 in 1887, and for Chota Nagpore 1.1 in the former and 1.7 in the latter year. In Patna the percentage of cases not enquired into was only .6. The views of the Lieutenant-Governor on the subject appear not yet to be fully understood in some districts. In Julpigoree, for instance, the Deputy Commissioner withdrew altogether the discretion given by the law, and ordered all cases to be investigated. In passing such an order he exceeded his powers, and Sir Stuart Bayley desires to point out that the discretion is one which must be exercised. It requires to be carefully controlled, as it is liable to serious abuse, but its judicious exercise may relieve the police of much useless work. No general orders should be laid down in any district that particular classes of cases are not to be enquired into. Attempts at burglary, for instance, may sometimes be cases which it is extremely desirable to inquire into, though the majority of such cases may not require to be taken up. The Magistrate of a district is not exempt from responsibility on the plea that the orders on this head have not been properly explained to subordinate officers, as the remedy lies in his hands.

13. *Convictions and arrests.*—Deducting cases not enquired into or declared to be false, the police enquired into 85,196 cases. The percentage

of convictions to true cases enquired into by the police is 39·9 against 38·8 in 1886 and 38·3 in 1885. The total number of persons arrested by the police was 75,118, of whom 51,290 were convicted, or 68·2 per cent., the same proportion as last year. The percentage of convictions to men brought to trial varies from 83·1 in Darjeeling to 41·4 in Khulna. As the Inspector-General points out, a percentage of convictions much under the average means bad work, though the converse is not always true.

14. *Result of Sessions trials.*—The percentage of convictions fell to 56 from 57·8 in 1886 and 56·3 in 1885, which last figure again was lower than any during the five previous years. The remark in last year's Resolution that the figures showed that much depends on the presiding Judge even in jury districts, is again borne out by the figures for 1887. Thus, Howrah and Hooghly jury districts show 58·3 and 54·8 per cent of convictions against 37·8 and 32, respectively, in Midnapore and Beerbhoom.

15. *Property stolen and recovered.*—Property worth Rs. 10,82,748 is said to have been stolen, of which Rs. 2,75,758, or 25·4 per cent., was recovered. The corresponding figures for 1886 are Rs. 11,39,849 stolen and Rs. 3,26,462, or 28·6 recovered. The figures are not very trustworthy, and so far as they go the indications they afford are not satisfactory.

16. *Analysis of crime by classes.*—The annexed table shows the number of true cognizable cases for the last five years :—

	1883.	1884.	1885.	1886.	1887.
Class I.—Offences against the State and public tranquillity.	2,639	2,769	2,502	2,891	2,901
„ II.—Serious offences against the person	4,684	4,618	4,484	4,542	4,546
„ III.—Serious offences against the person and property or against property only.	19,609	24,221	24,103	22,803	22,234
„ IV.—Minor offences against the person	2,813	2,580	2,533	2,682	2,427
„ V.—Minor offences against property ...	37,690	42,637	42,206	40,020	36,131
„ VI.—Other offences not specified above...	29,554	28,477	24,819	27,003	27,753

The decrease in class V and the increase, as compared with 1885, in class VI have been noticed in paragraph 9. The other variations will be more conveniently noticed when dealing with each class separately.

17. *Class I, offences against the State and Public Tranquillity.*—The total number of coining cases rose from 111 to 127, of which the largest numbers are reported from the 24-Pergunnahs, Midnapore, and Howrah. In the 24-Pergunnahs some members of a gang mentioned in last year's resolution were committed to the Sessions and sentenced to various terms of imprisonment.

There was an increase of seven cases under the head of rioting. There was a considerable decrease in the Presidency and Rajshahye Divisions, from 409 and 318 respectively in 1886 to 273 in each division in 1887. In the Dacca Division there was an increase from 391 to 435, and in Patna from 263 to 349. How few of these cases are really important is shown by the fact that out of 10,562 persons brought to trial, only 305 appeared before the Sessions. The Magistrate of Bhagulpore complains that the number of cases is needlessly swelled because the police constantly send up the party attacked without making any allowance for the right of private defence. But the Lieutenant-Governor agrees with Mr. Veasey that the plea of private defence is in most cases one which it should be left to a judicial officer to decide. Mr. Collier's remarks on the subject of the large number of trivial offences entered under the head of riot are to the point:—"I am of opinion that a large number of cases are improperly entered as riots and unlawful assemblies. If two old women have a squabble in front of their houses, a few neighbours join so as to make up the number of five on either side, and a few slaps or kicks are exchanged, the occurrence is solemnly entered under section 147 as a riot. In England a constable would order them all to move on, and there would be an end to the matter." While the returns are swollen by a number of purely technical riots which it is impossible to forestall, there can be no question that in its more serious forms there is no offence more easily kept in check by timely preventive measures. The great majority arise out of disputes of some standing, and of the existence of which the

Commissioner. The case appears to have been true, but to have broken down partly owing to the exaggerations of the friends of the deceased. The principal accused was the nephew of a Sub-Inspector very leniently dealt with the year before by the District Judge in a case in which he was charged with ill-using some bad characters in order to compel them to give information.

There were 15 cases of extortion, but all were petty. The number of judicial punishments fell from 525 in 1886 to 492, while departmental punishments rose from 5,095 to 5,137. The latter number seems high, and the Lieutenant-Governor trusts that the Inspector and Deputy Inspectors-General during their tours look carefully into the question of departmental punishments, and check any tendency to take unnecessary notice of trivial or technical offences. The figures, however, are on the whole not unsatisfactory, and Sir Stuart Bayley is pleased also to see that the number of men wearing good-conduct stripes rose from 11,042 in 1886 to 11,255 in 1887. Money rewards were given to 1,727 officers and men and 83 more were promoted. The corresponding figures for 1886 were 1,440 and 71.

8. *Personnel*.—The appointment of Assistant Inspector-General for the Railway Police has been sanctioned by the Secretary of State. The names of the police officers mentioned by the Inspector-General as having done good service will be noted in the Appointment Department.

CRIME.

9. *Criminal Statistics*.—The proportion of crime to population and police in various parts of India is shown in the following statement:—

PROVINCE.	Police.	Population.	Crime (cognizable) <i>vide</i> columns 4 and 6 of statement A, Part I.	Proportion of police to population.		Proportion of police to crime (cognizable).		Proportion of crime (cognizable) to population.

The incidence of cognizable crime to population varies from 1 case to 556 persons in the Burdwan Division to 1 case to 822 persons in the Chota Nagpore Division. Next but one to Burdwan comes the Presidency Division. These divisions contain a large urban population, and have consequently more than their share of nuisance cases and other petty offences, and they are also well supplied with police. In Dacca, where these conditions are absent, the proportion of cases to population is only 1 to 790; but there is no division where serious offences against the person are more common.

The total reported crime for the province has decreased compared with 1886, as will appear from the following table:—

	1886.	1887.	Decrease.
Cognizable	105,793	101,969	3,824
Non cognizable	112,664	109,254	3,410
Total	218,457	211,223	7,234

The Burdwan, Presidency, Chittagong and Bhagulpore Divisions all show a considerable decrease. Patna is the only division which shows a large increase. The proportion of cognizable crime to non-cognizable changed very little. Chittagong again shows the smallest percentage of cognizable crime, only 27.2, while the largest proportions are as usual to be found in Patna and Chota Nagpore, which show 58.8 and 63.8 per cent., respectively, of cognizable cases. This is no doubt mainly due to the comparative poverty of the people in the latter divisions and their wealth in Chittagong. While in the Dacca Division generally the percentage of cognizable cases is 40.7 and that of non-cognizable

cases 59·3, in Mymensingh the two classes of crime are exactly balanced, an indication of the fact that the police are undermanned and under-officered there. A proposal to increase the police force of that district has been sanctioned by Government.

The decrease of cognizable offences as compared with 1885 and 1886 is almost entirely under the head of cases against property. There were 63,174 such cases in 1887 against 71,746 in 1885 and 67,559 in 1886. There has been an increase from 24,904 in 1885 to 27,839 in 1887 under the head "Other cases." This, however, means nothing more than increased attention to conservancy, while the decrease under the head of offences against property, which are now lower than in any year since 1882, seems to show that bad characters are better known to, and watched by, the police, as there is no reason to suspect a falling off in the manner in which crime is reported.

10. *False cases.*—The percentage of cases declared false increased slightly from 5·5 in 1886 to 5·8. The percentage declared false was 13·4 in 1877, and the decrease continued without a check till 1886. The slight increase is possibly due to the following remarks which were made in paragraph 7 of last year's Resolution:—"But it should be borne in mind by magisterial officers that if they consider a case to be false, they should not hesitate to show it as false, even though there may not be sufficient grounds for the institution of a prosecution under section 211 of the Penal Code; it is obvious that any other procedure would lead to fictitious entries, and give a very false impression as to the real percentage of false cases." The variations noted in the report from 16·6 in Chumparun to 1·9 in Palamow must in great part, at all events, be due to difference in procedure, and in the case of Chumparun and Palamow the results are equally unsatisfactory in opposite directions. Chumparun has now headed the list four years running, and the percentage of cases declared false has risen from an average of 11·4 for the years 1880—84 to 17·2 for the years 1885—87. The District Magistrate considers that a large number of the cases returned as false were really true, and that they were shown as false through the desire of lazy and incompetent police officers to cloak their own failure to investigate the cases successfully. But if this theory is correct, the magisterial officers are open to blame for having accepted the reports submitted by the police without further examination. In Palamow and other districts, with a very small percentage of false cases, there can be little doubt that the Magistrates have far too often accepted reports by the police that cases were true, and it is to be feared that some times they have done this to save themselves the trouble so often entailed by an order to enter a case as false. How largely this, in many cases, operates to induce Magistrates to accept cases as true is shown by the returns in Burdwan, where the percentage of cases reported false has risen from 2·7 to 4·6, owing, it is stated, mainly to the discontinuance of a monthly return from Subordinate Magistrates showing their action in connection with cases declared to be false. In Singbhoon, the percentage of cases declared false has risen from ·5 in 1884 and 1·6 in 1885-86 to 6·7 in 1887. Mr. Veasey attributes it to the improved condition of the people, and the increased facilities for vexatious litigation, but it seems more likely that it is due to the varying procedure which has so much to do with the variations in the district figures. Sir Stuart Bayley appreciates the difficulty of dealing satisfactorily with such cases; but he looks to District Magistrates to use their utmost efforts to prevent the entry of an excessive number of cases as false with a view to cloak bad work by the police, while at the same time Subordinate Magistrates must not be allowed to save themselves trouble by entering cases indiscriminately as true. Care must also be taken that cases are not too readily excluded from the return as false through mistake. In Backergunge and Furreedpore, which head the list, this seems to have been done far too largely.

11. *Prosecution for false charges.*—The percentage of prosecutions in case declared to be false was 22·4 against 23·6 in 1886, while the percentage of convictions in cases prosecuted rose from 29·7 to 30·2. The divisional percentage of convictions varies from 12·6 in Dacca to 47·3 in Chittagong. The following table shows by divisions the percentage of prosecutions to cases declared false

police should be aware. Where the dispute is about land, a summary inquiry regarding possession will often prevent its coming to a head. In other cases the principal parties should be bound down to keep the peace under section 107, Criminal Procedure Code. Such riots are inexcusable, as one which is reported from Hooghly, where the Hindus and Mahomedans fell out about kine-killing, and the police, although they had timely notice of the existence of the dispute, failed to take measures to avert a breach of the peace. It is also necessary, to check the offence of rioting, that punishment should be exemplary where a conviction is secured. Some Magistrates are still far from appreciating this. In Backergungo there were seven cases attended with loss of life, besides five in which persons were more or less hurt, and where the extreme lawlessness prevalent is shown by the fact that 3,511 persons were bound down to keep the peace against 258 in Mymensingh and the same number in Furreredpore; yet the Joint-Magistrate of the district thought it sufficient in an aggravated case of riot attended with loss of life to sentence the leader of one of the parties, who was armed with a gun, to one month's rigorous imprisonment and Rs. 200 fine. Apparently the reason for the leniency shown in this case was that the accused had kept out of the way for a year. In such a case, lapse of time does not diminish the heinousness of a crime, and it is no reason for passing a light sentence that the offender has been able for a long time to evade capture. It is very desirable that in cases of serious rioting every offender should be brought to justice, and the police ought not to be discouraged to hunt up absconders, as they must be if such light sentences as that just noted are inflicted. Another case of apparently inadequate sentence is reported from Tipperah. In this case there was a riot accompanied with loss of life. The principal accused was sentenced to a year's imprisonment, and his accomplices to a month each. In Manbloom in a rioting case, in which a man was killed, a sentence of fine was considered sufficient. As Mr. Veasey gives no details, it is impossible to say whether or not the sentence was inadequate, but the Lieutenant-Governor has called for a further report both in this and in the two preceding cases. In the Patna district three cases of rioting resulted in loss of life, and in all three cases the jury refused to convict. The Magistrate remarks on this head that the more serious the charge, the more disposed is a jury to acquit. The generalization is a sweeping one, but the Lieutenant-Governor fears that the action of juries in many grave cases affords some justification for it.

In Bettiah three Punjabis and a Brahman dressed in uniform attempted to levy contributions from the people, giving out that they were officers appointed by the Lieutenant-Governor of the North-Western Provinces to enquire regarding the routes leading to Nepal, the state of the camping grounds, and the amount of contribution each zemindar was willing to make to Government. They were convicted of the offence of personating a public servant, and sentenced to long terms of imprisonment.

18. *Class II. Serious offences against the person.*—The total is practically the same as in 1886, the figures being 4,545 against 4,542. The percentage of convictions in cases has slightly improved, and is better than in any year since 1882; but the percentage of convictions to persons tried is 44·6—the same as in 1886. It is satisfactory, however, that at the sessions the percentage of convictions to persons tried has risen from 48·5 in 1886 to 53·7 last year.

There were 250 murders, against 278 in 1886 and 288 in 1885. It is, however, noticeable that while this is the smallest number reported since 1880, the number of cases of culpable homicide is larger than in any previous year since 1880; the number last year was 217, whilst it was 215 in 1886, and less than 208 in every year since 1881, in which year there were 296 cases of murder. There appears, therefore, some reason to believe that the apparent decrease in the latter crime may be partly due to a growing desire to class cases in which death has been caused under a less serious head than that of murder. Sir Stenart Bayley approves of Mr. Veasey's suggestion to direct the submission in future of a separate note in every case in which a death has occurred, however it is shown in the returns. There has been a much needed improvement in the result of trials. Convictions were obtained in the case of 23·5 of the persons charged, against 17·1 in 1886. The improvement is still greater in

the percentage of convictions to cases, which was 28 against 21·9 in 1886. There was one case of murder by dacoits, 12 of murder by robbers, and 13 of murders by poison. In the last class only one person was convicted. Out of the 12 cases of murder by robbers, 6 were committed in Patna and 2 in Shahabad.

Mr. Veasey gives a melancholy list of failures in the Burdwan Division. In one remarkable case a man is believed to have murdered his father with the intention of falsely accusing his grandfather's creditor. The accused was acquitted, and the accuser absconded on proceedings being taken against him for bringing a false charge. In 28 true cases under the head of "Other murders," only eight persons were convicted in 7 cases, while 32 persons were discharged or acquitted. In the Dacca Division results were even worse, as only 12 persons were convicted against 65 discharged or acquitted. This is mainly due to the result of trials at Furrcepore, where convictions were only got in 10 per cent. of the cases and 6·2 per cent. of the persons tried. Mr. Veasey remarks that the police are in large measure to blame for the very bad results in such cases, and that they are too much in the habit of sending up persons whom they think guilty of the offence, regardless of the fact that there is not sufficient legal evidence for conviction. In the Presidency Division, in Jessore and Khulna, in 8 true cases only 9 persons were convicted, while 51 were discharged or acquitted. In Khulna, in three out of five cases men were murdered by relations of women whom they had seduced, but not a single conviction was obtained. In Eastern Bengal generally, murders are very frequently due to disputes about women. In Mymensingh, for instance, Mr. Veasey reports that "a girl was throttled by one of three men who had come to the house at night to beat her father Madhu, on account of an intrigue he had with the sister-in-law of one of them, named Sabu. A complication in this case is that Sabu had first revenged his brother's honour by attempting to outrage Madhu's wife, and that Madhu had complained against him to the zemindar in consequence. Thereupon, and as a punishment for instituting proceedings, the attack was arranged." Several murder cases are due to husbands kicking their wives for trifling offences. In one case a man was sentenced to six months' rigorous imprisonment for killing his wife, a girl of 12, because she refused to let him have intercourse a second time. He struck her on the mouth with his clenched fist and kicked her in the stomach, from which she died almost immediately.

Another frequent cause of murders is the belief in witchcraft. In Gya an old woman was ordered to leave her village on the ground that she was a witch. On her returning to the village, she was set on and murdered by the villagers. In another case in the same district, a reputed wizard was charged with poisoning a woman who had called him in to cast out an evil spirit, because her servants had offended him by digging up and removing a doll which he had buried to represent the demon which he had been called in to exorcise. In Monghyr a woman was murdered by her brother-in-law, who believed she had bewitched him. He went to Calcutta to escape her influence. Losing his money there, he became desperate and returned home, convinced there was nothing left for him but to remove her. He attacked and killed her with a knife he had bought and specially consecrated to render her spells powerless. A Kol was murdered by a fellow-tribesman for failing to cure him of a disease. In Pooree a reputed wizard was murdered by his neighbours. In Hazaribagh a reputed witch was severely beaten, and a stick was forced up her person completely penetrating the womb. In Lohardugga a woman, suspected of witchcraft, was murdered in the same way, and she was found with her infant child lying dead by her side.

There is a large increase from 102 to 168, under the head of "Hurt by dangerous weapons," in the Patna Division. The result of trials was very bad—49 convictions to 118 acquittals for the division. The figures for Champaran are 3 convictions to 20 acquittals. Out of 84 cases of exposure of infants in Bengal, 48 were reported from the Patna Division—a decrease of six as compared with 1886—and 28 of these 48 cases occurred in Shahabad and Saran. There were 40 convictions to 5 acquittals. In Bhagulpore in two out of three cases of kidnapping the boys were taken to Assam, and in one case, an inadequate sentence having been passed, a reference was made to the High Court. The Collector of Bhagulpore remarks that this has had a very good effect.

19. *Class III.—Serious offences against the person and property or against property only.*—There were 22,234 cases against 22,803 in 1886. The following table shows the figures for the last two years under the principal heads:—

	1886.	1887.
Dacoity	103	109
Robbery	156	146
Serious mischief and cognate offences	700	750
Mischief by killing any animal	633	625
Lurking house-trespass or house-breaking	20,941	20,366
House-trespass	264	233

Dacoity is most prevalent in the Burdwan, Rajshahye, and Bhagulpore Divisions, which account for 70 out of the provincial total of 109. Bhagulpore heads the list with 24, against 23 each in Burdwan and Rajshahye. The number in 1884 was only eight. Purneah is the worst district with 11 cases, followed by Midnapore with 10 and Dinagopore with 8. The number of dacoities in the Chota Nagpore Division has fallen from 18 in 1886 to 4—a remarkably low number, as the form it took in the division was petty highway robbery; probably it is in part due to the fact that the gang at work in 1886 has been broken up. Out of the 109 dacoities, 63 were professional. That this crime is so well kept down is entirely due to police supervision. Judicial results are extremely bad. The percentage of cases in which convictions were obtained was 20·8, against 30·9 in 1886, while 25·5 of the persons sent up were convicted, against 31·6 in 1886. Mr. Veasey reports that most of the dacoities in the Burdwan Division were committed by up-countrymen and local bad characters, and there can be little doubt that more deterrent sentences would have great effect in checking this form of crime. The maximum punishment is transportation for life or ten years' imprisonment; but according to the Inspector-General the term of imprisonment is rarely more than five or seven years, while to be in possession of the proceeds of a dacoity seems to be regarded as a small matter. In Dinagopore Mr. Knyvett succeeded in unearthing two gangs. In one of the cases committed by one of these gangs, an iron safe, containing cash and valuables to the amount of Rs. 2,000, was taken away, though the gang was so well known that a constable was employed in watching it at the time; his silence was purchased by a bribe of Rs. 24, and it was only a month after that a clue was obtained, when a school pundit who had taken down the names of the men implicated revealed what he knew. This case must have been well known to every one of the villagers, yet none of them thought it necessary to report the facts, and this is a good illustration of the difficulties the police have to deal with owing to the disinclination of the people to bring to justice criminals so long as their own interests are not affected.

The total number of true cases of mischief by fire is 373, one less than in 1886. As many as 121 cases were declared false. The Rajshahye Division is again the worst with 116 true cases, of which 86 were committed in Dinagopore, and were mainly the work of professional incendiaries. This form of terrorism is employed by the professional criminals of that district to overawe villagers and prevent them from reporting crime and giving evidence. The smaller landlords also are believed to make use of it to intimidate their neighbours, while individuals occasionally resort to it to satisfy a personal grudge. Seventeen persons were arrested, but not a single conviction could be obtained. It is certainly—as the Magistrate remarks—a step in the right direction to have ascertained the prevalence of the crime, but this is a very small step towards checking it.

With regard to cases of house-breaking, the only point to be noticed is the very large increase in the number of cases not enquired into, from 106 in 1886 to 1,254 in 1887. A too liberal use of the power to refuse enquiry in such cases must be guarded against.

20. *Class IV.—Minor offences against the person.*—This class of offences calls for no remarks.

21. *Class V.—Minor offences against property.*—The total number of cases fell from 40,020 in 1886 to 36,131 in 1887. Including burglaries, which, for purposes of comparison, may be conveniently grouped with offences of this class, the number of cases fell from 61,225 to 56,730. This last number is still greater by 1,300 than the total for 1883, when offences under these heads

began to increase, but as allowance has to be made for improved reporting, there is reason to think that a decided check has been given to this form of crime.

Rajshahye and Chota Nagpore are the only Divisions from which more cases are returned, and in the former Division the apparent increase is explained by the improvement in reporting in the district of Dinagepore, where there had been formerly much concealment of the crime. The result of this improvement has been an increase of over 50 per cent. in the crime reported, which has risen from 1,543 to 2,320. Nearly half the cases of cattle-theft, 115 out of 253, came from this district, where it would appear that this form of crime is closely connected with that of incendiarism, referred to in paragraph 19. For it is reported that incendiarism is resorted to by cattle thieves to "intimidate and prevent witnesses coming forward, or complaints being made." Connected with cattle-stealing is a system of black-mail, by which the owner is directed to the spot where his cattle has been taken on paying a consideration. The increase in Chota Nagpore is small, from 2,965 to 3,107, and is not accounted for.

In Patna there has been a further decrease from 12,640 to 12,285, a little under the figures for 1883, after which crime began to increase. In Gya the number of burglaries has decreased from 2,632 in 1885 to 1,456. In this district the worst gangs have been broken up, and though it would be Utopian to expect professional burglars to reform, yet on coming out of jail they now have to form new connections, and a more serious obstacle to their operations is that they find they are known and watched. In Sarun, out of 316 burglaries 206 were reported as without theft. In half of these cases fresh enquiries were held, but in 2 cases only was it found that property had been stolen, and in these cases the property taken was of very trifling value. Mr. Pughe, the District Superintendent there, gives good reasons for his belief that a very large proportion of burglaries are and must be unsuccessful. In Monghyr credit for a decrease of cattle-theft by 50 per cent. is given to the chowkidars, who, as has been remarked in a previous paragraph, are fully utilised by Colonel Ramsay, and who have, as Mr. Veasey remarks, far better opportunities for detection than the police.

22. *Other offences not specified above.*—There were 27,753 cases against 27,003 in 1886. The following table shows the figures for the last two years under the principal heads of this class:—

Heads of this class.		1886.	1887.
Vagrancy or bad character	...	1,210	1,570
Offences against Excise Laws	...	2,836	3,184
" Opium Act	...	390	335
" Railway Act	...	350	248
" Salt and Customs Laws	...	359	399
" Arms Act	...	1,061	1,220
Public and local nuisances	...	19,316	19,184
Other special and local nuisances cognizable by police	...	1,338	1,478

It is satisfactory to find that more use has been made of the bad livelihood sections of the Code of Criminal Procedure, but Sir Steuart Bayley would desire to see more uniformity of practice in different districts than is at present the case. Such variations as now exist between adjoining districts, as, for instance, 2 cases in Khoolna against 30 in Jessore, 2 in Julpaiguri against 49 in Rungpore, 19 in Chumparun against 98 in Sarun, 1 in Lohardugga against 32 in Manbhoom, must in many cases lead to bad characters moving from districts where the law is properly utilised to neighbouring districts where they are left to carry on their war against society undisturbed by vexatious police interference. Sir Steuart Bayley has nothing to add to his remarks of last year, in which he pointed out that, while he does not advocate a return to the policy of indiscriminate prosecution in force before 1876, yet he would have Magistrates bear in mind that about fifty times as many persons are proceeded against in England on suspicion under the Vagrancy and Prevention of Crime Acts as are prosecuted under the corresponding sections of the Indian Procedure Code. The Lieutenant-Governor desires again to impress upon Magistrates the importance of disposing of such cases as quickly as possible. In Mymensingh the average

duration of 109 cases was 12·4 days, and in Sarun of 98 cases only 7 days, while in Backergunge the average duration of 187 cases was 59·6 days, owing apparently to too literal an observance of the generally valuable rule that such cases should be tried in the village in which they occur. One case in that district lasted 223 days. Delay only lessens the chances of conviction, while it is unfair to the accused to let them have charges hanging over their heads for months. In Purneah the rule as to local enquiries has been allowed to become almost a dead-letter, as there were only 5 local trials in 90 cases: notwithstanding this the average duration of cases was 30 days. In Dinagepore it is reported that the bad characters have given some trouble by starting a false charge against the police the moment they find a report has been sent in about them. The Lieutenant-Governor agrees in the remark of the Magistrate quoted by Mr. Veasey, that it is useless to bind down a budmash on the security of two other budmashes in sums of Rs 25, and that there should be some condition as to the respectability of the sureties.

The continued decrease in the number of cases under the Opium Act is probably mainly due to the restrictions imposed on the prosecution of opium cultivators who retain small quantities of opium in their possession. The small number of prosecutions in Bhagulpore, Durbhunga and Purneah, all districts bordering on Nepal, show that in those districts, at all events, there must be much undetected opium-smuggling, as it is impossible to believe that the cases detected form at all a fair percentage of those occurring. There has been a slight increase in the number of cases under the Arms Act, but the only serious offences reported are from Dinagepore, where, through the negligence of the Inspector, the vendors of arms and ammunition were able to falsify their accounts for months in order to conceal sales to Nepaulese.

23. *Railway Police.*—The number of cases reported was 2,780, and 2,268 persons were convicted out of 2,707 brought to trial. Some excellent work was done on the East Indian line, especially in detecting and arresting railway pick-pockets; one constable specially told off for this got hold of three old offenders in as many days. In one case, where the trying Magistrate is said to have refused to grant any remand, the accused, who only got three months' imprisonment, was afterwards found to be a well known Calcutta thief with four previous convictions against him, the last of which was for six years' imprisonment inflicted in 1880. Mr. Veasey gives, as an instance of the care with which enquiries are made, if facilities for doing so are given, the case of an old offender caught at Somastipore picking pockets, who was taken over the whole length of the line between Cawnpore and Calcutta and exhibited at every jail of any size before he was identified at Benares.

24. *Non-cognisable crime.*—There is a net decrease of 3,410 cases following an increase of 6,668 in 1886. The details are shown in the following table:—

						Number of cases.	
						1886.	1887.
Class	I	8,063	8,706
"	II	72	38
"	III	1,028	925
"	IV	58,945	57,093
"	V	10,665	9,404
"	VI	10,877	10,487
Special laws	23,014	22,601
Total						112,664	109,254

In class I, offences against public justice increased from 4,713 to 5,390. Cases of petty assaults (class IV) decreased by 1,868, and cases of mischief (class V) by 852, showing that litigation as a luxury was less resorted to, probably mainly owing to the fact that on the whole the crops were not so good in 1887 as in 1886. In the 24-Pergunnahs there has been a decrease of 422 in cases under special laws, and as it is accompanied there by a decrease in cognisable nuisance cases, it is to be feared that it points to a diminution in the interest taken in sanitation. Balasore, Manbhoom, Lohardugga, Gya, Chumparun, Darjeeling, and the Chittagong Hill Tracts show in the returns that every person summoned attended, while in the last four districts the

number who attended was apparently in excess of those summoned. It is not creditable to the officers concerned that they should have sent up figures which are clearly incorrect.

25. *Proceedings under the Criminal Procedure Code.*—The number of cases under Chapter X fell from 597 to 553, while there were 341 cases under Chapter XII (disputes as to immoveable property), against 307 last year. These figures seem to indicate that Magistrates do not make sufficient use of their powers under these Chapters. The Inspector-General is unable to furnish complete figures for 1887 of cases under section 107 owing to the instructions in last year's Resolution not having been complied with by Magistrates. The Lieutenant-Governor desires all District Magistrates to attend to this in furnishing returns for the current year. As was pointed out in last year's Resolution, serious riots may often be prevented under the provisions of the Criminal Procedure Code noted above by the institution of judicious proceedings.

26. *Remands.*—Altogether 35,353 A forms were sent up. They were disposed of as follows:—

						Percentage.
	At first hearing	12,062	34·2
*	Remanded once	7,236	20·5
	Ditto twice	5,353	15·1
	Ditto thrice	3,503	9·9
	Ditto four times	2,315	6·5
	Ditto five „	1,516	4·3
	Ditto six „	929	2·6
	Ditto more than six times	1,640	4·6

There is a slight improvement as compared with 1886 under the heads of remands six times and more than six times, but all the other figures are worse.

27. *Reconvictions.*—1,451 persons were reconvicted, against 1,442 last year; but as there were 1,600 fewer convictions for cognizable offences, the percentage of reconvictions has increased considerably. It is very satisfactory that in 152 cases, as against 108 in 1886, men were proved to have been convicted three times or more. This shows that a partial knowledge only is not accepted, and that the registers are better kept. Monghyr is first with 93 cases, followed by Patna with 84.

28. *Criminal tribes.*—It is proposed to establish settlements similar to those of the Mughya Domes in the case of the Tutea Mussulmans of North Midnapore, a tribe of professional burglars. The Dharees of Monghyr are reported to be hemmed in so closely as to be unable, as formerly, to commit their depredations all over Behar. Only 67 out of 1,010 adult males were unaccounted for on the last day of February. Burwars, though always deported when caught, under the Criminal Tribes Act, continue to arrive in considerable numbers from Gonda. 49 Mughya Domes were arrested and sent up in Sarun, where they are a constant source of trouble. As the local officers submit separate reports on the efforts made to reclaim them, it is unnecessary to deal with the matter here.

ORDER.—Ordered that a copy of the above Resolution be forwarded to the Inspector-General of Police and the Commissioner of Police, Calcutta.

Ordered also that a copy of the Resolution be forwarded to all Commissioners of Divisions for information.

Ordered also that a copy of the Resolution and extract paragraph 51 from the report be forwarded to the Appointment Department of this office for information.

Ordered also that the Resolution be published in the *Calcutta Gazette*.

By order of the Lieutenant-Governor of Bengal,

J. WARE EDGAR,

Chief Secretary to the Government of Bengal.

REPORT ON THE STATE OF THE SALT MARKET FOR THE SECOND QUARTER OF 1888-89.

No. 851B, dated Calcutta, the 10th November 1888.

From—K. G. GUPTA, Esq., Offg. Secy. to the Board of Revenue, L.P.,
To—The Secretary to the Government of Bengal, Financial Department.

I AM directed by the Board of Revenue to submit the following report on
the state of the salt market for the second quarter
of 1888-89, comprising the months of July, August
and September, 1888.

SALT.

MR. REYNOLDS.

2. The quantity of salt of every description cleared during the quarter under report amounted to 25,58,891 maunds 37 seers 10 chittacks, against 27,71,718 maunds 22 seers 4 chittacks in the previous quarter, and 24,04,508 maunds 23 seers 4 chittacks in the corresponding quarter of the previous year; and the net amount of duty levied thereon was Rs. 59,62,538-12, against Rs. 60,81,419-2 in the previous quarter, and Rs. 45,13,822-8 in the corresponding quarter of the previous year.

3. The quantity of excise salt sold in Orissa during the quarter under review and the quantity which remained in store at the close of the quarter are shown in table I:—

TABLE I.

			Cuttack.	Pooree.	Balasore.

Western Districts.			
BURDWAN DIVN.	1 Burdwan Nov. 24, '88	Nil	Weather—seasonable. Harvesting of <i>amun</i> has commenced; outturn expected to be fair. Prospect of <i>rubbi</i> crops good.
	2 Bankoora „ 24, '88	Nil	Weather—seasonable. Prospects of <i>haimanti</i> rice continue the same as before; outturn expected to be 10 annas in the Sudder sub-division and 8 annas in the Bishenpore sub-division. Sowing of <i>rubbi</i> nearly completed. Sugarcane prospering. Prices of rice have slightly risen.
	3 Birbhum „ 24, '88	Nil	Weather—seasonable. Estimate of <i>amun</i> outturn 8 annas. <i>Rubbi</i> prospects fair.
	4 Midnapur „ 24, '88	Nil	Cold weather rapidly setting in; no sign of rain. Prices easier all over the district. Preparation for <i>boro</i> crop progressing.
	5 Hugli „ 24, '88	Nil	Weather—cool and settled. Rice harvest has begun; and although it will be a short one, from 8 to 12 annas, there is no fear of scarcity or distress in this district. <i>Rubbi</i> crops promise well.
	Howrah „ 26, '88	Nil	Weather—seasonable. <i>Amun</i> harvest begun. <i>Boro</i> paddy being sown. Prospects fair.
Central Districts.			
PRESIDENCY DIVN.	6 24-Perghs. Nov. 27, '88	Nil	Weather—cool and cloudy. Prospects of late rice not much better than before; those of other standing crops somewhat improved since the last rain. Harvesting of <i>amun</i> has commenced; average outturn estimated at from 9 to 11 annas.
	7 Nuddea „ 24, '88	Nil	Weather—cool and seasonable. The late rain has improved the prospect of the crops in every part of the district except Kushtea, where very little rain fell. <i>Rubbi</i> is promising well, and <i>amun</i> rice has been improved. The harvest is beginning.
	8 Khoolna „ 24, '88	Nil	Weather—seasonable. <i>Amun</i> rice has commenced to be reaped in places; an average outturn of eight annas is expected.
	9 Jessore „ 24, '88	Nil	Weather—seasonable. <i>Amun</i> is being harvested in some places. Winter crops doing well. Prices stationary.
	10 Moorshedabad „ 24, '88	Nil	Weather—seasonable. Prospect of <i>haimanti</i> rice in the Jangipore sub-division reported to be unfavourable; elsewhere it is good. The crop is being harvested in some places. <i>Kalai</i> doing well, and prospects of <i>rubbi</i> crops good.
RAJSHAHY DIVN.	11 Dinagepur „ 24, '88	Nil	Weather—clear and becoming colder. Average outturn of winter rice for the whole district now estimated at 7 annas. Sugarcane promises well. Prospects of <i>rubbi</i> as yet uncertain.
	12 Rajshahye „ 24, '88	Nil	Weather—warmer. Crops have suffered much from drought. Recent rain has done some benefit to them. Prices of rice stationary.
	13 Rungpur „ 24, '88	Nil	<i>Amun</i> is being reaped. Mustard in flower. Tobacco is being transplanted. Cold-weather crops promising. Prices of rice rising at Sudder.
	14 Bogra „ 24, '88	Nil	Weather—seasonable; pleasant in the morning. Harvesting of <i>amun</i> going on. Prospects of <i>rubbi</i> crops good.
	15 Pubna „ 24, '88	Nil	Weather—seasonable. Rain is urgently needed. <i>Amun</i> and sugarcane seem fair. <i>Amun</i> being reaped in some places.
	16 Darjeeling „ 24, '88	Nil	Weather—clear and cold. Hill crops doing well; winter rice in plains not promising.
	17 Julpigoree „ 24, '88	Nil	Weather—seasonable. Sowing of mustard and transplanting of tobacco going on. Reaping of early <i>amun</i> has commenced in places. <i>Rubbi</i> crops doing well. No change in prices.
Eastern Districts.			
DACCA DIVN.	18 Dacca Nov. 21, '88	Nil	Weather—fine and seasonable. <i>Amun</i> paddy is being harvested. Winter crops are being sown. Mustard and pulses are thriving. Prospects good.
	19 Furreedpur „ 24, '88	Nil	Weather—seasonable. State of the crops fair. Rice harvest being got in, and winter crops being sown, or else progressing nicely. Rice selling at 13 to 15 seers per rupee.
	20 Backergunge „ 24, '88	Nil	Weather—cool and fair. Prospects fair generally, but in the Bhola sub-division and other places the paddy has suffered from untimely cessation of rain and attacks of insects.
	21 Mymensingh „ 23, '88	Nil	Weather—cool and seasonable. Prospects of crops good. Ordinary old rice sells at 16 seers a rupee at Nasirabad.
	Jamulpur ...	1.42	
	Kishoregunge ...	0.45

BENGAL—concluded.			
<i>Eastern Districts—concluded.</i>			
CHITTAGONG DIVN.	22 Chittagong Nov. 27, '88	Nil	Weather—somewhat hot. Reaping of rice crops begun; produce is below average. Land is being prepared for <i>rubbi</i> . Prices high.
	23 Noakholly „ 23, '88	Nil	Weather—seasonable. Reaping of <i>rajasail</i> paddy continues. A shower of rain would do good to both paddy and <i>rubbi</i> crops.
	24 Tipperah „ 22, '88	Nil	Weather—seasonable. <i>Amun</i> is being reaped in places; prospects good everywhere except in high lands. Mustard and other winter crops are being sown.
	25 Chittagong Hill Tracts. „ 20, '88	Nil	Weather—foggy and cold. Gathering of cotton still continues. Late plough-paddy forming seeds. Prospects not good.
	Hill Tipperah „ 21, '88	0.45	Weather—unsettled; cloudy. Transplantation of tobacco and chillies continues. Gathering of cotton and <i>amun</i> paddy commenced.
BEHAR.			
PATNA DIVN.	26 Patna „ 24, '88	Nil	Weather—cool and bright. The cutting of the rice crop has begun, and the outturn is better in the Sudder and Dinapore sub-divisions than was expected. <i>Rubbi</i> already sown has germinated and generally promises well, but destruction of 15,000 highals by caterpillars reported from Barh. Sowing of <i>rubbi</i> still in progress. Rain urgently needed. Prices stationary. Prospects of poppy favourable.
	27 Gya „ 24, '88	Nil	Weather—cool. <i>Kartika</i> rice is being harvested. Sowing of <i>rubbi</i> and poppy going on. <i>Rubbi</i> crops that have germinated are doing well.
	28 Shahabad „ 24, '88	Nil	Weather—fine and getting cool. Paddy is being harvested. <i>Rubbi</i> sowing in progress, but retarded for absence of rain, which is badly wanted in almost all parts of the district. Prospects have somewhat improved in the Sassemram sub-division on account of the rainfall of 12th and 13th instant. Poppy cultivation progressing favourably. A few young plants suffered from high temperature. Prices continue high except in the Buxar sub-division, where they have slightly fallen.
	29 Durbhanga „ 24, '88	Nil	Weather—cool and bright. Harvesting of <i>aghani</i> rice has commenced in several places. <i>Rubbi</i> sowings stopped. Those sown early are germinating slowly for want of moisture. Rain is wanted for <i>rubbi</i> . The estimated yield of the <i>aghani</i> and <i>rubbi</i> crops is 7 annas. Labouring classes are at present finding labour in harvesting rice. Prices almost stationary.
	30 Mozufferpur „ 24, '88	Nil	Weather—cool and bright. Harvesting of paddy has commenced. <i>Rubbi</i> sowings going on, but considerably retarded, especially in Sitamarhi, for want of sufficient moisture. Poppy sowings progressing favourably. In north of Sitamarhi high land paddy lost. In the low land in the north of that sub-division the yield will be fairly good. Prices of common rice falling slightly.
BHAGTPORE DIVN.	31 Sarun „ 24, '88	Nil	Weather—fair; getting cool, but still warm for the time of year; occasional clouds. Sowing of <i>rubbi</i> almost completed. Poppy sowing in full progress. Rain urgently wanted. Harvesting of paddy will shortly commence. Paddy being cut for fodder in some places. Common rice and wheat falling a little in price, Indian-corn rising.
	32 Champaran „ 24, '88	Nil	Weather—cold and foggy. Harvesting of paddy commenced. The crop will yield an outturn of 8 to 9 annas in the Bettiah sub-division. <i>Rubbi</i> and poppy germinating freely in that sub-division. Prospects remain unchanged in the Sudder sub-division. Prices stationary.
	33 Monghyr „ 24, '88	Nil	Weather—seasonable. Prospects of winter rice on low lands continue fair. <i>Rubbi</i> sowings are coming up fairly well. Prices of food-grains have a downward tendency.
	34 Bhagulpur „ 24, '88	Nil	Weather—too hot for the season. Harvesting of late rice commenced. <i>Rubbi</i> sowings not yet complete, but there is yet time for wheat and barley. What has been sown is not doing well on high lands, except where irrigated.
	35 Purneah „ 24, '88	Nil	Weather—bright and cool. No rain. <i>Aghani</i> crop half of average yearly outturn. Prospects of <i>rubbi</i> good.
ORISSA.	36 Maldah Chanchal „ 24, '88	1.02	Weather—fine, cool and dry. Some of the winter rice is ripe, and the harvest has begun. The yield is expected to be between 8 and 10 annas. <i>Kalai</i> is thriving very well; the prospects of mustard vary in different places from 8 to 14 annas, and the other <i>rubbi</i> crops (wheat, barley, &c.) have been improved by the late rain, and mostly promise very well, but hail has done some harm in the north. Common rice selling at an average of 17½ seers a rupee.
	37 Sonthal Pergahs. „ 24, '88	Nil	Weather—bright and cool. Harvesting of winter rice has commenced. An outturn of from 10 to 12 annas anticipated except at Rajmehal, where it is only 8 annas. <i>Rubbi</i> prospects on the whole fair.
	38 Cuttack „ 23, '88	Nil	Weather—cold and fair. <i>Laghu sarad</i> is ripening and is being cut. <i>Guru sarad</i> in ear. Prospect of the crop is improved. Common rice sells at 18 seers 6 chittacks per rupee in town.
ORISSA DIVN.	39 Pooree „ 22, '88	Nil	Weather—seasonable. Late <i>sarad</i> is in ear. Early <i>sarad</i> is being harvested. Miscellaneous crops doing well. Common rice 17 seers 7 chittacks per rupee in the Sudder sub-division and 15 seers 9 chittacks in the Khoorda sub-division.
	40 Balasore „ 23, '88	Nil	Cold weather seems to have fairly set in. Recent rain came too late for the rice on the highest lands, which had already withered, but where it extended (chiefly in south and centre of district) it materially benefited the plants in lower lands, and has enabled the ryots to sow their small patches of <i>rubbi</i> . Prices show a tendency to fall.

No.	District and date of return.	Rainfall at Sudder Station in inches.	Character of the weather and state and prospects of the crops.
CHOTA NAAGPORE.			
<i>South-West Frontier Agency.</i>			
CHOTA NAAGPORE DIVN.	41 Hazaribagh Nov. 23, '88	Nil	Weather—seasonable. Prospect of <i>rubbi</i> crops hopeful, but rain is needed in some parts of the district. Rice is being harvested; 12 annas outturn expected. Poppy cultivation doing well.
	42 Lohardugga „ 24, '88	Nil	Weather—clear and cold. Cold weather appears to have set in. Prospect of <i>rubbi</i> bad. Paddy being reaped. Prices of rice falling at head-quarters.
	43 Singbhoom „ 23, '88	Nil	Weather—seasonable. The yield of the rice crop is not less than 12 annas, and in some places 14 annas. <i>Rubbi</i> prospects not very good, and worse in Dhalbhum than elsewhere. There has been a slight rise in prices during the week.
	44 Manbhoom „ 24, '88	Nil	Sky clear; weather cool. Winter rice being reaped; outturn expected to be 10 annas all round. Prospect of <i>rubbi</i> not good; the rain of last week did not fall in all parts of the district. Coarse rice selling at Purulia at 20 annas per rupee.

CALCUTTA, the 27th November 1888.

SUMMARY OF THE RAINFALL AND METEOROLOGICAL OBSERVATIONS
TAKEN IN BENGAL FOR THE WEEK ENDING FRIDAY, THE
23RD OF NOVEMBER 1888.

THE conditions which prevailed in Bengal at the close of the previous week were those of ordinary north-east monsoon or cold weather character. These conditions have continued almost unaltered in Bengal throughout the week, and beyond the usual slight variations and oscillations of pressure, temperature and humidity, there have been no changes to comment upon. Almost cloudless skies have prevailed nearly throughout the week, and the whole province has been absolutely rainless for the period. In the Bay conditions became slightly disturbed from the 17th in the Andaman Sea, and the disturbance appeared likely at one time to give rise to an influential storm. So far as the land observations show, the squally, or more probably stormy, weather which set in near the Andaman Islands on this date did not concentrate to a definite cyclonic storm as is usually the case, but the weather, after remaining in a very disturbed state for several days, gradually improved; the slight barometric depression which had at first formed also steadily filled up, and the cyclonic circulation of winds which had commenced at the coast stations disappeared; while wind velocities, which on the 17th and 18th were very high on the Pegu coast, became normal, and on the 22nd weather again was of ordinary character in the Bay.

Pressure.—The variations of pressure during the week have been of the ordinary oscillatory character noticeable during fine settled weather. On the 17th there was a slight general rise, usually not exceeding one or two hundredths of an inch. For the following three days pressure fell steadily, the fall equalling in this period about a tenth of an inch. A more rapid rise then set in for the last three days of the week, which equalled nearly a sixth of an inch, and thus neutralized the previous fall. For the whole week the pressure of the entire province has been below the normal, the defect usually equalling about 0·03 inch or 0·04 inch.

Temperature.—The variations of temperature during the week have not been large, and the general mean temperature has been distinctly below the normal. The defect in the mean temperature in East Bengal has equalled no less than 2·3°, while in South-West Bengal and North Behar it has been nearly two degrees. In Orissa and in North Bengal the defect has been about one degree. In South Behar and Chutia Nagpur, on the other hand temperature has been slightly in excess of the normal. Some fairly low minimum or night temperatures have been registered during the week, the lowest recorded being 49·8° at Purneah and 50·2° at Motihari; the lowest registered at Calcutta was 59·3°.

The variations of the average temperature of the week from the normal can be seen from the following table, where the average maximum, minimum and mean temperatures at nine typical stations in different districts of the province are given, compared with the normal means for the same period. Temperature has been below the normal both during the day and during the night in almost all cases except Darjeeling:—

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

MEMORANDUM.

THE returns of the principal municipalities in Bengal for the week ending 10th November 1888 yielded the birth and death rates of 26·9 and 34 per 1,000 of population, respectively, against 22·7 and 31·6 per 1,000, respectively, during the preceding week ending 3rd November, showing an advance in the registration of both events.

2. The municipalities which returned the highest proportions of births and deaths are—

Births.				Deaths.			
			Ratio per mille.				Ratio per mille.
Narainganj	66·2	Gya	56·7
Beaulcah	57·8	Suburbs of Calcutta	53·4

Arrah	29·9	Bali	31·6
Howrah	29·2	Comillah	30·8

3. In comparison with the results of the preceding week, fever alone exhibited a noticeable increase of mortality: the fatal results from the other diseases show only fractional differences, *vide* figures given below—

				Ratio per mille during the weeks ending—	
				10th Nov. 1888.	3rd Nov. 1888.

4. Of the diseases mentioned above, small-pox proved notably fatal only in the town of Serampore, where the rate was 5·9 per 1,000 of population. Bowel-complaints proved notably fatal in the Comillah Municipality, where the rate of death was 15·4 per 1,000. Injury did not exhibit any local severity. Cholera, fever, and the maladies returned under the head of "Other causes" show exceptional mortality in the following municipalities:—

Cholera.			Fever.			Other causes.
